Laporan Dewan Komisaris

Board of Commissioners Report

Aviliani

Komisaris Utama Independen

Independent President Commissioner

Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat,

Puji syukur kami panjatkan ke hadirat Tuhan Yang Maha Esa, sehingga PT Allo Bank Indonesia Tbk bisa melewati tahun 2024 yang penuh tantangan dengan hasil yang baik. Dalam menjalankan fungsi strategisnya, Dewan Komisaris telah melakukan tugas pengawasan dan pemberian nasihat kepada Direksi, bertanggung jawab dan penuh kehati-hatian demi kelangsungan usaha Bank. Fokus pengawasan dan pemberian nasihat oleh Dewan Komisaris dalam tahun 2024 meliputi perencanaan dan pelaksanaan Rencana Bisnis Bank (RBB), tindak lanjut dan rekomendasi atas keputusan Rapat Umum Pemegang Saham (RUPS), penerapan Tata Kelola Perusahaan yang Baik, efektivitas sistem pengendalian

Dear Esteemed Shareholders and Stakeholders,

We express our gratitude to God Almighty for enabling PT Allo Bank Indonesia Tbk to navigate the challenges of 2024 and achieve positive results. In fulfilling its strategic function, the Board of Commissioners has carried out its duty of overseeing and advising the Board of Directors with responsibility and due diligence to ensure the Bank's business continuity. The Board of Commissioners' focus in 2024 included overseeing the planning and implementation of the Bank's Business Plan (RBB), following up on and providing recommendations regarding decisions made at the General Meeting of Shareholders (GMS), ensuring the implementation of Good Corporate Governance, assessing the effectiveness

internal dan penerapan budaya Perseroan serta pelaksanaan ketentuan perundang-undangan yang berlaku.

Pengawasan Terhadap Kebijakan Strategis Direksi

Dewan Komisaris secara proaktif meninjau dan memonitor implementasi kebijakan dan strategi yang ditetapkan pada awal tahun bersama Direksi, pada pengelolaan Bank. Dewan Komisaris juga secara terus menerus melakukan review atas inisiatif strategis sesuai dengan Rencana Bisnis Bank yang dijalankan Direksi dan kinerja yang dihasilkan Bank. Terkait hal ini, Dewan Komisaris memberikan rekomendasi atas kendala-kendala yang dihadapi untuk merealisasikan target tersebut.

Berdasarkan pengawasan yang telah dilakukan Dewan Komisaris baik melalui pembahasan dengan Direksi terkait kinerja Bank, maupun dengan turun langsung ke lapangan, Dewan Komisaris menilai bahwa Direksi telah menjalankan perannya sesuai dengan rencana kerja tahunan, visi dan misi serta arahan strategis dari Pemegang Saham. Secara umum, kami mengingatkan

of the internal control system, fostering the Company's culture, and ensuring compliance with applicable laws and regulations.

Supervision of the Board of Directors' Strategic Policies

The Board of Commissioners proactively reviews and monitors the implementation of policies and strategies established at the beginning of the year, working closely with the Board of Directors in managing the Bank. Additionally, the Board continuously evaluates strategic initiatives aligned with the Bank's Business Plan, as executed by the Board of Directors, and assesses the Bank's performance. In this regard, the Board of Commissioners provides recommendations to address any obstacles encountered in achieving the set targets.

Based on the oversight conducted—both through discussions with the Board of Directors regarding the Bank's performance and direct field observations—the Board of Commissioners assesses that the Board of Directors has fulfilled its role in accordance with the annual work plan, the Bank's vision and mission, and the strategic direction set by the Shareholders. In general, we

Direksi untuk terus melakukan berbagai inisiatif untuk meningkatkan pendapatan, memperbaiki kinerja keuangan dan rentabilitas Bank secara berkesinambungan, melakukan perencanaan bisnis Bank secara tepat dan akurat dengan memperhatikan sumber daya yang ada, mematuhi ketentuan internal dan eksternal serta terus memperhatikan manajemen risiko secara *prudent* dan ketaatan pada ketentuan/peraturan yang berlaku.

Namun demikian, kami juga memahami bahwa Bank masih berada dalam masa transisi model bisnis dari kredit *wholesale* sampai kredit segmen digital dapat mencapai tingkat yang optimal. Kami juga mengapresiasi kinerja Manajemen yang telah mencapai banyak kemajuan mengingat usia Bank yang relatif baru dalam menghadapi kondisi perekonomian yang penuh tantangan dan kebutuhan/ekspektasi nasabah yang semakin dinamis atas produk dan jasa yang ditawarkan industri perbankan.

remind the Board of Directors to continue undertaking various initiatives to increase revenue, enhance financial performance and profitability, and execute business planning accurately and effectively while considering available resources. Furthermore, we emphasize the importance of adhering to internal and external regulations while maintaining prudent risk management and compliance with applicable provisions.

However, we acknowledge that the Bank is still in the transition phase of its business model, shifting from wholesale credit to digital segment credit to achieve optimal performance. We also commend Management for its significant progress, especially given the Bank's relatively young age and the challenging economic conditions. Moreover, we recognize Management's efforts in responding to increasingly dynamic customer needs and expectations for banking products and services.

Pandangan Dewan Komisaris atas Kinerja Direksi

Tahun 2024 merupakan tahun yang sangat menantang bagi Allo Bank, namun Perseroan tetap melakukan upaya-upaya dalam rangka mencapai target yang telah ditetapkan. Dalam rangka menjalankan operasional Bank selama tahun 2024, Dewan Komisaris selalu memberikan arahan kepada Direksi agar senantiasa fokus dalam melakukan pengelolaan bisnis secara *prudent*. Adapun terkait inisiatif strategis yang dijalankan Direksi di tahun 2024, Dewan Komisaris menilai telah sejalan dengan rencana yang ditetapkan dalam Rencana Bisnis Bank.

Dewan Komisaris senantiasa mendukung strategi Bank untuk mengembangkan produk dan layanan perbankan digital. Layanan tersebut dilakukan melalui kolaborasi dengan ekosistem baik di dalam maupun diluar Group CT Corpora, dengan cara memperkuat cakupan *infrastruktur physical & digital (phygital)* dan mengembangkan kapabilitas teknologi dan data terbaik agar Bank dapat terus meningkatkan akuisisi dan *engagement* serta kualitas layanan nasabah.

Dengan mempertimbangkan positioning Bank sebagai bank umum berbasis digital, Dewan Komisaris terus mengingatkan Direksi untuk terus *vigilant* dan meningkatkan kapabilitas manajemen risiko khususnya terkait risiko kredit, risiko operasional yang disebabkan kegagalan atau *error* pada sistem TI, risiko siber (*cyber security*), risiko kepatuhan dan risiko reputasi. Di samping itu, kami juga mengingatkan Direksi agar terus bersikap proaktif terkait dengan penanganan *inquiries* dan komplain yang diterima, mengidentifikasi *root cause* permasalahan dan merumuskan solusi yang tepat dalam menindaklanjuti keluhan guna terus meningkatkan kepuasan nasabah.

Mengingat Allo Bank merupakan bank umum berbasis digital, Dewan Komisaris menyarankan Direksi untuk terus meningkatkan kapasitas dan kapabilitas infrastruktur teknologi informasi serta perbaikan mekanisme proses bisnis digital yang terus dikembangkan sesuai tuntutan, *behaviour* dan ekspektasi masyarakat yang dinamis didukung dengan infrastruktur *back-up* yang mumpuni sehingga meningkatkan *sustainability* dan *reliability* layanan Bank kepada nasabah. Terkait hal ini, Dewan Komisaris menyampaikan apresiasi kepada Direksi atas selesainya proses pembangunan *Data Center* yang baru di tahun 2024. Fasilitas ini akan berfungsi sebagai tulang punggung infrastruktur TI, dalam rangka meningkatkan bisnis sesuai dengan harapan para *stakeholders* agar bisnis Bank dapat terus berkembang di masa depan.

Views of the Board of Commissioners on the Performance of the Board of Directors

The year 2024 has been highly challenging for Allo Bank. However, the Company has consistently strived to achieve its set targets. Throughout 2024, the Board of Commissioners has continuously provided guidance to the Board of Directors, emphasizing the importance of prudent business management. Regarding the strategic initiatives undertaken by the Board of Directors in 2024, the Board of Commissioners considers them to be aligned with the plans outlined in the Bank's Business Plan.

The Board of Commissioners remains supportive of the Bank's strategy to develop digital banking products and services. These efforts have been carried out through collaborations within and beyond the CT Corpora Group ecosystem by strengthening the integration of physical and digital ("phygital") infrastructure and enhancing technological and data capabilities. These initiatives aim to improve customer acquisition and engagement while ensuring high-quality service delivery.

Given the Bank's position as a digital-based conventional bank, the Board of Commissioners consistently reminds the Board of Directors to remain vigilant and strengthen risk management practices. This includes addressing credit risk, operational risk related to IT system failures or errors, cybersecurity threats, compliance risks, and reputational risks. Additionally, we urge the Board of Directors to take a proactive approach in handling inquiries and complaints, identifying root causes, and formulating effective solutions to enhance customer satisfaction.

As a digital-based conventional bank, Allo Bank must continuously enhance its information technology infrastructure and refine digital business processes to keep pace with evolving customer behavior, expectations, and industry demands. To support this, the Board of Commissioners advises the Board of Directors to ensure the development of robust backup infrastructure, thereby enhancing the sustainability and reliability of the Bank's services. In this regard, the Board of Commissioners extends its appreciation to the Board of Directors for successfully completing the construction of the new Data Center in 2024. This facility will serve as the backbone of the Bank's IT infrastructure, strengthening its business operations and aligning with stakeholder expectations to support future growth.

Dewan Komisaris juga senantiasa mendukung upaya Bank untuk terus mengembangkan berbagai produk dan layanan yang inovatif dan memenuhi kebutuhan nasabah secara kontekstual. Sesuai dengan perannya, Dewan Komisaris akan terus memberikan motivasi, arahan dan masukan sebagai bagian dari upaya untuk mendorong pertumbuhan yang berkesinambungan di masa depan. Penilaian atas kinerja Direksi yang dilakukan Dewan Komisaris juga didasarkan pada arahan pemegang saham. Secara umum, Dewan Komisaris berpendapat pada tahun 2024 Direksi telah melaksanakan tugas kepengurusan Perusahaan dengan sangat baik.

Mekanisme dan Frekuensi Pemberian Nasihat kepada Direksi

Sesuai dengan peraturan dan perundang-undangan yang berlaku, keberadaan Dewan Komisaris memperkuat fungsi pengawasan bagi pengelolaan Bank yang dilakukan oleh Direksi. Untuk itu, hubungan kerja antara Dewan Komisaris dan Direksi dibangun melalui kesamaan pandangan untuk mencapai visi Bank.

Dewan Komisaris secara rutin mengadakan pertemuan dengan Direksi untuk membahas berbagai hal terkait pengelolaan Bank yang dijalankan oleh Direksi dalam rapat gabungan Dewan Komisaris dan Direksi. Dalam forum tersebut, Dewan Komisaris meminta penjelasan dari Direksi mengenai pencapaian kinerja Bank dan berbagai kendala yang dihadapi. Dewan Komisaris juga senantiasa menyampaikan pandangan dan memberikan nasihat kepada Direksi terhadap implementasi strategi yang dijalankan dengan senantiasa menempatkan pengawasan atas implementasi strategi Bank sebagai salah satu prioritas.

Sepanjang tahun 2024, Dewan Komisaris telah melaksanakan rapat gabungan dengan mengundang Direksi sebanyak 12 (dua belas) kali, dengan tingkat kehadiran Dewan Komisaris dalam rapat secara keseluruhan adalah 100 persen. Selain forum rapat gabungan, organ Dewan Komisaris, yaitu Komite Audit, dan Komite Pemantau Risiko serta Komite Remunerasi dan Nominasi juga melakukan rapat dengan mengundang Direktorat dan Divisi terkait untuk membahas bidang-bidang yang menjadi tanggung jawab masing-masing Komite.

The Board of Commissioners also remains committed to supporting the Bank's continuous development of innovative products and services that cater to evolving customer needs. In line with its role, the Board of Commissioners will continue to provide motivation, guidance, and insights to drive the Bank's sustainable growth. The Board of Directors' performance assessment, conducted by the Board of Commissioners, also takes into account shareholder directives. Overall, the Board of Commissioners is of the opinion that in 2024, the Board of Directors has managed the Company's operations effectively and successfully.

Mechanism and Frequency of Providing Advice to Board of Directors

In accordance with applicable laws and regulations, the role of the Board of Commissioners strengthens the supervisory function over the Bank's management, which is carried out by the Board of Directors. To this end, the working relationship between the Board of Commissioners and the Board of Directors is built upon a shared vision to achieve the Bank's objectives.

The Board of Commissioners regularly holds meetings with the Board of Directors to discuss various matters related to the Bank's management. These discussions take place during joint meetings between the Board of Commissioners and the Board of Directors. In these forums, the Board of Commissioners requests explanations from the Board of Directors regarding the Bank's performance achievements and the challenges encountered. The Board of Commissioners also consistently shares its perspectives and provides guidance to the Board of Directors on strategy implementation, always prioritizing the oversight of the Bank's strategic execution.

Throughout 2024, the Board of Commissioners held 12 (twelve) joint meetings with the Board of Directors, achieving a 100 percent attendance rate. In addition to these joint meetings, the Board of Commissioners' committees—namely the Audit Committee, the Risk Oversight Committee, and the Remuneration and Nomination Committee—also conducted meetings with the relevant Directorates and Divisions to discuss matters within their respective areas of responsibility.

Pandangan atas Prospek Usaha yang Disusun oleh Direksi

Sebagaimana dikutip dari Buku Pertemuan tahunan Bank Indonesia 2024 yang dirilis pada 29 November 2024, menjelaskan bahwa perubahan lanskap geopolitik dunia berdampak pada semakin tingginya ketidakpastian global, keluarnya aliran portofolio asing dari pasar negara berkembang (*Emerging Market/EMEs*) ke Amerika Serikat, dan meningkatnya tekanan pelemahan nilai tukar berbagai mata uang dunia, termasuk Rupiah. Karena itu, kebijakan moneter Bank Indonesia masih difokuskan pada stabilisasi nilai tukar Rupiah untuk memitigasi dampak global terhadap kenaikan inflasi, stabilitas makroekonomi dan sistem keuangan, serta proses pemulihan ekonomi nasional.

Kebijakan moneter dimaksud akan dilakukan secara konsisten dan terukur dengan tetap mempertimbangkan tercapainya sasaran inflasi dan perlunya mendukung pertumbuhan ekonomi dalam tahun 2025 dan 2026 mendatang. Keseimbangan antara stabilitas dan pertumbuhan (*“pro-stability and growth”*) ini yang menjadi arah kebijakan moneter tahun 2025 mendatang. Bank Indonesia memperkirakan kredit perbankan tumbuh dalam rentang 11–13 persen pada 2025 dengan didukung oleh pertumbuhan kredit investasi, kredit modal kerja, dan kredit konsumsi. Bank Indonesia melihat bahwa prospek perekonomian Indonesia pada 2025 akan makin baik dengan pertumbuhan yang lebih tinggi, inflasi yang rendah dan nilai tukar yang menguat.

Dalam rangka menjawab tantangan usaha ke depan, Dewan Komisaris meyakini bahwa kerangka kerja strategi tiga pilar yang diformulasikan Direksi terkait pengembangan produk dan aktivitas baru sudah tepat: *Acquisition* sebagai upaya Bank untuk mendapatkan nasabah baru yang berkualitas melalui kolaborasi strategis; *Engagement* sebagai upaya untuk menjaga nasabah yang sudah ada agar semakin aktif menggunakan produk dan layanan Bank; dan *Monetization* sebagai upaya untuk menghasilkan pendapatan dari pengguna produk dan layanan Bank.

Dewan Komisaris juga menilai bahwa Integrasi layanan finansial dengan ekosistem mitra baik di lingkup CT Corpora maupun mitra strategis lainnya untuk meraih potensi pasar yang luas secara *online* maupun *offline* (*ecosystem first*) merupakan langkah strategis yang baik dalam rangka memperluas peluang usaha di masa depan.

Dewan Komisaris berpendapat bahwa target-target dan langkah strategis yang ditetapkan Direksi pada Rencana Bisnis Bank merupakan target yang realistis dan sangat mungkin untuk direalisasikan. Demikian juga dengan strategi yang akan dijalankan, telah sejalan dengan rencana jangka menengah dan panjang Bank. Untuk itu, Dewan Komisaris sepenuhnya mendukung dan senantiasa akan memberikan dukungan agar target-target tersebut dapat tercapai dengan baik.

Views on Business Prospects Prepared by Board of Directors

As stated in the Bank Indonesia Annual Meeting Book 2024, released on November 29, 2024, changes in the global geopolitical landscape have heightened uncertainty, leading to capital outflows from emerging markets (EMEs) to the United States and increased pressure on the exchange rates of various world currencies, including the Rupiah. As a result, Bank Indonesia's monetary policy remains focused on stabilizing the Rupiah exchange rate to mitigate the global impact of rising inflation while maintaining macroeconomic and financial system stability and supporting the national economic recovery process.

The planned monetary policy will be implemented consistently and prudently, taking into account the achievement of inflation targets and the need to sustain economic growth in 2025 and 2026. This balanced approach—combining stability and growth (*“pro-stability and growth”*)—will guide monetary policy in 2025. Bank Indonesia projects that bank credit will grow between 11–13 percent in 2025, driven by growth in investment loan, working capital loan, and consumer loan. Additionally, Bank Indonesia foresees an improving economic outlook for Indonesia in 2025, with higher growth, low inflation, and a stronger exchange rate.

In order to address future business challenges, the Board of Commissioners believes that the three-pillar strategic framework formulated by the Board of Directors for the development of new products and activities is the right approach. These three pillars are: *Acquisition*, as the Bank's effort to attract new high-quality customers through strategic collaboration; *Engagement*, as an initiative to retain existing customers by encouraging more active use of the Bank's products and services; and *Monetization*, as a strategy to generate revenue from users of the Bank's products and services.

The Board of Commissioners also supports the integration of financial services with partner ecosystems, both within CT Corpora and with other strategic partners. This “ecosystem-first” approach, which combines online and offline market potential, is considered a strong strategic step for expanding future business opportunities.

The Board of Commissioners believes that the targets and strategic steps set by the Board of Directors in the Bank's Business Plan are realistic and achievable. Furthermore, the strategies being implemented align with the Bank's medium- and long-term plans. For this reason, the Board of Commissioners fully supports these initiatives and will continue to provide guidance to ensure their successful realization.

Pandangan Dewan Komisaris Terhadap Tata Kelola Perusahaan

Dewan Komisaris berkomitmen untuk mendukung keberlanjutan bisnis Bank dengan mengawasi kinerja Direksi dalam mengelola Bank, salah satunya melalui penerapan Tata Kelola Perusahaan yang Baik. Secara umum, Bank senantiasa berupaya menerapkan prinsip-prinsip *Good Corporate Governance* (*transparency, accountability, responsibility, independency, and fairness*) dalam menjalankan kegiatan usahanya melalui aspek-aspek *governance structure* dan *governance process* yang mendukung *governance outcome* secara memadai terhadap 11 faktor penilaian pelaksanaan GCG sesuai dengan POJK No. 17/POJK.03/2023 mengenai Penerapan Tata kelola bagi Bank Umum dan Surat Edaran Otoritas Jasa Keuangan No. 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum.

Terkait aspek *governance structure*, Dewan Komisaris menilai bahwa struktur organisasi Bank sudah cukup memadai untuk mendukung keberlanjutan bisnis secara *prudent* yang diimbangi dengan penerapan manajemen risiko. Komposisi susunan pengurus Bank telah memenuhi ketentuan. Bank memiliki Komite Audit, Komite Pemantau Risiko, serta Komite Remunerasi dan Nominasi di bawah Dewan Komisaris, serta pembentukan berbagai Komite di bawah Direksi sesuai ketentuan.

Seluruh karyawan telah melakukan penandatanganan Kode Etik yang dimonitor secara berkala untuk dapat memastikan bahwa mereka telah memahami dan mengimplementasikan Kode Etik dengan baik. Terkait sumber daya manusia, Bank telah menyusun program pengembangan dan pelatihan karyawan dengan mempertimbangkan kebutuhan pelatihan bagi pegawai di seluruh jenjang organisasi dan unit kerja, seperti menerapkan program *Induction Training* bagi seluruh karyawan baru.

Terkait aspek *governance process*, Dewan Komisaris menilai bahwa Direksi telah menerapkan proses-proses yang berjalan secara independen dan efektif, khususnya terkait manajemen risiko dan pengendalian internal agar risiko-risiko yang mungkin timbul dapat dikelola dengan baik.

Board of Commissioners' Views on Corporate Governance

The Board of Commissioners is committed to supporting the Bank's long-term sustainability by overseeing the Board of Directors' performance in managing the Bank, particularly through the implementation of Good Corporate Governance. In general, the Bank continuously strives to uphold the principles of Good Corporate Governance (*transparency, accountability, responsibility, independence, and fairness*) in its business operations. These principles are embedded in the governance structure and governance processes, which adequately support governance outcomes in alignment with the 11 GCG implementation assessment factors, as outlined in POJK No. 17/POJK.03/2023 concerning the Implementation of Governance for Conventional Bank and the Financial Services Authority Circular Letter No. 13/SEOJK.03/2017 concerning the Implementation of Governance for Conventional Bank.

Regarding governance structure, the Board of Commissioners considers the Bank's organizational structure to be well-designed, ensuring prudent business sustainability while maintaining effective risk management. The Bank's management composition meets all regulatory requirements. The Bank has established an Audit Committee, a Risk Oversight Committee, and a Remuneration and Nomination Committee under the Board of Commissioners, along with various committees under the Board of Directors, all in accordance with applicable regulations.

All employees have signed the Code of Ethics, which is periodically monitored to ensure proper understanding and implementation. In terms of human resource development, the Bank has designed employee training and development programs, considering the training needs at all organizational levels and work units. This includes the Induction Training program, which is mandatory for all new employees.

Regarding governance processes, the Board of Commissioners assesses that the Board of Directors has effectively implemented independent and structured processes, particularly in risk management and internal control, ensuring that potential risks are properly mitigated.

Keputusan hasil rapat pengurus Bank dilakukan secara musyawarah untuk mufakat. Direksi dan Dewan Komisaris melakukan rapat gabungan sesuai dengan ketentuan yang berlaku dan kebutuhan Bank. Rapat berbagai komite telah dilaksanakan secara rutin dan didokumentasikan dalam risalah rapat. Secara umum, kami menilai bahwa pelaksanaan tugas dan tanggung jawab Fungsi Kepatuhan telah berjalan baik dalam melakukan pengawasan kepatuhan bisnis dan operasional pada seluruh jenjang organisasi Bank, seperti memberikan opini kepatuhan terhadap produk dan/atau aktivitas baru serta kebijakan dan prosedur Bank. Dalam penyusunan Rencana Bisnis Bank, Direksi dan Dewan Komisaris telah melibatkan seluruh jajaran organisasi dengan mempertimbangkan rencana kerja tahunan setiap fungsi/unit kerja.

Penilaian Kinerja Komite di Bawah Dewan Komisaris

Penilaian kinerja organ dan komite di bawah Dewan Komisaris dilakukan baik secara kolegial maupun individual. Penilaian dilakukan oleh Dewan Komisaris dengan berdasarkan parameter kriteria kelengkapan dan pelaksanaan tugas komite dan organ pendukung. Sepanjang tahun 2024, organ dan komite di bawah Dewan Komisaris yang terdiri dari Komite Audit, Komite Pemantau Risiko, serta Komite Remunerasi dan Nominasi telah melakukan tugas dan fungsinya dengan baik dalam membantu Dewan Komisaris dalam melakukan pengawasan terhadap pengelolaan Bank.

Penilaian terhadap kinerja ketiga komite pendukung dilakukan secara kualitatif, meliputi keaktifan komite dalam menjalankan tugasnya, proses dokumentasi, dan rekomendasi yang diberikan. Di sepanjang tahun 2024, Komite Audit melakukan 15 (lima belas) kali rapat, Komite Pemantau Risiko melakukan 12 (dua belas) kali rapat, serta Komite Remunerasi dan Nominasi melakukan 7 (tujuh) kali rapat. Dengan seluruh pelaksanaan tugas yang telah dilakukan oleh seluruh anggota komite, Dewan Komisaris menyampaikan apresiasi dan rasa terima kasihnya kepada seluruh anggota komite di bawah Dewan Komisaris.

Decisions made in the Bank's management meetings follow a deliberative process to reach a consensus. The Board of Directors and the Board of Commissioners hold joint meetings as required by regulations and the Bank's operational needs. Additionally, committee meetings are held regularly, with discussions documented in meeting minutes. In general, we assess that the Compliance Function has been effectively carried out, ensuring business and operational compliance at all levels of the organization. This includes providing compliance opinions on new products and activities, as well as on the Bank's policies and procedures. In preparing the Bank's Business Plan, the Board of Directors and the Board of Commissioners have involved all levels of the organization, ensuring alignment with the annual work plans of each function and work unit.

Performance Assessment of Committees under Board of Commissioners

The performance assessment of the committees and supporting organs under the Board of Commissioners is conducted both collegially and individually. The Board of Commissioners evaluates these entities based on specific criteria, including the completeness of their structure and the effectiveness of their duties. Throughout 2024, the committees under the Board of Commissioners—the Audit Committee, the Risk Oversight Committee, and the Remuneration and Nomination Committee—have effectively carried out their roles in assisting the Board of Commissioners in overseeing the Bank's management.

The performance evaluation of these three supporting committees is conducted qualitatively, considering factors such as their level of engagement, the documentation process, and the recommendations provided. In 2024, the Audit Committee held 15 (fifteen) meetings, the Risk Oversight Committee held 12 (twelve) meetings, and the Remuneration and Nomination Committee held 7 (seven) meetings. In recognition of their contributions, the Board of Commissioners expresses its appreciation and gratitude to all committee members for their dedication and efforts in fulfilling their responsibilities.

Para Pemegang Saham dan Pemangku Kepentingan yang Terhormat,

Di sepanjang tahun 2024, semua sektor usaha masih dihadapkan dengan tantangan ketidakpastian, tak terkecuali sektor perbankan. Namun demikian, PT Allo Bank Indonesia Tbk senantiasa berusaha secara optimal melalui berbagai kebijakan strategis dalam rangka menjawab tantangan usaha dan mencapai hasil yang maksimal. Laporan tahunan ini menjadi bagian dari pelaporan manajemen atas strategi dan kinerja Bank di sepanjang tahun 2024, sekaligus menjadi dokumentasi atas perjalanan Perseroan untuk mencapai visi dan misi yang telah dicanangkan.

Dear Esteemed Shareholders and Stakeholders,

Throughout 2024, all business sectors continued to face challenges amid ongoing uncertainty, including the banking sector. However, PT Allo Bank Indonesia Tbk remained committed to navigating these challenges by implementing various strategic policies to achieve optimal results. This annual report serves as part of the management's accountability in outlining the Bank's strategies and performance throughout 2024, as well as documenting the Company's journey in realizing its vision and mission.

Tinjauan Makro Ekonomi

Sebagaimana dikutip dari Tinjauan Kebijakan Moneter Desember 2024 yang dirilis Bank Indonesia, mengungkapkan bahwa Ketidakpastian pasar keuangan global semakin meningkat disertai dengan risiko perlambatan pertumbuhan ekonomi dunia. Rencana kebijakan perdagangan di Amerika Serikat (AS) melalui kenaikan tarif impor, komoditas, dan cakupan negara yang lebih luas telah menyebabkan risiko peningkatan fragmentasi perdagangan dunia.

Inflasi dunia meningkat dibandingkan prakiraan sebelumnya dipengaruhi oleh gangguan rantai suplai. Di AS, penurunan Fed Funds Rate (FFR) diperkirakan lebih lambat akibat inflasi yang lebih tinggi tersebut. Sementara itu, kebijakan fiskal AS yang lebih ekspansif mendorong yield US Treasury tetap tinggi, baik pada tenor jangka pendek maupun jangka panjang. Penguatan mata uang dolar AS secara luas terus berlanjut disertai berbaliknya preferensi investor global dengan memindahkan alokasi portofolionya kembali ke AS. Hal ini meningkatkan tekanan

Macroeconomic Review

According to the December 2024 Monetary Policy Review released by Bank Indonesia, global financial market uncertainty increased alongside the risk of a slowdown in global economic growth. The United States (US) trade policy, which includes raising import tariffs on various commodities and expanding country coverage, has heightened the risk of global trade fragmentation.

Global inflation rose beyond previous estimates due to ongoing supply chain disruptions. In the US, the anticipated cut in the Fed Funds Rate (FFR) is expected to be delayed due to persistently high inflation. Meanwhile, a more expansionary US fiscal policy has driven US Treasury yields to remain high across both short-term and long-term tenors. The continued strengthening of the US dollar has led to a shift in global investor preferences, with portfolios being reallocated back to the US. This shift has increased pressure on various world currencies and limited foreign capital

pelemahan berbagai mata uang dunia dan menahan aliran masuk modal asing ke negara berkembang. Perkembangan ekonomi global yang diikuti dengan tetap tingginya ketidakpastian pasar keuangan global tersebut memerlukan respons kebijakan yang kuat untuk memitigasi dampak negatifnya terhadap perekonomian di negara-negara berkembang, termasuk Indonesia.

Namun demikian, Pertumbuhan ekonomi Indonesia tetap terjaga didukung oleh permintaan domestik. Investasi diperkirakan tumbuh positif pada triwulan IV 2024 ditopang oleh penyelesaian berbagai Proyek Strategis Nasional (PSN) dan investasi swasta didukung insentif dari Pemerintah. Konsumsi rumah tangga diperkirakan tetap tumbuh didorong oleh keyakinan konsumen yang terjaga serta dampak positif pelaksanaan Pilkada di berbagai daerah. Konsumsi Pemerintah lebih tinggi seiring dengan kenaikan aktivitas belanja

inflows into developing countries. Given these global economic developments and persistent uncertainty in financial markets, strong policy responses are required to mitigate negative impacts on the economies of developing countries, including Indonesia.

Despite these challenges, Indonesia's economic growth remained stable, supported by strong domestic demand. Investment was expected to grow positively in the fourth quarter of 2024, driven by the completion of various National Strategic Projects (PSN) and private sector investments, which were further encouraged by government incentives. Household consumption continued to rise, fueled by sustained consumer confidence and the positive impact of regional elections held in various parts of the country.

Pemerintah pada akhir tahun. Sementara itu, ekspor nonmigas diperkirakan melambat dipengaruhi ekonomi global yang belum kuat. Secara sektoral, pertumbuhan juga ditopang terutama oleh Sektor Industri Pengolahan, Konstruksi, serta Perdagangan Besar dan Eceran. Secara keseluruhan tahun, pertumbuhan ekonomi 2024 diperkirakan berada dalam kisaran 4,7—5,5% dan meningkat menjadi 4,8—5,6% pada 2025.

Tinjauan Segmen Industri

Bank Indonesia juga menyatakan bahwa ketahanan sistem keuangan terjaga baik, termasuk pada industri perbankan. Likuiditas perbankan tetap memadai, tercermin dari rasio Alat Likuid terhadap Dana Pihak Ketiga (AL/DPK) pada November 2024 yang tinggi sebesar 25,57%. Rasio kecukupan modal (*Capital Adequacy Ratio*/CAR) perbankan pada Oktober 2024 tercatat sebesar 27,02%, tergolong kuat dalam menyerap risiko dan mendukung pertumbuhan kredit. Sementara itu, rasio kredit bermasalah (*Non-Performing Loan*/NPL) perbankan pada Oktober 2024 terjaga rendah, sebesar 2,20% (bruto) dan 0,77% (neto).

Ketahanan permodalan dan likuiditas perbankan juga didukung oleh pencapaian profitabilitas dan pengelolaan risiko bank yang baik, serta ditopang oleh kemampuan membayar dan profitabilitas korporasi yang terjaga, sebagaimana hasil *stress test* perbankan terkini. Ke depan, Bank Indonesia terus memperkuat sinergi kebijakan bersama KSSK dalam menjaga stabilitas sistem keuangan, termasuk memitigasi berbagai risiko yang dapat mengganggu stabilitas sistem keuangan.

Kinerja transaksi ekonomi dan keuangan digital pada November 2024 tetap tumbuh didukung oleh sistem pembayaran yang aman, lancar, dan andal. Dari sisi nilai besar, transaksi BI-RTGS pada November 2024 meningkat 9,82% (yoy) dengan nominal transaksi sebesar Rp14.969,37 triliun. Dari sisi ritel, volume transaksi BI-FAST pada November 2024 tumbuh 69,90% (yoy) mencapai 338,61 juta transaksi. Akselerasi pembayaran digital berlanjut. Volume transaksi *digital banking* pada bulan yang sama tercatat 2,04 miliar transaksi atau tumbuh sebesar 40,1% (yoy), sementara volume transaksi Uang Elektronik (UE) tumbuh 33,4% (yoy) mencapai 1,44 miliar transaksi.

Volume transaksi QRIS terus tumbuh pesat sebesar 186% (yoy) mencapai 689,07 juta transaksi, dengan jumlah pengguna dan *merchant* masing-masing mencapai 55,02 juta dan 35,1 juta pada November 2024. Sementara itu, volume transaksi pembayaran menggunakan kartu ATM/D pada November 2024 turun 10,9% menjadi 562,75 juta transaksi. Volume transaksi kartu kredit pada bulan yang sama tumbuh 21,1% (yoy) mencapai 41,15 juta transaksi. Dari sisi pengelolaan uang Rupiah, Uang Kartal Yang Diedarkan (UYD) tumbuh 11,9% (yoy) menjadi Rp1.105,8 triliun secara nominal pada akhir November 2024.

Government spending also increased toward the end of the year, further driving economic activity. However, non-oil and gas exports were projected to slow down due to weak global demand. Sector-wise, growth was primarily supported by the Manufacturing Industry, Construction, and Wholesale and Retail Trade Sectors. Overall, Indonesia's economic growth in 2024 was estimated to be within the range of 4.7%—5.5%, with expectations of further growth in 2025 to 4.8%—5.6%.

Industry Segment Overview

Bank Indonesia reported that the financial system remained resilient, including within the banking industry. Banking liquidity was well-maintained, as reflected in the Liquid Assets to Third Party Funds (AL/TPF) ratio, which stood at 25.57% in November 2024. Meanwhile, the banking Capital Adequacy Ratio (CAR) was recorded at 27.02% in October 2024, indicating strong capacity to absorb risks and support credit growth. The Non-Performing Loan (NPL) ratio remained low, standing at 2.20% (gross) and 0.77% (net) in October 2024.

The stability of banking capital and liquidity was further strengthened by sound profitability and risk management, alongside maintained corporate repayment capacity and profitability, as indicated by the results of the latest banking stress test. Moving forward, Bank Indonesia will continue to enhance policy coordination with KSSK to maintain financial system stability and mitigate risks that could pose threats.

The digital economy and financial transactions continued to expand throughout November 2024, supported by a secure, efficient, and reliable payment system. In terms of large-value transactions, BI-RTGS transactions in November 2024 grew by 9.82% yoy, reaching a transaction value of IDR14,969.37 trillion. On the retail side, BI-FAST transactions surged by 69.90% yoy, totaling 338.61 million transactions. The adoption of digital payments also accelerated significantly. In November 2024, the volume of digital banking transactions reached 2.04 billion transactions, reflecting 40.1% yoy growth. Likewise, Electronic Money (EU) transactions rose by 33.4% yoy to 1.44 billion transactions.

QRIS transactions recorded remarkable growth, increasing by 186% yoy to 689.07 million transactions, with the number of users and merchants reaching 55.02 million and 35.1 million, respectively, in November 2024. Conversely, ATM/Debit card transactions declined by 10.9%, totaling 562.75 million transactions. Meanwhile, credit card transactions grew by 21.1% yoy to 41.15 million transactions. In terms of the management of Rupiah currency, the total Circulating Currency (UYD) grew by 11.9% yoy, reaching IDR1,105.8 trillion at the end of November 2024.

Peran Direksi dan Implementasi Kebijakan Strategis

Semakin tingginya tingkat literasi digital seiring meningkatnya penetrasi internet dan penggunaan perangkat digital serta kesadaran masyarakat untuk meningkatkan gaya hidup dan mencapai kesejahteraan finansial jangka panjang menjadi katalis positif bagi perkembangan bisnis perbankan. Tingginya generasi muda yang berada di usia produktif juga menjadi salah satu faktor yang mendorong pertumbuhan nasabah.

Melihat kondisi ini, Allo Bank selaku bank umum berbasis digital memfokuskan upaya selama tahun 2024 untuk memperkuat pondasi bisnis yang dimiliki agar mampu mencapai pertumbuhan secara berkelanjutan di masa depan (*"Strengthening Foundation for Competitive Sustainable Growth"*). Dalam upaya untuk menghadirkan Allo Bank sebagai *everyday bank* yang dapat menjawab segala kebutuhan nasabah, Bank terus mengembangkan berbagai inisiatif strategis termasuk kolaborasi dengan berbagai ekosistem, mengembangkan produk dan layanan inovatif dan tanpa melupakan *Good Corporate Governance* dan manajemen risiko yang menjadi disiplin prudential yang menjadi ciri khas Allo Bank.

Kebijakan strategis yang diambil manajemen telah membuahkan sejumlah capaian optimal baik dari sisi pengembangan produk dan layanan serta kinerja operasional dan keuangan. Terkait Teknologi Informasi, Bank telah selesai membangun dan melakukan peresmian *Data Center* Allo Bank yang baru pada 17 Mei 2024. Bagi Bank dengan layanan berbasis aplikasi digital, *Data Center* merupakan jantung utama dari operasional layanan Bank. Dalam mengantisipasi tuntutan pengembangan inovasi dan layanan ke depan, sesuai dengan harapan dari para stakeholders maka dibutuhkan *Data Center* dengan kesiapan Skalabilitas, Ketersediaan, Keandalan, Keamanan, serta sumber daya yang ramah lingkungan. Hal tersebut menuntut Allo Bank untuk dapat mengelola *Data Center* secara independen dalam mencapai kapabilitas operasional yang unggul dimaksud.

Infrastruktur *Data Center* dengan Sertifikasi TIA Rated-3 yang baru ini dirancang dengan arsitektur yang memenuhi standar internasional tertinggi. Selain arsitektur, keamanan juga menjadi prioritas Bank, dengan pemisahan antara lingkungan *core system* dengan *surrounding system* dan *development system* untuk meningkatkan keamanan dan keandalan layanan. Perangkat-perangkat yang ada saat ini disiapkan untuk mendukung perkembangan bisnis hingga 15 juta pelanggan di masa depan.

Di samping itu, Bank melakukan *Assessment Control Objectives for Information and Related Technology* ("COBIT") 2019 dengan Tingkat Maturitas TI di level 4.21 yang merupakan bukti nyata atas komitmen dan dedikasi Bank dalam menerapkan standar terbaik dalam tata kelola teknologi informasi. *Assessment* ini juga merupakan langkah penting dalam memperkuat kapabilitas TI dan meningkatkan efisiensi serta keamanan layanan yang diberikan kepada nasabah serta mencerminkan bentuk keseriusan Allo Bank dalam terus berinovasi dan memastikan bahwa setiap proses bisnis yang menggunakan TI berjalan dengan baik, terkontrol dan berkelanjutan.

The Role of the Board of Directors and Implementation of Strategic Policy

The increasing level of digital literacy, coupled with growing internet penetration, the widespread use of digital devices, and heightened public awareness of financial well-being, serves as a positive catalyst for the banking industry's development. Additionally, the high number of young people in the productive age group continues to drive customer growth.

Recognizing this trend, Allo Bank, as a digital-based conventional bank, focused its efforts in 2024 on strengthening the foundation of its business to ensure sustainable growth in the future (*"Strengthening Foundation for Competitive Sustainable Growth"*). In its pursuit to become an everyday bank that meets all customer needs, the Bank continued to implement various strategic initiatives, including collaborations with diverse ecosystems, the development of innovative products and services, and a firm commitment to Good Corporate Governance (GCG) and prudent risk management, which is the core principles that define Allo Bank's operations.

The strategic policies implemented by management have led to several significant achievements, both in product and service development as well as operational and financial performance. In terms of Information Technology, the Bank successfully completed the construction and inauguration of the Allo Bank Data Center on May 17, 2024. As a bank that operates digital application-based services, the Data Center is the core of its service operations. To anticipate future demands for innovation and service expansion, and to align with stakeholder expectations, the Bank has developed a scalable, highly available, reliable, secure, and environmentally friendly Data Center. This enables Allo Bank to manage its Data Center independently and enhance its operational excellence.

The newly developed TIA Rated-3 Certified Data Center Infrastructure is designed to meet the highest international standards. Beyond its architectural advancements, security remains a top priority. The separation between the core system environment, surrounding systems, and development environments enhances security and ensures service reliability. The infrastructure is also equipped to support business growth, with the capacity to serve up to 15 million customers in the future.

Additionally, the Bank conducted a 2019 Control Objectives for Information and Related Technology (COBIT) Assessment, achieving an IT Maturity Level of 4.21. This achievement reflects the Bank's commitment to implementing best practices in IT governance. The assessment also marks a significant step in enhancing IT capabilities, improving efficiency, strengthening security, and ensuring that all IT-driven business processes are well-regulated, controlled, and sustainable.

Dari sisi produk dan layanan, Allo Bank telah merilis Rekening Dana Nasabah untuk mendukung minat masyarakat dalam berinvestasi melalui aplikasi digital. Dalam hal ini, Bank telah mengantongi surat izin dari Kustodian Sentral Efek Indonesia (KSEI) dan menjalin kerja sama dengan beberapa platform investasi digital dalam penyelenggaraan produk tersebut. Dengan masuknya Allo Bank ke segmen ini, Bank akan terus memperluas lingkup layanan pada segmen milenial dan Gen-Z. Tak kalah pentingnya, sejumlah produk dan layanan baru juga diluncurkan untuk semakin memenuhi kebutuhan nasabah meliputi *Virtual Debit Card* (dengan Visa), izin Bank Devisa, hingga *Internet Banking* untuk nasabah korporasi. Selain itu, Bank juga terus memperluas kolaborasi dengan berbagai mitra strategis terkemuka di Indonesia. Didorong semua pencapaian di atas, Bank telah berhasil mencatatkan *milestone* 11 juta total nasabah pada akhir November 2024.

Dari sisi branding, Bank terus fokus menyasar segmen milenial dan Gen Z sebagai segmen utama Bank, dengan mengadakan berbagai program marketing yang unik dalam industri perbankan Indonesia seperti Allo Bank Festival pada 21-22 Juni 2024 yang mengusung tema *Intimate Concert Experience* bersama bintang tamu internasional WAY V bersama musisi nasional Indonesia di Istora Senayan Jakarta. Program lainnya termasuk Allo Friends Day pun mendapatkan respons yang sangat positif, tercermin dari tingginya impresi dari setiap *event* dan capaian media sosial Bank yang menembus 132 juta lebih impresi di tahun 2024.

Perbandingan antara Hasil yang Dicapai dengan yang Ditargetkan

Sepanjang tahun 2024 iklim usaha nasional memang dipenuhi dengan berbagai tantangan, namun hal itu tak menyurutkan kinerja usaha Bank hingga ke level optimal. Dalam penetapan target, Allo Bank senantiasa memperkuat fondasi bisnis melalui kebijakan strategis yang tepat sasaran. Di tahun 2024, Allo Bank merencanakan perolehan dari beberapa komponen substansial sebagai tolak ukur dalam menilai kinerja usaha. Perbandingan antara rencana dan realisasi adalah sebagai berikut:

- Aset**
 Per 31 Desember 2024, Bank membukukan Jumlah Aset sebesar Rp13,98 triliun, mengalami peningkatan sebesar 9,7% dibanding tahun 2023 yang tercatat sebesar Rp12,75 triliun. Kinerja Aset tersebut didorong oleh peningkatan kredit yang disalurkan, terutama untuk segmen Retail yang tumbuh pesat.
- Pendapatan Operasional**
 Bisnis inti Allo Bank tetap kuat, seperti tercermin pada perolehan Total Pendapatan Bank sebesar Rp1,440 triliun selama tahun 2024, dimana pencapaian tersebut mengalami peningkatan sebesar 25% dibanding tahun 2023 yang tercatat sebesar Rp1,153 triliun, didorong oleh peningkatan yang sehat pada pendapatan bunga bersih dan pendapatan operasional lainnya.

In terms of products and services, Allo Bank introduced a Customer Fund Account to support customers' interest in investing through digital applications. To facilitate this, the Bank secured approval from the Indonesian Central Securities Depository (KSEI) and partnered with several digital investment platforms. With this expansion, Allo Bank aims to broaden its reach within the millennial and Gen Z segments. Additionally, the Bank introduced several new products and services to further meet customer needs, including the Virtual Debit Card (with Visa), Foreign Exchange Bank permits, and Internet Banking services for corporate customers. The Bank also continued to expand its collaborations with leading strategic partners across Indonesia. As a result of these achievements, the Bank successfully reached a significant milestone, recording 11 million total customers by the end of November 2024.

In terms of branding, the Bank remained focused on targeting millennials and Gen Z as its primary customer segments. To engage these groups, Allo Bank organized unique marketing initiatives within the Indonesian banking industry, such as the Allo Bank Festival held on June 21–22, 2024, under the theme "Intimate Concert Experience" featuring WAY V as an international guest star alongside renowned Indonesian musicians at Istora Senayan, Jakarta. Other initiatives, such as Allo Friends Day, also received overwhelmingly positive responses, reflected in the high engagement levels at each event. Additionally, the Bank's social media presence saw exceptional growth, reaching over 132 million impressions in 2024.

Comparison between Achieved and Targeted Results

Throughout 2024, the national business climate presented various challenges; however, this did not hinder the Bank from maintaining optimal business performance. In setting its targets, Allo Bank continued to strengthen its business foundation through well-targeted strategic policies. In 2024, Allo Bank aimed to achieve several key benchmarks for assessing business performance. The comparison between the planned targets and actual performance is as follows:

- Assets**
 As of December 31, 2024, the Bank recorded Total Assets of IDR13.98 trillion, reflecting a 9.7% increase compared to IDR12.75 trillion in 2023. This growth was primarily driven by an increase in loan disbursement, particularly in the rapidly expanding Retail segment.
- Operating Income**
 Allo Bank's core business remained strong, as reflected in its Total Income of IDR1,440 trillion in 2024, representing a 25% increase compared to IDR1,153 trillion in 2023. This growth was driven by a healthy rise in net interest income and other operating income.

• Biaya Operasional

Sebagai Bank umum berbasis digital, Allo Bank banyak melakukan pengembangan Teknologi Informasi untuk mendukung strategi pengembangan produk, layanan dan *customer engagement/experience* (Good Costs). Di samping itu, Bank juga terus mengoptimalkan program marketing dan promosi untuk akuisisi dan *engagement* untuk meningkatkan *top of mind Bank* di mata nasabah. Dengan demikian, biaya operasional mengalami kenaikan 36% dari Rp548 miliar pada tahun 2023 menjadi Rp743 miliar pada tahun 2024.

• Laba (Rugi) Tahun Berjalan

Didorong faktor-faktor di atas, laba tahun berjalan tercatat sebesar Rp467 miliar per tahun 2024, meningkat sedikit sebesar 5% dibanding tahun 2023 yang tercatat sebesar Rp445 miliar.

• Kualitas Kredit

Di tahun 2024, kualitas kredit terjaga dengan baik sebagaimana tercermin pada rasio NPL Gross dan Net masing-masing sebesar 0,81% dan 0,49%, walaupun sedikit meningkat dibanding periode yang sama tahun sebelumnya masing-masing sebesar 0,08% dan 0,05%

Dengan dukungan kapasitas serta prospek yang dimiliki, Bank optimis untuk dapat meraih kinerja unggul secara berkelanjutan di masa mendatang. Pencapaian antara target dan pencapaian tersebut merupakan salah satu indikator pertimbangan Bank dalam penyusunan target dan strategi bisnis ke depan.

Gambaran tentang Prospek Usaha

Sebagaimana dikutip dari Buku Pertemuan tahunan Bank Indonesia 2024 yang dirilis pada 29 November 2024, menjelaskan bahwa proses pemulihan ekonomi Indonesia terus berlanjut pada 2024 dengan pertumbuhan yang tetap baik dan diperkirakan akan lebih tinggi pada 2025 dan 2026.

Secara keseluruhan tahun, Pemerintah Indonesia mencatatkan pertumbuhan ekonomi 2024 sebesar 5,03% dan diperkirakan akan meningkat lebih tinggi pada 2025 dan 2026 masing-masing dalam kisaran 4,8–5,6% dan 4,9–5,7%. Ke depan, berbagai upaya perlu terus ditempuh untuk mendorong pertumbuhan ekonomi, baik dari sisi permintaan maupun dari sisi penawaran. Di sisi lain, likuiditas perbankan tetap longgar sejalan dengan kebijakan Bank Indonesia, sementara likuiditas perekonomian sesuai dengan aktivitas di sektor riil. Likuiditas dapat diukur jumlahnya di sektor perbankan dan yang beredar di perekonomian. Likuiditas perekonomian biasa diukur dengan jumlah uang beredar, baik dalam arti sempit untuk kebutuhan transaksi konsumsi (Uang Primer, M0) maupun dalam arti luas yang juga termasuk simpanan (Uang Beredar, M1, dan M2). Karenanya, kondisi likuiditas perekonomian akan mencerminkan tingkat pertumbuhan ekonomi secara nominal.

• Operational Costs

As a digital-based conventional bank, Allo Bank made significant investments in Information Technology (IT) development to support its product development strategies, services and customer engagement/experience (Good Costs). The Bank also optimized its marketing and promotional programs to boost customer acquisition and engagement, reinforcing its top-of-mind awareness among customers. Consequently, operational costs increased by 36%, rising from IDR548 billion in 2023 to IDR743 billion in 2024.

• Profit (Loss) for the year

Despite rising operational costs, the Bank maintained profitability. Profit for the year was recorded at IDR467 billion, reflecting a 5% increase compared to IDR445 billion in 2023.

• Credit Quality

In 2024, the credit quality was well maintained as reflected in the Gross and Net NPL ratios of 0.81% and 0.49%, respectively, although slightly increased compared to the same period in the previous year of 0.08% and 0.05% respectively.

With strong capacity and promising prospects, the Bank remains optimistic about achieving sustainable superior performance in the coming years. The alignment between targets and actual achievements is one of the indicators the Bank considers in preparing future targets and business strategies.

View on Business Outlook

According to the Bank Indonesia 2024 Annual Meeting Book, released on November 29, 2024, Indonesia's economic recovery is expected to continue throughout 2024, with stable growth projected to improve further in 2025 and 2026.

Overall, the Indonesian Government noted economic growth of 5.03% in 2024, and estimated to increase to 4.8%–5.6% in 2025 and 4.9%–5.7% in 2026. Moving forward, continuous efforts will be necessary to drive economic growth, both from the demand side and the supply side. Meanwhile, banking liquidity remains ample in line with Bank Indonesia's policies, while economic liquidity aligns with real-sector activity. Liquidity is typically assessed through two main indicators: the amount of liquidity available within the banking sector and the money circulating in the economy. Economic liquidity is measured by the money supply, both in a narrow sense—used for consumption and transactions (Base Money, M0)—and in a broader sense, which includes savings (Money Supply M1 and M2). Consequently, the condition of economic liquidity serves as an indicator of nominal economic growth.

Melihat proyeksi kondisi makro tersebut, Manajemen telah merumuskan arah kebijakan Bank strategis dengan pendekatan bisnis berbasis digital. Kebutuhan nasabah segmen *Retail* dan *Wholesale* dalam bertransaksi pada era digital adalah prioritas utama Bank dalam menciptakan produk dan layanan berbasis digital yang inovatif dan memberikan kemanfaatan ekonomi tidak hanya untuk Bank tetapi juga nasabah melalui langkah-langkah strategis sebagai berikut:

1. Penetrasi pasar berdasarkan model bisnis Hibrida (*Hybrid Business Model*) dalam menawarkan produk dan layanan segmen *Retail* dan *Wholesale* secara terintegrasi untuk menumbuhkan bisnis Bank melalui aktivitas *Acquisition*, *Engagement* dan *Monetization*.
2. Pengembangan layanan digital untuk mencapai portofolio aset dan liabilitas yang berimbang dan berkualitas antara segmen *Retail* dan *Wholesale*.
3. Penguatan kapabilitas *Ecosystem Banking* dalam rangka kolaborasi yang intensif dengan mitra strategis untuk meningkatkan nilai layanan finansial dan daya saing Bank.
4. Optimalisasi kapabilitas *data analytics* dan *Artificial Intelligence* (AI) untuk menghasilkan *Customer Insight* yang efektif dan manajemen risiko yang efisien dalam memberikan layanan finansial yang kontekstual kepada nasabah.
5. Penguatan sistem manajemen layanan yang didukung oleh teknologi sesuai standar *best practice IT Service Management* (ITSM).
6. Pengembangan talenta DIGITAL untuk mendukung model bisnis Hibrida.
7. Penguatan *Good Corporate Governance* yang terintegrasi dan berkelanjutan pada proses bisnis dan operasional sebagai komitmen Bank untuk mendukung prinsip-prinsip *Environmental, Social, and Governance* (ESG).

Penerapan Tata Kelola Bank

Allo Bank memandang bahwa kelangsungan usaha tidak hanya ditentukan oleh kinerja keuangan semata, melainkan juga kinerja operasional yang baik sehari-hari. Untuk memastikan kinerja bisnis dan operasional dapat berjalan secara optimal, maka Bank senantiasa menerapkan Tata Kelola Perusahaan yang Baik atau *Good Corporate Governance* (GCG) guna menciptakan persaingan yang sehat dan iklim usaha yang kondusif. Mengingat pentingnya peran implementasi GCG bagi bisnis dan operasional, Bank berupaya untuk menempatkan praktik Tata Kelola Perusahaan yang Baik sebagai pedoman dasar yang harus dilakukan secara komprehensif di seluruh tingkat organisasi Bank, dimulai dari jajaran Dewan Komisaris, Direksi, dan seluruh karyawan di lingkungan bank.

Pada praktiknya Penerapan Tata Kelola Perusahaan yang Baik berperan sebagai prinsip yang mendasari proses dan mekanisme pengelolaan perusahaan dengan tetap mengacu kepada peraturan perundang-undangan yang berlaku. Penerapan Tata Kelola Perusahaan yang Baik dan komprehensif juga menjadi indikator penting bagi investor untuk menilai sebuah perusahaan di masa depan. Terlebih, di industri perbankan, Penerapan Tata Kelola

Considering macroeconomic projections, Allo Bank's management has outlined a strategic policy direction centered on a digital-based business approach. The Retail and Wholesale segments' needs in an increasingly digital landscape remain the Bank's top priority, with a focus on innovative digital-based products and services that generate economic benefits for both the Bank and its customers. This will be achieved through the following strategic initiatives:

1. Market penetration using a Hybrid Business Model, offering integrated Retail and Wholesale segment products and services to drive business growth through Acquisition, Engagement, and Monetization strategies.
2. Development of digital services to achieve a balanced and high-quality asset and liability portfolio across the Retail and Wholesale segments.
3. Strengthening Ecosystem Banking by intensifying collaborations with strategic partners to enhance financial service value and the Bank's competitiveness.
4. Optimizing data analytics and Artificial Intelligence (AI) to generate effective Customer Insights and improve risk management efficiency, enabling the delivery of contextual financial services.
5. Enhancing service management systems, supported by technology aligned with IT Service Management (ITSM) best practices.
6. Developing digital talent to support the Hybrid Business Model.
7. Strengthening integrated and sustainable Good Corporate Governance across business and operational processes, reinforcing the Bank's commitment to Environmental, Social, and Governance (ESG) principles.

Implementation of Bank Governance

Allo Bank recognizes that business sustainability is determined not only by financial performance but also by strong daily operational execution. To ensure optimal business and operational performance, the Bank consistently implements Good Corporate Governance (GCG), fostering healthy competition and a conducive business climate. Given the critical role of GCG in banking and corporate operations, the Bank upholds comprehensive GCG principles across all levels of its organization, from the Board of Commissioners and Board of Directors to all employees.

In practice, the implementation of Good Corporate Governance serves as a fundamental principle guiding the company's management processes and mechanisms while adhering to applicable laws and regulations. The adoption of Good and Comprehensive Corporate Governance is also a key indicator for investors in assessing a company's long-term prospects. Moreover, in the banking industry, the implementation of Good Corporate

Perusahaan yang Baik juga menjadi landasan dan kebutuhan perusahaan dalam menciptakan nilai tambah yang berkelanjutan, mendukung perusahaan dalam menghadapi dinamika industri perbankan, serta membentuk fondasi iklim investasi yang sehat dan dapat mendorong terciptanya inklusi keuangan.

Sejalan dengan tujuan tersebut, Allo Bank senantiasa memperkuat dan meningkatkan penerapan Tata Kelola Perusahaan yang Baik di seluruh aspek kegiatan usaha yang dijalankan. Hal tersebut diwujudkan dengan antara lain melakukan review dan pengkajian kebijakan tata kelola sebagai salah satu wujud komitmen peningkatan kualitas penerapan Tata Kelola Perusahaan yang Baik di seluruh lapisan organisasi Bank.

Penilaian Terhadap Komite-Komite di Bawah Direksi

Dalam membantu menjalankan tugas pengelolaan Bank, Direksi dapat membentuk organ pendukung sebagaimana diatur dalam ketentuan perundang-undangan. Direksi telah memiliki organ pendukung struktural, yakni Sekretaris Perusahaan & PMO dan Satuan Kerja Audit Internal (SKAI) serta organ pendukung non-struktural yang terdiri dari Komite Kredit, Komite Kebijakan Perkreditan, Komite Aktiva dan Pasiva, Komite Manajemen Risiko, Komite Pengarah Teknologi Informasi, Komite Produk dan Komite SDM. Selama tahun 2024, Direksi menilai bahwa seluruh komite tersebut telah melaksanakan tugas dan tanggung jawabnya secara profesional sesuai dengan program kerja tahunan serta pedoman dan tata tertib kerja masing-masing komite.

Perubahan Komposisi Anggota Direksi

Allo Bank telah menyusun jumlah dan komposisi Direksi sedemikian rupa sehingga memungkinkan pengambilan keputusan dapat dilakukan secara efektif, tepat dan cepat, serta dapat bertindak independen. Per 31 Desember 2024, Bank tidak mengalami perubahan susunan dan komposisi Direksi. Adapun komposisi Direksi Bank hingga saat ini dapat dilihat sebagai berikut:

Governance is essential for creating sustainable added value, strengthening resilience in a dynamic industry, and fostering a healthy investment climate. Additionally, it plays a crucial role in promoting financial inclusion.

In alignment with these objectives, Allo Bank is continuously strengthening and refining its implementation of GCG across all business activities. This includes periodic reviews and updates of governance policies, reinforcing the Bank's commitment to maintaining high-quality governance standards at all organizational levels.

Assessment of Committees Under the Board of Directors

To support the execution of the Bank's management duties, the Board of Directors may establish supporting bodies as stipulated by law. The Board of Directors has both structural and non-structural supporting bodies. The structural supporting bodies include the Corporate Secretary & PMO and the Internal Audit Work Unit (SKAI), while the non-structural supporting bodies consist of the Credit Committee, Credit Policy Committee, Asset and Liability Committee, Risk Management Committee, Information Technology Steering Committee, Product Committee, and HR Committee. Throughout 2024, the Board of Directors assessed that all committees had carried out their duties and responsibilities professionally, in accordance with the annual work program, guidelines and work procedures.

Changes in the Composition of the Board of Directors

Allo Bank has structured the size and composition of its Board of Directors to ensure effective, precise, and swift decision-making, while maintaining its independence. As of December 31, 2024, there were no changes in the composition of the Board of Directors. The current Board of Directors composition is detailed as follows:

Struktur Organisasi Bank di 2024

Sejalan dengan dinamika bisnis yang semakin berkembang serta ketatnya persaingan perbankan berbasis digital, Allo Bank terus memperbaiki dan memperkuat struktur organisasinya guna mencapai tujuan yang telah ditetapkan. Adapun struktur organisasi Bank di tahun 2024 dapat dilihat di bab Profil Perusahaan pada Laporan Tahunan ini.

Aktivitas Utama Bank di 2024

Aktivitas utama Direksi selama tahun 2024 adalah menjalankan kegiatan operasi Bank sehari-hari dan memimpin Perusahaan dalam mencapai maksud dan tujuan serta kegiatan usaha yang telah ditetapkan dalam Anggaran Dasar. Direksi juga bertanggung jawab terhadap kepengurusan bisnis Bank dan merealisasikan Rencana Bisnis Bank tahun 2024 yang telah ditetapkan dan disampaikan kepada Otoritas Jasa Keuangan. Dalam rangka pelaksanaan bisnis Bank dapat berjalan secara optimal di seluruh aktivitas operasional yang dilakukan, Bank menetapkan budaya perusahaan dengan memegang teguh Nilai Inti Bank. Nilai-nilai ini berperan sebagai sebuah norma atau pedoman perilaku umum bagi seluruh Insan Bank dalam menjalankan aktivitasnya sehari-hari. Nilai Inti Bank memegang peranan penting dalam menopang dan mewujudkan visi dan misi melalui 7 (tujuh) nilai inti (*core values*) dengan akronim “DIGITAL” yang diluncurkan pada awal Desember 2022 melalui program Allo Temu.

Fungsi Penunjang Teknologi Informasi

Seiring dengan perkembangan zaman yang terjadi, Bank menilai bahwa Teknologi Informasi (TI) memiliki peran penting dalam menunjang proses bisnis. Melihat hal tersebut, Bank berkomitmen untuk terus meningkatkan kapasitas TI serta mengikuti perkembangannya untuk diterapkan dalam rangka mendukung produktivitas kerja yang optimal.

Dalam menjalankan kegiatan usahanya, Bank telah menyusun dan menerapkan kebijakan prosedur dan standar TI untuk menyelaraskan langkah-langkah pengembangan TI dalam rangka perwujudan cita-cita Bank. Di sisi lain, dalam rencana pengembangan aplikasi digital, Bank berupaya untuk selalu memenuhi aspek kepatuhan terhadap regulasi OJK dan Bank Indonesia yang mana evaluasi pengembangan secara internal juga dilakukan sebagai upaya memitigasi risiko yang mungkin muncul.

Keberadaan TI juga diharapkan mampu mendukung target yang telah ditentukan, mengingat mulai merambahnya penggunaan teknologi informasi ke seluruh aspek kehidupan masyarakat. Kecepatan dan integrasi yang dapat diberikan oleh penerapan TI merupakan salah satu komponen penting dalam penerapan teknologi sebagai alat utama dalam kegiatan bisnis yang dijalankan.

Bank Organizational Structure in 2024

Amid the increasingly dynamic business landscape and intensifying competition in digital banking, Allo Bank continues to refine and strengthen its organizational structure to effectively achieve its strategic goals. The Bank's organizational structure for 2024 is detailed in the Company Profile chapter of this Annual Report.

Main Activities of the Bank in 2024

The main activities of the Board of Directors in 2024 included overseeing the Bank's daily operations and leading the Company in achieving its goals, objectives, and business activities as outlined in the Articles of Association. The Board of Directors was also responsible for managing the Bank's business and implementing the 2024 Business Plan, which had been set and submitted to the Financial Services Authority. To ensure optimal business operations, the Bank reinforced its corporate culture by upholding its Core Values. These values serve as a normative guide for all Bank personnel in their daily activities. The Bank's Core Values play a crucial role in supporting and realizing its vision and mission through 7 (seven) core principles under the acronym “DIGITAL”, launched in early December 2022 through the Allo Temu program.

Role of Information Technology

As technology continues to evolve, Allo Bank recognizes the critical role of Information Technology (IT) in supporting business processes. To stay ahead, the Bank remains committed to enhancing IT capabilities and integrating the latest technological advancements to improve productivity and efficiency.

In carrying out its business activities, the Bank has prepared and implemented IT policies, procedures, and standards to align IT development efforts with its strategic goals. At the same time, in its digital application development plan, the Bank remains committed to complying with regulations set by OJK and Bank Indonesia where internal development evaluations are also conducted as part of the Bank's risk mitigation efforts to address potential challenges.

The role of IT is expected to support the achievement of the Bank's established targets, given the increasing reliance on information technology in all aspects of daily life. The speed and integration offered by IT implementation are key factors in leveraging technology as a primary tool in business operations.

Produk dan Jasa yang Ditawarkan

Di tahun 2024, Bank senantiasa mengembangkan layanan perbankan berbasis digital untuk tabungan dan fitur-fitur pembayaran, meliputi:

1. Produk uang elektronik dengan *branding* Allo Pay dan Allo Pay+
2. Produk tabungan termasuk Allo Prime dan Allo Grow
3. Deposito
4. Kredit digital dengan *branding* PayLater dan *Instant Cash*
5. Layanan Transfer Dana, tarik tunai tanpa kartu, *top up* uang elektronik, pembayaran QRIS, layanan pembayaran *biller* dan program *loyalty* berupa *Membership*, *Point*, dan *Coupon* (MPC).
6. *Virtual Debit Card*
7. *Virtual Account*
8. Rekening Dana Nasabah (RDN)

Tingkat Suku Bunga Penghimpunan dan Penyediaan Dana

Sesuai dengan ketentuan dan peraturan yang berlaku, Bank mempublikasikan Suku Bunga Dasar Kredit (SBDK) yang menjadi indikator atas besaran suku bunga kredit yang akan dikenakan kepada nasabah. Allo Bank mempertimbangkan beberapa faktor dalam menentukan SBDK di antaranya BI-Rate yang ditetapkan oleh Bank Indonesia, Harga Pokok Dana untuk Kredit (HPDK), beban operasional yang dikeluarkan untuk kegiatan penghimpunan dana dan penyaluran kredit, komponen profit margin yang ditetapkan Bank dalam kegiatan penyaluran kredit, serta mempertimbangkan kompetisi di industri perbankan. Perhitungan SBDK tersebut belum memperhitungkan komponen premi risiko dari debitur, yang besarnya tergantung dari penilaian terhadap risiko masing-masing debitur. Dengan demikian, besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK.

Tingkat suku bunga penghimpunan dan penyediaan dana untuk mata uang Rupiah pada tahun 2024 adalah sebagai berikut:

Products and Services Offered

In 2024, the Bank continued to develop digital banking services for savings and payment features, including:

1. Electronic money products with Allo Pay and Allo Pay+ branding
2. Savings products including Allo Prime and Allo Grow
3. Deposits
4. Digital credit with PayLater and Instant Cash branding
5. Fund Transfer services, cardless cash withdrawals, electronic money top-ups, QRIS payments, biller payment services and loyalty programs in the form of Membership, Points, and Coupons (MPC).
6. Virtual Debit Card
7. Virtual Account
8. Customer Fund Account (RDN)

Interest Rates for Collection and Provision of Funds

In accordance with applicable regulations, the Bank publishes the Basic Credit Interest Rate (SBDK), which serves as an indicator of the credit interest rate charged to customers. Allo Bank considers several factors when determining the SBDK, including the BI-Rate set by Bank Indonesia, the Cost of Funds for Credit (HPDK), operational costs associated with fundraising and credit distribution activities, profit margin components determined by the Bank for credit distribution, and considering market competition within the banking industry. The calculation of the SBDK does not include the risk premium component, as this varies based on each debtor's risk assessment. As a result, the credit interest rate imposed on debtors may differ from the SBDK.

The interest rates for collecting and providing funds for Rupiah currency in 2024 are as follows:

Periode Data: Desember 2024 Period: December 2024	Suku Bunga Dasar Kredit Prime Lending Rate						
	Berdasarkan Jenis Kredit By Type of Loans						
	Kredit Non UMKM Non MSME Credit		Kredit UMKM MSME Credit			KPR/KPA	Non KPR/ Non KPA

Jaringan Operasional Bank

Kantor Pusat Bank berkedudukan di Jakarta, selain itu dalam memberikan pelayanan kepada para nasabah Bank memiliki 1 kantor pusat dan 2 kantor cabang. Sepanjang 2024, Bank tidak melakukan ekspansi terhadap jaringan kerja, maupun pembukaan jaringan kantor yang baru.

Kepemilikan Direksi, Dewan Komisaris, dan Pemegang Saham dalam Kelompok Usaha Bank

Bank telah memiliki Pedoman dan Tata Tertib Kerja bagi Direksi serta Pedoman dan Tata Tertib Kerja bagi Dewan Komisaris yang didalamnya mengatur mengenai kepemilikan saham dalam kelompok usaha Bank terkait aspek transparansi dan larangan bagi Anggota Direksi yang sesuai dengan POJK No. 17 Tahun 2023. Bank mengatur bahwa anggota Direksi dan Dewan Komisaris harus menginformasikan Sekretaris Perusahaan saat memiliki saham Bank agar Bank bisa segera melaporkan perihal tersebut kepada OJK selambat-lambatnya 3 (tiga) hari kerja setelah terjadinya kepemilikan tersebut. Pengungkapan kepemilikan saham dari anggota Dewan Komisaris dan Direksi ada pada bab Profil Perusahaan dari Laporan Tahunan ini.

Perubahan-Perubahan Penting yang Terjadi Pada Bank dan Kelompok Usaha Bank di Tahun Berjalan

Sepanjang tahun 2024, tidak terdapat perubahan penting yang terjadi pada Bank dan kelompok usaha Bank yang bersifat material yang memberikan dampak secara signifikan baik secara kinerja keuangan maupun operasional.

Hal-Hal Penting yang Diperkirakan Terjadi Pada Masa Mendatang

Perkembangan usaha Bank terkait dengan dinamika perekonomian yang di masa mendatang tergantung pada dinamika yang terjadi di tahun berjalan. Secara material, Bank belum dapat menyampaikan hal-hal penting yang diperkirakan terjadi pada masa mendatang. Tahun 2025 sekaligus menjadi momentum bagi Indonesia dengan terpilihnya presiden baru Republik Indonesia. Situasi yang berlangsung kondusif di awal tahun diharapkan membawa sentimen positif terhadap iklim usaha, khususnya perbankan.

Pengembangan Sumber Daya Manusia Bank

Hingga akhir tahun 2024, Bank mempekerjakan sebanyak 470 karyawan. Dalam rangka membangun tim dan karyawan yang berkualitas dan profesional dalam menghadapi kondisi bisnis yang dinamis, Bank secara konsisten melaksanakan program pendidikan dan pengembangan karyawan. Hal tersebut bertujuan untuk meningkatkan daya saing dalam menghadapi perkembangan industri perbankan digital serta untuk meningkatkan efisiensi dan produktivitas kerja Bank.

Bank Operational Network

The Bank's Head Office is located in Jakarta. In addition to providing customer services, the Bank operates 1 Head Office and 2 branch offices. Throughout 2024, the Bank did not expand its operational network or open any new offices.

Ownership of Directors, Board of Commissioners, and Shareholders in Bank Business Groups

The Bank has established Guidelines and Work Rules for the Board of Directors and the Board of Commissioners, regulating share ownership within the Bank's business group. These guidelines ensure transparency and compliance with POJK No. 17 of 2023, which outlines restrictions on Board Members' share ownership. Under these regulations, members of the Board of Directors and Board of Commissioners must notify the Corporate Secretary upon acquiring shares in the Bank. The Bank is then required to report this to the OJK within 3 (three) working days. Details regarding the share ownership of members of the Board of Commissioners and Board of Directors are included in the Company Profile chapter of this Annual Report.

Important Changes that Occurred in Bank and Bank Business Groups in the Current Year

Throughout 2024, there were no significant changes within the Bank or its business group that would have a significant impact on both financial and operational performance

Important Matters that are Expected to Occur in the Future

The Bank's business growth is closely linked to economic dynamics, which will continue to evolve based on current conditions. At present, the Bank is unable to provide specific projections for significant future developments. However, 2025 marks a significant milestone for Indonesia, as the nation elects a new president. A stable and conducive political environment at the beginning of the year is expected to generate positive sentiment within the business climate, particularly in the banking sector.

Human Resources Development

By the end of 2024, the Bank employed 470 employees. To build a high-quality and professional workforce capable of navigating dynamic business conditions, the Bank consistently implements employee education and development programs. These initiatives are designed to enhance competitiveness in the rapidly evolving digital banking industry, while also improving work efficiency and productivity.

Pengembangan kompetensi yang dilakukan oleh Bank ditujukan untuk meningkatkan *hard skills* dan *soft skills* dengan memperhatikan strategi dalam mengembangkan bisnis agar seluruh karyawan dapat siap menghadapi persaingan di industri perbankan yang semakin ketat. Pengembangan kompetensi ini sejalan dengan komitmen Bank untuk senantiasa meningkatkan kompetensi dan kualitas SDM dalam agar dapat menghadapi tantangan bisnis yang semakin kompetitif. Hingga akhir Desember 2024, Bank telah menyelenggarakan berbagai program pendidikan, pelatihan dan sertifikasi (baik manajemen risiko yang bersifat wajib maupun sertifikasi pengembangan profesi) kepada 439 karyawan dengan realisasi biaya pelatihan sebesar Rp4,853 miliar.

Apresiasi

Atas pencapaian yang ditorehkan di tahun 2024, izinkan saya mewakili Direksi Allo Bank menyampaikan rasa hormat dan terima kasih kepada Dewan Komisaris serta pemegang saham, para pemangku kepentingan, serta jajaran manajemen dan karyawan, atas seluruh kerjasama yang telah terjalin dengan baik. Semoga Allo Bank terus dapat berkembang dan bertumbuh untuk mewujudkan visinya, yang pada akhirnya akan memberikan nilai tambah kepada segenap pemangku kepentingan khususnya untuk pertumbuhan usaha yang berkelanjutan. Direksi atas nama Manajemen Bank juga mengucapkan terimakasih yang sebesar-besarnya kepada Regulator khususnya Otoritas Jasa Keuangan (OJK) atas dukungannya terhadap Allo Bank terutama dalam hal perizinan, dan pengawasan yang diberikan. Kepada seluruh insan AlloBankers, Direksi menyampaikan apresiasi setinggi-tingginya atas kerja keras dan dedikasi yang diberikan. Semoga Allo Bank dapat terus memaksimalkan kemampuannya dan tumbuh secara berkelanjutan di masa yang akan datang.

The Bank's competency development programs focus on strengthening both hard skills and soft skills, ensuring employees are equipped to meet the increasing competition within the banking industry. These programs align with the Bank's commitment to continuously enhance the competence and quality of its human resources, preparing employees for the challenges of a competitive business environment. As of December 31, 2024, the Bank has conducted various education, training, and certification programs, including mandatory risk management training and professional development certifications, for a total of 439 employees. The total realized training expenditure for the year amounted to IDR4.853 billion.

Appreciation

For the achievements realized in 2024, I would like to express, on behalf of the Board of Directors of Allo Bank, my sincere gratitude and appreciation to the Board of Commissioners, shareholders, stakeholders, management, and employees for their continued cooperation and dedication. I hope that Allo Bank will continue to develop and grow in line with its vision, ultimately creating added value for all stakeholders and ensuring sustainable business growth. The Board of Directors, on behalf of the Bank's Management, also extends its deepest gratitude to the Regulators, particularly the Financial Services Authority (OJK), for their support, supervision, and licensing assistance. To all AlloBankers, the Board of Directors extends its highest appreciation for your hard work and dedication throughout the year. Sekilas tentang Perusahaan

PT Allo Bank Indonesia Tbk (selanjutnya disebut Allo Bank atau Bank) didirikan pada tahun 1992 dengan nama PT Bank Arta Griya berdasarkan Akta Pendirian No. 242 tanggal 21 Oktober 1992 yang dibuat di hadapan Poerbaningsih Adi Warsito, S.H., Notaris di Jakarta.

Di tahun 1993, PT Bank Arta Griya mengalami perubahan nama menjadi PT Bank Harda Griya berdasarkan Akta Perubahan No. 181 Tanggal 16 Januari 1993 yang dibuat di hadapan Poerbaningsih Adi Warsito S.H., Notaris di Jakarta. Akta tersebut telah memperoleh pengesahan dari Menteri Kehakiman Republik Indonesia berdasarkan Surat Keputusan No. C2-895. HT.01.01. TH.93 tanggal 10 Februari 1993, dan telah didaftarkan pada Kepaniteraan Pengadilan Negeri Jakarta Selatan No. 127/A/PT/HKM/1993/PN.JAK.SEL tanggal 12 Februari 1993, serta telah diumumkan dalam Berita Negara Republik Indonesia No. 25 Tanggal 27 Maret 1993, Tambahan Berita Negara Republik Indonesia No. 1316. Selanjutnya di tahun 1996, Bank kembali mengalami perubahan nama dari PT Bank Harda Griya menjadi PT Bank Harda Internasional berdasarkan Akta No. 23 tanggal 10 Desember 1996 yang dibuat di hadapan Triphosa Lily Ekadewi, S.H., Notaris di Ciputat dan telah mendapatkan persetujuan dari Menteri Kehakiman Republik Indonesia berdasarkan Keputusan No. C2-1473.HT.01.04.TH.97 tanggal 25 September 1997.

Company at a Glance

PT Allo Bank Indonesia Tbk (hereinafter referred to as Allo Bank or Bank) was founded in 1992 under the name PT Bank Arta Griya based on Deed of Establishment No. 242 dated October 21, 1992 made before Poerbaningsih Adi Warsito, S.H., Notary in Jakarta.

In 1993, PT Bank Arta Griya changed its name to PT Bank Harda Griya based on Deed of Amendment No. 181 Dated January 16, 1993 made before Poerbaningsih Adi Warsito S.H., Notary in Jakarta. This deed has obtained approval from the Minister of Justice of the Republic of Indonesia based on Decree No. C2-895. HT.01.01. TH.93 dated February 10, 1993, and was registered at the Registrar's Office of the South Jakarta District Court No. 127/A/PT/HKM/1993/PN.JAK.SEL dated February 12, 1993, and has been published in the State Gazette of the Republic of Indonesia No. 25 Dated March 27, 1993, Supplement to the State Gazette of the Republic of Indonesia No. 1316. Furthermore, in 1996, the Bank had another name changed from PT Bank Harda Griya to PT Bank Harda Internasional based on Deed No. 23 dated December 10, 1996 which was made before Triphosa Lily Ekadewi, S.H., Notary in Ciputat and obtained approval from the Minister of Justice of the Republic of Indonesia based on Decree No. C2-1473.HT.01.04.TH.97 dated September 25, 1997.

Setelah lebih dari 2 (dua) dekade, Bank selanjutnya mengambil langkah strategis dengan melakukan Penawaran Saham Perdana di Bursa Efek Indonesia pada tahun 2015 sehingga menjadikan Bank berubah statusnya menjadi perusahaan terbuka dengan nama PT Bank Harda Internasional Tbk. Perubahan ini dinyatakan dalam Akta Berita Acara Rapat Umum Pemegang Saham Luar Biasa No. 31 tanggal 18 Maret 2015 yang dibuat di hadapan Edward Suharjo Wiryomartani., S.H., M.Kn., Notaris di Jakarta Barat dan telah memperoleh Penerimaan Pemberitahuan Perubahan Anggaran Dasar dari Menkumham melalui Surat No. AHU AH.01.03-0017606 tanggal 19 Maret 2015. Pencatatan saham di BEI ini bertujuan untuk memperkuat struktur keuangan dan meningkatkan daya saing usaha di dunia perbankan.

Pada tahun 2021, PT Bank Harda Internasional Tbk resmi diakuisisi oleh PT Mega Corpora. Setelah mendapat persetujuan dari Otoritas Jasa Keuangan, pada Juni 2021, PT Bank Harda Internasional Tbk resmi berganti nama menjadi PT Allo Bank Indonesia Tbk. Perubahan nama tersebut dinyatakan dalam Akta Perubahan Anggaran Dasar No. 1 tanggal 2 Juni 2021 yang dibuat di hadapan Dharma Akhyuzi, S.H., Notaris di Jakarta, dan akta tersebut telah memperoleh persetujuan dari Menkumham No. AHU-0031692.AH.01.02 tahun 2021 tanggal 2 Juni 2021. Perubahan nama menjadi PT Allo Bank Indonesia Tbk telah mendapat persetujuan dari Otoritas Jasa Keuangan berdasarkan Keputusan Deputy Dewan Komisiner Pengawas Perbankan I Otoritas Jasa Keuangan No. KEP-48/PB-1/2021 tanggal 30 Juni 2021 tentang Penetapan Penggunaan Izin Usaha Atas Nama PT Bank Harda Internasional Tbk Menjadi Izin Usaha Atas Nama PT Allo Bank Indonesia Tbk.

After more than 2 (two) decades, the Bank took strategic steps by conducting an Initial Share Offering on the Indonesia Stock Exchange in 2015. Through these offering, the Bank changed its status to a public company under the name PT Bank Harda Internasional Tbk. These changes were stated in the Deed of Minutes of the Extraordinary General Meeting of Shareholders No. 31 dated March 18, 2015 which was made before Edward Suharjo Wiryomartani., S.H., M.Kn., Notary in West Jakarta and received the Notification of Amendments to the Articles of Association from the Minister of Law and Human Rights through Letter No. AHU-AH.01.03-0017606 dated March 19 2015. The aim of listing shares on the IDX is to strengthen the financial structure and increase business competitiveness in the banking world.

In 2021, PT Bank Harda Internasional Tbk was officially acquired by PT Mega Corpora. After obtaining approval from the Financial Services Authority, in June 2021, PT Bank Harda Internasional Tbk officially changed its name to PT Allo Bank Indonesia Tbk. The name change is stated in the Deed of Amendment to the Articles of Association No. 1 dated June 2, 2021 which was made before Dharma Akhyuzi, S.H., Notary in Jakarta, and the deed was approved by the Minister of Law and Human Rights No. AHU-0031692.AH.01.02 of 2021 dated June 2, 2021. The name change to PT Allo Bank Indonesia Tbk has received approval from the Financial Services Authority based on Decree of the Deputy Board of Commissioners for Banking Supervision I of the Financial Services Authority No. KEP-48/PB-1/2021 dated June 30, 2021 concerning Stipulation of Using of a Business License on behalf of PT Bank Harda Internasional Tbk to Become a Business License on behalf of PT Allo Bank Indonesia Tbk.

Sejak *grand launching* pada 20 Mei 2022, PT Allo Bank Indonesia Tbk telah berkembang menjadi bank umum berbasis layanan digital terkemuka dengan melayani lebih dari 11 juta nasabah per akhir tahun 2024. Untuk produk dan layanan, Allo Bank menawarkan berbagai produk dan layanan perbankan digital yang inovatif termasuk Allo Pay, Allo Pay+, Allo Prime, Allo Grow, *PayLater* dan *Instant Cash*. Nama “Allo” merupakan singkatan dari All in One, yang mewujudkan aspirasi Bank bagi nasabahnya untuk *Experience a Simple Life*. Selain itu, Allo Bank adalah anak perusahaan dari CT Corpora, sebuah grup bisnis terintegrasi terkemuka yang berfokus pada konsumen di Indonesia dengan beragam usaha di layanan keuangan, media, ritel, gaya hidup, dan hiburan.

Anggaran Dasar Bank juga telah mengalami beberapa kali perubahan. Di tahun 2022, Anggaran Dasar Bank mengalami perubahan yang ditetapkan berdasarkan Akta Perubahan Anggaran Dasar No. 05 tanggal 15 Oktober 2021 yang dibuat di hadapan Dharma Akhyuzi, S.H., Notaris di Jakarta. Selanjutnya, Bank kembali melakukan perubahan Anggaran Dasar pada tahun 2023 yang telah disahkan melalui Akta No. 01 tanggal 14 Juni 2023 yang dibuat di hadapan Dharma Akhyuzi, S.H., Notaris di Jakarta yang telah memperoleh persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Keputusan No. AHU-0039698.AH.01.02.Tahun 2023 tanggal 12 Juli 2023 dan telah didaftarkan dalam Daftar Perseroan No. AHU-0131254. AH.01.11 tanggal 12 Juli 2023. Perubahan tersebut disesuaikan dengan ketentuan peraturan perundang-undangan di sektor Perbankan dan Pasar Modal yang berlaku, yaitu Undang-Undang Republik Indonesia No. 4 Tahun 2023 tentang Pengembangan dan Penguatan Sektor Keuangan untuk penyesuaian kegiatan usaha Bank serta Peraturan Otoritas Jasa Keuangan No. 17 tahun 2023 tentang Penerapan Tata Kelola bagi Bank Umum untuk penyesuaian jumlah komposisi anggota Direksi dan anggota Dewan Komisaris Bank.

Since its grand launch on May 20, 2022, PT Allo Bank Indonesia Tbk has developed into a leading digital service-based conventional bank serving more than 11 million customers by the end of 2024. Allo Bank offers a variety of innovative digital banking products and services including Allo Pay, Allo Pay+, Allo Prime, Allo Grow, *PayLater* and *Instant Cash*. The name “Allo” is an abbreviation of All in One, which reflecting the Bank’s aspirations for its customers to Experience a Simple Life. In addition, Allo Bank is a subsidiary of CT Corpora, a leading consumer-focused integrated business group in Indonesia with various businesses in financial services, media, retail, lifestyle and entertainment.

The Bank’s Articles of Association have undergone several changes. In 2022, the Articles of Association were amended, as outlined in the Deed of Amendment to the Articles of Association No. 05, dated October 15, 2021, executed before Dharma Akhyuzi, S.H., Notary in Jakarta. Subsequently, further amendments were made in 2023, as ratified through Deed No. 01, dated June 14, 2023, executed before Dharma Akhyuzi, S.H., Notary in Jakarta. These amendments received approval from the Minister of Law and Human Rights of the Republic of Indonesia through Decree No. AHU-0039698. AH.01.02.Year 2023, dated July 12, 2023, and were registered in the Company Register No. AHU-0131254.AH.01.11 dated July 12, 2023. The changes were made to align with prevailing laws and regulations in the Banking and Capital Market sectors, including Law No. 4 of 2023 on the Development and Strengthening of the Financial Sector to adjust the Bank’s business activities and Financial Services Authority Regulation No. 17 of 2023 on the Implementation of Governance for conventional bank to accommodate changes in the number of members of the Board of Directors and the Board of Commissioners.

Employee Competency Management and Development

Pengembangan Kompetensi Karyawan Tahun 2024

Allo Bank memiliki komitmen untuk senantiasa mengembangkan kemampuan dan kompetensi masing-masing karyawan agar dapat menghadapi tantangan bisnis yang semakin kompetitif. Bank telah merancang berbagai program pelatihan dan sertifikasi secara komprehensif sepanjang tahun 2024.

Dalam rangka membangun tim dan karyawan yang berkualitas dan profesional dalam menghadapi kondisi bisnis yang dinamis, Bank secara konsisten melaksanakan program pendidikan dan pengembangan karyawan. Hal tersebut bertujuan untuk meningkatkan daya saing dalam menghadapi perkembangan industri serta untuk meningkatkan efisiensi dan produktivitas kerja Bank.

Pengembangan kompetensi yang dilakukan oleh Bank ditujukan untuk meningkatkan *hard skills* dan *soft skills* dengan memperhatikan strategi dalam mengembangkan bisnis agar seluruh karyawan dapat siap menghadapi persaingan di industri perbankan yang semakin ketat.

Allo Bank memberikan kesempatan yang sama kepada seluruh pekerja untuk bisa mewujudkan organisasi yang inovatif dan adaptif terhadap perubahan dengan memberikan seluruh karyawan kesempatan dalam meningkatkan kualitas dan kapasitasnya. Pengembangan kompetensi ini diharapkan dapat berdampak pada kualitas talenta-talenta digital yang memiliki kemampuan untuk menciptakan inovasi produk digital. Hal tersebut dilakukan dengan menjalankan program pendidikan dan pengembangan kompetensi karyawan secara berkesinambungan.

Competency Development in 2024

Allo Bank is committed to continuously developing the capabilities and competencies of each employee in order to face increasingly competitive business challenges. The Bank has designed various comprehensive training and certification programs throughout 2024.

To build a high-quality and professional team capable of navigating dynamic business conditions, the Bank consistently implements employee education and development programs. These initiatives aim to enhance competitiveness, improve efficiency, and boost productivity as the Bank adapts to industry advancements.

The Bank's competency development efforts focus on strengthening both hard and soft skills, ensuring alignment with business development strategies. This prepares employees to thrive amid the increasingly competitive banking industry.

Allo Bank provides equal opportunities for all employees to contribute to the creation of an innovative and adaptive organization. By offering all employees opportunities to improve their quality and capacity, this competency development is expected to enhance the quality of digital talents with the ability to create innovative digital products. These goals are achieved through ongoing employee education and competency development programs.

Allo Bank menyelenggarakan program pelatihan yang berkaitan langsung dengan fungsi kerja di unit bisnis dan unit pendukung, termasuk pelatihan dalam memahami berbagai modul yang terkait prosedur dan kebijakan dari Regulator. Bank juga secara rutin telah menyelenggarakan pelatihan APU-PPT & PPPSPM, strategi anti-*fraud* serta penanganan dan penyelesaian pengaduan nasabah agar dapat memberikan wawasan terkini terkait dengan kasus perbankan, prosedur dan kebijakan baru. Bank juga melakukan pemantauan secara berkala terhadap pemenuhan sertifikasi kompetensi yang dipersyaratkan dan pemeliharaan sertifikasi kompetensi sesuai dengan bidangnya, seperti Sertifikasi Manajemen Risiko (SMR), Sistem Pembayaran dan Pengelolaan Uang Rupiah (SPPUR), Sertifikasi Tresuri, serta sertifikasi lain sesuai dengan kebutuhan diantaranya sertifikasi di bidang IT, Kepatuhan, Siber dan Audit.

Seluruh karyawan Allo Bank didorong untuk memiliki integritas yang tinggi, *agility* dalam bekerja dengan berpegang kepada nilai-nilai Inti Bank sebagai pedoman perilaku sehari-hari. Selain itu, seluruh proses pengelolaan SDM di Allo Bank dilandasi pada peraturan perundang-undangan dan *best practices* pada pengelolaan SDM. Komitmen-komitmen tersebut dibuktikan dengan penyelenggaraan pelatihan dan pengembangan SDM yang dilakukan dengan mengacu pada kerangka pelatihan dan pengembangan Standar Kompetensi Kerja Nasional Indonesia (SKKNI) dan Kerangka Kerja Nasional Indonesia (KKNI) yang berlaku untuk Perbankan dan Jasa Keuangan.

Berdasarkan kebijakan pengembangan kompetensi karyawan yang dimiliki, Bank telah menyelenggarakan berbagai program pendidikan dan pelatihan kepada 439 karyawan atau 93% dari jumlah karyawan Bank di sepanjang tahun 2024.

Allo Bank organizes training programs directly related to work functions in business and support units, including training on various modules regarding procedures and policies from regulators. The Bank has also routinely conducted APU-PPT and PPPSPM training, anti-fraud strategies, and customer complaint handling to provide the latest insights into banking cases, new procedures, and policies. Additionally, the Bank periodically monitors the fulfillment and maintenance of required competency certifications, such as Risk Management Certification (SMR), Payment System and Rupiah Money Management (SPPUR), Treasury Certification, and other certifications tailored to the Bank's needs, including certifications in IT, Compliance, Cyber and audit-related fields.

Kebijakan dan Pelaksanaan Rekrutmen Karyawan

Selaras dengan perkembangan industri perbankan dan kebutuhan, Bank senantiasa merekrut SDM yang profesional, berdedikasi tinggi, disiplin, tangguh terhadap tantangan, mudah beradaptasi dan memiliki kompetensi unggul. Dengan proses penerimaan atau rekrutmen karyawan baik yang sudah berpengalaman maupun yang *fresh graduate*, secara profesional sesuai dengan bidang-bidang yang ada dalam perusahaan. Bank melakukan proses rekrutmen mulai dari tahap perencanaan SDM yang merupakan proses identifikasi dan evaluasi untuk menghitung kebutuhan beserta profil SDM untuk mendukung pencapaian tujuan Bank. Proses perencanaan SDM ini dilakukan dengan mempertimbangkan berbagai aspek, seperti pertumbuhan bisnis, persiapan karyawan yang pensiun, karyawan yang promosi/mutasi/rotasi dan *turnover* karyawan.

Faktor integritas dan rekam jejak juga menjadi perhatian penting selain keterampilan dan kompetensi yang dimiliki calon karyawan. Bank secara konsisten menerapkan kebijakan *Know Your Employee* (KYE) pada tahap seleksi dan proses rekrutmen seluruh karyawan.

Employee Recruitment Policy and Implementation

In line with the development of the banking industry and its needs, the Bank consistently recruits professional, highly dedicated, disciplined, resilient, adaptable, and competent human resources. The recruitment process is conducted professionally for both experienced candidates and fresh graduates, ensuring alignment with the company's specific requirements. The Bank's recruitment process begins with the HR planning stage, which involves identifying and evaluating the needs and profiles of human resources to support the Bank's objectives. This HR planning process considers various factors, including business growth, preparation for retiring employees, promotions, transfers/rotations, and employee turnover.

In addition to assessing skills and competencies, the Bank places strong emphasis on integrity and track record of prospective employees. The Know Your Employee (KYE) policy is consistently applied at the selection stage and recruitment process of all employees.

Penilaian Kinerja dan Potensi Karyawan

Bank secara rutin melakukan penilaian (*assessment*) kepada seluruh karyawan dalam rangka menggali potensi dan talenta karyawan yang dapat mendukung pencapaian tujuan yang telah ditetapkan. *Assessment* ini juga berperan sebagai dasar dalam menentukan pengembangan dan pengisian kebutuhan organisasi perusahaan. Dalam melakukan *assessment* tersebut, Bank telah merancang *Objective & Key Result* (OKR), penetapan target, pengukuran realisasi, serta monitoring realisasinya. Penilaian kinerja dan kompetensi karyawan kemudian digunakan sebagai pertimbangan atas remunerasi dan pengembangan karyawan yang dilakukan secara adil dan transparan sesuai dengan ketentuan yang berlaku.

Kesejahteraan Karyawan

Menyadari pentingnya talenta yang andal, loyal, dan kompeten di tengah kondisi bisnis yang dinamis dan persaingan ketat, Bank senantiasa memastikan pengelolaan SDM dapat dilakukan secara tepat. Upaya ini bertujuan untuk memastikan seluruh talenta Bank memiliki kualitas yang baik dan adaptif di segala kondisi sehingga dapat mengakselerasi pencapaian visi dan misi Bank.

Agar dapat mencapai tujuan tersebut, Bank berupaya untuk memastikan terwujudnya kesejahteraan karyawan sebagai bentuk apresiasi terhadap kontribusi karyawan atas pencapaian kinerja Bank. Bank percaya bahwa kesejahteraan karyawan yang memadai mampu mendorong karyawan untuk mengoptimalkan kemampuannya sesuai dengan tugas dan tanggung jawab yang diemban.

Pada pelaksanaannya, program peningkatan kesejahteraan karyawan yang diterapkan oleh Bank, meliputi remunerasi yang kompetitif dan penghargaan sesuai dengan kontribusi yang diberikan kepada Bank. Remunerasi yang diterima oleh karyawan dapat berupa gaji yang telah memenuhi standar upah minimum regional, kesempatan mengikuti pendidikan dan pelatihan, serta berbagai fasilitas penunjang kesejahteraan karyawan lain, seperti jaminan kesehatan, jaminan hari tua dan lain-lain.

Performance and Potential Assessment of Employee

The Bank routinely assesses all employees to explore their potential and talents, which can support the achievement of its established goals. These assessments also serve as a basis for determining employee development and meeting the organization's needs. To conduct these evaluations, the Bank has established Objectives & Key Results (OKRs), target setting, realization measurement, and monitoring mechanisms. Employee performance and competency assessments are then used as key considerations for determining remuneration and development, which are implemented fairly and transparently in accordance with applicable regulations.

Employee Welfare

Recognizing the importance of reliable, loyal, and competent talents amidst dynamic business conditions and intense competition, the Bank ensures that HR management is carried out effectively. This effort aims to ensure that all Bank employees maintain high quality and adaptability in all conditions, enabling them to accelerate the achievement of the Bank's vision and mission.

To achieve these objectives, the Bank is committed to realizing employee welfare as a form of appreciation for their contributions to the Bank's performance. The Bank believes that adequate employee welfare can motivate employees to optimize their abilities in accordance with their assigned tasks and responsibilities.

In practice, the Bank's employee welfare improvement program includes competitive remuneration and awards aligned with employees' contributions to the Bank. Remuneration provided to employees includes salaries that meet regional minimum wage standards, opportunities to participate in education and training, and various other welfare benefits such as health insurance, retirement benefits, and more.

Tinjauan Perekonomian dan Industri

Economic and Industrial Overview

Tinjauan Perekonomian

Sebagaimana dikutip dari Tinjauan Kebijakan Moneter Desember 2024 yang dirilis Bank Indonesia, mengungkapkan bahwa Ketidakpastian pasar keuangan global semakin meningkat disertai dengan risiko perlambatan pertumbuhan ekonomi dunia. Rencana kebijakan perdagangan di Amerika Serikat (AS) melalui kenaikan tarif impor, komoditas, dan cakupan negara yang lebih luas telah menyebabkan risiko peningkatan fragmentasi perdagangan dunia.

Inflasi dunia meningkat dibandingkan prakiraan sebelumnya dipengaruhi oleh gangguan rantai suplai. Di AS, penurunan Fed Funds Rate (FFR) diperkirakan lebih lambat akibat inflasi yang lebih tinggi tersebut. Sementara itu, kebijakan fiskal AS yang lebih ekspansif mendorong yield US Treasury tetap tinggi, baik pada tenor jangka pendek maupun jangka panjang. Penguatan mata uang dolar AS secara luas terus berlanjut disertai berbaliknya preferensi investor global dengan memindahkan alokasi portofolionya kembali ke AS. Hal ini meningkatkan tekanan pelemahan berbagai mata uang dunia dan menahan aliran masuk modal asing ke negara berkembang. Perkembangan ekonomi global yang diikuti dengan tetap tingginya ketidakpastian pasar keuangan global tersebut memerlukan respons kebijakan yang kuat untuk memitigasi dampak negatifnya terhadap perekonomian di negara-negara berkembang, termasuk Indonesia.

Namun demikian, Pertumbuhan ekonomi Indonesia tetap terjaga didukung oleh permintaan domestik. Investasi diperkirakan tumbuh positif pada triwulan IV 2024 ditopang oleh penyelesaian berbagai Proyek Strategis Nasional (PSN) dan investasi swasta didukung insentif dari Pemerintah. Konsumsi rumah tangga diperkirakan tetap tumbuh didorong oleh keyakinan konsumen yang terjaga serta dampak positif pelaksanaan Pilkada di berbagai daerah. Konsumsi Pemerintah lebih tinggi seiring dengan kenaikan aktivitas belanja Pemerintah pada akhir tahun. Sementara itu,

Economic Overview

Uncertainty within global financial markets has been on an uptick, as is evidenced by data from Bank Indonesia's December 2024 Monetary Policy Review. Accompanying this was the risk of slowing global economic growth. The United States' trade policy plan of increasing import tariffs, commodities, and wider country coverage has led to the risk of increased fragmentation of world trade.

Global inflation has meanwhile gone up compared to previous estimates due to supply chain disruptions. In the United States (US), the Fed Funds Rate (FFR) reduction was predicted to be slower due to higher inflation. A more expansive US fiscal policy has pushed US Treasury yields to remain high for both short-term and long-term tenors. The strengthening of the US dollar currency has broadly continued while accompanied by a reversal in global investor preferences that saw them moving their portfolio allocations back to the US. This has increased pressure on the weakening of various world currencies and restrained foreign capital inflows to developing countries. Global economic developments, followed by continued high uncertainty in global financial markets, require a strong policy response to mitigate their negative impact on the economies of developing countries, including Indonesia.

Nevertheless, Indonesia's economic growth has continued to remain stable thanks to the support of domestic demand. Investment grew positively in the fourth quarter of 2024 thanks to the completion of various National Strategic Projects and private investment supported by incentives from the Government. Household consumption continued to grow thanks to maintained consumer confidence and the positive impact of regional elections in various regions. Government consumption is higher in line with an increase in government spending activities at the end of the year. Meanwhile,

ekspor nonmigas diperkirakan melambat dipengaruhi ekonomi global yang belum kuat. Secara sektoral, pertumbuhan juga ditopang terutama oleh Sektor Industri Pengolahan, Konstruksi, serta Perdagangan Besar dan Eceran. Secara keseluruhan tahun, pertumbuhan ekonomi 2024 adalah sebesar 5,03%, dan diperkirakan akan meningkat menjadi 4,8—5,6% pada 2025.

Tinjauan Industri

Bank Indonesia menyatakan bahwa ketahanan sistem keuangan terjaga baik, termasuk pada industri perbankan. Likuiditas perbankan tetap memadai, tecermin dari rasio Alat Likuid terhadap Dana Pihak Ketiga (AL/DPK) pada November 2024 yang tinggi sebesar 25,57%. Rasio kecukupan modal (*Capital Adequacy Ratio*/CAR) perbankan pada Oktober 2024 tercatat sebesar 27,02%, tergolong kuat dalam menyerap risiko dan mendukung pertumbuhan kredit. Sementara itu, rasio kredit bermasalah (*Non-Performing Loan*/NPL) perbankan pada Oktober 2024 terjaga rendah, sebesar 2,20% (bruto) dan 0,77% (neto).

Ketahanan permodalan dan likuiditas perbankan juga didukung oleh pencapaian profitabilitas dan pengelolaan risiko bank yang baik, serta ditopang oleh kemampuan membayar dan profitabilitas korporasi yang terjaga, sebagaimana hasil *stress test* perbankan terkini. Ke depan, Bank Indonesia terus memperkuat sinergi kebijakan bersama KSSK dalam menjaga stabilitas sistem keuangan, termasuk memitigasi berbagai risiko yang dapat mengganggu stabilitas sistem keuangan.

Kinerja transaksi ekonomi dan keuangan digital pada November 2024 tetap tumbuh didukung oleh sistem pembayaran yang aman, lancar, dan andal. Dari sisi nilai besar, transaksi BI-RTGS pada November 2024 meningkat 9,82% (yoy) dengan nominal transaksi sebesar Rp14.969,37 triliun. Dari sisi ritel, volume transaksi BI-FAST pada November 2024 tumbuh 69,90% (yoy) mencapai 338,61 juta transaksi. Akselerasi pembayaran digital berlanjut. Volume transaksi *digital banking* pada bulan yang sama tercatat 2,04 miliar transaksi atau tumbuh sebesar 40,1% (yoy), sementara volume transaksi Uang Elektronik (UE) tumbuh 33,4% (yoy) mencapai 1,44 miliar transaksi.

Volume transaksi QRIS terus tumbuh pesat sebesar 186% (yoy) mencapai 689,07 juta transaksi, dengan jumlah pengguna dan *merchant* masing-masing mencapai 55,02 juta dan 35,1 juta pada November 2024. Sementara itu, volume transaksi pembayaran menggunakan kartu ATM/D pada November 2024 turun 10,9% menjadi 562,75 juta transaksi. Volume transaksi kartu kredit pada bulan yang sama tumbuh 21,1% (yoy) mencapai 41,15 juta transaksi. Dari sisi pengelolaan uang Rupiah, Uang Kartal Yang Diedarkan (UYD) tumbuh 11,9% (yoy) menjadi Rp1.105,8 triliun secara nominal pada akhir November 2024.

non-oil and gas exports slowed down due to the global economy which was not yet strong. In terms of sectors, growth happened mainly within the Manufacturing Industry, and in the Construction, and Wholesale and Retail Trade Sectors. Overall, economic growth in 2024 was recorded at 5.03%, and is expected to increase to 4.8—5.6% in 2025.

Industry Overview

Bank Indonesia has stated that the financial system's resilience has been well maintained, including in the banking industry. Banking liquidity remained adequate, reflected in the high ratio of Liquid Assets to Third Party Funds of 25.57% in November 2024. The capital adequacy ratio (CAR) for banking in October 2024 was recorded at 27.02%. This percentage was considered strong in absorbing risks and supporting credit growth. Meanwhile, the banking non-performing loan (NPL) ratio in October 2024 was maintained at low levels, at 2.20% (gross) and 0.77% (net).

The resilience of banking capital and liquidity was also supported by good bank profitability and risk management. It was also supported by the ability to pay and maintain corporate profitability, as shown in the results of the latest banking stress tests. Going forward, Bank Indonesia will continue to strengthen policy synergy with the Financial System Stability Committee in maintaining financial system stability, including by mitigating various risks that could disrupt financial system stability.

The performance of digital economic and financial transactions in November 2024 continued to grow thanks to the support of a safe, smooth, and reliable payment system. In terms of large value, BI-RTGS transactions in November 2024 increased by 9.82% (yoy) with a nominal transaction of IDR14,969.37 trillion. From the retail side of things, the volume of BI-FAST transactions in November 2024 grew by 69.90% (yoy) to reach 338.61 million transactions. The acceleration of digital payments continued. The volume of digital banking transactions in the same month was recorded at 2.04 billion transactions, which marked a growth of 40.1% (yoy), while the volume of Electronic Money (EU) transactions grew by 33.4% (yoy) to reach 1.44 billion transactions.

The QRIS transaction volume continued to grow rapidly by 186% (yoy) reaching 689.07 million transactions, with the number of users and merchants reached 55.02 million and 35.1 million respectively in November 2024. Meanwhile, the transaction volume of payments using ATM/D cards in November 2024 fell by 10.9% to 562.75 million transactions. The volume of credit card transactions in the same month grew by 21.1% (yoy) to 41.15 million transactions. In terms of Rupiah money management, Circulating Currency grew by 11.9% (yoy) to IDR1,105.8 trillion in nominal terms at the end of November 2024.

Rencana dan Kebijakan Strategis Perusahaan

Company Strategic Plan and Policy

Semakin tingginya tingkat kesadaran masyarakat untuk menyeimbangkan gaya hidup dan kesejahteraan finansial jangka panjang menjadi katalis positif bagi perkembangan bisnis perbankan. Tingginya generasi muda yang berada di usia produktif dan memiliki kesadaran finansial menjadi salah satu faktor yang mendorong pertumbuhan nasabah.

Melihat kondisi ini, Allo Bank selaku bank umum berbasis digital senantiasa memperkuat fondasi bisnis yang dimiliki dan terus berinovasi agar dapat mengoptimalkan momentum pertumbuhan. Dengan didukung kolaborasi ekosistem bisnis yang kuat, pengembangan produk-produk inovatif, serta keamanan yang kuat, Bank berupaya untuk dapat terus hadir menjadi everyday bank yang dapat menjawab segala kebutuhan nasabah.

Di samping itu, Bank telah menetapkan kebijakan strategis dalam mengoptimalkan pertumbuhan bisnis, diantaranya dengan menetapkan langkah-langkah strategis sebagai berikut:

1. Penetrasi pasar berdasarkan model bisnis Hibrida (*Hybrid Business Model*) dalam menawarkan produk dan layanan segmen *Retail* dan *Wholesale* secara terintegrasi untuk menumbuhkan bisnis Bank melalui aktivitas *Acquisition*, *Engagement* dan *Monetization*.
2. Pengembangan layanan digital untuk mencapai portofolio aset dan liabilitas yang berimbang dan berkualitas antara segmen *Retail* dan *Wholesale*.
3. Penguatan kapabilitas *Ecosystem Banking* dalam rangka kolaborasi yang intensif dengan mitra strategis untuk meningkatkan nilai layanan finansial dan daya saing Bank.
4. Optimalisasi kapabilitas *data analytics* dan *Artificial Intelligence* (AI) untuk menghasilkan *Customer Insight* yang efektif dan manajemen risiko yang efisien dalam memberikan layanan finansial yang kontekstual kepada nasabah.
5. Penguatan sistem manajemen layanan yang didukung oleh teknologi sesuai standar *best practice IT Service Management* (ITSM).
6. Pengembangan talenta DIGITAL untuk mendukung model bisnis Hibrida.
7. Penguatan *Good Corporate Governance* yang terintegrasi dan berkelanjutan pada proses bisnis dan operasional sebagai komitmen Bank untuk mendukung prinsip-prinsip *Environmental, Social, and Governance* (ESG).

Increased levels of public awareness for balancing lifestyles and long-term financial well-being serves as a positive catalyst for the development of banking as a business. The high number of young people who are of productive age and have financial awareness is one of the factors that has driven customer growth.

Allo Bank, as a digital-based conventional bank, sees these conditions and has always strengthened the foundation of its business and continues to innovate in order to optimize growth momentum. With the support of its strong business ecosystem collaboration, its development of innovative products, and its strong security, the Bank is working to continue to be present as an everyday bank that can answer all customer needs.

In addition, the Bank has also established a strategic policy for optimizing business growth, including by establishing the following strategic steps:

1. Market penetration based on a Hybrid Business Model in offering integrated Retail and Wholesale segment products and services to grow the Bank's business through Acquisition, Engagement and Monetization activities.
2. Development of digital services to achieve a balanced and quality assets and liabilities portfolio between the Retail and Wholesale segments.
3. Strengthening Ecosystem Banking capabilities in the context of intensive collaboration with strategic partners to increase the value of financial services and the Bank's competitiveness.
4. Optimizing data analytics and Artificial Intelligence (AI) capabilities to produce effective Customer Insight and efficient risk management in providing contextual financial services to customers.
5. Strengthening the service management system supported by technology according to IT Service Management (ITSM) best practice standards.
6. Developing DIGITAL talent to support a Hybrid business model.
7. Strengthening integrated and sustainable Good Corporate Governance in business and operational processes as part of the Bank's commitment to supporting the principles of Environmental, Social, and Governance (ESG).

Tinjauan Operasi Per Kegiatan Usaha

Operational Review Per Business Activities

Berdasarkan Anggaran Dasar terakhir, Allo Bank menjalankan kegiatan usaha sebagai bank umum dengan pendekatan produk dan layanan perbankan berbasis digital. Sesuai dengan pasal 3 Anggaran Dasar mengenai Maksud dan Tujuan serta Kegiatan Usaha, Bank mengelompokkan kinerja operasionalnya ke dalam 2 (dua) jenis kegiatan berdasarkan produk dan layanan yang dimiliki, yakni kegiatan menghimpun dana dari masyarakat dalam bentuk simpanan (Produk Simpanan) dan kegiatan menyalurkan dana dalam bentuk kredit (Produk Kredit). Adapun kinerja dan profitabilitas masing-masing jenis kegiatan usaha Bank diuraikan sebagai berikut.

Produk Kredit

Bank memiliki dua mesin pertumbuhan bisnis yaitu segmen Retail Banking dan Wholesale Banking. Dalam segmen Retail Banking, Bank berfokus dalam menyalurkan pinjaman secara digital kepada konsumen retail yang terdiri dari 2 (dua) produk, yaitu *Paylater* dan Pinjaman Dana Tunai (*Instant Cash*) dengan proses pengajuan yang dilakukan melalui mobile app Allo Bank. Keputusan kredit dapat dilakukan secara instan sehingga mempermudah nasabah untuk melakukan transaksi menggunakan *paylater* atau mendapatkan dana pinjaman untuk berbagai kebutuhan. Dalam segmen Wholesale Banking, Bank menyalurkan kredit wholesale kepada nasabah korporasi yang memiliki reputasi dan kualitas baik yang bertujuan untuk pembiayaan modal kerja, investasi dan penjaminan.

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) merupakan dasar penetapan suku bunga kredit yang akan dikenakan kepada nasabah. Allo Bank telah mempublikasikan SBDK dalam mata uang Rupiah sesuai dengan Peraturan Otoritas Jasa Keuangan (OJK) No. 37/POJK.03/2019 tentang Transparansi dan Publikasi Laporan Bank serta Surat Edaran OJK No. 9/SEOJK.03/2020 tentang Transparansi dan Publikasi Laporan Bank Umum Konvensional yang mengatur mengenai transparansi informasi produk bank dan penggunaan data pribadi nasabah.

Based on the latest Articles of Association, Allo Bank carries out business activities as a conventional bank with a digital-based banking product and service approach. In accordance with Article 3 of the Articles of Association concerning the Purpose and Objectives and Business Activities, the Bank groups its operational performance into 2 (two) types of activities based on the products and services it has, namely activities to collect funds from the public in the form of savings (Savings Products) and activities to distribute funds in the form of credit (Credit Products). The performance and profitability of each type of Bank business activity are described as follows.

Lending Products

The Bank has two business engines, namely the Retail Banking and Wholesale Banking segments. In the Retail Banking segment, the Bank focuses on distributing digital loans to retail consumers consisting of 2 (two) products, namely *Paylater* and Cash Loans (*Instant Cash*) with the application process carried out through the Allo Bank mobile app. Credit decisions can be made instantly, making it easier for customers to make transactions using *paylater* or get loan funds for various needs. In the Wholesale Banking segment, the Bank distributes wholesale credit to corporate customers with a good reputation and quality for the purpose of financing working capital, investment and guarantees.

Basic Lending Rate

The Basic Lending Rate (SBDK) is the basis for determining the credit interest rate that will be charged to customers. Allo Bank has published its SBDK in Rupiah currency in accordance with Financial Services Authority (OJK) Regulation No. 37/POJK.03/2019 concerning Transparency and Publication of Bank Reports, as well as in accordance with OJK Circular Letter No. 9/SEOJK.03/2020 concerning Transparency and Publication of Conventional Commercial Bank Reports, which regulates the transparency of bank product information and the use of customer personal data.

SBDK yang dipublikasikan oleh Bank belum memperhitungkan komponen estimasi premi risiko mengingat besarnya akan disesuaikan dari penilaian Bank atas risiko masing-masing debitur atau kelompok debitur sehingga besaran suku bunga kredit yang dikenakan belum tentu sama dengan SBDK. Bank senantiasa meninjau dan memperbaharui SBDK sesuai dengan pergerakan suku bunga acuan *BI 7-day Reverse Repo Rate* (BI7DRR).

Bank mengelompokkan SBDK menjadi 4 (empat) kelompok berdasarkan segmentasi kredit, yaitu Kredit Korporasi, Kredit Ritel, Kredit Mikro, dan Kredit Konsumsi. Seluruh informasi yang lebih rinci mengenai SBDK yang berlaku dapat dilihat pada publikasi di setiap kantor Bank dan/atau situs web resmi Allo Bank di www.allobank.com.

The SBDK published by the Bank has not taken into account the estimated risk premium component. This is due to the fact that the amount will be adjusted from the Bank's assessment of the risk of each debtor or group of debtors so that the amount of credit interest charged is not necessarily the same as the SBDK. The Bank continuously reviews and updates its SBDK in accordance with the movement of the BI 7-day Reverse Repo Rate (BI7DRR) benchmark interest rate.

The Bank groups its SBDK into 4 (four) groups based on credit segmentation, specifically, Corporate Credit, Retail Credit, Micro Credit, and Consumer Credit. More detailed information regarding applicable SBDK can be seen in the publications at each Bank office and/or the official Allo Bank website at www.allobank.com.

Kinerja Produk Kredit

Pada tahun 2024, kinerja kredit tercatat sebesar Rp 7,48 triliun, mengalami peningkatan 1,2% dari tahun 2023 yang sebesar Rp7,39 triliun. Hal ini terutama disebabkan oleh peningkatan kredit yang disalurkan, terutama untuk segmen Retail Banking yang tumbuh pesat.

Lending Product Performance

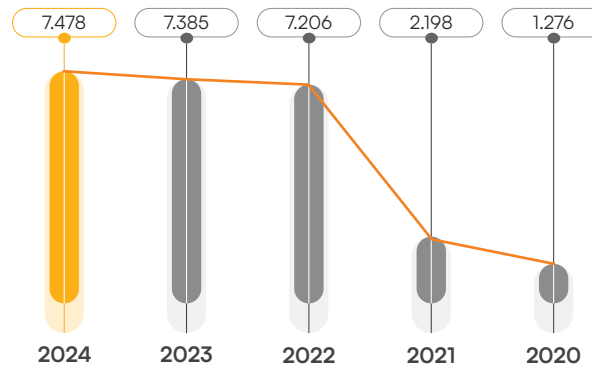

In 2024, loan performance was recorded at IDR 7.48 trillion, an increase of 1.2% from 2023 which was IDR 7.39 trillion. This was mainly due to an increase in credit disbursed, especially for the rapidly growing Retail Banking segment.

Pendapatan Bunga Bersih

Pada tahun 2024, Bank membukukan pendapatan bunga bersih sebesar Rp1,118 triliun, meningkat Rp80,7 miliar atau setara dengan 7,79.% dibanding tahun 2023 yang sebesar Rp1,04 triliun. Pendapatan bunga bersih utamanya dikontribusi oleh peningkatan pendapatan bunga dari kredit retail selain dari kredit wholesale.

Laba Sebelum Pajak

Bank membukukan laba sebelum pajak sebesar Rp599 miliar di tahun 2024, meningkat Rp 23,3 miliar atau 4,04% dibanding tahun sebelumnya sebesar Rp575 miliar. Peningkatan tersebut terutama disebabkan adanya peningkatan kredit dari segmen Retail.

Laba Setelah Pajak

Per 31 Desember 2024, Bank membukukan laba setelah pajak sebesar Rp467 miliar, meningkat Rp22,5 miliar atau 5,07% jika dibandingkan dengan tahun 2023 yang sebesar Rp445 miliar. Peningkatan tersebut terutama disebabkan adanya peningkatan kredit dari segmen Retail.

Penghasilan Komprehensif Tahun Berjalan

Penghasilan komprehensif dihitung dengan menambah keuntungan dari perubahan nilai atas instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain-neto dikurangi pengukuran kembali liabilitas imbalan pasca kerja-neto. Di tahun 2024, jumlah penghasilan komprehensif tahun berjalan adalah sebesar Rp381 miliar, mengalami penurunan Rp103,2 miliar atau 21,3% dibanding tahun sebelumnya sebesar Rp484 miliar. Hal ini disebabkan adanya Perubahan keuntungan yang belum direalisasi atas efek-efek yang diklasifikasikan sebagai nilai wajar melalui pendapatan komprehensif lain

Laba Per Saham Dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang tersedia bagi pemegang saham dengan rata-rata tertimbang jumlah saham biasa yang beredar pada tahun bersangkutan. Di tahun 2024, Bank membukukan laba per saham dasar sebesar Rp21,5. atau meningkat sebesar 5,07% dari tahun 2023 Rp20,46. Hal ini sejalan dengan peningkatan Laba Setelah Pajak didorong peningkatan kredit, terutama dari segmen Retail.

Net Interest Income

In 2024, the Bank recorded net interest income of Rp1,118 trillion, an increase of Rp80.7 billion or equivalent to 7.79% compared to 2023 which was Rp1.04 trillion. Net interest income was mainly contributed by an increase in interest income from retail loans other than wholesale loans.

Profit Before Tax

The bank posted a profit before tax of Rp599 billion in 2024, an increase of Rp23.3 billion or 4.04% compared to the previous year of Rp575 billion. The increase was mainly due to an increase in credit from the Retail segment.

Profit After Tax

As of December 31, 2024, the Bank posted a profit after tax of Rp467 billion, an increase of Rp22.5 billion or 5.07% compared to 2023 which was Rp445 billion. The increase/decrease was mainly due to an increase in credit from the Retail segment.

Comprehensive Income for the Year

Comprehensive income is calculated by adding the gain from changes in the value of debt instruments measured at fair value through other comprehensive income (net) minus the remeasurement of post-employment benefit liabilities (net). In 2024, the amount of comprehensive income for the year was IDR381 billion. This marked an increase/decrease of IDR103.2 billion or 21.3% compared to the previous year's IDR484 billion. This was the result of unrealized gain from changes in fair values through other comprehensive income in securities.

Basic Earnings Per Share

Basic earnings per share is calculated by dividing current year profit available to shareholders by the weighted average number of ordinary shares outstanding during the year. In 2024, the Bank recorded basic earnings per share of Rp21.5. or an increase of 5.07% from Rp20.46 in 2023. This is in line with the increase in Profit After Tax driven by increased credit, especially from the Retail segment.

Di tahun 2024, Bank membukukan jumlah kas dan setara kas akhir tahun sebesar Rp2,94 triliun, meningkat Rp1,09 triliun atau 58,77% jika dibandingkan dengan tahun 2023 yang sebesar Rp1,85 triliun. Peningkatan ini terutama berasal dari peningkatan arus kas dari aktivitas investasi.

In 2024, the Bank recorded cash and cash equivalents at the end of the year at IDR2,94 trillion. This marked an increase of IDR1,09 trillion or 58,77% compared to the previous year's IDR1.85 trillion. This increase was mainly due to increased cash flow from investing activities.

Arus Kas dari Aktivitas Operasi

Hingga akhir tahun 2024, Bank mencatatkan kas bersih yang digunakan untuk aktivitas operasi sebesar Rp871,7 miliar, turun Rp1,48 triliun atau 62,88% jika dibandingkan dengan tahun 2023 sebesar Rp2,35 triliun. Hal ini dipengaruhi oleh realisasi kredit pada tahun 2024 lebih besar dibandingkan realisasi kredit pada tahun 2023, dan peningkatan sumber dana dari transaksi efek-efek yang dijual dengan janji dibeli kembali (repo) dan peningkatan dana pihak ketiga.

Cash Flow from Operating Activities

As of the end of 2024, the Bank recorded net cash used for operating activities of Rp871.7 billion, down Rp1.48 trillion or 62.88% compared to 2023 of Rp2.35 trillion. This was influenced by the realization of credit in 2024 being greater than the realization of credit in 2023, and an increase in funding sources from securities transactions sold under repurchase agreements (repo) and an increase in third party funds.

Arus Kas dari Aktivitas Investasi

Di tahun 2024, Bank mencatatkan kas bersih yang digunakan untuk aktivitas investasi sebesar Rp231,5 miliar, meningkat Rp1,59 triliun atau 117,08% dari pengeluaran tahun 2023 yang sebesar Rp1,36 triliun. Hal ini dipengaruhi oleh pendapatan dari penjualan aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain di tahun tersebut

Cash Flow from Investing Activities

In 2024, the Bank recorded net cash used for investment activities of Rp231.5 billion, an increase of Rp1.59 trillion or 117.08% from the 2023 expenditure of Rp1.36 trillion. This was influenced by income from the sale of financial assets measured at fair value through other comprehensive income in that year.

Arus Kas dari Aktivitas Pendanaan

Arus kas yang digunakan untuk aktivitas pendanaan Bank tercatat sebesar Rp13,98 miliar, mengalami peningkatan Rp692 juta atau 5,21% dibanding tahun 2023 yang sebesar Rp13,29 miliar. Secara garis besar hal ini masih sama dan mencerminkan tidak terdapat penambahan modal secara inorganik yang dilakukan pada tahun 2024.

Cash Flow from Funding Activities

Cash flow used for the Bank's financing activities was recorded at IDR13.98 billion, an increase of IDR692 million or 5.21% compared to 2023 which was IDR13.29 billion. In general, this is still the same and reflects that there was no inorganic capital addition made in 2024.

Kemampuan Membayar Utang dan Tingkat Kolektibilitas Piutang

Solvency and Receivables Collectability Rate

Kemampuan Membayar Utang

Bank menggunakan rasio likuiditas, rasio solvabilitas, dan rasio rentabilitas untuk mengukur kemampuannya dalam memenuhi seluruh kewajibannya, baik jangka pendek maupun jangka panjang. Rasio-rasio tersebut menggambarkan kemampuan Bank dalam memenuhi seluruh kewajiban yang akan jatuh tempo secara tepat waktu, baik terhadap pembayaran pokok utang maupun beban bunga.

Rasio Likuiditas

Bank menggunakan rasio likuiditas untuk mengukur kemampuannya dalam memenuhi kewajiban jangka pendek. Rasio likuiditas sendiri terdiri dari rasio kas dan setara kas terhadap liabilitas, di mana rasio tersebut tercatat sebesar 43,80% di tahun 2024 atau mengalami peningkatan jika dibandingkan dengan tahun 2023 yang sebesar 31,60% yang menggambarkan kondisi likuiditas Bank yang terjaga dengan baik.

Rasio Solvabilitas

Bank menggunakan rasio solvabilitas untuk mengukur kemampuannya dalam memenuhi seluruh kewajiban, baik jangka pendek maupun jangka panjang. Rasio solvabilitas ini tercermin dari Rasio Permodalan atau *Capital Adequacy Ratio* (CAR) yang tercatat berada di posisi 82,58% pada tahun 2024. Capaian ini juga menunjukkan bahwa rasio permodalan Bank telah melebihi ketentuan batas minimal yang diterapkan oleh regulator. Rasio ini masih sangat memadai dan dinilai mampu menyerap potensi kerugian yang dihadapi.

Solvency

The Bank uses liquidity ratios, solvency ratios, and profitability ratios to measure its ability to meet all of its short-term and long-term obligations. These ratios describe the Bank's ability to meet all maturing obligations on time, both for principal payments and interest expenses.

Liquidity Ratios

The Bank uses liquidity ratios to measure its ability to meet short-term obligations. The liquidity ratio itself consists of the ratio of cash and cash equivalents to liabilities. The ratio was recorded at 43.80% in 2024 or increased compared to 2023 which was 31.60% which illustrates the Bank's well-maintained liquidity conditions.

Solvency Ratio

Banks use solvency ratios to measure their ability to meet all obligations, both short-term and long-term. This solvency ratio is reflected in the Capital Adequacy Ratio (CAR) which was recorded at 82.58% in 2024. This achievement also shows that the Bank's capital ratio has exceeded the minimum limit set by the regulator. This ratio is still very adequate and is considered capable of absorbing potential losses faced.

Rasio Rentabilitas

Bank mengukur kemampuannya dalam menghasilkan laba pada periode tertentu dengan menggunakan rasio rentabilitas. Rentabilitas tercermin dari Rasio Imbal Hasil atas Aset (ROA) dan Rasio Imbal Hasil atas Ekuitas (ROE). Di tahun 2024, ROA dan ROE Bank masing-masing tercatat sebesar 4,48% dan 6,78%, di mana capaian tersebut mengalami peningkatan jika dibanding tahun 2023 yang sebesar 4,76% dan 6,70% selaras dengan peningkatan kinerja keseluruhan dan laba bersih setelah pajak.

Tingkat Kolektibilitas Piutang

Bank mengukur kemampuannya dalam menagih piutang yang dimiliki melalui rasio kualitas aset Bank yang terdiri dari Rasio NPL Gross dan NPL Net. Dalam mengukur rasio tersebut, semakin kecil nilai rasionya, maka menunjukkan semakin baik pula kemampuan Bank dalam mengumpulkan piutangnya.

Di tahun 2024, NPL Gross Bank tercatat sebesar 0,81% atau mengalami peningkatan dari tahun 2023 yang sebesar 0,08%. Sementara, NPL Net Bank di tahun 2024 adalah sebesar 0,40%, meningkat dari tahun sebelumnya yang sebesar 0,05%. Kenaikan ini mencerminkan peningkatan kredit segmen Retail melalui aplikasi digital, namun secara keseluruhan kualitas kredit tetap terjaga dengan baik.

Dampak Adanya Perubahan Kinerja Bank

Secara keseluruhan, bisnis inti Allo Bank tetap kuat seperti tercermin pada perolehan Total Pendapatan Bank sebesar Rp1,440 triliun selama tahun 2024, dimana pencapaian tersebut mengalami peningkatan sebesar 25% dibanding tahun 2023 yang tercatat sebesar Rp1,153 triliun, didorong oleh peningkatan yang sehat pada pendapatan bunga bersih dan pendapatan operasional lainnya.

Dari sisi Biaya Operasional, sebagai Bank umum berbasis digital Allo Bank banyak melakukan pengembangan Teknologi Informasi untuk mendukung strategi pengembangan produk, layanan dan customer engagement/experience (Good Costs). Di samping itu, Bank juga terus mengoptimalkan program marketing dan promosi untuk akuisisi dan engagement untuk meningkatkan top of mind Bank di mata nasabah. Dengan demikian, biaya operasional mengalami kenaikan 36% dari Rp548 miliar pada tahun 2023 menjadi Rp743 miliar pada tahun 2024.

Didorong faktor-faktor di atas, laba tahun berjalan tercatat sebesar Rp467 miliar per tahun 2024, meningkat sedikit sebesar 5% dibanding tahun 2023 yang tercatat sebesar Rp445 miliar.

Bank senantiasa berinisiatif untuk menyusun strategi, target jangka pendek dan jangka panjang dalam rangka mengembangkan skala bisnis Bank sebagai tolak ukur keberhasilan performa dengan menciptakan keunggulan-keunggulan kompetitif untuk menjadi bank umum berbasis digital terdepan

Profitability Ratio

The Bank measures its ability to generate profits in a certain period using the profitability ratio. Profitability is reflected in the Return on Assets (ROA) Ratio and Return on Equity (ROE) Ratio. In 2024, the Bank's ROA and ROE were recorded at 4.48% and 6.78% respectively, where this achievement increased compared to 2023 which was 4.76% and 6.70% in line with the increase in overall performance and net profit after tax.

Receivables Collectibility Ratio

The Bank measures its ability to collect receivables through the Bank's asset quality ratio consisting of its Gross NPL Ratio and Net NPL. In measuring this ratio, the smaller the ratio value, the better the Bank's ability to collect its receivables.

In 2024, the Bank's Gross NPL was recorded at 0.81% or an increase from 2023 which was 0.08%. Meanwhile, the Bank's Net NPL in 2024 was 0.40%, an increase from the previous year which was 0.05%. This increase reflects an increase in Retail segment credit through digital applications, but overall credit quality remains well maintained.

Impact of Changes in Bank Performance

Overall, Allo Bank's core business remains strong as reflected in the Bank's Total Income of IDR1,440 trillion during 2024, where this achievement has increased by 25% compared to 2023 which was recorded at IDR1,153 trillion, driven by a healthy increase in net interest income and other operating income.

In terms of Operating Costs, as a digital-based general bank, Allo Bank has carried out a lot of Information Technology development to support product development strategies, services and customer engagement/experience (Good Costs). In addition, the Bank also continues to optimize marketing and promotion programs for acquisition and engagement to increase the Bank's top of mind in the eyes of customers. Thus, operating costs increased by 36% from IDR548 billion in 2023 to IDR743 billion in 2024.

Driven by the above factors, profit for the year was recorded at IDR467 billion per year in 2024, increasing slightly by 5% compared to 2023 which was recorded at IDR445 billion.

The Bank always takes the initiative to develop strategies, short-term and long-term targets in order to develop the Bank's business scale as a benchmark for performance success by creating competitive advantages to become a leading digital-based conventional bank.

Struktur Modal dan Kebijakan Manajemen atas Struktur Modal

Capital Structure and Management Policy on Capital Structure

Kebijakan Struktur Modal

Allo Bank senantiasa mengelola struktur permodalan dengan tujuan untuk memastikan bahwa Bank memiliki modal kuat untuk mendukung strategi yang diterapkan saat ini dan mempertahankan kelangsungan pengembangan di masa mendatang. Kebijakan ini juga bertujuan untuk memenuhi ketentuan kecukupan permodalan yang ditetapkan oleh regulator serta memastikan efisiensi struktur permodalan Bank. Untuk itu, Bank senantiasa melakukan perencanaan struktur modal berdasarkan penilaian dan penelaahan atas kebutuhan permodalan yang dipersyaratkan dan mengkombinasikannya dengan kondisi ekonomi yang terjadi.

Rencana permodalan yang disusun oleh Direksi menjadi bagian dari Rencana Bisnis Bank (RBB) yang selanjutnya disetujui oleh Dewan Komisaris. Rencana permodalan Bank disusun berdasarkan penilaian atas kecukupan kebutuhan permodalan yang dipersyaratkan, rencana pengembangan usaha, serta kebutuhan likuiditas Bank.

Dasar Pemilihan Struktur Modal

Pengelolaan struktur modal Bank senantiasa mengacu pada Peraturan Otoritas Jasa Keuangan (POJK) No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum yang menetapkan struktur modal paling rendah sebesar 9%-14% dari ATMR sesuai dengan Tingkat Profil Risiko. Berdasarkan penilaian internal, Direksi menetapkan Rasio Penyediaan Modal Minimum (KPMM) Bank adalah sebesar 9,90% atau memenuhi ketentuan yang berlaku.

Capital Structure Policy

Allo Bank always manages its capital structure with the aim of ensuring that the Bank has strong capital to support its current strategy and maintain the continuity of future development. This policy also aims to meet capital adequacy requirements set by regulators and to ensure the efficiency of the Bank's capital structure. For this reason, the Bank always plans its capital structure based on an assessment and review of the required capital requirements and combines them with the current economic conditions.

The capital plan prepared by the Board of Directors has become part of the Bank's Business Plan (RBB), which is then approved by the Board of Commissioners. The Bank's capital plan is prepared based on an assessment of the adequacy of required capital requirements, business development plans, and the Bank's liquidity needs.

Basis for Selecting Capital Structure

The management of the Bank's capital structure uses Financial Services Authority Regulation (POJK) No. 11/POJK.03/2016 concerning the Minimum Capital Provision Obligation for Commercial Banks as a reference. It stipulates a minimum capital structure of 9%-14% of Risk Weighted Assets in accordance with the Bank's Risk Profile Level. Based on internal assessments, the Board of Directors has set the Bank's Minimum Capital Provision Ratio (KPMM) at 9,90%, which meets applicable provisions.

Allo Bank juga telah memenuhi kewajiban modal inti minimum sebesar Rp3 triliun sesuai dengan POJK No. 12/POJK.03/2020 tanggal 16 Maret 2020 tentang Konsolidasi Bank Umum. Hal tersebut sejalan dengan masuknya Allo Bank ke dalam Kelompok Bank Berdasarkan Modal Inti 2 (KBMI 2) menyusul dengan *Right Issue* yang dilakukan pada tahun 2022.

Rincian Struktur Modal

Berdasarkan POJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum, struktur permodalan Bank terdiri dari Modal Inti (Tier 1) dan Modal Pelengkap (Tier 2). Struktur permodalan Allo Bank dalam 2 (dua) tahun terakhir yang memperhatikan risiko-risiko terkait dapat dilihat sebagai berikut:

Allo Bank has also met the minimum core capital requirement of IDR3 trillion in accordance with POJK No. 12/POJK.03/2020 dated March 16, 2020 concerning the Consolidation of Commercial Banks. This is in line with Allo Bank's entry into the Core Capital Based Bank Group 2 (KBMI 2) following a *Right Issue* conducted in 2022.

Capital Structure Details

In accordance with POJK No. 11/POJK.03/2016 concerning the Minimum Capital Provision Obligation of Commercial Banks, the Bank's capital structure consists of Core Capital (Tier 1) and Supplementary Capital (Tier 2). Allo Bank's capital structure in the last 2 (two) years that takes into account related risks can be seen detailed below:

Ikatan yang Material untuk Investasi Barang Modal

Material Commitments for Capital Goods Investment

Sampai dengan 31 Desember 2024, Bank tidak memiliki ikatan yang material untuk investasi barang modal. Dengan demikian, tidak terdapat informasi yang berkaitan dengan hal tersebut, seperti nama dari pihak yang melakukan ikatan, tujuan dari perikatan, sumber dana yang disiapkan untuk memenuhi perikatan tersebut, denominasi mata uang dalam ikatan tersebut, dan langkah-langkah yang direncanakan Bank untuk melindungi risiko dari posisi mata uang asing yang terkait.

As of December 31, 2024, the Bank has no material commitments for capital goods investment. As such, this report has no information related to this (such as the name of the party entering into the agreement, the purpose of the agreement, the source of funds prepared to fulfill the agreement, the currency denomination in the agreement, and the steps planned by the Bank to protect the risk from the related foreign currency position).

Realisasi Investasi Barang Modal

Realization of Capital Goods Investment

Jenis dan Nilai Investasi Barang Modal

Bank memandang bahwa investasi barang modal merupakan salah satu hal yang penting dalam mengembangkan bisnis secara jangka panjang. Adapun realisasi investasi barang modal pada tahun 2024 dan 2023 dapat dilihat sebagai berikut:

Type and Value of Capital Goods Investment

The Bank is of the view that capital goods investment serves as one of the important things for developing a long-term business. The realization of capital goods investment in 2024 and 2023 can be seen below:

Uraian Description	2024 (Rp juta) (IDR million)	2023 (Rp juta) (IDR million)	Kenaikan (Penurunan) Increase (Decrease)	
			Nominal (Rp juta) Nominal (IDR million)	Persentase (%) Percentage (%)

Jumlah Total	118.435	93.274	25.161	26,98%

Di tahun 2024, realisasi barang modal yang dilakukan Bank adalah sebesar Rp118,4 miliar, meningkat Rp25,2 miliar atau 26,98% dibanding tahun 2023 yang sebesar Rp93,74 miliar. Peningkatan ini lebih disebabkan oleh realisasi investasi barang modal jenis peralatan kantor.

In 2024, the realization of capital goods carried out by the Bank was IDR118.4 billion, an increase of IDR25.2 billion or 26.98% compared to 2023 which was IDR93.74 billion. This increase was more due to the realization of investment in capital goods in the form of office equipment.

Tujuan Investasi Barang Modal

Secara umum, tujuan utama investasi barang modal yang dilakukan Bank adalah untuk membeli atau menambah aset tetap yang dimiliki oleh Bank guna menunjang kegiatan operasional sehari-hari. Investasi ini diharapkan dapat memenuhi kegiatan operasional sejalan dengan ekspansi bisnis yang berkesinambungan sehingga mampu memberikan nilai tambah bagi Bank di masa mendatang.

Purpose of Capital Goods Investment

In general, the main purpose of capital goods investment carried out by the Bank is to purchase or add fixed assets owned by the Bank to support daily operational activities. This investment is expected to fulfill operational activities in line with sustainable business expansion so as to provide added value to the Bank in the future.

Prospek Usaha

Business Prospects

Sebagaimana dikutip dari Buku Pertemuan tahunan Bank Indonesia 2024 yang dirilis pada 29 November 2024, menjelaskan bahwa proses pemulihan ekonomi Indonesia terus berlanjut pada 2024 dengan pertumbuhan yang tetap baik dan diperkirakan akan lebih tinggi pada 2025 dan 2026. Pertumbuhan ekonomi hingga triwulan 2024 cukup baik didukung oleh permintaan domestik. Investasi tetap membaik, khususnya investasi bangunan sejalan dengan penyelesaian berbagai Proyek Strategis Nasional (PSN). Konsumsi rumah tangga, khususnya kelas menengah ke atas, tetap terjaga. Ekspor nonmigas tumbuh relatif tinggi di tengah perlambatan ekonomi global dan penurunan harga komoditas.

Indonesia's economic recovery process continued in 2024 with good growth that is expected to reach greater heights in 2025 and 2026, as quoted from the Bank Indonesia 2024 Annual Meeting Book released on November 29, 2024. Economic growth until the fourth quarter of 2024 was quite good thanks to domestic demand. Investment continued to improve, especially building investment in line with the completion of various National Strategic Projects. Household consumption, especially within the upper middle class, remained well-maintained. Non-oil and gas exports grew relatively high amid global economic slowdown and falling commodity prices.

Sementara itu, impor meningkat baik untuk kebutuhan ekspor maupun permintaan domestik, dan karenanya menyebabkan penurunan pertumbuhan ekonomi. Pada triwulan IV 2024, pertumbuhan ekonomi diperkirakan tetap baik ditopang terutama oleh kenaikan investasi dan terjaganya konsumsi rumah tangga, serta peningkatan belanja Pemerintah pada akhir tahun.

Secara keseluruhan tahun, pertumbuhan ekonomi 2024 berada pada 5,03% dan diperkirakan akan meningkat lebih tinggi pada 2025 dan 2026 masing-masing dalam kisaran 4,8-5,6% dan 4,9-5,7%. Ke depan, berbagai upaya perlu terus ditempuh untuk mendorong pertumbuhan ekonomi, baik dari sisi permintaan maupun dari sisi penawaran. Untuk itu, Bank Indonesia memperkuat bauran kebijakan untuk mendorong pertumbuhan ekonomi agar lebih tinggi, dan bersinergi erat dengan kebijakan stimulus fiskal Pemerintah. Dari sisi penawaran, kebijakan reformasi struktural perlu terus diperkuat untuk mendorong sektor ekonomi yang dapat menyerap tenaga kerja. Upaya tersebut didukung dengan optimalisasi stimulus kebijakan makroprudensial dan akselerasi digitalisasi transaksi pembayaran yang ditempuh Bank Indonesia.

Di sisi lain, likuiditas perbankan tetap longgar sejalan dengan kebijakan Bank Indonesia, sementara likuiditas perekonomian sesuai dengan aktivitas di sektor riil. Likuiditas dapat diukur jumlahnya di sektor perbankan dan yang beredar di perekonomian. Likuiditas perekonomian biasa diukur dengan jumlah uang beredar, baik dalam arti sempit untuk kebutuhan transaksi konsumsi (Uang Primer, M0) maupun dalam arti luas yang juga termasuk simpanan (Uang Beredar, M1, dan M2). Karenanya, kondisi likuiditas perekonomian akan mencerminkan tingkat pertumbuhan ekonomi secara nominal.

Kondisi likuiditas perekonomian tentunya akan naik apabila pertumbuhan ekonomi riil meningkat. Sementara itu, likuiditas perbankan merupakan aktivitas likuid yang belum dipergunakan dalam penyaluran kredit, yang disimpan dalam bentuk kas, dan diinvestasikan dalam surat-surat berharga sebagai bagian dari strategi portofolio aset bank. Ini biasa diukur dengan rasio Alat Likuid/Dana Pihak Ketiga (AL/DPK), Liquidity Coverage Ratio (LCR), dan Net Stable Funding Ratio (NSFR). Alat likuid dimaksud berasal dari akumulasi pengumpulan dana baik dari DPK, penerbitan surat berharga, dan pinjaman luar negeri. Sebagai akumulasi dana yang belum disalurkan ke kredit, maka ukurannya dapat pula dengan rasio Loan-to-Deposit (LDR) dan tidak tepat dengan pertumbuhan DPK. Kondisi likuiditas bank per bank tentunya ditentukan oleh seberapa bank yang bersangkutan prudent dalam pengelolaan likuiditas dan penyaluran kreditnya.

Faktor-faktor eksternal yang menjadi evaluasi manajemen Allo Bank meliputi kondisi politik, ekonomi, sosial, teknologi, hukum, ekologi dan etika. Selain itu, Bank juga melakukan evaluasi terhadap ketentuan baik yang telah berlaku maupun akan berlaku dari pemerintah dan regulator. Faktor dinamika pasar berupa perubahan kebutuhan nasabah serta perkembangan industri perbankan tentunya menjadi salah satu fokus Bank untuk dapat menyampaikan produk dan layanan secara tepat kepada target pasar yang ditentukan.

Meanwhile, imports increased both for export needs and domestic demand. This caused a decline in economic growth. In the fourth quarter of 2024, economic growth remained good thanks to the support of increased investment and maintained household consumption, as well as increased government spending at the end of the year.

Overall, economic growth in 2024 is at 5.03% and is expected to increase higher in 2025 and 2026 in the range of 4.8-5.6% and 4.9-5.7% respectively. Going forward, various efforts need to be continuously taken to encourage economic growth, both from the demand side and from the supply side. To that end, Bank Indonesia is strengthening its policy mix to encourage higher economic growth, and in close synergy with the Government's fiscal stimulus policy. From the supply side, structural reform policies need to be continuously strengthened to encourage economic sectors that can absorb labor. These efforts are supported by the optimization of macroprudential policy stimulus and the acceleration of digitalization of payment transactions taken by Bank Indonesia.

On the other hand, banking liquidity remained loose in line with Bank Indonesia's policy, while economic liquidity was in accordance with activities in the real sector. Liquidity can be measured in terms of the amount in the banking sector and that circulating in the economy. Economic liquidity is usually measured by the amount of money in circulation, both in the narrow sense for consumption transaction needs (Primary Money, M0) and in the broad sense which also includes savings (Money in Circulation, M1, and M2). As a result, the condition of economic liquidity will reflect the level of economic growth in nominal terms.

The condition of economic liquidity will certainly increase if real economic growth increases. Meanwhile, banking liquidity is a liquid activity that has not been used in credit distribution, which is stored in cash, and invested in securities as part of a bank's asset portfolio strategy. This is usually measured by the Liquid Assets/Third Party Funds (AL/DPK) ratio, Liquidity Coverage Ratio (LCR), and Net Stable Funding Ratio (NSFR). The liquid assets in question come from the accumulation of funds collected from Third Party Funds, the issuance of securities, and foreign loans. As an accumulation of funds that have not been channeled to credit, its measurement can also be done by the Loan-to-Deposit (LDR) ratio and is not exactly the same as Third Party Fund growth. The liquidity conditions of each bank are of course determined by how prudent the bank in question is in managing its liquidity and distributing credit.

External factors that are evaluated by Allo Bank management include political, economic, social, technological, legal, ecological and ethical conditions. In addition, the Bank also evaluates the provisions that have been in effect or will be in effect from the government and regulators. Market dynamics factors in the form of changes in customer needs and the development of the banking industry are certainly one of the Bank's focuses that need to be taken into consideration to be able to deliver products and services appropriately to the specified target market.

Berdasarkan faktor-faktor yang dievaluasi tersebut di atas, Bank merumuskan arah kebijakan Bank terkait dengan langkah-langkah bisnis yang bersifat strategis dengan pendekatan bisnis berbasis digital. Kebutuhan nasabah segmen *Retail* dan *Wholesale* dalam bertransaksi pada era digital adalah prioritas utama Bank dalam menciptakan produk dan layanan berbasis digital yang inovatif dan memberikan kemanfaatan ekonomi tidak hanya untuk Bank tetapi juga nasabah.

Di tahun 2025, Bank akan menjalankan model bisnis Hibrida dimana aktivitas segmen *Retail* dan *Wholesale* akan berjalan secara beriringan dan terintegrasi untuk mendukung pertumbuhan bisnis Bank yang optimal. Bank akan mengutamakan aktivitas berbasis digital (*digital first*) dan integrasi layanan finansial dengan ekosistem mitra (*ecosystem first*) dalam rangka menjalankan bisnis Bank. Bank akan tetap menerapkan 3 pilar strategi yaitu *Acquisition*, *Engagement* dan *Monetization* dalam pengembangan aktivitas maupun produk Bank. Bank akan melakukan optimalisasi kapabilitas *data analytics* dan *Artificial Intelligence* (AI) untuk menghasilkan *Customer Insight* yang efektif dan manajemen risiko yang efisien. Selain itu, Bank juga akan senantiasa mengembangkan Sumber Daya Manusia dan memperkuat *Good Corporate Governance* secara terintegrasi dan berkesinambungan.

The Bank formulates the direction of the Bank's policy related to strategic business steps with a digital-based business approach by making use of the aforementioned factors. The needs of Retail and Wholesale segment customers in transacting in the digital era serve as the Bank's main priority in creating innovative digital-based products and services that provide economic benefits not only for the Bank but also for customers.

In 2025, the Bank will run a Hybrid business model where Retail and Wholesale segment activities will run side by side and be integrated to support optimal Bank business growth. The Bank will prioritize digital-based activities (*digital first*) and integration of financial services with partner ecosystems (*ecosystem first*) in order to run the Bank's business. The Bank will continue to implement 3 pillars of strategy, specifically, *Acquisition*, *Engagement* and *Monetization* in developing the Bank's activities and products. The Bank will optimize data analytics and Artificial Intelligence (AI) capabilities to produce effective Customer Insight and efficient risk management. In addition, the Bank will also continue to develop Human Resources and strengthen Good Corporate Governance in an integrated and sustainable manner.

Aspek Pemasaran Marketing Aspects

Strategi Pemasaran

Seiring dengan semakin berkembang dan ketatnya persaingan di industri perbankan, khususnya bank umum berbasis digital membuat Allo Bank terus mengoptimalkan strategi guna mengoptimalkan kinerja Bank. Hal tersebut dilakukan dengan mengembangkan ekosistem utama sebagai fokus Bank agar dapat mewujudkan tujuan bisnis dan dapat memberikan nilai tambah kepada nasabah maupun pemangku kepentingan lainnya. Bank terus memperkuat fondasi bisnisnya selaku Bank umum berbasis digital dengan memperkuat sinergi dengan ekosistem CT Corpora dan mitra strategis lainnya. Bank juga memposisikan diri sebagai bank umum berbasis digital yang berfokus untuk memberikan produk dan layanan terbaik secara daring dengan jumlah kantor cabang yang terbatas sehingga para nasabah dapat mengakses layanan perbankan dengan mudah.

Terkait hal ini, Bank terus mengembangkan strategi pemasaran, promosi produk-produk baru dan corporate branding yang baik agar persepsi Allo Bank sebagai sebuah bank yang sehat, credible dan dapat dipercaya masyarakat dapat terus meningkat.

Marketing Strategy

Along with the increasingly growing and tight competition in the banking industry, especially digital-based conventional banks, Allo Bank continues to optimize strategies to optimize the Bank's performance. This is done by developing the main ecosystem as the Bank's focus in order to realize business goals and provide added value to customers and other stakeholders. The Bank continues to strengthen its business foundation as a digital-based commercial bank by strengthening synergy with the CT Corpora ecosystem and other strategic partners. The Bank also positions itself as a digital-based commercial bank that focuses on providing the best products and services online with a limited number of branch offices so that customers can access banking services easily.

In this regard, the Bank continues to develop marketing strategies, promotions of new products and good corporate branding so that the perception of Allo Bank as a healthy, credible and trusted bank by the public can continue to increase.

Pangsa Pasar

Kebutuhan nasabah dalam bertransaksi pada era digital adalah prioritas utama Bank dalam menciptakan produk & layanan berbasis digital yang inovatif dan memberikan kemanfaatan ekonomi tidak hanya untuk Bank tetapi juga nasabah. Bank senantiasa berinisiatif untuk menyusun strategi, target jangka pendek dan jangka panjang dalam rangka mengembangkan skala bisnis Bank sebagai tolak ukur keberhasilan performa dengan menciptakan keunggulan kompetitif untuk menjadi bank umum berbasis digital terdepan.

Dalam kondisi ekonomi yang menantang ini industri perbankan diharapkan untuk berkembang sebagai salah satu fondasi untuk menjaga ketahanan perekonomian nasional. Salah satu cara yang secara umum dilakukan oleh industri perbankan adalah melakukan digitalisasi layanan perbankan. Hal ini dilakukan untuk meningkatkan akses terhadap layanan perbankan kepada masyarakat yang termasuk kriteria bankable population namun tidak memiliki akun pada bank. Potensi peningkatan layanan perbankan secara digital masih cukup tinggi. Menurut laporan Indonesia e-Conomy SEA 2022 yang disusun oleh Google, Temasek and Bain, layanan pembayaran secara digital akan tumbuh mencapai 421 miliar USD dengan Compound Annual Growth Rate ("CAGR") sebesar 17%, pinjaman digital akan tumbuh mencapai 16 miliar USD pada tahun 2025 dengan CAGR sebesar 51%, serta layanan remitansi secara digital akan tumbuh mencapai 3 miliar USD dengan CAGR sebesar 26% pada tahun 2025.

Market Share

Customer needs in transacting in the digital era are the Bank's main priority in creating innovative digital-based products & services that provide economic benefits not only for the Bank but also for customers. The Bank always takes the initiative to formulate strategies, short-term and long-term targets in order to develop the Bank's business scale as a benchmark for successful performance by creating competitive advantages to become a leading digital-based general bank. In these challenging economic conditions, the banking industry is expected to develop as one of the foundations for maintaining the resilience of the national economy.

One way that is generally done by the banking industry is to digitize banking services. This is done to increase access to banking services to people who are included in the bankable population criteria but do not have a bank account. The potential for increasing digital banking services is still quite high. According to the Indonesia e-Conomy SEA 2022 report compiled by Google, Temasek and Bain, digital payment services will grow to reach 421 billion USD with a Compound Annual Growth Rate ("CAGR") of 17%, digital loans will grow to 16 billion USD in 2025 with a CAGR of 51%, and digital remittance services will grow to 3 billion USD with a CAGR of 26% in 2025.

Kebijakan Dividen dan Pembagiannya

Dividend Policy and Distribution

Kebijakan Pembagian Dividen

Pembayaran dividen yang dilakukan oleh Bank dilakukan sesuai dengan Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas dan kebijakan internal mengenai pembagian dividen. Mengacu pada Pasal 71 ayat 3 Undang-Undang No. 40 Tahun 2007, Anggaran Dasar Bank dan kebijakan internal, Bank dapat membagikan dividen kepada pemegang saham apabila Bank memiliki saldo laba yang positif dan sesuai dengan kemampuan keuangan perusahaan, berdasarkan ketentuan yang berlaku. Rencana pembagian dividen didasarkan atas pemenuhan hak pemegang saham dengan mengutamakan kepentingan Bank tanpa mengabaikan sejumlah faktor, seperti tingkat kesehatan keuangan, tingkat kecukupan modal, serta kebutuhan dana untuk ekspansi usaha tanpa mengurangi hak dari RUPS untuk menentukan lain sesuai dengan ketentuan Anggaran Dasar.

Dividend Distribution Policy

The Bank's dividend payments are made in accordance with Law No. 40 of 2007 concerning Limited Liability Companies and internal policies regarding dividend distribution. With reference to Article 71 Paragraph 3 of Law No. 40 of 2007, and with reference to the Bank's Articles of Association and internal policies, the Bank may distribute dividends to shareholders if the Bank has a positive profit balance and is in accordance with the company's financial capabilities on the basis of applicable provisions. The dividend distribution plan is based on the fulfillment of shareholder rights by prioritizing the interests of the Bank without ignoring a number of factors, such as the Bank's level of financial health, the level of capital adequacy, and the need for funds for business expansion without reducing the rights of the GMS to determine otherwise in accordance with the provisions of the Articles of Association.

Pernyataan Direksi terkait Prinsip Transaksi yang Wajar (*Arm's Length Principle*)

Direksi berkomitmen memegang prinsip *arm's length principle* (ALP) selaku prinsip yang mengatur bahwa apabila kondisi dalam transaksi yang dilakukan antara pihak yang mempunyai Hubungan Istimewa sama atau sebanding dengan kondisi dalam transaksi yang dilakukan antara pihak yang tidak mempunyai hubungan Istimewa yang menjadi pembanding, maka harga atau laba dalam transaksi yang dilakukan antara pihak-pihak yang mempunyai Hubungan Istimewa harus sama dengan atau berada dalam rentang harga atau laba dalam transaksi yang dilakukan antara pihak yang tidak mempunyai Hubungan Istimewa yang menjadi pembanding. Pada prinsipnya, berdasarkan pada norma bahwa harga atau laba atas transaksi yang dilakukan dengan pihak afiliasi ditentukan oleh kekuatan pasar, sehingga transaksi tersebut dapat mencerminkan harga pasar yang wajar (*Fair Market Value/FMV*).

Peran Dewan Komisaris dan Komite Audit dalam Memenuhi Prinsip Transaksi yang Wajar (*Arm's Length Principle*)

Dewan Komisaris bersama dengan Komite Audit berkomitmen memegang prinsip *arm's length principle* (ALP). Mekanisme *review* Bank atas transaksi dengan Pihak-pihak Berelasi dilakukan melalui proses audit, khususnya audit yang telah dilakukan oleh akuntan publik dan dipublikasikan, dimana mekanisme ini tertuang dalam PSAK 7 (revisi 2014) tentang "Pengungkapan Pihak-pihak Berelasi". Pada prinsipnya, berdasarkan pada norma bahwa harga atau laba atas transaksi yang dilakukan dengan pihak afiliasi ditentukan oleh kekuatan pasar, sehingga transaksi tersebut dapat mencerminkan harga pasar yang wajar (*Fair Market Value/FMV*).

Board of Directors Statement on the Arm's Length Principle

The Board of Directors is committed to upholding the Arm's Length Principle (ALP). This principle specifically regulates situations involving transactions conducted between parties with special relationships. It requires that any price or profits made between these parties have to be either the same or within the price or profit range of transactions conducted between parties that don't have any kind of special relationship with one another. This principle is based on the idea that prices or profits generated within these transactions with special relationships have to reflect Fair Market Value (FMV).

Board of Commissioners and the Audit Committee's Role in Fulfilling the Arm's Length Principle

The Board of Commissioners works together with the Audit Committee to uphold the Arm's Length Principle (ALP). The Bank's review mechanism for any sort of transactions with Related Parties is carried out through an audit process. Specifically, this process involves a public accountant tasked with carrying out the audit. This mechanism is stated in Statement of Financial Accounting Standards (PSAK) 7 (which was revised in 2014) concerning "Related Party Disclosures". This principle is based on the idea that prices or profits generated within these transactions with special relationships have to reflect Fair Market Value (FMV).

Informasi

Kelangsungan Usaha Business Continuity Information

Hal-Hal yang Berpotensi Berpengaruh Signifikan terhadap Kelangsungan Usaha

Kondisi ekonomi dan industri yang masih fluktuatif di tahun 2024 berpotensi mempengaruhi kinerja Bank. Berlanjutnya kebijakan tingkat suku bunga acuan yang tinggi dari Bank Indonesia (BI) untuk menjaga tingkat inflasi nasional menjadi salah satu faktor yang dapat menekan kinerja Bank. Persaingan industri yang ketat juga mengharuskan Bank untuk terus beradaptasi dan berinovasi secara cepat agar dapat menjaga kelangsungan usaha Bank.

Berbekal fondasi bisnis yang solid dan ekosistem CT Corpora yang kuat, Bank optimis bahwa seluruh keunggulan yang dimiliki dapat mengoptimalkan kinerjanya dalam mengatasi berbagai tantangan ke depan. Pengembangan produk dan layanan, serta perluasan jangkauan melalui digitalisasi yang dimiliki diyakini mampu akselerasi kinerja Bank agar dapat meningkatkan kinerja bisnis dan menghadirkan solusi perbankan bagi masyarakat.

Assessment Manajemen atas Hal-hal yang Berpengaruh Signifikan terhadap Kelangsungan Usaha

Bank telah menyusun dan menerapkan manajemen risiko secara cermat, mulai dari penetapan sejumlah risiko utama hingga upaya mitigasinya. Selain itu, manajemen Bank juga melakukan evaluasi dan *assessment* terkait hal-hal yang berpengaruh signifikan terhadap kelangsungan usaha Bank. Dewan Komisaris dan Direksi turut berperan dalam berbagai upaya untuk mengelola potensi risiko yang berpengaruh signifikan terhadap kelangsungan usaha Bank. Assessment manajemen dilakukan dengan memperhatikan berbagai faktor, seperti analisis kekuatan kondisi keuangan Bank maupun operasional. Berdasarkan hasil *assessment* tersebut, manajemen tidak mendapati adanya hal-hal yang berpengaruh signifikan terhadap kelangsungan usaha Allo Bank.

Matters That Have the Potential to Significantly Impact Business Continuity

Ongoing fluctuations in economic and industrial conditions that continued throughout 2024 had the potential to affect the Bank's performance. Bank Indonesia's (BI) High benchmark interest rate policy continued to maintain the nation's inflation rate and served as one of the factors that could have led to a suppression of the Bank's performance. Tight competition within the industry meant that the Bank had to continue to be quick in adapting and innovating in order to maintain its own business continuity.

Thanks to its solid business foundations and its robust CT Corpora ecosystem, the Bank is optimistic that it can optimize its performance in overcoming any challenges ahead. The Bank believes that its efforts toward product and service development, as well as its efforts to expand its reach through digitalization, can help to accelerate its business performance and provide the community with banking solutions.

Management's Assessment of Matters that Significantly Influence Business Continuity

The Bank has made careful efforts to design and implement proper risk management. Its actions towards this end began with the Bank determining its primary risks to know what it needs to mitigate. The Bank's management has also conducted evaluations and assessments for all matters that could have significantly influenced its business continuity. The Board of Commissioners and Directors also play a role in various efforts designed to manage potential risks that could have significantly influenced the Bank's business continuity. The management's assessments were carried out by taking various factors into consideration. This was done through analysis of the Bank's financial strength and operational conditions. Based on the results of its assessment, the Bank's management did not find any matters that could have significantly influenced Allo Bank's business continuity.

Asumsi yang Digunakan Manajemen dalam Melakukan Assessment

Manajemen melaksanakan *assessment* kemampuan Bank dalam melanjutkan kelangsungan usahanya di masa yang akan datang dengan menggunakan asumsi dan pertimbangan berupa analisis SWOT (*Strengths, Weaknesses, Opportunities, and Threats*). Analisis SWOT yang dilakukan telah mempertimbangkan sejumlah faktor yang dianggap penting, seperti kinerja keuangan, likuiditas, solvabilitas, profitabilitas, kondisi ekonomi mikro dan makro pada saat ini maupun masa yang akan datang, serta persaingan usaha di industri perbankan digital.

Uraian terkait penilaian Profil Risiko, Rentabilitas, GCG dan Permodalan adalah sebagai berikut:

Profil Risiko

Berdasarkan kondisi dan langkah-langkah yang dilakukan dalam pengelolaan risiko sepanjang tahun 2024, maka penilaian Profil Risiko Bank pada tahun buku telah disesuaikan dengan surat OJK No. SR-21/PB.31/2024 tanggal 12 Februari 2024 Perihal Tindak Lanjut Hasil Pemeriksaan dan Tingkat Kesehatan Bank, adalah sebagai berikut:

Management's Assumptions when Conducting Assessments

Management has assessed the Bank's ability to maintain its business continuity in the future. It did this using assumptions and considerations in the form of a Strengths, Weaknesses, Opportunities and Threats (or "SWOT") analysis. The SWOT analysis it conducted has taken various important factors into consideration, such as financial performance, liquidity, solvency, profitability, current and future micro- and macro-economic conditions, and business competition within the digital banking industry.

The following is a detailed description of the Bank's assessment results for its Risk Profile, Profitability, GCG and Capital:

Peringkat Komposit Composite Rating			2			2

Secara umum peringkat komposit Profil Risiko PT Allo Bank Indonesia, Tbk. untuk selanjutnya disebut "Bank" - pada periode Desember 2024 berada pada peringkat 2. Penilaian tersebut sama dengan periode September 2024 yaitu peringkat 2. Sampai posisi Desember 2024, Bank melakukan cukup banyak upaya berkelanjutan dari berbagai aspek untuk memposisikan Profil Risiko secara komposit tetap berada pada peringkat 2.

Dengan pendekatan *self assessment* tersebut, hasil perhitungan Risiko Inheren, Kualitas Penerapan Manajemen Risiko dan Peringkat Risiko Inheren menunjukkan komitmen pengelolaan risiko Bank. Pada posisi Desember 2024 dari sisi pendapatan, Bank telah meningkatkan pendapatan organiknya dari proses kredit dan juga pendapatan Bank dari aset-aset produktif lain terutama bisnis ritelnya. Kecukupan modal Bank per Desember 2024 telah sesuai dengan ketentuan yang berlaku dan sejalan dengan strategi Bank.

Kualitas Penerapan Manajemen Risiko (KPMR) seluruhnya berada pada peringkat "Satisfactory", dimana Bank secara terus-menerus memperbaiki kelemahan yang ada dan akan terus melakukan perbaikan untuk dapat menjaga peringkat tersebut.

Risiko Kredit

Risiko Kredit adalah risiko yang timbul sebagai akibat kegagalan *counterparty* memenuhi liabilitasnya. Bank melakukan pengelolaan risiko kredit dengan menyusun strategi dan kerangka kerja serta menjalankan upaya mitigasi risiko atas aspek bisnis perkreditan mikro, retail, komersial, maupun konsumsi, penempatan antar-bank serta pembelian surat berharga.

1. Tata Kelola Risiko

Dewan Komisaris dan Direksi memiliki pemahaman yang baik untuk melakukan pengawasan secara aktif terhadap manajemen perkreditan. Tugas dan wewenang Direksi dioptimalkan melalui tanggung jawab atas penyusunan rencana dan kebijakan perkreditan, memastikan kepatuhan Bank terhadap ketentuan undang-undang dan peraturan yang berlaku, serta melakukan pelaporan secara berkala kepada Dewan Komisaris mengenai pelaksanaan pemberian kredit, memitigasi setiap potensi risiko kredit, pengawasan terhadap penyimpangan dalam pemberian kredit, dan upaya terus meningkatkan kualitas kredit Bank.

Dalam melakukan proses pemberian kredit, Bank mengacu kepada aturan regulator dan prinsip kehati-hatian dalam menilai kualitas debitur sebelum pemberian kredit dilakukan. Proses penilaian tersebut dilakukan dengan melihat faktor prospek usaha debitur, *cashflow* debitur, dan kemampuan membayar debitur.

In general, the composite rating of PT Allo Bank Indonesia, Tbk., hereinafter referred to as the "Bank," for its Risk Profile as of December 2024 remains at Rank 2. This assessment is consistent with the rating from September 2024, which was also Rank 2. As of December 2024, the Bank has made continuous efforts across various aspects to maintain its composite Risk Profile at Rank 2.

Using a self-assessment approach, the results of the calculation of Inherent Risk, Quality of Risk Management Implementation, and Inherent Risk Rating reflect the Bank's strong commitment to risk management. In December 2024, in terms of income, the Bank increased its organic income from the credit process, as well as its earnings from other productive assets, particularly in the retail business segment. The Bank's capital adequacy as of December 2024 complies with applicable regulations and aligns with its strategic objectives.

The Quality of Risk Management Implementation (KPMR) is entirely rated as "Satisfactory," with the Bank continuously addressing existing weaknesses and committing to further improvements to maintain this rating.

Credit Risk

Credit Risk is any risk that arises as a result of a counterparty's failure to fulfill its obligations. The Bank manages credit risk by developing various strategies and frameworks and by implementing risk mitigation efforts for aspects of its micro, retail, commercial, and consumer credit business, as well as for its inter-bank placements and purchases of securities.

1. Risk Governance

The Board of Commissioners and the Board of Directors both understand the importance of actively supervising credit management. The Board of Directors' duties and authorities towards this end are optimized through its efforts in preparing credit plans and policies, through ensuring the Bank's compliance with applicable laws and regulations, and through reporting periodically to the Board of Commissioners on any matter related to the implementation of credit provisions. The board also works to mitigate any potential credit risk, supervises deviations in credit provision, and makes efforts to continuously improve the Bank's credit quality.

In carrying out its credit granting process, the Bank uses various regulations and the principle of prudence as references in its efforts towards assessing the quality of debtors before granting them credit. Its assessment process is carried out by looking at the debtor's business prospects, debtor cash flow, and their ability to pay.

Pengelolaan kredit pada segmen *wholesale* dilakukan dengan suatu metode dalam memonitor kinerja debitur, sehingga tindak lanjut (*action plan*) dapat segera dilakukan untuk mencegah penurunan kualitas kredit debitur. Bank juga melakukan proses monitoring yang bertujuan untuk mengidentifikasi debitur yang berpotensi mengalami kesulitan membayar kewajiban.

Pengelolaan risiko kredit Bank diarahkan untuk meningkatkan keseimbangan antara ekspansi kredit yang sehat dengan pengelolaan kredit yang prudent, sehingga potensi penurunan kualitas debitur dapat dimitigasi sedini mungkin.

Proses kredit telah dilakukan sesuai dengan Pedoman dan SOP perkreditan yang ada. Pedoman dan SOP berfungsi sebagai petunjuk dalam melakukan proses pemberian kredit, mulai dari tahap permohonan melalui proposal, proses analisa, persetujuan, dokumentasi, pengawasan, hingga proses restrukturisasi. Selain itu, penetapan suku bunga kredit selalu dikaji ulang setiap bulan melalui *Asset and Liabilities Committee* (ALCO).

2. Kerangka Manajemen Risiko

Kerangka manajemen risiko kredit mencakup kecukupan kebijakan, prosedur dan penetapan limit. Kebijakan dan prosedur pengelolaan risiko kredit yang telah disetujui oleh Direksi, telah dikomunikasikan dengan optimal oleh Divisi yang menangani aktivitas fungsional yang memiliki eksposur risiko kredit.

Untuk menjaga agar eksposur risiko kredit sesuai dengan *risk appetite*, Bank menetapkan batasan (limit), antara lain susunan dan kewenangan kredit yang disesuaikan dengan ukuran dan kompleksitas Bank. Selain itu, Bank juga memiliki kebijakan untuk menjaga risiko kredit sesuai dengan Batas Maksimum Pemberian Kredit (BMPK) yang sesuai dengan ketentuan pengawas.

3. Proses Manajemen Risiko

Proses manajemen risiko kredit bertujuan untuk mengidentifikasi, mengukur, memantau, dan mengendalikan Risiko Kredit. Hal yang menjadi perhatian Bank ke depan adalah mengevaluasi dan meningkatkan efektivitas pelaksanaan unit kerja yang melakukan pemantauan kualitas kredit sejak dini. Konsentrasi terbesar yang dilakukan Bank saat ini adalah memitigasi risiko kredit termasuk terhadap potensi meningkatnya risiko kredit yang lebih besar.

Kecukupan sistem informasi manajemen dinilai memenuhi ekspektasi, hal ini terlihat dari pelaporan kredit kepada Dewan Komisaris dan Direksi mengenai eksposur risiko yang berjalan dengan baik, sehingga data yang disajikan dapat membantu secara optimal dalam pengambilan keputusan. Saat ini Bank sedang mengkaji ulang seluruh SIM manajemen Risiko. Kualitas

Credit management in the wholesale segment is carried out with a method of monitoring a debtor's performance. This monitoring allows for follow-up action plans to be carried out immediately to prevent a decline in the debtor's credit quality. The Bank also carries out a monitoring process that aims to identify any debtors that have the potential to experience difficulty in paying their obligations.

The Bank's credit risk management is directed at improving the balance between healthy credit expansion and prudent credit management. This ensures that the potential for a decline in debtor quality can be mitigated as early as possible.

The Bank's credit process has been carried out in accordance with existing credit Guidelines and SOPs. There have been some deviations, but they have only been minor. These Guidelines and SOPs serve as instructions for the Bank as it carries out its credit granting process, beginning with the application stage through the proposal, analysis process, approval, documentation, supervision, to the restructuring processes. In addition, the Bank's method of determining credit interest rates is always reviewed every month through its Asset and Liabilities Committee (ALCO).

2. Risk Management Framework

The Bank's credit risk management framework encompasses its adequacy when it comes to policies, procedures and limit setting. Credit risk management policies and procedures that have been approved by the Board of Directors have been optimally communicated by the Division that handles functional activities with credit risk exposure.

In order to ensure that it can maintain its credit risk exposure in accordance with its risk appetite, the Bank has established various limits, including limits on credit composition and authority that have been adjusted to its size and complexity. In addition, the Bank also has a policy to maintain credit risk in accordance with supervisory provisions governing Legal Lending Limits (LLL).

3. Risk Management Process

The Bank's credit risk management process aims to identify, measure, monitor, and control Credit Risk. The Bank's future focus is to evaluate and improve the effectiveness of its work units that monitor credit quality early on. The Bank's greatest area of focus at present is mitigating credit risk, including mitigating any potential for greater credit risk.

Its management information system is considered to have met expectations, as can be seen evidenced by credit reports to the Board of Commissioners and Directors indicating reasonable risk exposures. The data presented within these reports also allows management to make optimal decisions. The Bank is currently reviewing all of its Risk Management SIMs. The quality

SDM Bank dalam aspek perkreditan memadai, dimana telah ada pembagian antara Lini Pertama dengan Lini Kedua. *Awareness risk taking unit* terhadap risiko kredit terus ditingkatkan seperti kompetensi dan kemampuan dalam menjalankan *credit process* berdasarkan aspek kehati-hatian.

4. Sistem Pengendalian Internal

Bank terus berusaha menyempurnakan Sistem Pengendalian Internal pada aspek penyaluran kredit. Fungsi operasional dan fungsi manajemen risiko kredit telah dipisahkan secara jelas. Proses inisiasi (*ex ante*) telah dilakukan review secara optimal oleh tim reviewer yang menganalisa setiap potensi kredit yang mungkin timbul, sementara tim Internal Audit (SKAI) melaksanakan evaluasi secara berkala (*post review*) untuk menilai pelaksanaan manajemen risiko kredit dan pengendalian internal pada aktivitas fungsional yang memiliki eksposur risiko kredit.

Risiko Pasar

Risiko pasar merupakan risiko yang timbul dari portofolio yang dimiliki oleh Bank karena adanya pergerakan *adverse movement* di pasar, termasuk risiko suku bunga dan risiko nilai tukar, yang berpotensi merugikan Bank. Dengan mempertimbangkan posisi Bank sebagai Bank Non-Devisa yang tidak melakukan kegiatan trading baik pada portofolio aset maupun kewajiban terhadap produk derivatif dan *Fair Value Option*, Bank tetap berkomitmen untuk selalu melakukan pemantauan terhadap potensi Risiko Pasar serta terus meningkatkan Kualitas Penerapan Manajemen Risiko Pasar dengan mengkaji kualitas pemenuhan serta kelengkapan dokumen secara berkala.

1. Tata Kelola Risiko

Pengelolaan risiko pasar Bank dilakukan dengan mempertimbangkan terbatasnya instrumen yang dikelola Bank serta rendahnya potensi risiko instrumen yang dimiliki. Untuk mengelola pergerakan variabel pasar, Bank telah melakukan Stress Testing pada instrumen suku bunga yang terekspos risiko pasar dalam rangka menghitung potensi dampak keuangan yang timbul. Selain itu, pengelolaan risiko pasar didukung oleh kerangka limit dan kebijakan untuk mengontrol risiko yang dapat diterima oleh Bank. Limit risiko pasar dialokasikan pada berbagai tingkatan dan dipantau oleh Divisi Treasury secara harian. Bank tidak terekspos secara signifikan pada risiko nilai tukar. Risiko suku bunga yang dikelola oleh Bank sebagian besar berasal dari posisi banking book dan tidak terdapat posisi *trading book*. Sebagai bagian dari pengelolaan risiko pasar, Bank melakukan identifikasi, pengukuran, pemantauan dan pengendalian risiko pasar, yang dilakukan oleh unit bisnis terkait.

Dewan Komisaris dan Direksi memiliki *awareness* dan pemahaman yang baik tentang manajemen Risiko Pasar dan sudah diinternalisasikan dengan baik pada seluruh jenjang organisasi untuk memastikan bahwa penerapan manajemen risiko terhadap nilai tukar dan suku bunga telah sesuai dengan tujuan strategis, skala, karakteristik bisnis dan profil risiko nilai

of the Bank's human resources in terms of credit is considered to be adequate, with a division between the First Line and the Second Line. The risk-taking unit's awareness of credit risk continues to be improved, such as competence and ability to carry out the credit process based on prudential aspects.

4. Internal Control System

The Bank continues to put in efforts to improve its Internal Control System in terms of credit distribution. Operational functions and credit risk management functions have been clearly separated. The initiation process (*ex ante*) has been optimally reviewed by a team that analyzes credit risk issues that may arise, while the Internal Audit Unit carries out periodic reviews (*ex post*) to assess the implementation of credit risk management and internal control in functional activities that have credit risk exposure.

Market Risk

Market risk is defined as any risk that arises from the Bank's portfolio due to adverse movements in the market. These risks include interest rate risks and exchange rate risks that have the potential to harm the Bank. The Bank itself is a Non-Foreign Exchange Bank that does not conduct trading activities either in asset portfolios or liabilities for derivative products and Fair Value Options. It remains committed to always monitoring the potential for Market Risk and is always continuing to improve its Quality of Market Risk Management Implementation by periodically reviewing the quality of its documents.

1. Risk Governance

The Bank's market risk management is carried out by taking into consideration the Bank's limited instruments and the low potential risk of these instruments that it owns. To manage the movement of market variables, the Bank has conducted Stress Testing on instruments exposed to market risk in order to calculate any potential financial impact that arises. In addition, market risk management is supported by a framework of limits and policies to control any risks considered acceptable to the Bank. Market risk limits are allocated at various levels and are monitored by the Treasury Division on a daily basis. The Bank is not significantly exposed to exchange rate risk. The interest rate risk managed by the Bank is mostly derived from banking book positions. There are no trading book positions. As part of its market risk management, the Bank identifies, measures, monitors and controls market risk. This process is carried out by relevant business units.

The Board of Commissioners and Board of Directors have a good sense of awareness and understanding of Market Risk management. This wisdom has been well internalized at all levels of the organization to ensure that the implementation of risk management on exchange rates and interest rates is in accordance with the Bank's strategic objectives, scale,

tukar dan suku bunga Bank, termasuk memastikan integrasi penerapan manajemen risiko nilai tukar dan suku bunga dengan risiko-risiko lainnya yang dapat berdampak pada posisi risiko Bank.

2. Kerangka Manajemen Risiko

Strategi manajemen risiko dilakukan searah dengan tingkat risiko yang diambil dan toleransi risiko pasar. Penetapan dan evaluasi kebijakan strategi pengelolaan risiko pasar yang berkaitan dengan risiko suku bunga dan risiko valuta asing dilakukan secara berkala melalui *Asset and Liabilities Committee* (ALCO), termasuk strategi dalam penataan portofolio investasi dan strategi penataan struktur neraca melalui antisipasi perubahan suku bunga sehingga dapat dicapai tingkat marjin bunga bersih (*Net Interest Margin* -NIM) yang optimal.

Bank memiliki berbagai perangkat organisasi dalam mendukung terlaksananya manajemen risiko pasar secara efektif termasuk kejelasan wewenang dan tanggung jawab. Dalam hal ini, Direksi telah mendelegasikan wewenang dan tanggung jawab antara lain:

- Divisi Treasury sebagai pengelola portofolio dan transaksi jual beli valuta asing dalam rangka pemenuhan kebutuhan nasabah dan untuk memperoleh pendapatan.
- Asset and Liabilities Committee (ALCO) yang menetapkan kebijakan pada strategi risiko nilai tukar dan suku bunga.
- Terdapat kejelasan dalam pelaksanaan komite terkait dan telah ada delegasi wewenang yang berjalan baik.
- Divisi Enterprise, Operational and Market Risk yang bertanggung jawab sebagai lini kedua dalam pengelolaan risiko pasar. Untuk itu Bank telah melakukan pemenuhan SDM untuk menjalankan fungsi fungsi Manajemen Risiko Pasar.

Kebijakan pengelolaan risiko pasar dan limit risiko pasar ditetapkan oleh manajemen serta diinformasikan ke risk taking unit. Kebijakan dan limit ini ditinjau ulang secara berkala untuk disesuaikan dengan perkembangan kegiatan Treasury pada khususnya dan perkembangan pasar dan ketentuan internal maupun eksternal pada umumnya.

3. Proses Manajemen Risiko

Proses manajemen risiko pasar dilakukan Bank melalui Asset and Liabilities Committee (ALCO) yang menetapkan tingkat suku bunga dengan mengoptimalkan kondisi pergerakan pasar.

Untuk mengelola risiko karena adanya pergerakan variabel pasar, yaitu suku bunga, nilai tukar dan harga pasar dari portofolio yang dimiliki, Bank melakukan evaluasi secara berkala terhadap limit-limit risiko pasar yang terdiri dari *budget loss limit* untuk aktivitas *trading book* serta *banking book*. Selain itu terdapat pula limit Repricing Gap digunakan untuk mengelola *interest rate risk in banking book* yang dilakukan secara berkala.

business characteristics and exchange rate and interest rate risk profile. This implementation includes ensuring the integration of exchange rate implementation and interest rate risk management with other risks that can impact the Bank's risk position.

2. Risk Management Framework

The Bank's risk management strategy is carried out in line with a specific level of risk taken and market risk tolerance. The process of determining and evaluating market risk management strategy policies related to interest rate risk and foreign exchange risk is carried out periodically through the Bank's Asset and Liabilities Committee (ALCO). This includes strategies in structuring investment portfolios and balance sheet structuring strategies through anticipation of changes in interest rates so that an optimal net interest margin (NIM) can be achieved.

The Bank has various organizational tools to support the implementation of effective market risk management. These tools include clarity of authority and responsibility. In this case, the Board of Directors has delegated the following forms of authority and responsibility:

- Treasury Division. It serves as portfolio and foreign exchange trading transactions manager in order to fulfill customer needs and to obtain income.
- Asset and Liabilities Committee (ALCO). It determines policies on exchange rate and interest rate risk strategies.
- There is clarity in the implementation of relevant committees and a delegation of authority that runs well.
- The Bank has currently fulfilled all HR requirements for its Market Risk Management function.

Market risk management policies and market risk limits are determined by management and informed to specific risk taking units. These policies and limits are reviewed periodically so that they can be adjusted to the development of Treasury activities (in particular) and market developments and internal and external provisions (in general).

3. Risk Management Process

The Bank carries out its market risk management process through its Asset and Liabilities Committee (ALCO), which determines interest rates by optimizing conditions for market movement.

To manage risks due to variables in market movements -- specifically, interest rates, exchange rates and market prices of owned portfolios -- the Bank periodically evaluates market risk limits consisting of budget loss limits for trading book and banking book activities. In addition, there is also a Repricing Gap limit used to periodically manage interest rate risks in banking books.

Sistem informasi manajemen risiko pasar memenuhi ekspektasi dimana *risk owner* menyampaikan laporan posisi risiko pasar kepada manajemen secara berkala. Bank juga memiliki Sumber Daya Manusia (SDM) yang cukup dan didukung dengan pemahaman yang baik. Bank akan terus meningkatkan kompetensi demi tercapainya strategi bisnis *treasury* sebagai *profit center* dan menerapkan strategi penempatan dana yang dapat meminimalisir kerugian yang disebabkan faktor risiko pasar.

4. Sistem Pengendalian Internal

Bank melakukan pengendalian pembatasan kerugian yang timbul melalui penetapan limit transaksi yaitu limit transaksi dealer, *cut loss limit*, sehingga aktivitas *treasury* dapat dipantau dan dievaluasi. Pengawasan perkembangan aktivitas limit transaksi *treasury* untuk memastikan bahwa *treasury* telah mematuhi limit transaksi yang telah ditetapkan, terutama untuk *cut-loss limit* menjadi prioritas.

Pelaksanaan kaji ulang independen (*independent review*) dilakukan oleh fungsi SKAI dengan metodologi dan frekuensi sesuai aturan, dimana hasil kaji ulang dilaporkan kepada Dewan Komisaris dan Direksi.

Risiko Likuiditas

Risiko likuiditas dapat muncul sebagai akibat dari *mismatch* antara struktur aset dan liabilitas Bank, dimana Bank berisiko untuk tidak mampu memenuhi kewajiban yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat dilikuidasi segera dan/atau diagunkan tanpa mengganggu aktivitas keuangan Bank. Dalam hal ini, Bank menjaga rasio-rasio penilaian risiko likuiditas, nilai *outstanding asset* likuid Bank dan rasio-rasio pendukung seperti, Aset Likuid Primer dan Aset Likuid Sekunder terhadap Total Aset. Rasio LCR dan NSFR dipertahankan di atas batas minimum regulator dan penggunaan dana selalu dilakukan secara optimal dengan tetap memperhatikan ketentuan Otoritas Jasa Keuangan/Bank Indonesia tentang prinsip kehati-hatian serta memiliki *contingency funding plan* yang memadai sebagai mitigasi potensi risiko likuiditas yang mungkin timbul.

1. Tata Kelola Risiko

Dalam mengelola likuiditas, selain *primary reserves*, Bank juga menjaga dan mempertahankan *secondary reserves* untuk memastikan likuiditas berada pada level yang aman. Ketersediaan atas reserves tersebut dipantau secara harian, mingguan, dan bulanan oleh Divisi Treasury.

Sebagai bentuk pelaksanaan tugas, Dewan Komisaris dan Direksi memiliki awareness dan pemahaman yang baik mengenai manajemen Risiko Likuiditas. Budaya manajemen risiko likuiditas telah dikomunikasikan dengan baik pada seluruh level organisasi. Direksi bertanggung jawab terhadap

This market risk management information system meets expectations. Risk owners periodically submit market risk position reports to management. The Bank also has sufficient Human Resources (HR) with good levels of understanding on this topic. The Bank will continue to improve its competence in order to achieve its treasury business strategy to serve as a profit center. It will implement a fund placement strategy that can minimize losses caused by market risk factors.

4. Internal Control System

The Bank controls the limitation of losses that arise through its process of determining transaction limits, specifically, dealer transaction limits and cut loss limits. This process is carried out so that treasury activities can be monitored and evaluated. The process of supervising the development of treasury transaction limit activities to ensure that treasury has complied with the established transaction limits (especially for cut-loss limits) is considered a priority.

Independent reviews is carried out by the Internal Audit Unit function. These reviews make use of a methodology and frequency that are both in accordance with established rules. Results of these reviews are reported to the Board of Commissioners and Directors.

Liquidity Risk

Liquidity risk may arise as a result of a mismatch between the Bank's asset and liability structure. The Bank may be at risk of not being able to meet maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be liquidated immediately and/or collateralized without disrupting the Bank's financial activities. If this happens, the Bank maintains liquidity risk assessment ratios and its outstanding liquid asset value and supporting ratios such as Primary Liquid Assets and Secondary Liquid Assets to Total Assets. The LCR and NSFR ratios are maintained above regulatory minimum limits, while the use of funds is always carried out optimally while also still taking into consideration any provisions of the Financial Services Authority/Bank Indonesia when it comes to the principle of prudence. The Bank also ensures that it has an adequate contingency funding plan as a way of mitigating any potential liquidity risks that may arise.

1. Risk Governance

In addition to its primary reserves, the Bank also maintains and preserves secondary reserves to ensure its liquidity is at a safe level. The availability of these reserves is monitored daily, weekly and monthly by the Treasury Division.

The Board of Commissioners and the Board of Directors both have good levels of awareness and understanding of Liquidity Risk management. The culture of liquidity risk management has been well communicated at all levels of the organization. The Board of Directors is responsible for preparing a Contingency

penyusunan Contingency Funding Plan yang berisi langkah yang harus dilakukan oleh Bank dalam mengantisipasi dan menghadapi kondisi kesulitan likuiditas. Selain itu, Direksi bertugas memantau kondisi internal dan perkembangan faktor eksternal yang secara langsung maupun tidak langsung mempengaruhi strategi bisnis Bank terkait risiko likuiditas, begitu pula Dewan komisaris selalu memberikan saran kepada Direksi dalam menentukan langkah-langkah strategis yang perlu dijalankan. Penetapan suku bunga DPK selalu dikaji ulang setiap bulan dalam rapat *Asset and Liabilities Committee* (ALCO).

2. Kerangka Manajemen Risiko

Sebagai strategi pengelolaan risiko likuiditas, Bank mengidentifikasi dan memantau berbagai faktor utama yang mempengaruhi kemampuan Bank untuk memperoleh sumber pendanaan, termasuk sumber alternatif yang dapat memperkuat kapasitas untuk bertahan pada kondisi krisis. Fungsi pengelolaan kebutuhan likuiditas dilakukan oleh ALCO dan secara operasional oleh Divisi Treasury.

Kecukupan secondary reserves, strategi menurunkan dana jangka pendek dan berbiaya mahal masih terus dilakukan dengan mempertimbangkan maturity gap yang terukur dan seimbang. Pemantauan dan pengendalian terhadap kondisi likuiditas terus menjadi perhatian dari manajemen.

Direksi telah mendelegasikan wewenang dan tanggung jawab kepada Divisi Treasury dalam mengelola likuiditas Bank untuk memelihara Giro Wajib Minimum (GWM), *Loan to Funding Ratio* (LFR), serta memastikan pengelolaan secondary reserves sejalan dengan tujuan strategis, juga peran ALCO dalam menetapkan kebijakan dan strategi likuiditas.

Kebijakan manajemen risiko likuiditas Bank mencakup manajemen likuiditas, pemeliharaan cadangan likuiditas yang optimal, penetapan strategi pendanaan, proyeksi arus kas, profil maturitas, penetapan limit likuiditas, dan Rencana Pendanaan Darurat (*Contingency Funding Plan*). Kebijakan ini bertujuan untuk memastikan kecukupan dana harian dalam memenuhi kewajiban pada kondisi normal maupun kondisi krisis secara tepat waktu dari berbagai sumber dana yang tersedia.

3. Proses Manajemen Risiko

Dalam upaya mitigasi risiko likuiditas, Bank telah menerapkan Rencana Pendanaan Darurat (*Contingency Funding Plan*) dalam upaya memitigasi risiko. Bank menjaga cadangan likuiditas dengan mempertahankan jumlah aset likuid berkualitas tinggi yang cukup untuk memenuhi komitmennya kepada para nasabah dan pihak lainnya, baik dalam rangka pemberian kredit, pembayaran kembali simpanan nasabah, pemenuhan kebutuhan likuiditas dan menjaga agar jumlah aset yang jatuh tempo pada setiap periode dapat menutupi jumlah liabilitas yang jatuh tempo.

Funding Plan that contains steps that must be taken by the Bank in anticipating of any situation involving difficulties when dealing with liquidity. In addition, the Board of Directors is tasked with monitoring internal conditions and developments in external factors that directly or indirectly affect the Bank's business strategy related to liquidity risk. Meanwhile, the Board of Commissioners is always providing advice to the Board of Directors in regards to figuring out strategic steps that need to be taken. The process of determining Third Party Fund interest rates is always reviewed every month through Asset and Liabilities Committee (ALCO) meetings.

2. Risk Management Framework

As part of its liquidity risk management strategy, the Bank identifies and monitors various key factors that affect its own ability to obtain funding sources. This includes alternative sources that can strengthen its own capacity to survive in crisis conditions. The function of managing liquidity needs is carried out by ALCO and is operated by the Treasury Division.

The Bank ensures that it maintains adequacy in its secondary reserves. Strategies to reduce short-term and expensive funds are still being carried out by taking measurable and balanced maturity gaps into consideration. The processes of both monitoring and controlling liquidity conditions continue to be a source of concern for management.

The Board of Directors has delegated authority and responsibility to the Treasury Division for managing the Bank's liquidity and maintaining a Minimum Statutory Reserves and a Loan to Funding Ratio (LFR) to ensure that the management of secondary reserves is in line with strategic objectives. There is also the role of ALCO in determining liquidity policies and strategies.

The Bank's liquidity risk management policy includes liquidity management, maintaining optimal liquidity reserves, determining funding strategies, cash flow projections, maturity profiles, determining liquidity limits, and a Contingency Funding Plan. This policy is designed to ensure the Bank's adequacy when it comes to daily funds for meeting obligations under normal conditions and crisis conditions in a timely manner from various available funding sources.

3. Risk Management Process

In an effort to mitigate its own liquidity risk, the Bank has implemented its own Contingency Funding Plan. The Bank maintains liquidity reserves by maintaining a sufficient amount of high-quality liquid assets to meet its commitments to customers and other parties. It does this in the context of providing credit, repaying customer deposits, meeting liquidity needs and ensuring that the amount of assets due in each period can cover the amount of liabilities due.

Early Warning System (EWS) sebagai salah satu sistem informasi atas terjadinya pemburukan situasi yang bisa membahayakan posisi likuiditas terus ditingkatkan mengingat EWS merupakan sebuah metodologi analisa yang dapat digunakan untuk mendeteksi suatu masalah likuiditas, untuk mengevaluasi kebutuhan pendanaan Bank, dan strategi pada saat krisis.

4. Sistem Pengendalian Risiko

Pengendalian risiko likuiditas dilakukan oleh Divisi Treasury sebagai tindak lanjut hasil pemantauan kinerja dan kepatuhan unit kerja operasional terhadap limit likuiditas yang telah ditetapkan. Secara khusus, Divisi Treasury memperhatikan indikator peringatan dini (*early-warning indicators*) dalam memantau posisi likuiditas sebagai bagian dari proses manajemen likuiditas serta untuk mengetahui peningkatan potensi risiko dalam menghadapi kondisi normal maupun kondisi tidak normal, yang meliputi strategi pendanaan mencakup diversifikasi sumber dan jangka waktu pendanaan untuk mendukung rencana bisnis Bank.

Tanggapan terhadap temuan dan hasil kaji ulang sudah dilakukan dengan optimal, dimana *dual control system* telah diperbaiki dari sisi mekanisme dan prosedur, serta perbaikan pada fungsi pengawasan. Kaji ulang independen dilakukan termasuk adanya perbaikan dalam aspek metodologi.

Risiko Operasional

Risiko operasional adalah risiko yang disebabkan adanya ketidakcukupan dan/atau tidak berfungsinya proses internal (kebijakan, sistem dan prosedur), kesalahan sistem, kesalahan manusia, atau adanya problem eksternal yang mempengaruhi operasional Bank.

1. Tata Kelola Risiko

Dewan Komisaris dan Direksi memiliki *awareness* dan pemahaman yang baik mengenai manajemen Risiko Operasional. Budaya manajemen Risiko Operasional telah diinternalisasikan dengan baik pada seluruh level organisasi. Penerapan manajemen risiko operasional dilakukan melalui desain struktur organisasi yang menggambarkan keterlibatan seluruh pihak yang terkait manajemen risiko operasional, yaitu Dewan Komisaris, Direksi, Komite Manajemen Risiko, Satuan Kerja Manajemen Risiko, Unit Kerja Operasional, Fungsi Manajemen Risiko Operasional, dan Satuan Kerja Audit Internal.

Bank juga telah memiliki Product Forum pada level operasional untuk mendiskusikan semua inisiatif produk dan aktivitas baru sebelum dilakukan eskalasi melalui Komite Produk pada level Direksi. Hal ini dilakukan secara cepat berdasarkan prinsip agile dalam pengembangan produk Bank, sehingga setiap risiko baru dapat diantisipasi dan dilakukan mitigasi risiko sedini mungkin.

The Bank's Early Warning System (EWS) serves as one of the information systems that it uses in the event of a worsening situation that could endanger the Bank's liquidity position. This system is always being improved upon, considering that EWS represents an analysis methodology that can be used to detect a liquidity problem and for evaluating the Bank's funding needs and strategies during a crisis.

4. Risk Control System

Liquidity risk control is carried out by the Treasury Division as a follow-up action to the monitoring results from the performance and compliance of operational work units with the established liquidity limits. The Treasury Division specifically pays attention to early warning indicators in monitoring liquidity positions as part of the Bank's liquidity management process and as a way to determine any increase in potential risks in facing normal and abnormal conditions. This includes funding strategies such as diversification of sources and funding terms to support the Bank's business plan.

Responses made to any review findings and results have been carried out optimally. The Bank's dual control system has also been improved in terms of mechanisms and procedures, as well as in terms of improvements in the supervisory function. Independent reviews are carried out on aspects such as improvements in methodologies.

Operational Risk

Operational risk is defined any risk caused by inadequacy and/or non-functioning of internal processes (policies, systems and procedures), system errors, human error, or external problems that affect the Bank's operations.

1. Risk Governance

The Board of Commissioners and the Board of Directors have a good sense of awareness and understanding when it comes to Operational Risk management. The culture of Operational Risk management has been well internalized at all levels of the organization. The implementation of operational risk management is carried out through the design of an organizational structure that describes the involvement of all parties related to operational risk management. These parties encompass the Board of Commissioners, the Board of Directors, Risk Management Committee, Risk Management Work Unit, Operational Work Unit, Operational Risk Management Function, and Internal Audit Work Unit.

The Bank also has a Product Forum at the operational level to discuss all new product initiatives and activities before being escalated through the Product Committee at the level of the Board of Directors. This is done quickly based on an agility principle in the Bank's product development, ensuring that every new risk can be anticipated and that risk mitigation carried out as early as possible.

Struktur tata kelola manajemen Risiko Operasional Bank menggambarkan keterkaitan antara fungsi manajemen Risiko Operasional pada tingkat perusahaan (*Corporate Level*), tingkat unit kerja operasional, dan keterlibatan dari Satuan Kerja Audit Internal sebagai Fungsi *Assurance*. Perumusan tingkat risiko yang diambil (*risk appetite*) dan toleransi risiko (*risk tolerance*) dilakukan sejalan dengan sasaran strategi bisnis Bank.

2. Kerangka Manajemen Risiko

Bank melakukan manajemen risiko operasional untuk memastikan bahwa risiko operasional dapat dikelola dengan baik dalam upaya memenuhi target usaha Bank dengan tetap menerapkan prinsip kehati-hatian pada setiap kegiatan usaha Bank.

Risk Taking Unit sebagai fungsi yang melakukan proses pengelolaan risiko dari setiap aktivitas di unit operasional, dalam melaksanakan tugasnya dilengkapi dengan alat bantu RCSA untuk memberikan kemudahan dalam mengelola risiko yang dimiliki oleh masing-masing unit kerja. Parameter yang terdapat dalam alat bantu yang baru merupakan pengembangan dari parameter sebelumnya yang disusun berdasarkan hasil evaluasi berkala.

Kecukupan Kebijakan dan prosedur operasional sudah dilakukan dengan memadai secara menyeluruh. Pembentukan Kebijakan dan *Standard Operating Procedure* (SOP) dalam rangka Perbaikan Tata Kelola Perusahaan yang Baik (*Good Corporate Governance/GCG*).

3. Proses Manajemen Risiko

Implementasi proses identifikasi, pengukuran, pemantauan dan pengendalian risiko operasional dilakukan pada kantor pusat, seluruh kantor cabang dan unit kerja yang terkait dengan bidang operasional. Bank terus menyempurnakan metodologi pengelolaan risiko operasional. Telah dilakukan berbagai program untuk peningkatan kesadaran risiko sebagai awal dari roll out metodologi pengelolaan risiko. Proses ini juga mendapatkan pengawasan aktif Dekom dan keterlibatan aktif dari Direksi Bank.

Untuk memastikan Bank dapat melayani transaksi perbankan yang berlangsung 24 jam sehari tanpa gangguan, Bank telah mempersiapkan 2 (dua) *Data Center* yang dirancang dengan pendekatan *environment redundancy* dan tersinkronisasi dengan DRC untuk memastikan kelangsungan usaha apabila terjadi kegagalan pada *Data Center* Utama.

The Bank's Operational Risk management governance structure illustrates the relationship between the Operational Risk management function at the corporate level, the operational work unit level, and the involvement of the Internal Audit Work Unit as an Assurance Function. Risk appetite and risk tolerance are both carried out in line with the Bank's business strategy targets.

2. Risk Management Framework

The Bank carries out operational risk management to ensure that operational risk can be managed properly in an effort to meet the Bank's business targets, all while still implementing the principle of prudence in every business activity of the Bank.

The Risk Taking Unit, which serves as a function that carries out the risk management process of every activity in an operational unit, is equipped with Risk Control & Self Assessment (RCSA) tools to provide convenience in managing the risks owned by each work unit. The parameters contained in these new tools are developments of previous parameters that were compiled based on the results of periodic evaluations.

The process of ensuring the adequacy of operational policies and procedures has been adequately carried out. Policies and Standard Operating Procedures (SOP) are improved in the context of improving Good Corporate Governance (GCG).

3. Risk Management Process

The process of identifying, measuring, monitoring and controlling operational risks is carried out at the head office, at all branch offices and across any work units related to operations. The Bank continues to improve its operational risk management methodology. Various programs have been carried out to boost risk awareness as the beginning of a roll-out of risk management methodology. This process also receives active supervision from the Board of Commissioners and active involvement from the Bank's Directors.

To ensure that the Bank can serve banking transactions that take place 24 hours a day without interruption, the Bank has prepared 2 (two) *Data Centers* designed with an environment redundancy approach and synchronized with the Bank's DRC to ensure business continuity in the event of a failure in the Main *Data Center*.

4. Sistem Pengendalian Risiko

Sistem pengendalian internal berjalan cukup efektif dalam mendukung pelaksanaan manajemen risiko Operasional. Bank terus berupaya melakukan perbaikan proses dan pengendalian internal yang lebih efisien sesuai dengan best practice dan arah bisnis Bank.

Pelaksanaan kaji ulang independen (*independent review*) dilakukan oleh Satuan Kerja Audit Internal (SKAI) berdasarkan metodologi, dimana hasilnya dilaporkan kepada Dewan Komisaris dan Direksi. Tindak lanjut atas kaji ulang independen telah dilaksanakan dengan membuat target penyelesaian.

Risiko Strategik

Risiko strategis adalah risiko antara lain disebabkan adanya penetapan dan pelaksanaan strategi Bank yang tidak tepat, pengambilan keputusan rencana bisnis yang tidak tetap atau kurang responsifnya Bank terhadap perubahan eksternal.

1. Tata Kelola Risiko

Dewan Komisaris melakukan pengawasan aktif dengan memberikan arahan kepada Direksi yang tertuang dari rekomendasi yang disampaikan pada Rapat Komisaris dan Direksi sesuai ketentuan yang berlaku. Bank mengelola risiko strategik melalui proses pertimbangan dan pengambilan keputusan setiap kebijakan strategik secara hati-hati oleh Direksi. Pengelolaan risiko strategik tersebut erat kaitannya dengan kemampuan dalam menyusun rencana kerja yang terkoordinasi, baik untuk jangka panjang maupun jangka pendek oleh karenanya penetapan strategi Bank dirumuskan dengan memperhatikan peraturan Bank Indonesia/Otoritas Jasa keuangan/ketentuan lainnya yang terkait serta memperhitungkan dampak risiko strategik terhadap permodalan Bank.

Rencana Bisnis Bank (RBB) disusun sesuai dengan kondisi dan kemampuan optimal atas pendayagunaan sumber daya, baik sumber daya finansial, infrastruktur dan SDM yang dimiliki. Dengan perencanaan strategis tersebut, Bank berkeyakinan dapat menjaga pertumbuhan yang berkelanjutan sehingga akan meningkatkan nilai perusahaan. Untuk meminimalkan terjadinya penyimpangan pada pelaksanaan RBB, dilakukan pemantauan pencapaian RBB melalui Komite Manajemen Risiko, dan telah dilakukan komunikasi kepada setiap jenjang organisasi, baik pada saat penyusunan rencana serta pada saat *review* pelaksanaan yang dilakukan secara rutin tiap semester.

2. Kerangka Manajemen Risiko

Bank memiliki Kebijakan Manajemen Risiko Strategik dan proses manajemen Risiko Strategik berfungsi untuk mengidentifikasi, mengukur, memantau, dan mengendalikan Risiko Strategik. Bank telah menetapkan pencapaian target bank dalam Rencana Bisnis Bank dengan mempertimbangkan risk limit (*risk appetite* dan *risk tolerance*) yang telah disepakati.

4. Risk Control System

The Bank's internal control system runs quite effectively in supporting Operational risk management. The Bank continues to improve its processes and internal controls so that they are more efficient in accordance with best practices and in accordance with the Bank's business direction.

Independent reviews are carried out by the Internal Audit Work Unit based on a methodology that has results reported to the Board of Commissioners and Directors. Follow-up actions to independent reviews have been carried out through the creation of a completion target.

Strategic Risk

Strategic risk is defined as any risk caused by things such as inappropriate Bank strategies, inconsistent business plan decision-making or the Bank's lack of responsiveness to external changes.

1. Risk Governance

The Board of Commissioners carries out active supervision by providing direction to the Board of Directors by way of recommendations submitted at Board of Commissioners and Board of Directors Meetings in accordance with applicable provisions. The Bank manages strategic risk through a process of careful consideration and decision-making of each strategic policy by the Board of Directors. The management of strategic risk is closely related to preparing a coordinated work plan, both for the long term and the short term. The Bank's strategy is formulated by taking into consideration Bank Indonesia/ Financial Services Authority regulations/other related provisions and by taking into account the impact of strategic risk on the Bank's capital.

The Bank's Business Plan is prepared in accordance with conditions and optimal capabilities for the utilization of resources (in terms of financial resources, infrastructure and human resources owned). It is through this strategic planning that the Bank believes that it can maintain sustainable growth that can increase the company's value. To minimize deviations in the implementation of this plan, achievements are monitored through the Risk Management Committee, and communication has been carried out to every level of the organization, both during the preparation of this plan and during reviews carried out routinely every semester.

2. Risk Management Framework

The Bank has a Strategic Risk Management Policy and a Strategic Risk Management process that functions to identify, measure, monitor, and control Strategic Risk. The Bank has set the achievement of its targets in the Bank's Business Plan by taking into consideration the agreed risk limits (*risk appetite* and *risk tolerance*).

3. Proses Manajemen Risiko

Bank telah melaksanakan evaluasi secara berkala atas realisasi RBB melalui Rapat Koordinasi Dewan Komisaris dan Direksi, sebagaimana dituangkan dalam Laporan Realisasi Rencana Bisnis Bank yang disampaikan ke OJK setiap triwulanan.

Secara umum, Bank berupaya meningkatkan kualitas SDM sesuai dengan nilai perusahaan sehingga sejalan dengan strategi SDM yang mengacu pada strategi jangka panjang perusahaan. Bank tetap mengedepankan pelaksanaan GCG dalam proses pengelolaan risiko strategis dengan tetap memantau pencapaian Bank terhadap RBB. SIM berjalan dengan baik, termasuk laporan risiko stratejik kepada Dewan Komisaris dan Direksi. Perekrutan karyawan dilakukan untuk menunjang kebutuhan bisnis, pendidikan dan pelatihan, serta evaluasi karyawan secara regular akan ditingkatkan untuk memastikan kesesuaian kapabilitas SDM.

4. Sistem Pengendalian Risiko

Dalam pelaksanaan sistem pengendalian risiko stratejik, telah dilakukan pemantauan pencapaian realisasi dibandingkan dengan rencana yang telah ditetapkan dan memastikan risiko yang diambil masih dalam batas toleransi. Sistem pengendalian internal tersebut melibatkan seluruh manajemen dan karyawan Bank yang mencakup penetapan kebijakan dan prosedur pengendalian, serta evaluasi untuk memastikan bahwa kebijakan dan prosedur tersebut sesuai arahan Direksi telah dipatuhi dan dilaksanakan secara efektif dan konsisten.

Pengendalian internal merupakan kegiatan yang tidak terpisahkan dari setiap fungsi atau kegiatan Bank sehari-hari dan dapat membantu Direksi dan Komisaris dalam mengelola dan mengendalikan risiko yang dapat mempengaruhi kinerja atau mengakibatkan kerugian Bank.

Risiko Reputasi

Risiko reputasi adalah risiko yang antara lain disebabkan oleh adanya publikasi negatif yang terkait dengan kegiatan usaha Bank atau persepsi negatif terhadap Bank.

1. Tata Kelola Risiko

Dewan Komisaris bersama beberapa Komite di bawah Dewan Komisaris selalu melakukan pemantauannya terhadap setiap kejadian yang berpotensi risiko reputasi dan penyelesaiannya. Pengelolaan risiko reputasi dilakukan dengan mengoptimalkan fungsi *Corporate Secretary* & PMO. Selain itu budaya karyawan Bank dalam berkomunikasi dan beraktifitas senantiasa berperilaku sesuai dengan kode etik perusahaan, serta memenuhi prinsip-prinsip transparansi, peningkatan kualitas

3. Risk Management Process

The Bank has carried out periodic evaluations of its Bank Business Plan realization through its Coordination Meetings of the Board of Commissioners and Directors, as it has stated in its Bank Business Plan Realization Report submitted quarterly to the Financial Services Authority (OJK).

In general, the Bank strives to improve the quality of human resources in accordance with its company values so that it is in line with its own long-term strategy. The Bank continues to prioritize the implementation of GCG in its strategic risk management process by continuing to monitor its own achievement of the Bank Business Plan. The Bank's SIM runs well and includes strategic risk reports to the Board of Commissioners and Directors. Employee recruitment is carried out to support business needs. Education and training activities, as well as regular employee evaluations, will all see improvements to ensure the suitability of HR capabilities.

4. Risk Control System

In its implementation of a strategic risk control system, the Bank monitors its achievement of results and compares these results to its established plan as a way to ensure that the risks it has taken are still within the tolerance limits. The internal control system involves all management and employees. This system includes the determination of control policies and procedures, as well as evaluations to ensure that the policies and procedures in accordance with the direction of the Board of Directors have been complied with and have been implemented effectively and consistently.

Internal control is an activity that is inseparable from every function or daily activity of the Bank and can assist the Board of Directors and Commissioners in managing and controlling risks that can affect performance or result in losses for the Bank.

Reputation Risk

Reputation risk is defined as any risk that is caused by things such as negative publications related to the Bank's business activities or negative perceptions of the Bank.

1. Risk Governance

The Board of Commissioners works together with several Committees under the Board of Commissioners to monitor every incident that has the potential for reputation risk and to resolve said incidents. Reputation risk management is carried out by optimizing the functions of the Bank's Corporate Secretary and its Project Management Office (PMO). In addition, the Bank's employee culture always behaves in accordance with the company's code of ethics whenever employees are

pelayanan nasabah dan *stakeholder* lainnya, pelaksanaan komunikasi yang tepat dalam rangka menghadapi berita/publikasi yang bersifat negatif atau pencegahan informasi yang cenderung kontra produktif sebagai bagian tindakan mitigasi.

2. Kerangka Manajemen Risiko

Strategi manajemen risiko reputasi dilakukan searah dengan *risk appetite* dan *risk tolerance*. Bank memiliki berbagai Kebijakan dan prosedur manajemen risiko reputasi Bank saat ini mulai menetapkan berbagai kebijakan dan prosedur yang relevan dengan arah bisnis Bank.

3. Proses Manajemen Risiko

Proses manajemen risiko reputasi berjalan baik dalam mengidentifikasi, mengukur, memantau dan mengendalikan risiko sesuai dengan Kebijakan dan SOP internal yang ada. Identifikasi risiko reputasi dilakukan pada faktor risiko yang melekat pada aktivitas fungsional yang mencakup keterbukaan informasi yang material, keluhan nasabah terhadap pelayanan Bank, sikap karyawan Bank dalam melayani nasabah, dan sistem komunikasi Bank. Pengukuran risiko reputasi dilakukan berdasarkan hasil assessment terhadap faktor-faktor yang berpengaruh pada reputasi Bank.

Bank telah memiliki unit Pengaduan Nasabah untuk mendukung layanan dan penanganan pengaduan nasabah dalam rangka pengendalian Risiko Reputasi. *Corporate Secretary* & PMO bertanggung jawab atas penerapan kebijakan yang berkaitan dengan penanganan dan penyelesaian pemberitaan negatif atau menghindari informasi kontraproduktif serta menjalankan fungsi kepedulian dalam rangka melaksanakan Tanggung Jawab Sosial Perusahaan (*Corporate Social Responsibility/CSR*).

Di bidang pengembangan sumber daya manusia, Bank telah melaksanakan program pengembangan SDM di bidang pendidikan dan pelatihan bagi seluruh pegawai (*sesuai job specification*).

4. Sistem Pengendalian Risiko

Sistem pengendalian internal risiko reputasi dilakukan melalui upaya evaluasi secara periodik atas risiko reputasi yang dihadapi Bank dan dituangkan dalam suatu laporan media monitoring oleh *Corporate Secretary* & PMO. Pemantauan tingkat penyelesaian komplain nasabah dan dengan komunikasi yang konsisten melalui berbagai kanal konvensional seperti telepon dan email. Pemantauan juga dilakukan melalui berbagai kanal media sosial dimana hal ini menjadi salah satu fokus dari pengendalian risiko kepatuhan untuk senantiasa menjaga keterbukaan informasi dan transparansi kepada seluruh stakeholder, serta menjalin hubungan yang harmonis dengan pihak media dalam hal menjaga nama baik Bank.

communicating and carrying out activities. This culture also meets the principles of transparency and is always improving the quality of customer and stakeholder service and implementing appropriate communication in order to deal with negative news/publications or preventing information that tends to be counterproductive as part of mitigation measures.

2. Risk Management Framework

The Bank's reputation risk management strategy is carried out in line with risk appetite and risk tolerance. The Bank has various reputation risk management policies and procedures. The Bank is currently starting to establish various policies and procedures that are relevant to the Bank's business direction.

3. Risk Management Process

The Bank's reputation risk management process does well in identifying, measuring, monitoring and controlling risks in accordance with existing internal policies and SOPs. Reputation risk identification is carried out on risk factors inherent in functional activities that include material information disclosure, customer complaints about Bank services, Bank employee attitudes in serving customers, and the Bank's communication system. Reputation risk measurement is carried out based on the results of an assessment of factors that influence the Bank's reputation.

The Bank has a Customer Complaints unit to support customer service and complaint handling in order to control Reputation Risk. The *Corporate Secretary* and PMO are responsible for implementing policies related to handling and resolving negative news or avoiding counterproductive information and carrying out the Bank's *Corporate Social Responsibility (CSR)* function.

In the field of human resource development, the Bank has implemented a human resource development program in the field of education and training for all employees (that has been designed according to job specifications).

4. Risk Control System

The internal control system for reputation risk is carried out through periodic evaluation efforts of any reputation risk faced by the Bank. These evaluations are stated in media monitoring report by the *Corporate Secretary* & PMO. The Bank also monitors the level of customer complaints resolved and carries out consistent communication through various conventional channels such as telephone and email. Monitoring is also carried out through various social media channels. One focus point of compliance risk control is to always maintain openness of information and transparency to all stakeholders, as well as to always establish harmonious relationships with the media to maintain the Bank's good name.

Risiko Hukum

Risiko hukum adalah risiko yang disebabkan oleh adanya kelemahan aspek yuridis, yang antara lain berupa tuntutan hukum, ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan seperti tidak terpenuhinya syarat sah kontrak dan pengikatan agunan yang tidak sempurna.

1. Tata Kelola Risiko

Pengelolaan risiko hukum dilaksanakan di bawah koordinasi unit kerja yang menjalankan Divisi Legal, yang bertindak sebagai "legal watch" dan bertanggung jawab memberikan legal advice sesuai dengan kebutuhan dan permintaan dari unit kerja, yang dinilai akan memiliki legal impact berdasarkan hasil analisa dari unit kerja yang mengajukan. Dewan Komisaris dan Direksi memiliki pemahaman dan kepedulian yang baik mengenai manajemen risiko hukum.

2. Kerangka Manajemen Risiko

Strategi pengelolaan risiko hukum yang dilakukan Bank ditujukan untuk mengantisipasi timbulnya risiko hukum dan meminimalkan dampaknya. Dalam struktur organisasi, Bank sudah memiliki Divisi Hukum secara khusus untuk menunjang pelaksanaan proses manajemen risiko hukum dan adanya Divisi Legal menjadi kunci dalam mengelola dan melakukan mitigasi risiko hukum sehingga dapat memberikan perlindungan hukum dalam melaksanakan kegiatan perbankan dengan tetap memperhatikan ketentuan hukum yang berlaku.

Bank telah memiliki kebijakan dan prosedur yang memadai dalam proses manajemen risiko hukum, dimana strategi penanganan masalah hukum ditangani oleh Divisi Legal pada masalah yang sifatnya umum dan untuk hal yang spesifik terkait perkreditan dibantu oleh unit kerja Admin Kredit, Bisnis, dan Analis Kredit.

3. Proses Manajemen Risiko

Proses manajemen risiko hukum memadai dalam mengidentifikasi, mengukur, memantau dan mengendalikan risiko dinilai telah berjalan sesuai SOP yang ada. Untuk mengukur kerugian akibat adanya tuntutan hukum yang memiliki potensi kerugian signifikan Bank telah mengantisipasi dengan menjalankan contingency plan sebagai tindakan untuk mengurangi risiko hukum, antara lain melalui penggunaan jasa pengacara dan melaporkan perkembangannya kepada Direksi.

Pengukuran Risiko Hukum dilaksanakan berdasarkan laporan hasil evaluasi atas analisis kasus-kasus hukum secara individual terhadap kewajiban kontinjensi yang timbul dari tuntutan hukum yang terjadi. Bank juga memiliki sistem informasi manajemen risiko dan sistem pengendalian internal dalam mendukung pelaksanaan manajemen risiko hukum.

Legal Risk

Legal risk is defined as any risk caused by weaknesses in legal aspects, including lawsuits, the absence of supporting laws and regulations, or weaknesses in obligations such as non-fulfillment of valid contract requirements and imperfect collateral bindings.

1. Risk Governance

Legal risk management is carried out under the coordination of the work unit that runs the Legal Division, which acts as a "legal watch" and is responsible for providing legal advice according to the needs and requests of the work unit and is considered to have a legal impact based on analysis results of the work unit that submitted these results. The Board of Commissioners and Directors have a good sense of understanding and concern regarding legal risk management.

2. Risk Management Framework

The legal risk management strategy carried out by the Bank is intended to anticipate the emergence of legal risks and minimize their impact. In the organizational structure, the Bank already has a Legal Division specifically to support the implementation of the legal risk management process. The existence of the Legal Division is key in managing and mitigating legal risks. It can provide legal protection for the Bank in carrying out banking activities while still paying attention to applicable legal provisions.

The Bank has adequate policies and procedures in the legal risk management process. Its legal problem handling strategy is handled by the Legal Division for general issues and for specific matters related to credit with the assistance of the Credit Admin, Business, and Credit Analyst work units.

3. Risk Management Process

The Bank's legal risk management process for identifying, measuring, monitoring and controlling risks has been carried out in accordance with existing SOPs. To measure losses due to lawsuits that have the potential for significant losses, the Bank has implemented a contingency plan as an action to reduce legal risk. This plan includes the use of legal services and reporting any progress made to the Board of Directors.

Legal Risk Measurement is carried out based on evaluation reports from analyzing individual legal cases against contingent liabilities arising from lawsuits that occur. The Bank also has a risk management information system and internal control system to support the implementation of legal risk management.

4. Sistem Pengendalian Risiko

Bank terus melakukan berbagai peningkatan dan perbaikan pengendalian internal, sebagai berikut:

- a. Melakukan identifikasi kelemahan-kelemahan yang dapat menimbulkan masalah hukum bagi Bank melalui review serta melakukan kajian terhadap dokumen-dokumen hukum yang timbul dari kontrak dan perjanjian yang dibuat ataupun yang terkait dengan produk dan layanan.
- b. Memastikan kesesuaian dan kepastian yuridis atas perikatan antara Bank dengan para pihak dengan mengacu pada prinsip kehati-hatian dalam rangka melindungi kepentingan Bank.

Pelaksanaan kaji ulang independen (*independent review*) dilakukan oleh Satuan Kerja Audit Internal (SKAI), untuk menjadi perhatian manajemen dalam hal melakukan kajian terhadap peraturan perundang-undangan baik yang baru maupun yang sudah berlaku dan peristiwa hukum aktual yang terjadi di lapangan untuk memastikan bahwa ketentuan internal Bank tidak menyimpang dari ketentuan perundangan yang berlaku.

Risiko Kepatuhan

Risiko kepatuhan merupakan risiko yang disebabkan akibat Bank tidak mematuhi ketentuan perundang-undangan yang berlaku.

1. Tata Kelola Risiko

Pengelolaan risiko kepatuhan dilaksanakan di bawah koordinasi Divisi Kepatuhan. Setiap pimpinan unit kerja di Bank bertanggung jawab untuk memastikan bahwa seluruh kegiatan di unit kerjanya telah dilaksanakan sesuai dengan peraturan dan perundangan serta ketentuan yang berlaku, sehingga tidak terjadi pengenaan denda atas keterlambatan, koreksi laporan ataupun hal lainnya.

Dewan Komisaris dan Direksi berperan aktif dalam menumbuhkan dan mewujudkan budaya kepatuhan pada semua tingkatan organisasi dan kegiatan usaha Bank, dengan didukung oleh Divisi Kepatuhan yang melakukan evaluasi terhadap pelaksanaan kepatuhan Bank dan mengkaji hal-hal atau aktivitas Bank yang berpotensi terhadap peningkatan risiko kepatuhan.

Manajemen Bank melakukan penerapan Tata Kelola Perusahaan dengan memenuhi prinsip-prinsip GCG, sehingga jika terdapat kelemahan dalam penerapan prinsip GCG, maka secara umum kelemahan tersebut kurang signifikan dan dapat diselesaikan oleh manajemen Bank.

2. Kerangka Manajemen Risiko

Strategi Bank dalam pengelolaan risiko kepatuhan ditujukan untuk memitigasi dampak dari pelanggaran terhadap ketentuan dan/atau peraturan perundang-undangan yang berlaku. Bank memiliki komitmen yang kuat untuk senantiasa mematuhi peraturan perundang-undangan yang berlaku dan mengambil langkah-langkah untuk memperbaiki kelemahan yang terjadi.

4. Risk Control System

The Bank made the following improvements and refinements to internal control:

- a. Identifying weaknesses that could cause legal problems for the Bank through reviews and conducting studies of legal documents arising from contracts and agreements made or related to products and services.
- b. Ensuring the suitability and legal certainty of agreements between the Bank and parties by referring to the principle of prudence in order to protect the Bank's own interests.

Independent reviews are carried out by the Internal Audit Work Unit. The Bank conducts studies of laws and regulations, both new and existing, and studies of actual legal events that occur in the field to ensure that the Bank's internal provisions do not deviate from the provisions of applicable laws and regulations.

Compliance Risk

Compliance risk is defined as any risk caused by the Bank not complying with the provisions of applicable laws and regulations.

1. Risk Governance

Compliance risk management is carried out under the coordination of the Compliance Division. Each work unit leader at the Bank is responsible for ensuring that all activities in his/her work unit have been carried out in accordance with applicable laws, regulations and provisions. This is all to make sure that there are no fines imposed for delays, report corrections or other matters.

The Board of Commissioners and Board of Directors play an active role in fostering and realizing a culture of compliance at all levels of the Bank's organization and business activities. They are supported by the Compliance Division, which evaluates the Bank's compliance implementation and reviews matters or activities of the Bank that have the potential to increase compliance risk.

The Bank's management implements Corporate Governance by fulfilling the principles of GCG. This is so that if there are weaknesses in the implementation of GCG principles, then in general these weaknesses can be made to be less significant and can be resolved by the Bank's management.

2. Risk Management Framework

The Bank's strategy in managing compliance risk is aimed at mitigating the impact of violations of applicable laws and/or regulations. The Bank has a strong commitment to always comply with applicable laws and regulations and take steps to correct any weaknesses that may arise.

Kecukupan perangkat organisasi dalam mendukung terlaksananya manajemen risiko secara efektif termasuk kejelasan wewenang dan tanggung jawab, seluruh lini organisasi bertanggung jawab terhadap pengelolaan risiko kepatuhan pada seluruh aktivitas Bank untuk dapat melakukan mitigasi potensi risiko kepatuhan yang mungkin terjadi. Dewan Komisaris bertanggung jawab untuk menyetujui kebijakan manajemen risiko dan memberikan nasihat. Dengan dibantu oleh Komite Audit dan Komite Pemantau Risiko, Dewan Komisaris melakukan pengawasan terhadap pelaksanaan manajemen risiko kepatuhan.

3. Proses Manajemen Risiko

Proses manajemen risiko kepatuhan dimulai dari proses identifikasi untuk memastikan bahwa seluruh kebijakan, ketentuan, sistem, dan prosedur, serta kegiatan usaha yang dilakukan Bank telah sesuai dengan peraturan perundang-undangan yang berlaku. Pengukuran risiko kepatuhan dilakukan terhadap potensi kerugian yang disebabkan oleh ketidakpatuhan dan ketidakmampuan Bank dalam memenuhi ketentuan eksternal yang berlaku. Besarnya risiko kepatuhan diestimasi berdasarkan kemampuan Bank untuk memenuhi seluruh peraturan pada waktu yang lampau dan yang akan datang.

Peningkatan kualitas SDM terus dilakukan dalam rangka meningkatkan pelaksanaan pengelolaan fungsi kepatuhan Bank, yaitu dengan cara melakukan pengembangan kompetensi melalui pengadaan pendidikan dan pelatihan.

4. Sistem Pengendalian Risiko

Dalam rangka meningkatkan efektivitas pengendalian internal, Bank telah membuat langkah-langkah dalam rangka mendukung terciptanya budaya kepatuhan pada seluruh kegiatan usaha Bank. Bank mengambil tindakan korektif yang tepat waktu terhadap pelanggaran, kegiatan ini dilakukan untuk memastikan kepatuhan Bank terhadap pemenuhan komitmen kepada Bank Indonesia, OJK maupun otoritas pengawas lainnya. Bentuk komitmen tersebut dapat berasal dari hasil audit maupun surat Bank Indonesia, OJK dan/atau otoritas pengawas lainnya.

Terdapat beberapa kelemahan dalam sistem pengendalian intern pada aspek kepatuhan terkait dengan pelanggaran administratif yang sifatnya minor dan *ad hoc*, namun masih dalam batas toleransi Bank. Kaji ulang independen sudah berjalan baik walaupun masih terdapat berbagai kelemahan dalam aspek metodologi.

The organizational devices that support the implementation of effective risk management include clarity of authority and responsibility. All levels of the organization are responsible for managing compliance risk in all Bank activities as a way to mitigate potential compliance risks that may take place. The Board of Commissioners is responsible for approving risk management policies and providing advice. The board is assisted by the Audit Committee and the Risk Oversight Committee as it supervises compliance risk management implementation.

3. Risk Management Process

The Bank's compliance risk management begins with the identification process to ensure that all policies, provisions, systems, and procedures, as well as business activities carried out by the Bank are in accordance with applicable laws and regulations. Compliance risk measurement is carried out against potential losses caused by non-compliance and the Bank's inability to meet applicable external provisions. The magnitude of compliance risk is estimated based on the Bank's ability to meet all regulations in the past and in the future.

Human resource quality improvement continues to be carried out in order to boost the implementation of the Bank's compliance function management, specifically, by developing competencies through the provision of education and training activities.

4. Risk Control System

In order to improve the effectiveness of internal control, the Bank has taken steps to support the creation of a culture of compliance in all of the Bank's business activities. The Bank takes timely corrective action against violations to ensure the Bank's compliance with fulfilling its commitments to Bank Indonesia, OJK and other supervisory authorities. The form of this commitment can come from audit results or letters from Bank Indonesia, OJK and/or other supervisory authorities.

The Bank has several weaknesses in its internal control system when it comes to the compliance aspect related to administrative violations that are minor and *ad hoc* in nature, but are still within the Bank's tolerance limits. The Bank's independent review process runs well, but there are still various weaknesses in its methodology.

Good Corporate Governance

Bank melakukan penilaian sendiri terhadap seluruh kriteria/indikator penerapan tata kelola, dengan mempertimbangkan faktor yang mencakup baik *governance structure*, *governance process*, dan *governance outcome*, dan pemenuhan atas prinsip GCG seperti keanggotaan Dewan Komisaris, Direksi dan Komite. Bank menyadari bahwa perbaikan dan peningkatan kualitas pelaksanaan Tata Kelola, merupakan upaya berkesinambungan, maka dari itu Bank akan melakukan hal-hal sebagai berikut:

1. Melakukan penilaian (*self-assessment*) terhadap kecukupan pelaksanaan Tata Kelola dan menyusun laporan pelaksanaan secara berkala sehingga dalam hal masih terdapat kekurangan maka dapat segera dilakukan tindakan korektif yang diperlukan.
2. Memprioritaskan komitmen yang telah dibuat oleh Bank kepada Regulator atas perbaikan Penerapan Tata Kelola sebagai tindak lanjut atas hasil pemeriksaan Otoritas Jasa Keuangan di tahun 2024.
3. Bank telah menyediakan sumber daya manusia yang berkualitas. Pemenuhan jumlah SDM dan peningkatan kemampuan dan kualitas SDM pada unit kerja terus dilakukan guna terpenuhinya tata kelola Bank yang baik.
4. Kebijakan, ketentuan, serta sistem dan prosedur yang dimiliki oleh Bank telah diperbaharui sesuai dengan ketentuan yang berlaku. Bank terus memantau implementasi kebijakan dan prosedur tersebut agar sesuai dengan ketentuan dan perundang-undangan yang berlaku.

Rentabilitas

Secara umum Allo Bank telah melakukan upaya mitigasi risiko yang cukup optimal sehingga Rentabilitas Bank tahun 2024 secara umum membaik dibandingkan tahun 2023, terlihat dari perbaikan beberapa rasio rentabilitas seperti ROA, ROE, dan NIM.

Permodalan

Kewajiban Penyediaan Modal Minimum (KPMM) posisi 31 Desember 2024 adalah sebesar 9.90%. Berdasarkan capaian tersebut, kecukupan modal Bank dinilai masih mampu menyerap potensi kerugian yang dihadapi dan jauh di atas batas minimal yang dipersyaratkan regulator.

Good Corporate Governance

The Bank conducts its own self-assessment of all criteria/indicators of governance implementation. It does this by considering factors that include governance structure, governance process, and governance outcome, and fulfillment of GCG principles such as membership of the Board of Commissioners, Board of Directors and Committees. The Bank realizes that improving and enhancing the quality of Governance implementation represents a continuous effort. Towards this end, the Bank has carried out the following efforts:

1. Conducted a self-assessment on the adequacy of Governance implementation and compiled periodic implementation reports so that the necessary corrective actions can be taken immediately if deficiencies were still found.
2. Prioritized commitments that have been made by the Bank to regulators as way for improving Governance Implementation and as follow-up actions to the results of the Financial Services Authority's inspections in 2024.
3. The Bank has provided quality human resources. Efforts towards having the right amount of HR and increasing the ability and quality the Bank's HR within work units continued to be carried out in order to fulfill good Bank governance.
4. The Bank's policies, provisions, and systems and procedures have been updated in accordance with applicable provisions. The Bank continued to monitor the implementation of these policies and procedures to ensure that they complied with applicable laws and regulations.

Rentability

In general, Allo Bank has made optimal risk mitigation efforts. This was to ensure that the Bank's Rentability in 2024 generally improved compared to 2023. The results can be seen from the improvement in several rentability ratios such as ROA, ROE, and NIM.

Capitalization

The s Minimum Capital Adequacy Ratio as of December 31, 2024 was 9.90%. This result means that the Bank's capital adequacy is considered still capable of absorbing potential losses faced and is still far above the minimum limit required by regulators.

Pengungkapan Tambahan

Additional Disclosure

Tagihan jatuh tempo seluruhnya berasal dari kredit, meningkatnya tagihan jatuh tempo diakibatkan karena adanya beberapa debitur kredit yang cukup besar yang memiliki masa tunggakan lebih dari 90 hari atau kolektabilitas 3, 4 dan 5.

All overdue bills come from credit, the increase in overdue bills is due to the presence of several quite large credit debtors who have arrears of more than 90 days or collectabilities of 3, 4 and 5.

Additional Disclosure

1. Dalam perhitungan CKPN Bank berpedoman pada PSAK 71 dimana Bank menggunakan faktor kuantitatif termasuk penentuan status berdasarkan hari tunggakan dan informasi kualitatif lainnya yang bisa mengindikasikan telah terjadi peningkatan risiko kredit signifikan dan gagal bayar (default)
 2. Dalam pengenaan FKK, Bank berpedoman pada ketentuan Perhitungan ATMR untuk Risiko Kredit dengan Pendekatan Standar Bagi Bank Umum
 3. Pengenaan MRK pada perhitungan Bank berasal dari Agunan yang menjadi faktor pengurang tagihan bersih pada Laporan Posisi Keuangan
1. In calculating CKPN, the Bank is guided by PSAK 71 where the Bank uses quantitative factors including determining status based on days of arrears and other qualitative information which can indicate that there has been a significant increase in credit risk and default.
 2. In imposing FKK, the Bank is guided by the provisions for calculating RWA for Credit Risk using the Standard Approach for Commercial Banks
 3. The imposition of MRK in the Bank's calculations comes from Collateral which is a factor reducing net claims in the Statement of Financial Position

1. Dalam perhitungan CKPN Bank berpedoman pada PSAK 71 dimana Bank menggunakan faktor kuantitatif termasuk penentuan status berdasarkan hari tunggakan dan informasi kualitatif lainnya yang bisa mengindikasikan telah terjadi peningkatan risiko kredit signifikan dan gagal bayar (default)
 2. Dalam pengenaan FKK, Bank berpedoman pada ketentuan Perhitungan ATMR untuk Risiko Kredit dengan Pendekatan Standar Bagi Bank Umum
 3. Pengenaan MRK pada perhitungan Bank berasal dari Agunan yang menjadi faktor pengurang tagihan bersih pada Laporan Posisi Keuangan
1. In calculating CKPN, the Bank is guided by PSAK 71 where the Bank uses quantitative factors including determining status based on days of arrears and other qualitative information which can indicate that there has been a significant increase in credit risk and default.
 2. In imposing FKK, the Bank is guided by the provisions for calculating RWA for Credit Risk using the Standard Approach for Commercial Banks
 3. The imposition of MRK in the Bank's calculations comes from Collateral which is a factor reducing net claims in the Statement of Financial Position

Eksposur Risiko Kredit akibat Kegagalan Pihak lawan (Counterparty Credit Risk) saat ini terdiri dari Reverse Repo Pemerintah dan Transaksi Derivatif yang berasal dari Kategori Portofolio Tagihan Kepada Bank dan Tagihan kepada Korporasi.

Bank melakukan pengelolaan risiko ini secara komprehensif salah satunya dengan melakukan pemantauan pada eksposur Counterparty Credit Risk setiap bulannya termasuk pengukuran nilai Potential Future Exposure (PFE) serta melakukan stress test terhadap Credit Valuation Adjustment (CVA) setidaknya satu kali dalam setahun yang dilaporkan ke Regulator.

Credit Risk Exposure due to Counterparty Failure (Counterparty Credit Risk) currently consists of Government Reverse Repo and Derivative Transactions originating from the Portfolio Category of Receivables to Banks and Receivables to Corporations.

The Bank manages this risk comprehensively by monitoring the Counterparty Credit Risk exposure on a monthly basis including the measurement of Potential Future Exposure (PFE) value and conducting stress tests on Credit Valuation Adjustment (CVA) at least once a year which is reported to the Regulator.

Definisi
Definition

(i) Ketika bank sebagai originator maka eksposur sekuritisasi berada pada posisi retained, meskipun tidak cocok untuk kerangka sekuritisasi yang dikarenakan tidak adanya transfer risiko yang signifikan dan efektif (yang dapat dipresentasikan secara terpisah).

(i) When the bank acts as an originator, the securitization exposure is in a retained position, although it is not suitable for a securitization framework due to the absence of significant and effective risk transfer (which can be presented separately).

(ii) Apabila bank sebagai sponsor eksposur sekuritisasi termasuk eksposur kepada commercial paper conduits dimana bank menyediakan programme-wide enhancements, likuiditas dan fasilitas lainnya. Ketika bank sebagai originator dan sponsor, harus menghindari pencatatan ganda. Terkait hal ini bank dapat menyatukan dua kolom "Bank sebagai originator" dan "Bank sebagai sponsor" dan menggunakan kolom "Bank sebagai originator sponsor".

If the bank acts as a sponsor, securitization exposure includes exposure to commercial paper conduits, for which the bank provides program-wide enhancements, liquidity and other facilities. When the bank is the originator and sponsor, the bank must avoid double listing. In this regard, the bank can combine the two columns "Bank as originator" and "Bank as sponsor" and use the column "Bank as originator sponsor".

(iii) Eksposur sekuritisasi ketika bank bertindak sebagai investor adalah investasi yang dibeli perjanjian dengan pihak ketiga.

Securitization exposure when a bank acts as an investor is an investment purchased agreement with a third party.

Transaksi sintesis: jika bank telah membeli proteksi harus melaporkan jumlah eksposur bersih yang muncul pada kolom originator/sponsor (jika jumlahnya tidak diamankan). Jika bank telah menjual proteksi, nilai eksposur dari proteksi kredit harus dilaporkan pada kolom "investor".
Synthetic transactions: if the bank has purchased protection, the bank must report the net exposure amount that appears in the originator/sponsor column (if the amount is not secured). If the bank has sold protection, the exposure value of the credit protection must be reported in the "investor" column.

Re-sekuritisasi: semua eksposur sekuritisasi terkait re-securitisation harus dilengkapi pada baris "re-sekuritisasi", dan tidak pada baris sebelumnya (dengan tipe underlying asset) yang mengandung eksposur sekuritisasi selain re-sekuritisasi.

Re-securitization: all securitization exposures related to re-securitization must be completed on the "re-securitization" line, and not on the previous line (by underlying asset type) that contains securitization exposures other than re-securitization.

Table 15c: Risk Management Implementation Report for Interest Rate Risk in Banking Book (IRRBB)

LAPORAN PENERAPAN MANAJEMEN RISIKO UNTUK IRRBB RISK MANAGEMENT IMPLEMENTATION REPORT FOR IRRBB	
Analisis Kualitatif Qualitative Analysis	
1.	Definisi IRRBB untuk Pengukuran dan Pengendalian Risiko Suku Bunga Definition of IRRBB for Measuring and Controlling Interest Rate Risk IRRBB merupakan risiko akibat pergerakan atau perubahan suku bunga di pasar yang menimbulkan eksposur risiko suku bunga yang mempengaruhi posisi <i>banking book</i> dan <i>off balance sheet</i> (aset, liabilitas, dan transaksi rekening administratif). Sensitivitas terhadap perubahan suku bunga tersebut berpotensi memberikan dampak pada permodalan dan rentabilitas (<i>earning</i>) Bank. Dalam melakukan pengukuran risiko IRRBB Bank menggunakan metode pengukuran berdasarkan perubahan pada nilai ekonomis dari ekuitas (<i>Economic Value of Equity</i>) dan pengukuran berdasarkan perubahan pada pendapatan bunga bersih (<i>Net Interest Income</i>). Pengendalian risiko suku bunga pada banking book adalah serangkaian tindakan yang dilakukan oleh bank untuk mengelola dan mengurangi dampak perubahan suku bunga terhadap aset, liabilitas, dan transaksi rekening administratif. Proses ini melibatkan identifikasi risiko, analisis sensitivitas, dan pengawasan secara berkala untuk memastikan stabilitas dan kesehatan keuangan bank.
2.	Strategi Manajemen Risiko dan Mitigasi Risiko untuk IRRBB Risk Management and Risk Mitigation Strategy for IRRBB Bank senantiasa melakukan pengawasan eksposur IRRBB secara berkala untuk memastikan bahwa risiko tetap dalam batas yang dapat diterima. Untuk itu, bank menyusun strategi manajemen risiko dan mitigasi yang mencakup penetapan tingkat risiko yang akan diambil (<i>risk appetite</i>) dan toleransi risiko (<i>risk tolerance</i>) untuk mencegah terjadinya pelampauan batasan limit yang ditetapkan oleh ketentuan yang berlaku, penetapan tingkat risiko tersebut sejalan dengan strategi bisnis bank. Selain itu, sebagai bagian dari upaya mitigasi risiko, bank menerapkan strategi diversifikasi portofolio dan menggunakan instrumen keuangan yang tepat untuk melindungi nilai aset dan kewajiban dari dampak fluktuasi suku bunga.
3.	Periodisasi Perhitungan IRRBB dan Pengukuran Spesifik yang Digunakan Bank untuk Mengukur Sensitivitas terhadap IRRBB Periodization of IRRBB Calculation and Specific Measures Used by Banks to Measure Sensitivity to IRRBB Berdasarkan aturan yang berlaku dari Regulator, Bank melakukan perhitungan IRRBB setiap Triwulanan untuk posisi akhir bulan Maret, Juni, September, dan Desember sebagai bagian dari laporan Profil Risiko untuk Risiko Pasar dan laporan Tingkat Kesehatan Bank. Namun untuk meningkatkan efektifitasnya, pemantauan atas IRRBB juga dilakukan secara bulanan dan dilaporkan kepada Komite Manajemen Risiko. Based on the applicable regulations set forth by the Regulator, the Bank calculates IRRBB on a quarterly basis for the end of March, June, September and December as part of the Risk Profile report for Market Risk and the Bank's Soundness report. However, to improve its effectiveness, monitoring of IRRBB is also conducted on a monthly basis and reported to the Risk Management Committee.
4.	Skenario Shock Suku Bunga dan Skenario Stress yang Digunakan Bank dalam Perhitungan IRRBB dengan Menggunakan EVE dan NII Interest Rate Shock Scenario and Stress Scenario Used by Banks in IRRBB Calculation Using EVE and NII Berdasarkan ketentuan regulator, Bank menggunakan pendekatan standar dalam mengukur IRRBB dengan 6 skenario shock suku bunga untuk perhitungan ΔEVE yaitu: - Shock suku bunga yang paralel ke atas (<i>parallel shock up</i>) - Shock suku bunga yang paralel ke bawah (<i>parallel shock down</i>) - Shock suku bunga yang melandai (<i>steepener shock</i>) - Shock suku bunga yang mendatar (<i>flattener shock</i>) - Shock suku bunga jangka pendek yang meningkat (<i>short rates shock up</i>) - Shock suku bunga jangka pendek yang menurun (<i>short rates shock down</i>) Sedangkan perhitungan ΔNII Bank menggunakan pendekatan standar dalam mengukur IRRBB dengan 2 skenario shock suku bunga yaitu: - Shock suku bunga yang paralel ke atas (<i>parallel shock up</i>) - Shock suku bunga yang paralel ke bawah (<i>parallel shock down</i>) Skenario <i>shock</i> suku bunga saat ini, Bank menggunakan mata uang Rupiah. Untuk skenario <i>shock</i> suku bunga dengan jenis <i>Parallel</i>, Bank menggunakan besaran perubahan nilai suku bunga sebesar 400 bps. Sementara itu dalam kondisi <i>short</i> menggunakan besaran perubahan nilai suku bunga masing-masing 500 bps serta untuk kondisi <i>long</i> menggunakan besaran perubahan nilai suku bunga masing-masing 350 bps.

5. Asumsi Permodelan yang Digunakan dalam Pengukuran IRRBB adalah Sebagai Berikut:
The Modeling Assumptions Used in the IRRBB Measurement are as follows:

Seluruh asumsi pemodelan yang dilakukan oleh Bank dalam perhitungan IRRBB telah sesuai dengan pendekatan standar maupun acuan yang telah ditetapkan oleh Regulator. Sehingga untuk saat ini Bank tidak memiliki asumsi pemodelan khusus yang memiliki pendekatan yang berbeda dari pendekatan standar.

All modeling assumptions made by the Bank in calculating IRRBB are in accordance with the standard approach and references set by the Regulator. Therefore, the Bank currently does not have any special modeling assumptions that have a different approach from the standard approach.

6. Lindung Nilai (*hedging*) terhadap IRRBB (apabila ada) dan Perlakuan Akuntansi terkait
Hedging against IRRBB (if any) and related Accounting Treatment

Saat ini Bank melakukan tindakan lindung nilai (*hedging*) terhadap IRRBB melalui *natural hedging* yaitu menggunakan karakteristik internal dari posisi aset dan kewajiban di dalam *banking book* untuk mengurangi dampak fluktuasi suku bunga tanpa harus menggunakan instrumen derivatif eksternal.

The Bank currently hedges IRRBB through natural hedging, which uses the internal characteristics of asset and liability positions in the banking book to reduce the impact of interest rate fluctuations without having to use external derivative instruments.

7. Penjelasan Komprehensif mengenai Asumsi Utama Pemodelan dan Parametric yang Digunakan untuk Menghitung Δ EVE dan Δ NII:

a. Δ EVE

Untuk posisi Desember 2024 pada Risiko Suku Bunga pada *Banking Book* (IRRBB) pada indikator delta *Economic Value of Equity* (EVE) dimana risiko maksimum terjadi pada skenario *parallel up* (suku bunga naik) yaitu sebesar Rp. 873,54 miliar, selanjutnya apabila dibandingkan dengan Modal Tier 1 Bank sebesar Rp 7,11 triliun maka delta EVE adalah sebesar 12.29%.
For the position of December 2024, in the Interest Rate Risk in the Banking Book (IRRBB) on the Economic Value of Equity (EVE) delta indicator, where the maximum risk occurs in the parallel up scenario (interest rates rise) amounting to Rp873.54 billion, then when compared to the Bank's Tier 1 Capital of Rp7.11 trillion, the EVE delta is 12.29%.

b. Δ NII

Untuk posisi Desember 2024, nilai delta *Net Interest Income* (NII) dimana risiko maksimum terjadi pada skenario *parallel up* sebesar Rp. 17,61 miliar. Apabila dibandingkan dengan *projected income* Desember 2024 Bank sebesar Rp 580,76 miliar, delta NII adalah sebesar 3.03%.

For the December 2024 position, the Net Interest Income (NII) delta value where the maximum risk occurs in the parallel up scenario, is Rp17.61 billion. When compared to the Bank's December 2024 projected income of Rp580.76 billion, the delta NII is 3.03%.

Analisis Kuantitatif Quantitative Analysis

1. Rata-rata Jangka Waktu Penyesuaian Suku Bunga (*repricing maturity*) yang Diterapkan untuk NMD
Average repricing maturity applied to NMDs

Rata - rata jangka waktu penyesuaian suku bunga (*repricing maturity*) yang diterapkan untuk NMD adalah 1 bulan melalui *review* secara bulanan pada rapat ALCO.

The average repricing maturity applied to NMD is 1 month through monthly reviews at ALCO meetings.

2. Repricing maturity terpanjang yang diterapkan untuk NMD.
Longest maturity repricing applied for NMD.

Bank menerapkan jangka waktu penyesuaian suku bunga (*repricing maturity*) terlama yang diterapkan untuk NMD adalah 1 tahun.
The longest repricing maturity applied for NMD is 1 year.

Analisis Analysis

1. Perhitungan *Liquidity Coverage Ratio* posisi Triwulan IV tahun 2024 Bank Allo Indonesia periode Oktober 2024 - Desember 2024 sebesar 172.85% di atas ketentuan yang dipersyaratkan Regulator yaitu 100% (POJK Nomor 42/POJK.03/2015 tentang Kewajiban Pemenuhan Rasio Kecukupan Likuiditas (*Liquidity Coverage Ratio*) Bagi Bank Umum). Hal ini mengindikasikan kondisi Bank cukup baik dalam mengelola kebutuhan likuiditas untuk menopang aktivitas bisnis dalam periode 3 bulan terakhir.
2. Nilai LCR Triwulan IV tahun 2024 diperoleh dari rata-rata harian laporan selama bulan Oktober 2024 sampai dengan Desember 2024. Nilai rata-rata untuk Triwulan IV mengalami penurunan sebesar 2.84% dibandingkan periode Triwulan III tahun 2024 yang sebesar 175.69%. Penurunan rasio ini disebabkan oleh:
 - a. a.Total *High Quality Liquid Asset* (HQLA) pada Triwulan IV tahun 2024 mengalami peningkatan 21.64% dibandingkan Triwulan III tahun 2024. Faktor peningkatan HQLA ditimbulkan dari Total penempatan pada Bank Indonesia dan Surat berharga yang diterbitkan Pemerintah Pusat dan Bank Indonesia dalam rupiah jika dibandingkan dengan Triwulan sebelumnya.
 - b. b.Total rata-rata Arus Kas Keluar Bersih (*Net Cash Outflow*) pada periode Triwulan IV tahun 2024 sebesar Rp. 2,13 triliun, mengalami peningkatan sebesar 23.64% atau setara Rp. 406,88 miliar dibandingkan periode Triwulan III tahun 2024 yang sebesar Rp. 1,72 triliun. Hal ini disebabkan adanya peningkatan pendanaan yang berasal dari Nasabah Korporasi sebesar 224,36 miliar dan simpanan nasabah perorangan dan Pendanaan yang berasal dari Nasabah Usaha Mikro dan Usaha Kecil sebesar 1,90 miliar dibandingkan periode Triwulan III Tahun 2024.
3. Komposisi rata-rata HQLA Allo Bank selama Triwulan IV 2024 didominasi oleh surat berharga Pemerintah 93,45% (setelah pembobotan).
4. Konsentrasi rata-rata sumber pendanaan pada posisi Triwulan IV 2024 yang berasal dari nasabah perorangan sebesar 3.21% dan nasabah korporasi sebesar 96.55% (setelah pembobotan). Hal ini dipahami oleh Bank, dimana Bank terus berupaya meningkatkan sumber pendanaan perorangan dengan melakukan berbagai program untuk menarik nasabah ritel untuk menambah porsi dana stabil.
5. Allo Bank tidak memiliki eksposur derivatif pada Triwulan IV 2024.
6. Dalam pengelolaan likuiditas, Allo Bank telah mengidentifikasi, mengukur, memantau dan mengendalikan risiko likuiditas dengan komprehensif, antara lain dilakukan dengan pemantauan risk limit likuiditas (*appetite limit & tolerance limit*), perhitungan proyeksi arus kas, *Maturity Profile Behavioural*, perhitungan Aset Likuid terhadap *Non-Core Deposit*, *Liquidity Coverage Ratio* (LCR), *Net Stable Funding Ratio* (NSFR), *stress testing* likuiditas dan pengelolaan likuiditas yang ditetapkan dalam rapat komite ALCO dan dilaksanakan oleh unit kerja terkait baik *Funding*, *Lending*, dan *Treasury*. Bank juga telah melakukan *Table Top Exercise* dengan skenario likuiditas untuk memastikan kesiapan Bank pada saat terjadi krisis likuiditas yang dipengaruhi oleh berbagai faktor internal maupun eksternal.

Analysis Analysis

1. Calculation of Liquidity Coverage Ratio position in the fourth quarter of 2024 Bank Allo Indonesia for the period October 2024 - December 2024 amounted to 172.85% above the provisions required by the Regulator which is 100% (POJK Number 42/POJK.03/2015 concerning Obligations to Fulfill the Liquidity Adequacy Ratio (Liquidity Coverage Ratio) for Commercial Banks). This indicates that the Bank's condition is quite good in managing liquidity needs to support business activities in the last 3 months period.
2. The LCR value for the fourth quarter of 2024 was obtained from the daily average of reports from October 2024 to December 2024. The average value for the fourth quarter decreased by 2.84% compared to the third quarter of 2024 which amounted to 175.69%. The decrease in this ratio was caused by:
 - a. Total High Quality Liquid Asset (HQLA) in the fourth quarter of 2024 increased by 21.64% compared to the third quarter of 2024. The increase in HQLA was caused by total placements with Bank Indonesia and securities issued by the Central Government and Bank Indonesia in rupiah when compared to the previous quarter.
 - b. Total average Net Cash Outflow in the fourth quarter of 2024 amounted to Rp2.13 trillion, an increase of 23.64% or equivalent to Rp406.88 billion compared to the third quarter of 2024 which amounted to Rp1.72 trillion. This was due to an increase in funding from corporate customers by 224.36 billion and individual customer deposits and funding from micro and small business customers by 1.90 billion compared to the third quarter of 2024.
3. The composition of Allo Bank's average HQLA during the fourth quarter of 2024 was dominated by Government securities 93.45% (after weighting).
4. The average concentration of funding sources in Q4 2024 position from individual customers amounted to 3.21% and corporate customers amounted to 96.55% (after weighting). This is acknowledged by the Bank, where the Bank continues to strive to increase individual funding sources by conducting various programs to attract retail customers to increase the portion of stable funds.
5. Allo Bank has no derivative exposure as of Q4 2024.
6. In managing liquidity, Allo Bank has identified, measured, monitored and controlled liquidity risk comprehensively, among others by monitoring liquidity risk limits (appetite limit & tolerance limit), calculating cash flow projections, Maturity Profile Behavioural, calculating Liquid Assets against Non-Core Deposits, Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), liquidity stress testing and liquidity management which are determined in the ALCO committee meeting and implemented by the relevant working units of Funding, Lending, and Treasury. The Bank has also conducted a Table Top Exercise with liquidity scenarios to ensure the Bank's readiness in the event of a liquidity crisis influenced by various internal and external factors.

Analisis Kualitatif

Qualitative Analysis

- NSFR (Net Stable Funding Ratio) posisi 31 Desember 2024 sebesar 115.87%, turun 2.09% bila dibandingkan NSFR posisi 30 September 2024 yaitu sebesar 117.96%. Penurunan NSFR ini terutama disebabkan oleh peningkatan RSF (Required Stable Funding) lebih besar jika dibandingkan dengan peningkatan ASF (Available Stable Funding). Total RSF meningkat sebesar 2.21% dan total AFS meningkat 0.39% jika dibandingkan triwulan sebelumnya.
- Turunnya NSFR Bank disebabkan oleh beberapa hal sebagai berikut:
ASF:
 - Total ASF meningkat 0.39% bila dibandingkan NSFR posisi 30 September 2024.
 - Modal sesuai POJK KPMM meningkat 1.39% bila dibandingkan NSFR posisi 30 September 2024.
 - Peningkatan ASF terutama pada komponen simpanan yang berasal dari nasabah perorangan dan pendanaan yang berasal dari nasabah usaha mikro dan usaha kecil sebesar IDR 305,41 miliar atau 31.77% bila dibandingkan periode 30 September 2024.
 - Secara khusus pendanaan Bank didominasi oleh pendanaan non-stabil yaitu IDR 1,20 triliun, dibandingkan dengan IDR 62,12 miliar untuk pendanaan stabil Bank.
 - Rasio pendanaan stabil dibandingkan non-stabil Bank adalah 5.16%.
- RSF:
 - Total RSF mengalami peningkatan 2.21% bila dibandingkan NSFR posisi 30 September 2024.
 - Peningkatan RSF di peroleh dari komponen aset lainnya sebesar 55.13% dan komponen rekening administratif sebesar 11.06% bila dibandingkan NSFR posisi 30 September 2024.

LIQA - Manajemen Risiko Likuiditas LIQA - Liquidity Risk Management	
Pengungkapan kualitatif Qualitative disclosure	
1.	Tata kelola pengelolaan risiko likuiditas, termasuk: toleransi risiko; struktur dan tanggung jawab pengelolaan risiko likuiditas; pelaporan likuiditas internal; dan komunikasi strategi, kebijakan dan praktik risiko likuiditas di seluruh lini bisnis dan dengan dewan direksi. Liquidity risk management governance, including: risk tolerance; liquidity risk management structure and responsibilities; internal liquidity reporting; and communication of liquidity risk strategies, policies and practices across business lines and with the board of directors.
a.	Toleransi Risiko Risk Tolerance Bank menetapkan limit toleransi (risk tolerance) & risk appetite Risiko Likuiditas yang konsisten dan relevan dengan bisnis serta kompleksitas kegiatan usaha Bank. Limit tersebut meliputi antara lain limit Liquidity Coverage Ratio (LCR), limit Net Stable Funding Ratio (NSFR), limit Rasio Intermediasi Makroprudensial (RIM), limit mismatch arus kas baik dalam jangka pendek maupun jangka panjang termasuk arus kas yang berasal dari rekening administratif, limit konsentrasi pada aset dan kewajiban, dan rasio-rasio likuiditas lainnya. Penetapan limit toleransi dilakukan agar Bank dapat mengelola likuiditas pada kondisi normal maupun krisis. Penetapan besaran limit risk appetite dan risk tolerance diajukan oleh Satuan Kerja Manajemen Risiko (SKMR) dan disetujui oleh Dewan Direksi dan Komisaris melalui Komite Manajemen Risiko (KMR). Apabila terjadi pelampauan limit, maka Satuan Kerja Manajemen Risiko (SKMR) akan berkoordinasi dengan Unit Bisnis terkait untuk menyusun action plan. The Bank sets tolerance limits (risk tolerance) & risk appetite Liquidity Risk that is consistent and relevant to the business and complexity of the Bank's business activities. These limits include, among others, Liquidity Coverage Ratio (LCR) limits, Net Stable Funding Ratio (NSFR) limits, Macroprudential Intermediation Ratio (RIM) limits, cash flow mismatch limits both in the short and long term including cash flows originating from administrative accounts, concentration limits on assets and liabilities, and other liquidity ratios. Tolerance limits are determined so that the Bank can manage liquidity in normal and crisis conditions. Determination of the risk appetite and risk tolerance limits is proposed by the Risk Management Work Unit (SKMR) and approved by the Board of Directors and Commissioners through the Risk Management Committee (KMR). If the limit is exceeded, the Risk Management Work Unit (SKMR) will coordinate with the relevant Business Unit to prepare an action plan.
b.	Struktur dan Tanggung Jawab Pengelolaan Risiko Likuiditas Liquidity Risk Management Structure and Responsibilities Bank menetapkan struktur organisasi, perangkat dan kelengkapan unit fungsi terkait dengan penerapan manajemen risiko untuk Risiko Likuiditas yang sesuai dengan karakteristik dan kompleksitas kegiatan usaha Bank. Penanggung jawab dari pengelolaan Risiko Likuiditas adalah Unit Bisnis yang aktivitasnya terekspos langsung oleh Risiko Likuiditas. Unit Bisnis tersebut selanjutnya dibantu oleh Enterprise, Operational and Market Risk (EOMR) dengan memberikan masukan dan analisa yang objektif dalam proses identifikasi, pengukuran, pemantauan, dan pelaporan Risiko Likuiditas secara independen. Dewan Direksi dan Komisaris bertanggung jawab untuk memastikan bahwa penerapan manajemen Risiko Likuiditas telah sesuai dengan tujuan strategis, skala, karakteristik bisnis, dan profil Risiko Likuiditas Bank, termasuk memastikan integrasi penerapan manajemen risiko untuk Risiko Likuiditas dengan risiko-risiko lainnya yang dapat berdampak pada posisi likuiditas Bank. The Bank establishes the organizational structure, tools and completeness of units functions related to the implementation of risk management for Liquidity Risk in accordance with the characteristics and complexity of the Bank's business activities. The person in charge of Liquidity Risk management is the Business Unit whose activities are directly exposed to Liquidity Risk. The Business Unit is further assisted by Enterprise, Operational and Market Risk (EOMR) by providing input and objective analysis in the process of identifying, measuring, monitoring and reporting Liquidity Risk independently. The Board of Directors and Commissioners are responsible for ensuring that the implementation of Liquidity Risk management is in accordance with the Bank's strategic objectives, scale, business characteristics, and Liquidity Risk profile, including ensuring the integration of risk management implementation for Liquidity Risk with other risks that may impact the Bank's liquidity position.
c.	Pelaporan Likuiditas Internal dan Komunikasi Strategi Internal Liquidity Reporting and Strategy Communication

Bank memiliki Sistem Informasi Manajemen Risiko yang memadai dan andal untuk keperluan pelaporan terkait Risiko Likuiditas. Secara umum, Bank telah menyampaikan dan melaporkan informasi terkait manajemen risiko untuk Risiko Likuiditas yang terdiri dari: rasio-rasio likuiditas, arus kas dan profil maturitas, *stress testing* Likuiditas, Profil Risiko Likuiditas, serta informasi lainnya yang terkait dengan posisi Likuiditas Bank dan kepatuhan Bank terhadap kebijakan dan prosedur Risiko Likuiditas. Seluruh informasi disampaikan ke Unit Bisnis terkait serta Dewan Direksi dan Komisaris melalui kanal sistem informasi internal Bank dan rapat Komite Manajemen Risiko (KMR) secara bulanan. Enterprise, Operational and Market Risk (EOMR) selanjutnya akan berkoordinasi secara periodik dengan Unit Bisnis terkait yang mengelola Risiko Likuiditas jika terjadi pelanggaran terhadap kebijakan maupun limit untuk Risiko Likuiditas dan menyusun rencana aksi (*action plan*).

The Bank has an adequate and reliable Risk Management Information System for reporting purposes related to Liquidity Risk. In general, the Bank has submitted and reported information related to risk management for Liquidity Risk consisting of: Liquidity ratios, cash flow and maturity profile, Liquidity stress testing, Liquidity Risk Profile, and other information related to the Bank's Liquidity position and the Bank's compliance with Liquidity Risk policies and procedures. All information is submitted to the relevant Business Units as well as the Board of Directors and Commissioners through the Bank's internal information system channels and monthly Risk Management Committee (KMR) meetings. Enterprise, Operational and Market Risk (EOMR) will then coordinate periodically with the relevant Business Units that manage Liquidity Risk in the event of an exceedance of the policy or limit for Liquidity Risk and develop an action plan.

- d. Kebijakan dan Praktik Risiko Likuiditas di Seluruh Lini Bisnis dan dengan Dewan Direksi
Liquidity Risk Policies and Practices across Business Lines and with the Board of Directors

Dalam prakteknya, Unit Bisnis yang terekspos oleh Risiko Likuiditas akan menyampaikan informasi mengenai kondisi indikator makroekonomi dan proyeksi bisnis melalui rapat *Asset and Liability Committee* (ALCO) serta dapat mengajukan besaran limit dan toleransi risiko yang terkait dengan Risiko Likuiditas kepada Enterprise, Operational and Market Risk (EOMR) untuk dikaji dan diajukan ke Komite Manajemen Risiko untuk mendapatkan persetujuan. Unit Bisnis terkait juga menyusun *action plan*, mengembangkan *risk culture* yang kuat, serta menerapkan kebijakan dan prosedur manajemen risiko untuk Risiko Likuiditas yang telah ditetapkan oleh Dewan Direksi. Selanjutnya Dewan Direksi akan memantau dan memastikan bahwa penerapan manajemen risiko untuk Risiko Likuiditas telah berjalan sesuai dengan tujuan dan karakteristik Bank dengan dibantu oleh Enterprise, Operational and Market Risk (EOMR).

In practice, Business Units exposed to Liquidity Risk will submit information on the condition of macroeconomic indicators and business projections through Asset and Liability Committee (ALCO) meetings and may submit the amount of limits and risk tolerance associated with Liquidity Risk to the Enterprise, Operational and Market Risk (EOMR) for review and submission to the Risk Management Committee for approval. The relevant Business Unit also develops action plans, develops a strong risk culture, and implements risk management policies and procedures for Liquidity Risk that have been determined by the Board of Directors. Furthermore, the Board of Directors will monitor and ensure that the implementation of risk management for Liquidity Risk has run in accordance with the objectives and characteristics of the Bank with the assistance of Enterprise, Operational and Market Risk (EOMR).

2. Strategi pendanaan, termasuk kebijakan sumber diversifikasi dan tenor pendanaan, dan apakah strategi pendanaannya terpusat atau terdesentralisasi.
Funding strategy, including diversification source policy and funding tenor, and whether the funding strategy is centralized or decentralized.

Secara umum, Bank akan menyusun strategi pendanaan sebagai bagian dari upaya pengendalian Risiko Likuiditas. Strategi tersebut mencakup strategi diversifikasi sumber dan jangka waktu pendanaan yang dikaitkan dengan karakteristik dan rencana bisnis Bank. Hal ini tercantum dalam limit risiko Untuk Risiko Likuiditas terkait dengan konsentrasi pendanaan seperti konsentrasi Deposito terhadap Total DPK, konsentrasi DPK special rate terhadap Total DPK, konsentrasi DPK Korporasi terhadap Total DPK, serta konsentrasi Kewajiban Interbank.

In general, the Bank will develop a funding strategy as part of efforts to control Liquidity Risk. This strategy includes a strategy to diversify sources and funding periods that are linked to the characteristics and business plans of the Bank. This is stated in the risk limit for Liquidity Risk related to funding concentrations such as the concentration of Deposits to Total DPK, the concentration of special rate DPK to Total DPK, the concentration of Corporate DPK to Total DPK, and the concentration of Interbank Liabilities.

3. Teknik mitigasi risiko likuiditas.
Liquidity risk mitigation techniques.

Bank melakukan mitigasi risiko likuiditas dengan cara memantau limit-limit risiko likuiditas yang telah ditetapkan oleh manajemen Bank. Apabila limit tersebut mengalami pelampauan (*breach*), maka Enterprise, Operational and Market Risk (EOMR) berkordinasi dengan Unit Bisnis Terkait untuk melakukan *action plan*.

The Bank mitigates liquidity risk by monitoring the liquidity risk limits set by the Bank's management. If the limit is breached, the Enterprise, Operational and Market Risk (EOMR) will coordinate with the relevant Business Unit to conduct an action plan.

4. Penjelasan tentang bagaimana stress-test digunakan.
An explanation of how stress tests are used.

Stress Testing Likuiditas digunakan untuk mengetahui kemampuan Bank untuk memenuhi kebutuhan likuiditas dalam kondisi krisis dengan menggunakan skenario stress test secara spesifik (*Bank specific scenario*) maupun stress pada pasar (*general market stress scenario*).

'Liquidity Stress Testing is used to determine the Bank's ability to meet liquidity needs in crisis conditions using Bank specific scenarios and general market stress scenarios.

5. Garis besar rencana pendanaan mendesak bank.
Outline of the bank's urgent funding plan.

Dalam rangka pengendalian likuiditas dalam kondisi krisis, dibentuk suatu organisasi *Business Continuity Management (BCM)* yang memiliki tugas dan tanggung jawab melakukan pemantauan secara *continue* mengenai kondisi likuiditas bank. Apabila kondisi likuiditas bank berada dalam kriteria risiko *high*, maka Bank akan mengaktifkan Rencana Pendanaan Darurat.

'In order to control liquidity in crisis conditions, a Business Continuity Management (BCM) organization has been established with the duty and responsibility to continuously monitor the bank's liquidity condition. If the bank's liquidity condition is within the high risk criteria, the Bank will activate the Emergency Funding Plan.

6. Alat ukur atau metrik yang disesuaikan yang menilai struktur neraca bank atau arus kas proyeksi dan posisi likuiditas masa depan, dengan memperhitungkan risiko transaksi rekening administratif yang khusus untuk bank tersebut.
A customized measurement tool or metric that assesses a bank's balance sheet structure or projected cash flows and future liquidity position, taking into account administrative account transaction risks specific to that bank.

Pengukuran yang digunakan Bank dalam melakukan proyeksi arus kas yaitu dengan melihat kegiatan bisnis utama bank berdasarkan pendekatan informasi bisnis, *remaining maturity (contractual)* maupun *behavioral* dalam *on & off balance sheet*. Selain itu, bank juga melakukan Rencana Pendanaan

Penggunaan (RPP) dalam pengelolaan likuiditas jangka pendek.

'The measurement used by the Bank in making cash flow projections is by looking at the bank's main business activities based on business information, remaining maturity (contractual) and behavioral approaches on & off balance sheet. In addition, the bank also conducts a Funding

Utilization Plan (RPP) in managing short-term liquidity.

1.	Bank telah mengimplementasikan kebijakan manajemen risiko sesuai dengan Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/2016 dan Surat Edaran OJK Nomor 34/SEOJK/032016 tentang Penerapan Manajemen Risiko Bagi Bank Umum serta mengacu juga pada peraturan internal mengenai Kebijakan Manajemen Risiko. Beberapa Kebijakan Internal yang terkait Manajemen Risiko Operasional diantaranya SK Manajemen Risiko Operasional; SE Kerangka Kerja Manajemen Risiko; SK Komite Manajemen Risiko; SE Pedoman Penyusunan ATMR Risiko Operasional; SE Pedoman Penyusunan Profil Risiko; SK Kewajiban Penyediaan Modal Minimum (KPMM) sesuai Profil Risiko; SK Kebijakan <i>Risk Limit</i>; SE Pengelolaan Risiko Produk Bank; SE <i>Risk Control & Self Assessment</i> (RCSA); SE Key Risk Indicator (KRI); SE Prosedur dan Panduan Incident Reporting & Management; SK Implementasi Responsible Person (RP) pada Masing-Masing Divisi; SK Crisis Management Plan (CMP); SK <i>Business Continuity Management</i> (BCM); SK <i>Business Continuity Plan</i> (BCP); SE Prosedur dan Penyusunan BIA dan BCP Unit Kerja; dan SK Kebijakan Risk Management Terkait Kegiatan Alih Daya. Kebijakan Manajemen Risiko Operasional berperan sebagai panduan bagi Bank dalam mengelola Risiko Operasional yang melekat pada berbagai aktivitas Operasional dan Bisnis Bank, terutama untuk menetapkan tanggung jawab, akuntabilitas, dan menyelaraskan proses kerja. Harapannya, hal ini dapat mengurangi potensi kerugian yang disebabkan oleh gangguan proses internal, kesalahan manusia, kegagalan sistem, dan/atau peristiwa-peristiwa eksternal, dengan mengantisipasi timbulnya insiden/ kesalahan akibat kurangnya pengelolaan Risiko Operasional yang efektif. The Bank has implemented risk management policies in accordance with the Financial Services Authority Regulation Number 18/POJK.03/ 2016 and OJK Circular Letter Number 34/SEOJK/032016 concerning the Implementation of Risk Management for Commercial Banks and also refers to internal regulations regarding Risk Management Policies. Some of the Internal Policies related to Operational Risk Management include Operational Risk Management Decree; Risk Management Framework Decree; Risk Management Committee Decree; Operational Risk RWA Preparation Guidelines; Risk Profile Preparation Guidelines; Minimum Capital Adequacy Decree (CAR) according to Risk Profile; Risk Limit Policy Decree; SE Bank Product Risk Management; SE Risk Control & Self Assessment (RCSA); SE Key Risk Indicator (KRI); SE Incident Reporting & Management Procedures and Guidelines; SK Responsible Person (RP) Implementation in Each Division; SK Crisis Management Plan (CMP); SK Business Continuity Management (BCM); SK Business Continuity Plan (BCP); SE Procedures and Preparation of BIA and BCP Work Units; and SK Risk Management Policies Related to Outsourcing Activities. The Operational Risk Management Policy serves as a guide for the Bank in managing Operational Risk inherent in various Operational and Business activities of the Bank, especially to assign responsibilities, accountabilities, and harmonize work processes. It is expected to reduce potential losses caused by internal process disruptions, human errors, system failures, and/or external events, by anticipating the occurrence of incidents/errors due to lack of effective Operational Risk management.

2. Dalam rangka meningkatkan efektivitas implementasi Manajemen Risiko Operasional, Bank telah memiliki Unit Kerja Enterprise, Operational, and Market Risk (EOMR) yang salah satu fungsinya terkait Manajemen Risiko Operasional dan berada dibawah koordinasi Satuan Kerja Manajemen Risiko dengan tugas dan tanggung jawab yang telah dirumuskan dengan jelas dan akuntabel. Unit Kerja ini memiliki tugas membantu Direksi dalam mengelola Risiko Operasional, memantau proses pelaksanaan Manajemen Risiko Operasional secara menyeluruh, memastikan kebijakan Manajemen Risiko Operasional berjalan pada seluruh tingkat Organisasi Bank. Dalam pelaksanaannya Unit Kerja EOMR berkoordinasi dengan beberapa Unit Kerja pada setiap kesempatan seperti Unit Kerja Internal Audit, Unit Kerja Cyber Risk, Unit Kerja Legal, Unit Kerja Kepatuhan serta Unit Kerja untuk membahas isu-isu Risiko Operasional yang kritis agar risiko-risiko tersebut dapat dimitigasi dan dikendalikan secara efektif sejak dini.

Untuk mendukung implementasi Kerangka Kerja Manajemen Risiko Operasional telah dibentuk 3 unsur penanggung jawab pengelola di masing-masing Unit Kerja yang terdiri dari *Risk Owner*, *Operational Risk Manager (Risk Specialist)* dan *Responsible Person (RP)*. *Risk Owner* merupakan pemimpin tertinggi di Direktorat, Unit Kerja Bisnis dan unit kerja pendukung yang bertanggung jawab mengelola Risiko Operasional di unit kerja yang dipimpinnya, termasuk memastikan dipatuhinya peraturan dalam pelaksanaan kegiatan bisnis, operasional, dan transaksional. *Operational Risk Manager (ORM)* merupakan fungsi manajemen Risiko Operasional yang membantu *Risk Owner* mengimplementasikan Kerangka Kerja Manajemen Risiko Operasional. *Responsible Person (RP)* bertugas membantu Kepala Divisinya mengelola Risiko Operasional terutama dalam hal Pelaporan Kejadian Risiko (*Incident Report*), *Risk & Control Self-Assessment (RCSA)*, *Key Risk Indicators (KRI)* serta permasalahan risiko operasional lainnya yang tidak tercover pada area kerjanya.

In order to improve the effectiveness of Operational Risk Management implementation, the Bank has an Enterprise, Operational, and Market Risk (EOMR) Work Unit, one of whose functions is related to Operational Risk Management and is under the coordination of the Risk Management Work Unit with clearly defined and accountable duties and responsibilities. This Working Unit has the task of assisting the Board of Directors in managing Operational Risk, monitoring the overall Operational Risk Management implementation process, ensuring Operational Risk Management policies are implemented at all levels of the Bank's Organization. In its implementation, the EOMR Work Unit coordinates with several Work Units on every occasion such as the Internal Audit Work Unit, Cyber Risk Work Unit, Legal Work Unit, Compliance Work Unit and Work Units to discuss critical Operational Risk issues so that these risks can be effectively mitigated and controlled early on.

To support the implementation of the Operational Risk Management Framework, 3 elements of responsible managers have been established in each Work Unit consisting of Risk Owner, Operational Risk Manager (Risk Specialist) and Responsible Person (RP). The Risk Owner is the highest leader in the Directorate, Business Unit and supporting work units who is responsible for managing Operational Risk in the work unit he leads, including ensuring compliance with regulations in the implementation of business, operational and transactional activities. Operational Risk Manager (ORM) is an Operational Risk management function that helps the Risk Owner implement the Operational Risk Management Framework. The Responsible Person (RP) is tasked with assisting the Head of the Division in managing Operational Risk, especially in terms of Incident Reporting, Risk & Control Self-Assessment (RCSA), Key Risk Indicators (KRI) and other operational risk issues that are not covered in their work area.

3. Bank mengembangkan metodologi Manajemen Risiko Operasional dalam rangka penyempurnaan *ORM tools* yang telah ada. *ORM Tools* adalah perangkat atau sistem yang dirancang untuk membantu Bank dalam mengidentifikasi, menilai, mengendalikan, dan memantau Risiko Operasional. *ORM Tools* memiliki tiga modul yakni *Risk Control Self Assessment (RCSA)*, *Key Risk Indicator (KRI)* dan *Incident Report*. *RCSA* digunakan untuk membantu *risk owner* dalam melakukan proses manajemen risiko operasional yang mencakup identifikasi dan pengukuran risiko operasional secara mandiri yang bersifat prediktif dan antisipatif. Selanjutnya, *KRI* adalah alat bantu yang memberikan informasi sejak dini mengenai gejala maupun risiko yang trennya menunjukkan peningkatan. Sedangkan *Incident Report* merupakan *tools* yang berfungsi sebagai *database* peristiwa risiko, yang digunakan untuk data pembelajaran Bank.

Bank juga membangun *database* peristiwa risiko, termasuk di dalamnya data kerugian karena risiko operasional, melalui modul *Incident Report*. Hal ini merupakan bagian dari kegiatan Bank mendata *Risk & Loss Event Data (RLED)* yang akan digunakan di dalam perhitungan Modal Risiko Operasional dan ATMR Risiko Operasional. Peristiwa yang dicatat meliputi *Loss Event* dan/atau *Near Miss Event*. Kejadian dapat berasal dari kegiatan yang bersifat transaksional maupun non transaksional. *Near Miss* merupakan peristiwa risiko yang nyaris menimbulkan kerugian finansial atau yang telah menimbulkan kerugian finansial namun kerugian tersebut sudah *recovery* seluruhnya, dengan catatan pada saat pencatatan *Incident Report* peristiwa risiko sudah terselesaikan baik di hari yang sama dengan peristiwa ataupun tidak, sedangkan *Loss Event* merupakan peristiwa risiko yang berdampak finansial atau hilangnya dana Bank.

Insiden/peristiwa Risiko Operasional wajib dianalisis kronologi, penyebab, dan dampaknya untuk memperoleh informasi yang lengkap dan komprehensif. Seluruh peristiwa risiko yang memiliki dampak kerugian finansial harus dicatat di dalam modul *Incident Report* berapapun nilai kerugiannya. Terhadap Insiden Risiko yang telah dicatat Unit Kerja terkait memantau kerugian dari *Loss Event* mengenai *update* setiap *recovery* kerugian sampai dengan final serta pembukuan kerugian final dalam buku Bank. Unit Kerja EOMR akan merekonsiliasi *Loss* yang dicatat pada *Incident Report Database* dengan yang dicatat di GL Kerugian Bank./

The Bank developed an Operational Risk Management methodology in order to improve the existing ORM tools. ORM Tools are devices or systems designed to assist the Bank in identifying, assessing, controlling, and monitoring Operational Risk. ORM Tools have three modules, namely Risk Control Self Assessment (RCSA), Key Risk Indicator (KRI) and Incident Report. RCSA is used to assist risk owners in carrying out the operational risk management process which includes identifying and measuring operational risks independently which are predictive and anticipatory. Furthermore, KRI is a tool that provides early information on symptoms or risks that show an increasing trend. Meanwhile, Incident Report is a tool that functions as a database of risk events, which is used for Bank learning data.

The Bank also establishes a database of risk events, including data on losses due to operational risks, through the Incident Report module. This is part of the Bank's activities in recording Risk & Loss Event Data (RLED) which will be used in calculating Operational Risk Capital and Operational Risk RWA. The events recorded include Loss Events and/or Near Miss Events. The incidents can originate from transactional or non-transactional activities. Near Miss is a risk event that almost caused a financial loss or has caused a financial loss but the loss has been fully recovered, with the note that at the time of recording the Incident Report the risk event has been resolved either on the same day as the event or not, while Loss Event is a risk event that has a financial impact or loss of Bank funds.

Operational Risk Incidents/Events must be analyzed for chronology, causes, and impacts to obtain complete and comprehensive information. All risk events that have an impact on financial loss must be recorded in the Incident Report module regardless of the value of the loss. For the Risk Incidents that have been recorded, the related Work Unit monitors the losses from the Loss Event regarding updates on each loss recovery until the final and the final loss recording in the Bank's books. The EOMR Work Unit will reconcile the Losses recorded in the Incident Report Database with those recorded in the Bank's Loss GL.

4. Satuan Kerja Manajemen Risiko (SKMR) khususnya Unit Kerja EOMR telah menerbitkan dan menyusun beberapa laporan kondisi risiko-risiko yang terkait dengan Bank kepada jajaran Manajemen. Laporan-laporan ini dibuat dalam rangka mendukung kinerja unit terkait melalui penyediaan data yang informatif, lengkap, dan *terkini* dalam rangka pengendalian risiko diantaranya Laporan *Risk Limit*, Kewajiban Penyediaan Modal Minimum (KPMM), Penilaian Tingkat Kesehatan Bank, *Risk & Loss Event Database* (RLED), *Risk & Control Self Assessment* (RCSA), *Key Risk Indicator* (KRI). Perhitungan Aset Tertimbang Menurut Risiko (ATMR) Operasional dengan Menggunakan Pendekatan Indikator Dasar pada periode sebelumnya dan Perhitungan Aset Tertimbang Menurut Risiko (ATMR) Operasional dengan Menggunakan Indikator Standar pada periode 2023 sesuai dengan SEOJK No 6/SEOJK.03/2022.

Di dalam Penilaian Tingkat Kesehatan Bank terdapat beberapa jenis risiko salah satunya Operasional dimana parameter-parameter penilaian pada risiko inheren adalah Karakteristik dan Kompleksitas Bisnis, Sumber Daya Manusia, Teknologi Informasi dan Infrastruktur Pendukung, *Fraud* dan Kejadian Eksternal. Parameter tersebut sesuai dengan Surat Edaran OJK terkait Penilaian Tingkat Kesehatan Bank.

The Risk Management Work Unit (SKMR), especially the EOMR Work Unit, has published and compiled several reports on the condition of risks related to the Bank to the Management. These reports are made in order to support the performance of related units by providing informative, complete, and up-to-date data in order to control risks, including Risk Limit Reports, Minimum Capital Adequacy Requirement (CAR), Bank Soundness Level Assessment, Risk & Loss Event Database (RLED), Risk & Control Self-Assessment (RCSA), Key Risk Indicator (KRI). Calculation of Operational Risk-Weighted Assets (RWA) Using the Basic Indicator Approach in the previous period and Calculation of Operational Risk-Weighted Assets (RWA) Using Standard Indicators in the 2023 period in accordance with SEOJK No. 6/SEOJK.03/2022.

In the Bank Soundness Level Assessment, there are several types of risks, one of which is Operational where the assessment parameters for inherent risk are Business Characteristics and Complexity, Human Resources, Information Technology and Supporting Infrastructure, Fraud and External Events. These parameters are in accordance with the OJK Circular Letter regarding Bank Health Level Assessment.

5. Bank senantiasa menyempurnakan implementasi Manajemen Risiko Operasional dengan meningkatkan kesadaran para Pegawai terhadap risiko serta menyempurnakan Kebijakan dan Prosedur operasional Bank. Berbagai upaya ini ditujukan untuk memitigasi risiko inheren dan terus meningkatkan sistem pengendalian khususnya terhadap Risiko Operasional. Bank juga terus-menerus meningkatkan kesadaran risiko seluruh pegawainya melalui berbagai media termasuk diantaranya email blast dan sosialisasi secara langsung.

Bank dalam menentukan tingkat Risiko yang diambil, Toleransi Risiko, dan Strategi Bank secara keseluruhan selalu memperhatikan kemampuan modal Bank untuk dapat menyerap eksposur risiko atau kerugian yang timbul berdasarkan pengalaman kerugian di masa lalu, kemampuan sumber daya manusia, serta kepatuhan terhadap ketentuan internal dan eksternal yang berlaku. Bank telah menetapkan Limit Risiko secara memadai sesuai sasaran strategis dan strategi bisnis Bank secara keseluruhan yang wajib dipatuhi oleh seluruh lini organisasi, oleh karenanya Bank menerbitkan Kebijakan Risk Limit. Limit Risiko yang ditetapkan oleh Bank secara berkala ditinjau ulang minimal satu tahun sekali untuk memastikan kesesuaiannya dengan arah dan strategi bisnis Bank.

Bank telah menerapkan Budaya Risiko (Risk Culture) antara lain dengan secara konsisten menerapkan proses identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan atas potensi kerugian yang dapat dialami Bank (Potential Loss), mencegah kejadian risiko (Risk Event) dan meminimalkan kerugian Bank (Risk Loss). Kemudian melaksanakan proses identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan setiap jenis dan kelompok risiko yang dilakukan secara berkesinambungan. Budaya Manajemen Risiko diinternalisasikan pada seluruh level Organisasi untuk mendorong konsistensi dan efektivitas Penerapan Manajemen Risiko Bank dan merupakan tanggung jawab bersama seluruh karyawan di setiap lini organisasi.

Terdapat Product & Activity Forum yang secara rutin dilakukan untuk mengidentifikasi dan memitigasi risiko yang melekat pada produk dan aktivitas baru. Untuk mempermudah proses mitigasi Risiko Produk oleh Product Owner dan unit-unit kerja yang terkait lainnya, Bank telah menyusun Kebijakan Pengelolaan Risiko Produk Bank. Semua uang tunai yang dikelola oleh Bank telah diasuransikan, jenis asuransi uang tunai pada Bank terdapat dalam Cash In Save (uang dalam khazanah utama) dan Cash In Transit (uang dalam perjalanan).

Sebagai bentuk pengawasan aktif Dewan Direksi atas implementasi Kualitas Penerapan Manajemen Risiko yang salah satunya terkait Risiko Operasional, Bank telah memiliki Komite Manajemen Risiko yang tujuan utamanya adalah untuk eskalasi dan pembahasan risiko-risiko utama di Bank.

The Bank continuously improves the implementation of Operational Risk Management by increasing employee awareness of risk and improving the Bank's operational policies and procedures. These efforts are aimed at mitigating inherent risk and continuously improving the control system, especially for Operational Risk. The Bank also continuously improves the risk awareness of all its employees through various media, including email blasts and direct socialization.

In determining the level of risk taken, risk tolerance, and overall bank strategy, the Bank always pays attention to the Bank's capital capacity to absorb risk exposure or losses arising from past loss experience, human resource capacity, and compliance with applicable internal and external provisions. The Bank has set adequate Risk Limits in accordance with the Bank's strategic targets and overall business strategy that must be adhered to by all lines of the organization, therefore the Bank issues a Risk Limit Policy. The Risk Limits set by the Bank are periodically reviewed at least once a year to ensure their compliance with the Bank's business direction and strategy.

The Bank has implemented a Risk Culture, among others by consistently implementing the process of identification, measurement, monitoring, control and reporting of potential losses that can be experienced by the Bank (Potential Loss), preventing risk events (Risk Event) and minimizing Bank losses (Risk Loss). Then implementing the process of identification, measurement, monitoring, control and reporting of each type and group of risks that are carried out continuously. Risk Management Culture is internalized at all levels of the Organization to encourage consistency and effectiveness of the Implementation of Bank Risk Management and is a shared responsibility of all employees at every level of the organization.

There is a Product & Activity Forum which is routinely held to identify and mitigate the risks inherent in new products and activities. To facilitate the process of Product Risk mitigation by Product Owners and other related work units, the Bank has prepared a Bank Product Risk Management Policy. All cash managed by the Bank has been insured, the type of cash insurance at the Bank is in Cash In Save (money in the main treasury) and Cash In Transit (money in transit).

As a form of active supervision by the Board of Directors over the implementation of the Quality of Risk Management Implementation, one of which is related to Operational Risk, the Bank has a Risk Management Committee whose main purpose is to escalate and discuss the main risks in the Bank.

Prinsip Dasar Penerapan Tata Kelola Perusahaan yang Baik

Basic Principles of Implementing Good Corporate Governance

Komitmen dan Konsistensi Penerapan Tata Kelola Perusahaan yang Baik (Good Corporate Governance) Secara Berkelanjutan

Allo Bank memandang bahwa kelangsungan usaha tidak hanya ditentukan oleh kinerja keuangan semata, melainkan juga kinerja operasional yang baik sehari-hari. Untuk memastikan kinerja bisnis dan operasional dapat berjalan secara optimal, maka Bank senantiasa menerapkan Tata Kelola Perusahaan yang Baik atau *Good Corporate Governance* (GCG) guna menciptakan persaingan yang sehat dan iklim usaha yang kondusif. Mengingat pentingnya peran implementasi GCG bagi bisnis dan operasional, Bank berupaya untuk menempatkan praktik Tata Kelola Perusahaan yang Baik sebagai pedoman dasar yang harus dilakukan secara komprehensif di seluruh tingkat organisasi Bank, dimulai dari jajaran Dewan Komisaris, Direksi, dan seluruh karyawan di lingkungan bank.

Pada praktiknya Penerapan Tata Kelola Perusahaan yang Baik berperan sebagai prinsip yang mendasari proses dan mekanisme pengelolaan perusahaan dengan tetap mengacu kepada peraturan perundang-undangan yang berlaku. Penerapan Tata Kelola Perusahaan yang Baik dan komprehensif juga menjadi indikator penting bagi investor untuk menilai sebuah perusahaan di masa depan. Terlebih, di industri perbankan, penerapan Tata Kelola Perusahaan yang Baik juga menjadi landasan dan kebutuhan perusahaan dalam menciptakan nilai tambah yang berkelanjutan, mendukung perusahaan dalam menghadapi dinamika industri perbankan, serta membentuk fondasi iklim investasi yang sehat dan dapat mendorong terciptanya inklusi keuangan.

Commitment and Consistency of Sustainable GCG Implementation

Allo Bank believes that business continuity is determined not only by financial performance but also by strong daily operational performance. To ensure that both business and operational performance run optimally, the Bank consistently implements Good Corporate Governance (GCG) to foster healthy competition and a conducive business climate. Recognizing the crucial role of GCG in business and operations, the Bank strives to establish Good Corporate Governance practices as fundamental guidelines that must be comprehensively applied across all levels of the organization, from the Board of Commissioners and Board of Directors to all employees.

In practice, the implementation of Good Corporate Governance serves as a foundational principle guiding company management processes and mechanisms while adhering to applicable laws and regulations. Effective and comprehensive GCG implementation is also a key indicator for investors in assessing a company's long-term prospects. Furthermore, in the banking industry, Good Corporate Governance acts as a fundamental pillar in creating sustainable added value, enabling the company to navigate the evolving banking landscape, fostering a sound investment climate, and promoting financial inclusion.

Sejalan dengan tujuan tersebut, Allo Bank senantiasa memperkuat dan meningkatkan penerapan Tata Kelola Perusahaan yang Baik di seluruh aspek kegiatan usaha yang dijalankan. Hal tersebut diwujudkan dengan antara lain melakukan review dan pengkajian kebijakan tata kelola sebagai salah satu wujud komitmen peningkatan kualitas penerapan tata kelola yang baik di seluruh lapisan organisasi Bank.

Aligned with these objectives, Allo Bank continuously strengthens and enhances the implementation of Good Corporate Governance across all aspects of its business activities. This commitment is demonstrated through regular reviews and updates of governance policies to ensure the consistent improvement of governance quality at all levels of the Bank's organization.

Penerapan Prinsip Tata Kelola Perusahaan

Dalam menerapkan prinsip-prinsip Penerapan Tata Kelola Perusahaan yang Baik, Bank mengacu pada 4 (empat) pilar sebagaimana diatur dalam Pedoman Umum *Good Corporate Governance* (PUGKI) Tahun 2021 yang dikeluarkan oleh Komite Nasional Kebijakan Governance (KNKG) dengan rincian sebagai berikut:

Implementation of Corporate Governance Principles

In applying the principles of Good Corporate Governance, the Bank adheres to the four pillars outlined in the General Guidelines for Good Corporate Governance (PUGKI) 2021, issued by the National Committee for Governance Policy (KNKG). The principles are as follows:

Perilaku Beretika (Etika) Ethics	Dalam melaksanakan kegiatannya korporasi senantiasa mengedepankan kejujuran, memperlakukan semua pihak dengan hormat, memenuhi komitmen, membangun serta menjaga nilai-nilai moral dan kepercayaan secara konsisten. Korporasi memperhatikan kepentingan pemegang saham dan pemangku kepentingan lainnya berdasarkan asas kewajaran dan kesetaraan dan dikelola secara independen sehingga masing-masing organ perusahaan tidak saling mendominasi dan tidak dapat diintervensi oleh pihak lain. In conducting its activities, the company prioritizes honesty, treats all parties with respect, fulfills commitments, and consistently upholds moral values and trust. The company considers the interests of shareholders and other stakeholders based on the principles of fairness and equality and operates independently to ensure that no corporate entity dominates another or is subject to external intervention.
Transparansi Transparency	Untuk menjaga objektivitas dalam menjalankan bisnis, perusahaan menyediakan informasi yang material dan relevan dengan cara yang mudah untuk diakses dan dipahami oleh pemangku kepentingan. Korporasi mengambil inisiatif untuk mengungkapkan tidak hanya masalah yang disyaratkan oleh peraturan perundang-undangan, tetapi juga hal yang penting untuk pengambilan keputusan oleh pemegang saham, kreditur, dan pemangku kepentingan lainnya. To maintain objectivity in business operations, the company provides material and relevant information in a manner that is easily accessible and understandable for stakeholders. It proactively discloses not only information mandated by laws and regulations but also other significant matters that may influence decision-making by shareholders, creditors, and other stakeholders.
Akuntabilitas Accountability	Korporasi dapat mempertanggungjawabkan kinerjanya secara transparan dan wajar. Untuk itu Korporasi harus dikelola secara benar, terukur dan sesuai dengan kepentingan korporat dengan tetap memperhitungkan kepentingan pemegang saham dan pemangku kepentingan. Akuntabilitas merupakan prasyarat yang diperlukan untuk mencapai kinerja yang berkelanjutan. The corporation is responsible for ensuring that its performance is transparent and fair. To achieve this, it must be managed properly, with measurable processes, and in alignment with corporate interests, while also considering the rights of shareholders and stakeholders. Accountability is a crucial prerequisite for achieving sustainable performance.
Keberlanjutan Sustainability	Korporasi mematuhi peraturan perundang-undangan serta berkomitmen melaksanakan tanggung jawab terhadap masyarakat dan lingkungan agar berkontribusi pada pembangunan berkelanjutan melalui kerjasama dengan semua pemangku kepentingan terkait untuk meningkatkan kehidupan mereka dengan cara yang selaras dengan kepentingan bisnis dan agenda Pembangunan berkelanjutan. The Corporation complies with all applicable laws and regulations and remains committed to fulfilling its responsibilities toward society and the environment. It aims to contribute to sustainable development by collaborating with relevant stakeholders to enhance their quality of life in a manner that aligns with business interests and the Sustainable Development agenda.

Objectives of Implementing Good Corporate Governance

The consistent and continuous implementation of GCG principles within the Bank aims to:

1. Encouraging improvement in the quality of sound bank management, based on prudential and ethical principles, which can enhance bank competitiveness.
2. Optimizing company value for Shareholders while still paying attention to other interests.

Perkembangan Penerapan Tata Kelola Perusahaan yang Baik

Development of Good Corporate Governance Implementation

Perkembangan GCG Allo Bank di Tahun 2024

Dalam rangka meningkatkan kinerja Bank, melindungi kepentingan para pemangku kepentingan, serta meningkatkan kepatuhan terhadap peraturan perundang-undangan, Allo Bank berkomitmen untuk terus memperkuat implementasi tata kelola yang baik dan berkelanjutan pada proses bisnis dan operasional dengan mendukung prinsip-prinsip *Environmental, Social, and Governance* (ESG). Allo Bank juga terus memperkuat fondasi bisnis melalui penerapan GCG, sistem yang andal, memenuhi sumber daya manusia yang sesuai dengan arah rencana bisnis Bank, serta menyesuaikan seluruh usaha sesuai dengan perkembangan teknologi dan dinamika bisnis yang terjadi.

Di samping itu, Bank juga berkomitmen untuk menerapkan praktik tata kelola perusahaan yang baik dengan menyempurnakan implementasi GCG di lingkungan Bank. Peningkatan kualitas pelaksanaan tata kelola yang dilakukan Bank pada tahun 2024, antara lain:

1. Komposisi susunan pengurus Bank telah terpenuhi sesuai ketentuan perundang-undangan yang berlaku dan seluruh Dewan Komisaris serta Direksi telah lulus Penilaian Kemampuan dan Kepatutan.
2. Direksi dan Dewan Komisaris telah melaksanakan tugas dan tanggung jawabnya secara independen.
3. Setiap keputusan hasil rapat Direksi dan Dewan Komisaris dilakukan secara musyawarah untuk mufakat. Direksi dan Dewan Komisaris melakukan rapat gabungan sesuai dengan ketentuan yang berlaku dan kebutuhan Bank
4. Direksi dan Dewan Komisaris Bank telah melaksanakan tugasnya dan menyelenggarakan rapat baik secara tersendiri maupun gabungan sesuai dengan ketentuan yang berlaku dan mengadministrasikan setiap dokumen notulen Rapat tersebut.

Development of Allo Bank's GCG in 2024

To improve performance, protect stakeholder interests, and enhance compliance with laws and regulations, Allo Bank remains committed to strengthening the implementation of good and sustainable governance in its business and operational processes by upholding Environmental, Social, and Governance (ESG) principles. The Bank also continues to reinforce its business foundation by implementing GCG, establishing a reliable system, developing human resources in alignment with the Bank's business plan, and adapting to technological advancements and evolving business dynamics.

Additionally, the Bank is committed to implementing GCG practices by improving governance implementation within its environment. The improvements in governance quality carried out by the Bank in 2024 include, among others:

1. The composition of the Bank's management has been fulfilled in accordance with applicable laws and regulations and all Board of Commissioners and Directors have passed the Fit and Proper Test.
2. The Board of Directors and Board of Commissioners have carried out their duties and responsibilities independently.
3. Decisions made by the Board of Directors and Board of Commissioners are reached through deliberation and consensus. They conduct joint meetings in accordance with applicable provisions and the Bank's needs.
4. The Board of Directors and Board of Commissioners have fulfilled their duties and held both individual and joint meetings as required and have also properly documented the minutes of each meeting.

5. Pelaksanaan tugas dan tanggung jawab Direksi khususnya dalam pelaksanaan dan prinsip GCG telah memadai. Hal ini tercermin dari kelengkapan perangkat satuan kerja kepatuhan, satuan kerja manajemen risiko, satuan kerja audit internal (SKAI), satuan kerja *anti fraud*, satuan kerja *cyber risk*, satuan kerja *credit risk*. Maka sebagaimana diuraikan di atas, penerapan *Good Corporate Governance* di Allo Bank secara umum adalah “BAIK”. Sebagaimana tercermin dalam pemenuhan yang memadai atas prinsip-prinsip *Good Corporate Governance*.

As outlined above, the overall implementation of Good Corporate Governance at Allo Bank is classified as “GOOD”, reflecting the Bank’s strong adherence to GCG principles.

Penerapan dan Kesesuaian atas Pedoman Tata Kelola Perusahaan Terbuka

Implementation and Compatibility of Public Company Governance Guidelines

Komitmen Allo Bank terhadap Tata Kelola Perusahaan yang Baik (*Good Corporate Governance*) tercermin dalam serangkaian kebijakan dan prosedur operasional yang secara konsisten diterapkan dalam seluruh kegiatan sehari-hari. Bank secara internal juga telah memiliki pedoman pelaksanaan GCG yang mana pedoman tersebut memuat terkait aspek, prinsip, dan rekomendasi Tata Kelola Perusahaan yang Baik. Pedoman ini dirancang untuk memastikan bahwa setiap aspek dari praktik GCG dipenuhi dan berkelanjutan.

Allo Bank's commitment to Good Corporate Governance (GCG) is reflected in a series of operational policies and procedures that are consistently applied in daily activities. The Bank also has internal GCG implementation guidelines that outline the key aspects, principles, and recommendations of Good Corporate Governance. These guidelines are designed to ensure that every element of GCG is met and sustained over time.

Allo Bank selaku perusahaan yang berstatus perusahaan publik senantiasa melaksanakan dan mematuhi seluruh peraturan perundang-undangan yang berlaku. Bank juga berupaya untuk menciptakan nilai tambah bagi pemegang saham dan para pemangku kepentingan dengan menekankan seluruh kegiatan usahanya pada prinsip-prinsip transparansi, akuntabilitas, dan penyampaian informasi yang wajar sebagai pegangan bagi entitas usaha. Bank juga senantiasa memperhatikan hak pemegang saham tanpa terkecuali, khususnya pemegang saham minoritas yang harus menjadi perhatian dari perusahaan publik terkait.

As a publicly listed company, Allo Bank consistently implements and complies with all applicable laws and regulations. The Bank is also committed to creating added value for shareholders and stakeholders by ensuring that all business activities adhere to the principles of transparency, accountability, and fair information disclosure as a guide for business entities. Additionally, the Bank remains attentive to the rights of all shareholders, particularly minority shareholders, who require special consideration in accordance with public company governance standards.

Struktur Tata Kelola Perusahaan yang Baik

Good Corporate Governance Structure

Sesuai dengan Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas, Bank memiliki struktur tata kelola perusahaan yang terdiri dari 3 (tiga) organ utama, yaitu Rapat Umum Pemegang Saham (RUPS), Dewan Komisaris, dan Direksi.

In accordance with Law No. 40 of 2007 concerning Limited Liability Companies, the Bank's corporate governance structure consists of 3 (three) main organs, namely the General Meeting of Shareholders (GMS), the Board of Commissioners, and the Board of Directors.

RUPS merupakan forum tertinggi di perusahaan, sedangkan keberadaan Dewan Komisaris dan Direksi merupakan pengejawantahan dari sistem kepengurusan perusahaan dua badan

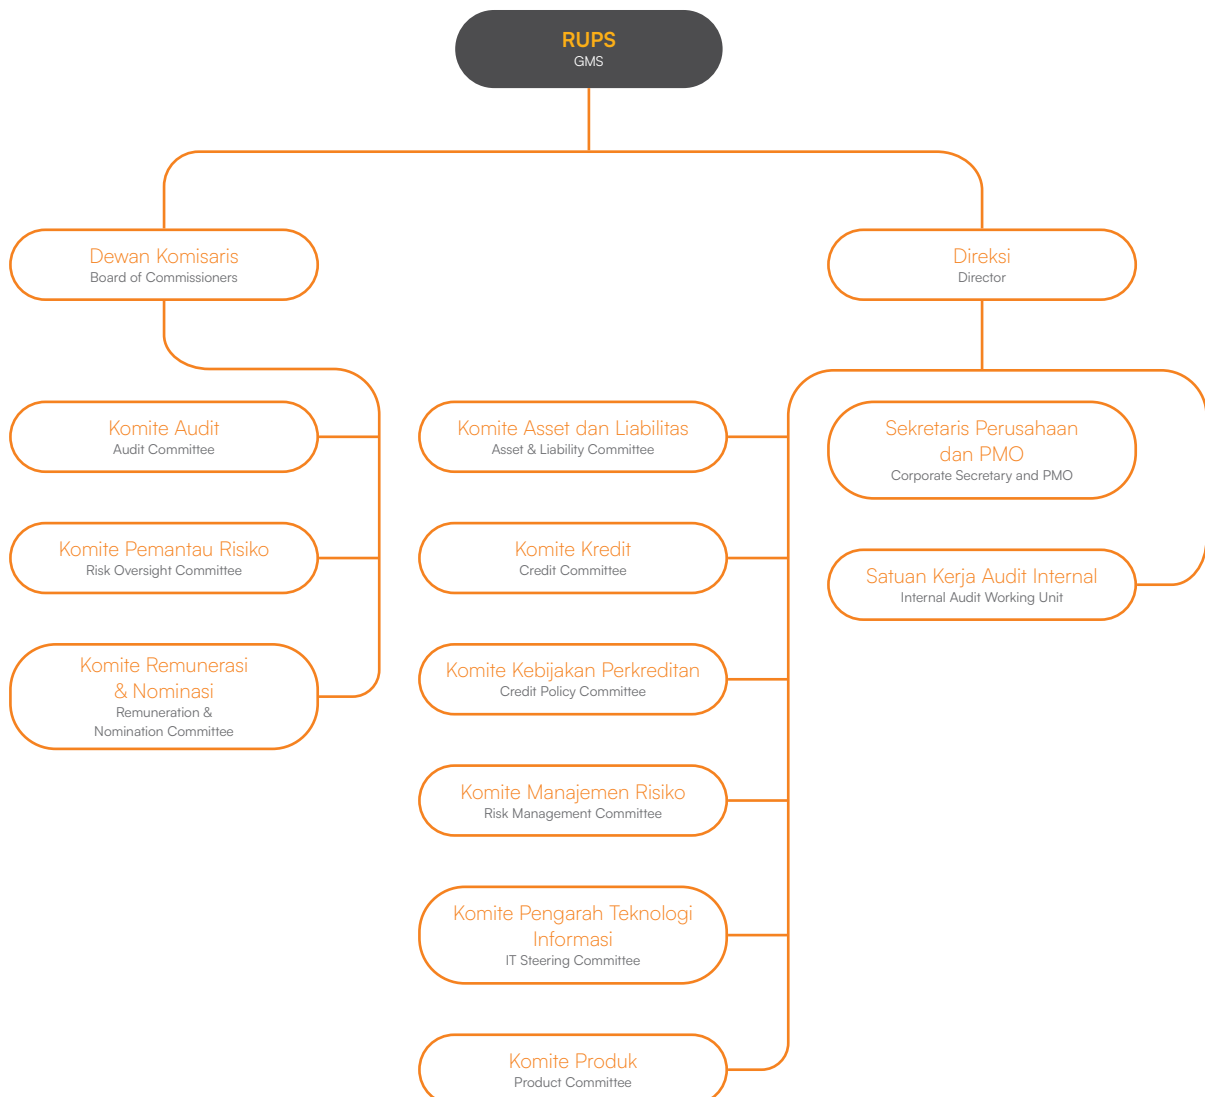

The GMS is the highest forum in the company, while the Board of Commissioners and the Board of Directors represent the embodiment of the two-tier corporate management system.

(two-tier system). Dewan Komisaris juga bertindak sebagai pengawas dan pengarah, sementara Direksi bertindak sebagai pengurus perusahaan sehari-hari.

Dalam menjalankan tugasnya, Dewan Komisaris turut dibantu oleh Komite Dewan Komisaris yang dibentuk untuk membantu dan meningkatkan fungsi pengawasan yang dijalankan oleh Dewan Komisaris, yaitu Komite Audit, Komite Pemantau Risiko, dan Komite Remunerasi dan Nominasi. Sementara, dalam melaksanakan tugasnya untuk mengelola dan mengendalikan operasional bisnis serta bertanggung jawab atas implementasi GCG di Bank, Direksi turut dibantu oleh sejumlah Komite di bawah Direksi, yaitu Komite Pengarah Teknologi Informasi, Komite Kebijakan Perkreditan, Komite Produk dan Proses Penerbitan Produk atau Aktivitas Baru, Komite Manajemen Risiko, Komite Kredit, Komite Aset dan Liabilitas (ALCO), dan Komite Sumber Daya Manusia. Selain itu, Direksi juga dibantu oleh organ pendukung lain yang bersifat struktural, yaitu *Corporate Secretary & PMO* dan Satuan Kerja Audit Internal (SKAI).

The Board of Commissioners also acts as a supervisor and advisor, while the Board of Directors is responsible for the company's daily management.

In carrying out its duties, the Board of Commissioners is assisted by the Board of Commissioners Committees, which are established to support and enhance the supervisory function performed by the Board of Commissioners. These committees include the Audit Committee, Risk Oversight Committee, and Remuneration and Nomination Committee. Meanwhile, in executing its responsibilities to manage and oversee business operations and ensure the implementation of Good Corporate Governance (GCG) within the Bank, the Board of Directors is supported by several committees under its authority. These include the Information Technology Steering Committee, Credit Policy Committee, Product and Process Committee for Issuing New Products or Activities, Risk Management Committee, Credit Committee, Asset and Liability Committee (ALCO), and Human Resources Committee. Additionally, the Board of Directors is supported by other structural units, such as the Corporate Secretary & PMO and the Internal Audit Work Unit (SKAI).

Rapat Umum Pemegang Saham

General Meeting of Shareholders

Struktur Pemegang Saham

Rapat Umum Pemegang Saham (RUPS) merupakan organ tertinggi dalam struktur GCG Allo Bank yang berfungsi sebagai pengambil keputusan tertinggi dalam Bank, dan memiliki wewenang yang tidak dimiliki oleh Dewan Komisaris ataupun Direksi. RUPS juga merupakan sarana bagi para pemegang saham untuk mengambil keputusan penting dan strategis terkait keberlanjutan jangka panjang Bank, dengan memperhatikan ketentuan Anggaran Dasar dan peraturan perundang-undangan yang berlaku, termasuk menyetujui perubahan Anggaran Dasar, menyetujui laporan tahunan dan membagikan dividen. RUPS juga memiliki wewenang untuk menunjuk dan memberhentikan anggota Dewan Komisaris dan Direksi, mendelegasikan wewenang kepada Dewan Komisaris dan Direksi serta mengambil keputusan terkait tindakan Bank yang membutuhkan persetujuan pemegang saham.

Dasar Hukum Penyelenggaraan RUPS

Dalam menyelenggarakan RUPS, Bank senantiasa mengacu kepada sejumlah peraturan perundang-undangan, antara lain:

1. Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas.
2. Peraturan Otoritas Jasa Keuangan No. 15/POJK.04/2020 tentang Perencanaan dan Pelaksanaan Rapat Umum Pemegang Saham Perusahaan Publik.
3. Peraturan Otoritas Jasa Keuangan No. 16/POJK.04/2020 tentang Pelaksanaan Rapat Umum Pemegang Saham Perusahaan Publik Secara Elektronik.

Hak Pemegang Saham dalam RUPS

Pemegang saham memiliki sejumlah hak dalam pelaksanaan RUPS sesuai ketentuan yang berlaku, di antaranya:

1. Pemegang saham berhak untuk hadir dalam RUPS baik sendiri maupun diwakili berdasarkan surat kuasa. Pemegang saham

Shareholders Structure

The General Meeting of Shareholders (GMS) is the highest organ within Allo Bank's GCG structure, serving as the Bank's ultimate decision-making authority. It holds powers beyond those of the Board of Commissioners and the Board of Directors. The GMS also serves as a platform for shareholders to make important and strategic decisions regarding the long-term sustainability of the Bank, considering the provisions of the Articles of Association and applicable laws and regulations. These decisions include approving amendments to the Articles of Association, approving annual reports, and determining dividend distributions. Additionally, the GMS has the authority to appoint and dismiss members of the Board of Commissioners and Board of Directors, delegate authority to the Board of Commissioners and Board of Directors, make decisions related to the Bank's actions that require shareholder consent.

Legal Basis for Holding GMS

In holding the GMS, the Bank adheres to the following legal provisions:

1. Law No. 40 of 2007 concerning Limited Liability Companies.
2. Financial Services Authority Regulation No. 15/POJK.04/2020 concerning Planning and Implementation of General Meetings of Shareholders of Public Companies.
3. Financial Services Authority Regulation No. 16/POJK.04/2020 concerning the Electronic Implementation of General Meetings of Shareholders of Public Companies.

Rights of the Shareholders at the GMS.

Shareholders have a number of rights in implementing the GMS in accordance with applicable regulations, including:

1. Shareholders have the right to attend the GMS either alone or represented based on a power of attorney. Shareholders who are

yang berhak hadir dalam RUPS adalah pemegang saham yang namanya tercatat dalam daftar pemegang saham Bank 1 (satu) hari kerja sebelum pemanggilan RUPS.

2. Pemegang saham berhak memperoleh informasi mata acara RUPS dan bahan terkait mata acara RUPS sepanjang tidak bertentangan dengan kepentingan Bank.
3. Pemegang saham atau kuasa mereka berhak untuk mengajukan pertanyaan dan/atau menyatakan pendapat/tanggapan sehubungan dengan mata acara RUPS dan hal-hal lain yang berhubungan mata acara RUPS yang bersangkutan sebelum diadakan pengambilan keputusan.
4. Pemegang saham berhak mengeluarkan suara dalam RUPS. Tiap saham memberi hak kepada pemegangnya untuk mengeluarkan 1 (satu) suara. Apabila seorang pemegang saham memiliki lebih dari 1 (satu) saham, maka ia hanya diminta untuk memberikan suara 1 (satu) kali dan suaranya itu mewakili seluruh saham yang dimilikinya atau diwakilinya.

entitled to attend the GMS are shareholders whose names are recorded in the Bank's shareholder register 1 (one) working day before the invitation to the GMS.

2. Shareholders have the right to obtain information on the GMS agenda and materials related to the GMS agenda as long as it does not conflict with the interests of the Bank.
3. Shareholders or their proxies have the right to ask questions and/or express opinions/responses in connection with the GMS agenda and other matters related to the relevant GMS agenda before a decision is made.
4. Shareholders have the right to vote at the GMS. Each share gives the holder the right to cast 1 (one) vote. If a shareholder owns more than 1 (one) share, then he is only asked to vote 1 (one) time and his vote represents all the shares he owns or represents.

Jenis-Jenis RUPS

Allo Bank memiliki 2 (dua) jenis RUPS, yakni RUPS Tahunan (RUPST) dan RUPS Luar Biasa (RUPSLB). RUPST dapat diadakan sebanyak 1 (satu) kali dalam setahun, sementara RUPSLB dapat diadakan kapan saja berdasarkan kebutuhan Bank. Seluruh hasil dan keputusan yang dicapai dalam RUPS selanjutnya akan diterapkan secara wajar dan transparan. Meski demikian, RUPS dan pemegang saham tidak berwenang untuk melakukan intervensi dalam pelaksanaan tugas, fungsi, dan otoritas Dewan Komisaris dan Direksi dalam menjalankan kewajibannya dan menggunakan haknya sesuai dengan Anggaran Dasar dan peraturan yang berlaku.

Types of GMS

Allo Bank has 2 (two) types of GMS, namely the Annual GMS (AGMS) and Extraordinary GMS (EGMS). The AGM can be held 1 (one) time a year, while the EGMS can be held at any time based on the Bank's needs, where all GMS results and decisions will be implemented fairly and transparently. However, the GMS and shareholders are not authorized to intervene in the implementation of the duties, functions and authority of the Board of Commissioners and Directors in carrying out their obligations and exercising their rights in accordance with the Articles of Association and applicable regulations.

Penyelenggaraan RUPS Tahun 2024

Di tahun 2024, Bank telah menyelenggarakan RUPS sebanyak 1 (satu) kali yang terdiri dari 1 (satu) kali RUPS Tahunan. Pedoman Kerja Dewan Komisaris

Dewan Komisaris melaksanakan fungsi pengawasan atas pengelolaan Bank dengan mengacu kepada BOC *Charter* yang berfungsi sebagai panduan dalam memahami peraturan-peraturan terkait tata kerja Dewan Komisaris. BOC *Charter* disusun berdasarkan prinsip-prinsip hukum korporasi, ketentuan Anggaran Dasar, peraturan dan ketentuan perundang-undangan yang berlaku, arahan Pemegang Saham, serta praktik-praktik terbaik (*best practices*) GCG.

BOC Charter ini diharapkan dapat mempermudah Dewan Komisaris memahami peraturan-peraturan yang terkait dengan tata kerja Dewan Komisaris, menghilangkan praktik pengambilan keputusan berdasarkan kebiasaan (yang tidak tertulis) serta memperjelas tingkat akuntabilitas dalam pengambilan keputusan. Aspek yang diatur dalam BOC *Charter* meliputi:

1. Persyaratan Anggota Dewan Komisaris;
2. Persyaratan Komisaris Independen;
3. Pengangkatan Anggota Dewan Komisaris;
4. Pemberhentian Anggota Dewan Komisaris;

Work Guidelines of Board of Commissioners

The Board of Commissioners carries out its supervisory function over the management of the Bank by referring to the BOC Charter, which serves as a guide for understanding regulations related to the work procedures of the Board of Commissioners. The BOC Charter is prepared based on the principles of corporate law, the provisions of the Articles of Association, applicable laws and regulations, shareholder directives, and GCG best practices.

The BOC Charter is expected to help the Board of Commissioners understand the regulations related to the work procedures of the Board of Commissioners, eliminate the practice of making decisions based on habits (which are not written) and clarify the level of accountability in decision making. Aspects regulated in the BOC Charter include:

1. Requirements for Members of the Board of Commissioners;
2. Requirements for Independent Commissioners;
3. Appointment of Members of the Board of Commissioners;
4. Dismissal of Members of the Board of Commissioners;

Dalam hal demikian Dewan Komisaris berhak untuk memberikan kekuasaan sementara kepada seorang atau lebih di antara mereka atas tanggungan mereka bersama.

Pembagian Tugas Pengawasan Dewan Komisaris

Allo Bank berupaya untuk memastikan seluruh tugas dan tanggung jawab yang dilakukan oleh Insan Bank berjalan secara baik sesuai dengan kemampuan yang dimiliki, tak terkecuali bagi anggota Dewan Komisaris. Untuk itu, Dewan Komisaris melaksanakan fungsi pengawasan sesuai dengan latar belakang yang dimiliki oleh masing-masing anggota agar pengawasan terhadap pengelolaan Bank maupun implementasi strategi manajemen dapat berjalan secara optimal agar dapat mewujudkan tujuan Bank. Adapun pembidangan tugas masing-masing anggota Dewan Komisaris adalah sebagai berikut:

financial and banking sector; and/or circumstances or predicted circumstances that could endanger the continuity of the Bank's business.

- i. Determine limits on the value of the Board of Directors' legal actions that require written approval from the Board of Commissioners.
 - j. Provide decisions on proposed legal actions by the Board of Directors that require approval from the Board of Commissioners.
 - k. Provide written responses to provide opinions and suggestions to the GMS regarding proposed legal actions to be implemented by the Board of Directors which will be submitted to the GMS for approval.
 - l. The Commissioners, through a meeting of the Board of Commissioners, based on the majority vote, have the right to temporarily dismiss one or more members of the Board of Directors from their positions if the members of the Board of Directors act contrary to the Articles of Association and/or applicable laws and regulations. The termination must be notified to the person concerned along with the reasons.
 - m. Appoint one of the Directors to carry out the vacant Director's work with due observance of applicable regulations.
 - n. Hold a GMS no later than 90 (ninety) days after the temporary dismissal which will decide whether the relevant Directors will be permanently dismissed or returned to their original positions. Directors who were temporarily dismissed were given the opportunity to appear to defend themselves.
 - o. If the GMS cannot make a decision or is not held within a period of no later than 90 (ninety) days after the temporary dismissal, then the temporary dismissal becomes null and void and the person concerned has the right to return to his or her original position.
4. If all members of the Board of Directors are temporarily dismissed and the Bank does not have a single member of the Board of Directors, the Board of Commissioners is temporarily required to manage the Bank. In such cases the Board of Commissioners has the right to grant temporary powers to one or more of them at their collective expense.

Division of Supervisory Duties of the Board of Commissioners

Allo Bank strives to ensure that all duties and responsibilities carried out by Bank personnel, including members of the Board of Commissioners, are performed effectively and in accordance with their expertise. To achieve this, the Board of Commissioners carries out its supervisory function based on the background of each member, ensuring optimal supervision of the Bank's management and the implementation of strategic initiatives to achieve the Bank's objectives. The division of duties among the members of the Board of Commissioners is as follows:

Nama Name	Jabatan Position	Bidang Tugas Field of Duty
Aviliani	Komisaris Utama Independen Independent President Commissioner	- Ketua Komite Audit - Ketua Komite Remunerasi dan Nominasi - Chairwoman of Audit Committee - Chairwoman of the Remuneration and Nomination Committee
Rosmaya	Komisaris Independen Independent Commissioner	Ketua Komite Pemantau Risiko Chairwoman of the Risk Oversight Committee
Ali Gunawan	Komisaris Commissioner	Anggota Komite Remunerasi dan Nominasi Member of the Remuneration and Nomination Committee

Independensi Dewan Komisaris

- Mayoritas anggota Dewan Komisaris dilarang saling memiliki hubungan keluarga sampai dengan derajat kedua dengan sesama anggota Direksi dan/atau dengan anggota Dewan Komisaris lain.
- Mantan anggota Direksi atau Pejabat Eksekutif Bank atau pihak-pihak yang mempunyai hubungan dengan Bank, yang dapat mempengaruhi kemampuan yang bersangkutan untuk bertindak independen, wajib menjalani masa tunggu (*cooling off*) paling singkat 1 (satu) tahun sebelum menjadi Komisaris Independen pada Bank.
- Ketentuan di atas tidak berlaku bagi mantan anggota Direksi yang membawahi fungsi pengawasan atau Pejabat Eksekutif yang melakukan fungsi pengawasan pada Bank.
- Anggota Dewan Komisaris wajib menandatangani Surat Pernyataan Independensi yang berlaku sesuai dengan periode atau masa jabatan sebagaimana ditetapkan dalam RUPS.

Program Orientasi bagi Anggota Dewan Komisaris Baru

Dalam hal terjadi perubahan susunan dan komposisi Dewan Komisaris, maka anggota Dewan Komisaris yang baru diangkat wajib mengikuti program pengenalan perusahaan sebagaimana diatur dalam BOC *Charter*. Program pengenalan tersebut dilakukan untuk memberikan pemahaman mengenai tugas dan tanggung jawab sebagai anggota Dewan Komisaris agar dijalankan sebaik-baiknya. Kegiatan ini juga bertujuan agar anggota Dewan Komisaris dapat memahami latar belakang dan kegiatan usaha Bank agar dapat mempermudah dan melancarkan pelaksanaan tugas Dewan Komisaris secara efektif.

Sehubungan dengan tidak adanya perubahan susunan dan komposisi Dewan Komisaris sepanjang tahun 2024, maka Bank tidak melaksanakan program pengenalan Dewan Komisaris baru.

Independence of the Board of Commissioners

- The majority of the Board of Commissioners members are prohibited from having family relationships up to the second degree with other members of the Board of Directors and/or with other members of the Board of Commissioners.
- Former members of the Board of Directors or Executive Officers of the Bank, or parties who have relationships with the Bank that can influence their ability to act independently, must undergo a minimum cooling-off period of 1 (one) year before becoming an Independent Commissioner at the Bank.
- The above provision does not apply to former members of the Board of Directors who are in charge of supervisory functions or Executive Officers who conduct supervisory functions at the Bank.
- Members of the Board of Commissioners are required to sign a Declaration of Independence letter that applies according to the period or term of office as determined in the GMS.

Orientation Program for New Members of Board of Commissioners

In the event of a change in the composition of the Board of Commissioners, newly appointed members are required to participate in the company's introduction program, as stipulated in the BOC *Charter*. This program is designed to provide an understanding of the duties and responsibilities of the Board of Commissioners, ensuring that they can carry out their roles effectively. Additionally, it aims to familiarize members with the Bank's background and business activities, facilitating the effective execution of their supervisory duties.

Since there were no changes in the composition of the Board of Commissioners in 2024, the Bank did not implement an introduction program for new members.

Peningkatan Kompetensi Dewan Komisaris

Seluruh Dewan Komisaris Bank senantiasa mendapatkan pelatihan atau program pengembangan kompetensi untuk menunjang dan mengoptimalkan peran serta fungsi Dewan Komisaris. Informasi terkait program peningkatan kompetensi yang dilakukan oleh Dewan Komisaris pada tahun 2024 dapat dilihat pada Bab Profil Perusahaan dalam Laporan Tahunan ini.

Pelaksanaan Tugas Dewan Komisaris Tahun 2024

Sepanjang tahun 2024, Dewan Komisaris telah melakukan pengawasan, mengarahkan, memantau, mengevaluasi, dan memberikan nasihat kepada Direksi terkait pelaksanaan kebijakan strategis yang dilakukan melalui:

1. Hasil dan Rekomendasi Pelaksanaan Fungsi Kepatuhan Bank melalui Memo Dinas No. 005/KOMISARIS/24 tertanggal 30 Agustus 2024.
2. Rekomendasi atas Rencana Bisnis Bank melalui Memo Dinas No. 008/KOMISARIS/24 tertanggal 25 November 2024

Penilaian Kinerja Organ dan Komite Pendukung di Bawah Dewan Komisaris

Dewan Komisaris turut dibantu oleh Komite di bawah Dewan Komisaris yang bertujuan untuk membantu pelaksanaan tugas dan fungsi pengawasan atas pengelolaan Bank. Dewan Komisaris telah memiliki sejumlah Komite pendukung, antara lain Komite Audit, Komite Pemantau Risiko, serta Komite Remunerasi dan Nominasi.

Dewan Komisaris secara berkala melakukan evaluasi atas kinerja masing-masing komite berdasarkan kriteria yang telah ditetapkan oleh Komite Remunerasi dan Nominasi. Berdasarkan evaluasi yang telah dilakukan, Dewan Komisaris menilai bahwa seluruh Komite di bawah Dewan Komisaris telah menjalankan tugas dan tanggung jawabnya secara baik di sepanjang tahun 2024.

Competency Development of Board of Commissioners

The Board of Commissioners regularly participates in training and competency development programs to enhance their role and effectiveness. Information regarding the competency improvement programs undertaken by the Board of Commissioners in 2024 can be found in the Company Profile Chapter of this Annual Report.

Implementation of Duties of the Board of Commissioners in 2024

Throughout 2024, the Board of Commissioners supervised, directed, monitored, evaluated, and provided advice to the Board of Directors regarding the implementation of strategic policies through:

1. Results and Recommendations for the Implementation of the Bank's Compliance Function through Service Memo No. 005/KOMISARIS/24 dated August 30, 2024.
2. Recommendations on the Bank's Business Plan through Service Memo No. 008/KOMISARIS/24 dated November 25, 2024.

Performance Assessment of Supporting Organs and Committees under Board of Commissioners

The Board of Commissioners is assisted by Committees under its authority, which are established to support the implementation of supervisory duties and functions over the Bank's management. The Board of Commissioners has several supporting committees, including the Audit Committee, Risk Oversight Committee, and Remuneration and Nomination Committee.

The Board of Commissioners periodically evaluates the performance of each committee based on the criteria set by the Remuneration and Nomination Committee. Based on the evaluations conducted, the Board of Commissioners has determined that all Committees under its authority effectively carried out their duties and responsibilities throughout 2024.

Komisaris Independen

Independent Commissioner

Komisaris Independen merupakan anggota Dewan Komisaris yang tidak memiliki hubungan keuangan, kepengurusan, kepemilikan saham dan/atau hubungan keluarga dengan anggota Dewan Komisaris, anggota Direksi dan/atau pemegang saham pengendali atau dengan Bank yang mungkin menghalangi atau menghambat posisinya untuk bertindak independen sesuai dengan prinsip-prinsip GCG. Komisaris Independen diangkat oleh RUPS dan tidak memiliki hubungan afiliasi dengan pihak yang berkepentingan, terutama pemegang saham mayoritas, anggota Direksi, dan/atau anggota Dewan Komisaris.

Di tahun 2024, Bank memiliki 2 (dua) orang Komisaris Independen dari total 3 (tiga) orang anggota Dewan Komisaris. 2. Share ownership of members of the Board of Directors individually or together in connection with receiving bonuses and/or bonuses in the form of shares which results in share ownership of 25% (twenty five percent) or more is excluded from point (1).
3. Share ownership of the main director or director in charge of the compliance function originating from the provision of bonuses, bonuses, share ownership programs for management, and/or share ownership programs for employees in companies that are controlling shareholders and/or the ultimate controller of the Bank, is not taken into account in assessing the independence of controlling shareholders, as long as:
 - a. share ownership is the policy of the controlling shareholder and/or ultimate controller of the Bank and is not an initiative of the President Director or Director in charge of the Compliance function;
 - b. share ownership is not for trading; and
 - c. the person concerned submits a statement that he/she always acts independently while serving as the main director or director in charge of the compliance function even though he/she has shares as the controlling shareholder and/or ultimate controller of the Bank.
4. The majority of members of the Board of Directors are prohibited from having family relationships up to the second degree with fellow members of the Board of Directors and/or with members of the Board of Commissioners.
5. The Director in charge of the Compliance function is required to fulfill the independent requirements as determined by Regulatory regulations.
6. Members of the Board of Directors are prohibited from granting general power of attorney to other parties which results in the transfer of the duties and functions of the Board of Directors.
7. Sign a Statement of Independence which is valid in accordance with the period/term of office as determined in the GMS.
8. Sign a Statement Letter not to use the Bank for personal gain which applies in accordance with the period/term of office as determined in the GMS.

Division of Duties of the Board of Directors

1. The division of duties of the Board of Directors is determined in the General Meeting of Shareholders (GMS). In case the GMS

wewenang anggota Direksi ditetapkan berdasarkan keputusan Direksi dengan persetujuan Dewan Komisaris.

2. Dalam pelaksanaan tugas, masing-masing Direksi dapat mengambil keputusan sesuai dengan pembagian tugas dan kewenangannya.
3. Kedudukan masing-masing anggota Direksi adalah setara. Tugas Direktur Utama adalah mengkoordinasikan kegiatan/ aktivitas kerja Direksi.
4. Dalam hal salah satu Direktur berhalangan sementara, maka Direktur Utama dapat menentukan pengganti sementara dengan persetujuan Dewan Komisaris. Khusus untuk penggantian sementara Direktur yang membawahi fungsi kepatuhan harus mengikuti Peraturan OJK tentang Pelaksanaan Fungsi Kepatuhan bagi Bank Umum.

Program Orientasi bagi Anggota Direksi Baru

BOD Charter mengatur bahwa anggota Direksi yang baru diangkat wajib untuk mengikuti program pengenalan perusahaan yang bertujuan untuk memberikan pemahaman mengenai tugas dan tanggung jawab sebagai anggota Direksi agar dijalankan sebaik-baiknya. Kegiatan ini juga bertujuan agar anggota Direksi dapat memahami latar belakang dan kegiatan usaha Bank agar dapat mempermudah dan melancarkan pelaksanaan tugas Direksi secara efektif.

Di tahun 2024, Bank tidak melaksanakan program pengenalan bagi anggota Direksi baru sehubungan dengan tidak adanya perubahan komposisi dan susunan Direksi pada tahun berjalan.

Peningkatan Kompetensi Direksi

Bank secara konsisten melaksanakan program peningkatan kompetensi Direksi guna memastikan seluruh manajemen dapat memiliki kapasitas dan kemampuan yang sesuai dengan kondisi dan dinamika bisnis yang terjadi guna mempercepat tercapainya tujuan Bank. Informasi mengenai peningkatan kompetensi Direksi sepanjang tahun 2024 dapat dilihat pada Bab Profil Perusahaan dalam Laporan Tahunan ini.

Pelaksanaan Tugas Direksi Tahun 2024

Selama tahun 2024, Direksi telah melaksanakan tugas dan tanggung jawabnya dalam pengelolaan Bank sesuai dengan peraturan perundang-undangan yang berlaku, Anggaran Dasar, dan Rencana Bisnis Bank, melalui berbagai kegiatan, seperti:

1. Menetapkan tujuan dan strategi Bank untuk jangka panjang, menengah, dan tahunan yang dituangkan dalam Rencana Korporasi (*Corporate Plan*) dan Rencana Bisnis Bank (RBB) serta Revisi RBB yang dalam proses penyusunannya sudah melalui tahap evaluasi dan pengawasan oleh Dewan Komisaris.
2. Menetapkan langkah strategis untuk mencapai misi Bank secara terpadu dengan mengembangkan produk dan layanan serta meningkatkan *customer experience*.

does not stipulate, the division of tasks and authorities of the Board of Directors' members shall be determined based on the decision of the Board of Directors with the approval of the Board of Commissioners.

2. In performing their duties, each member of the Board of Directors may make decisions in accordance with their assigned tasks and authorities.
3. Each member of the Board of Directors has an equal position. The President Director's task is to coordinate the work activities of the Board of Directors.
4. In case one of the Directors is temporarily unavailable, the President Director may appoint a temporary replacement with the approval of the Board of Commissioners. For the temporary replacement of the Director in charge of compliance functions, it must comply with the OJK Regulation on the Implementation of Compliance Functions for Conventional Bank.

Orientation Program for New Members of Board of Directors

The BOD Charter stipulates that newly appointed members of the Board of Directors must participate in a company introduction program. This program is designed to provide an understanding of the duties and responsibilities of the Board of Directors, ensuring they can fulfill their roles effectively. Additionally, it aims to familiarize new members with the Bank's background and business activities, facilitating the smooth execution of their responsibilities.

Since there were no changes in the Board of Directors' composition in 2024, the Bank did not implement an introduction program for new members.

Competency Development of the Board of Directors

The Bank consistently implements programs to enhance the competence of the Board of Directors, ensuring that all management members possess the necessary capacity and skills to adapt to evolving business conditions and dynamics, thereby accelerating the achievement of the Bank's objectives. Information regarding the Board of Directors' competency development throughout 2024 can be found in the Company Profile Chapter of this Annual Report.

Implementation of Directors' Duties in 2024

Throughout 2024, the Board of Directors has fulfilled its duties and responsibilities in managing the Bank in accordance with applicable laws and regulations, the Articles of Association, and the Bank's Business Plan, through various activities, including:

1. Defining the Bank's objectives and strategies for the long, medium, and annual terms, as outlined in the Corporate Plan and Bank Business Plan (RBB) and RBB Revision, which have undergone evaluation and supervision by the Board of Commissioners.
2. Establishing strategic initiatives to achieve the Bank's mission in an integrated manner by developing products and services and enhancing the customer experience.

3. Membuat kebijakan terkait pengelolaan Bank sesuai dengan kewenangan yang diberikan, dan mengevaluasi kebijakan tersebut secara berkala.
 4. Menyusun kebijakan remunerasi dan mengungkapkan kepada pegawai terkait kebijakan Bank yang bersifat strategis di bidang kepegawaian.
 5. Melaksanakan prinsip-prinsip Tata Kelola yang baik dan penerapan manajemen risiko dalam setiap kegiatan usaha Bank pada seluruh tingkatan atau jenjang organisasi.
 6. Menumbuhkan budaya sadar risiko, budaya kepatuhan dan budaya anti fraud pada seluruh jajaran organisasi. Sesuai dengan positioning Bank sebagai bank umum berbasis digital, Direksi juga terus memperkuat kemampuan IT Security dalam pengamanan infrastruktur dan jaringan TI Bank serta melawan serangan kejahatan cyber.
 7. Peningkatan pengetahuan, keahlian dan kemampuan dari seluruh karyawan Bank pada seluruh tingkatan atau jenjang organisasi.
 8. Melakukan evaluasi terhadap kinerja komite setiap akhir tahun buku.
 9. Menindaklanjuti hasil temuan Audit Internal, Audit Eksternal, dan hasil pengawasan Otoritas Jasa Keuangan, Bank Indonesia dan hasil pengawasan otoritas lain.
 10. Melakukan evaluasi dan pemantauan terhadap prinsip kehati-hatian dan kepatuhan Bank serta pelaksanaan pengendalian internal.
 11. Mentransparansikan kondisi keuangan dan non keuangan kepada Pemangku Kepentingan sebagaimana diatur dalam peraturan perbankan dan perundang-undangan yang berlaku.
 12. Menyelenggarakan RUPS tahunan sebagaimana diatur dalam peraturan perbankan serta perundang-undangan dan Anggaran Dasar dan mempertanggungjawabkan pelaksanaan tugasnya kepada Dewan Komisaris dan pemegang saham melalui RUPS.
3. Formulating policies related to Bank management in accordance with assigned authority and conducting periodic evaluations of these policies.
 4. Preparing remuneration policies and informing employees about the Bank's strategic personnel policies.
 5. Implementing the principles of Good Corporate Governance and applying risk management across all levels of the organization in every business activity.
 6. Promoting a risk awareness culture, a compliance culture, and an anti-fraud culture throughout the organization. As a digital-based conventional bank, the Board of Directors also continues to strengthen IT Security capabilities to safeguard the Bank's IT infrastructure and network against cybercrime threats.
 7. Enhancing the knowledge, expertise, and capabilities of all Bank employees at every level of the organization.
 8. Conducting performance evaluations of the committees at the end of each financial year.
 9. Following up on audit findings from Internal and External Audits, as well as supervisory results from the Financial Services Authority (OJK), Bank Indonesia, and other regulatory bodies.
 10. Evaluating and monitoring the Bank's compliance with prudential principles and the effectiveness of internal control implementation.
 11. Ensuring transparency of financial and non-financial conditions to Stakeholders, in accordance with banking regulations and applicable laws.
 12. Conducting the Annual GMS in accordance with banking regulations, laws, and the Articles of Association, and being accountable for the execution of its duties to the Board of Commissioners and shareholders through the GMS.

Penilaian Kinerja Organ dan Komite Pendukung di Bawah Direksi

Dalam menjalankan fungsi, tugas, dan tanggung jawab terkait pengelolaan Bank, Direksi turut dibantu oleh organ pendukung yang bersifat struktural maupun non struktural. Organ pendukung struktural Direksi terdiri dari Sekretaris Perusahaan & PMO dan Satuan Kerja Audit Internal (SKAI), sementara organ pendukung non-struktural Direksi terdiri dari Komite Kredit, Komite Kebijakan Perkreditan, Komite Aktiva dan Pasiva, Komite Manajemen Risiko, Komite Pengarah Teknologi Informasi, Komite Produk dan Komite Sumber Daya Manusia. .

Direksi menilai bahwa seluruh organ pendukung Direksi, baik organ pendukung struktural maupun non-struktural telah melaksanakan tugas dan tanggung jawabnya dengan baik. Direksi menilai bahwa seluruh organ pendukung telah membantu fungsi pengelolaan perusahaan dengan baik sehingga Bank mampu melalui dinamika yang terjadi pada tahun 2024.

Performance Assessment of Supporting Organs and Committees under Board of Directors

In carrying out its functions, duties, and responsibilities related to the management of the Bank, the Board of Directors is assisted by both structural and non-structural supporting organs. The structural supporting organs of the Board of Directors consist of the Corporate Secretary & PMO and the Internal Audit Work Unit (SKAI). Meanwhile, the non-structural supporting organs include the Credit Committee, Credit Policy Committee, Asset and Liability Committee, Risk Management Committee, Information Technology Steering Committee, Product Committee, and Human Resources Committee.

The Board of Directors assesses that all supporting organs, both structural and non-structural, have effectively carried out their duties and responsibilities. Additionally, the Board of Directors recognizes that these supporting organs have significantly contributed to the Bank's management function, enabling the Bank to successfully navigate business dynamics in 2024.

Assessment Penerapan GCG untuk Aspek Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi selaku organ utama Bank memiliki peran penting bagi pertumbuhan bisnis Bank ke depan. Bank secara berkala melakukan *assessment* bagi Dewan Komisaris dan Direksi dengan tujuan untuk memberikan evaluasi dan rekomendasi atas kinerja kedua organ, serta melakukan tindak lanjut atas rekomendasi yang muncul dari proses *assessment* tersebut.

Pada tahun 2024, *self assessment* penerapan GCG Bank meraih nilai komposit sebesar 2 atau memperoleh predikat “BAIK”. Berdasarkan penilaian tersebut, aspek Dewan Komisaris dan Direksi masing-masing dinilai baik.

Assessment of GCG Implementation for the Board of Commissioners and Board of Directors

As the main organs in the Bank's structure, the Board of Commissioners and Board of Directors play a central role in Allo Bank's business growth. For this reason, the Bank consistently conducts evaluations in the form of assessments of these two organs. These assessments aim to evaluate their performance, provide recommendations, and ensure the implementation of follow-up actions based on the recommendations that arise from the assessment process.

In 2024, the Bank's GCG implementation self-assessment achieved a composite score of 2, earning the rating “GOOD”. Based on this assessment, both the Board of Commissioners and Board of Directors were classified as performing well.

Penilaian Kinerja Dewan Komisaris dan Direksi

Penilaian Kinerja Dewan Komisaris

Peraturan OJK No. 17 Tahun 2023 tentang Penerapan Tata Kelola Bagi Bank Umum dan Surat Edaran Otoritas Jasa Keuangan No. 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum mewajibkan Bank Umum untuk melakukan penilaian terhadap penerapan tata kelola. Untuk itu, Bank senantiasa melakukan evaluasi secara rutin terhadap kinerja Dewan Komisaris yang dilakukan oleh Pemegang Saham dalam forum RUPS.

Evaluasi tersebut dilakukan dengan memperhatikan kompetensi dan keahlian/pengalaman, kinerja Komite-Komite Dewan Komisaris, efektivitas pelaksanaan tanggung jawab Dewan Komisaris, dan penilaian mandiri maupun penilaian rekan sejawat terhadap pelaksanaan fungsi pengawasan oleh masing-masing anggota Dewan Komisaris. Hasil penilaian atas aspek-aspek tersebut selanjutnya akan disimpulkan ke dalam laporan dan diajukan kepada pemegang saham melalui mekanisme RUPS.

Penilaian Kinerja Direksi

Undang-Undang No. 40 tahun 2007 tentang Perseroan Terbatas mengatur bahwa dalam hal Direksi terdiri dari 2 (dua) anggota Direksi atau lebih maka tanggung jawab Direksi berlaku secara tanggung renteng. Adapun prosedur penilaian kriteria kinerja Direksi Bank terdiri dari 2 (dua) jenis, yaitu:

1. Penilaian Kinerja oleh RUPS

Masing-masing Anggota Direksi akan dievaluasi setiap tahunnya oleh Dewan Komisaris untuk disampaikan kepada Pemegang Saham dalam RUPS, berdasarkan hasil kinerja keseluruhan dari tugas dan kewajiban Direksi secara kolektif maupun individual. Hal ini menjadi salah satu bahan pertimbangan bagi pemegang saham untuk memberhentikan dan/atau menunjuk kembali anggota Direksi.

2. Prosedur Pelaksanaan *Assessment* Kinerja Direksi

Self-assessment atau penilaian sendiri dilakukan oleh masing-masing anggota Direksi untuk menilai pelaksanaan kinerja Direksi secara kolektif, dan bukan menilai kinerja individual masing-masing anggota Direksi. Dengan adanya *self-assessment* ini diharapkan masing-masing anggota Direksi dapat berkontribusi untuk memperbaiki kinerja Direksi secara berkesinambungan.

Prosedur penilaian kinerja Direksi melalui pelaksanaan *self-assessment* GCG dilakukan pada bulan Juni dan Desember setiap tahunnya yang berdasarkan pengelolaan Bank, pencapaian target, upaya penanggulangan kendala dan manajemen risiko, serta penerapan tata kelola perusahaan yang dilakukan. Dewan komisaris akan mengevaluasi melalui rapat dengan Komite Remunerasi dan Nominasi kemudian hasilnya akan dilaporkan kepada pemegang saham dalam RUPS Tahunan.

Performance Assessment of the Board of Commissioners and Board of Directors

Assessment of the Board of Commissioners' Performance

OJK Regulation No. 17 of 2023 concerning the Implementation of Governance for Conventional Bank and Financial Services Authority Circular Letter No. 13/SEOJK.03/2017 require Conventional Bank to conduct assessments of their governance implementation. In compliance with these regulations, the Bank routinely conducts evaluations of the Board of Commissioners' performance, which are carried out by shareholders during the GMS forum.

The evaluation is carried out by considering the competence, expertise/experience of the Board of Commissioners, the performance of the Board of Commissioners' Committees, the effectiveness of the Board of Commissioners' responsibilities, as well as independent assessments and peer assessments of the supervisory function performed by each Board of Commissioners member. The results of this assessment will then be summarized in a report and submitted to shareholders through the GMS mechanism.

Assessment of the Board of Directors' Performance

Based on Law No. 40 of 2007 regarding Limited Liability Companies, if the Board of Directors consists of two or more members, their responsibility applies jointly and respectively. There are two types of procedures for assessing the Board of Directors' performance as follows:

1. Performance Assessment by GMS

Each member of the Board of Directors will be evaluated annually by the Board of Commissioners to be presented to Shareholders at the GMS, based on the results of the overall performance of the duties and obligations of the Board of Directors both collegial and individual. This is a consideration for shareholders when dismissing and/or reappointing members of the Board of Directors.

2. Procedures for Implementing Directors' Performance Assessments

Self-assessment is carried out by each member of the Board of Directors to assess the implementation of the performance of the Board of Directors in a collegial manner, and not to assess the individual performance of each member of the Board of Directors. With this self-assessment, it is expected that each member of the Board of Directors can contribute to improving the performance of the Board of Directors on an ongoing basis.

The procedure for assessing the performance of the Board of Directors through the implementation of a GCG self-assessment is carried out in June and December each year based on the Bank's management, target achievement, efforts to overcome obstacles and risk management, as well as the implementation of corporate governance. The Board of Commissioners will evaluate it through meetings with the Remuneration and Nomination Committee and then the results will be reported to shareholders at the Annual GMS.

Selanjutnya, Dewan Komisaris dan Direksi menyampaikan usulan persetujuan atas pencapaian kinerja Direksi dalam RUPS dan RUPS akan memberikan pembebasan tanggung jawab sepenuhnya kepada para anggota Direksi atas pengurusan yang telah dijalankan selama tahun buku yang lalu, sejauh tindakan tersebut tercermin dalam Laporan Tahunan dan Laporan Keuangan, kecuali perbuatan penggelapan, penipuan dan tindakan pidana lainnya.

Keberagaman Komposisi Dewan Komisaris dan Direksi

Komposisi Dewan Komisaris dan Direksi Allo Bank disusun dengan memperhatikan kebijakan keberagaman berdasarkan ketentuan Pemegang Saham dengan memperhatikan pengetahuan, usia, jenis kelamin, pendidikan dan pengalaman yang sesuai dengan kebutuhan dari Bank, sehingga mendapatkan komposisi Dewan Komisaris dan Direksi yang optimal guna meningkatkan kinerja Bank ke depannya.

Keberagaman komposisi Dewan Komisaris dan Direksi merupakan bagian dari upaya dari Allo Bank untuk mendorong proses pengambilan keputusan yang lebih objektif, komprehensif, optimal, dan memiliki dampak positif terhadap pengawasan dan pengelolaan Bank. Keberagaman komposisi ini diharapkan dapat memperkaya sudut pandang dan kepentingan dalam proses pengambilan keputusan, baik di tubuh Dewan Komisaris maupun Direksi, sehingga mampu memberikan nilai tambah bagi aspek operasional dan usaha Bank.

Furthermore, the Board of Commissioners and Directors submit a proposal for approval of the performance achievements of the Board of Directors at the GMS and the GMS will grant full release from responsibility to the members of the Board of Directors for the management carried out during the previous fiscal year, as long as these actions are reflected in the Annual Report and Financial Report, except embezzlement, fraud and other criminal acts.

Diversity in the Composition of the Board of Commissioners and Directors

The composition of the Board of Commissioners and Directors of Allo Bank refers to the diversity policy based on the provisions of Shareholders by taking into account knowledge, age, gender, education and experience in accordance with the needs of the Bank, so as to obtain an optimal composition of the Board of Commissioners and Directors in order to improve the Bank's performance in the future.

The diversity of the composition of the Board of Commissioners and Directors is part of Allo Bank's efforts to encourage a decision-making process that is more objective, comprehensive, optimal, and has a positive impact on the supervision and management of the Bank. It is hoped that this diversity viewpoints and interests in the decision-making process, both within the Board of Commissioners and the Board of Directors, so as to provide added value to the Bank's operational and business aspects.

Rapat Dewan Komisaris dan Direksi

Rapat Dewan Komisaris

Berdasarkan BOC Charter, Dewan Komisaris dapat melaksanakan rapat secara berkala sekurang-kurangnya sebanyak 1 (satu) kali dalam 2 (dua) bulan atau lebih jika dianggap perlu oleh Dewan Komisaris. Ketentuan tersebut mengatur bahwa Rapat Dewan Komisaris wajib dihadiri oleh seluruh anggota Dewan Komisaris secara fisik paling kurang 2 (dua) kali dalam setahun. Selain itu, Dewan Komisaris wajib mengadakan rapat bersama Direksi secara berkala minimal 1 (satu) kali dalam 4 (empat) bulan. Seluruh rapat Dewan Komisaris, baik internal maupun rapat gabungan dengan Direksi, diadakan di tempat kedudukan Bank atau tempat kegiatan usaha utama Bank.

Rapat dapat dinyatakan sah dan berhak untuk mengambil keputusan yang mengikat apabila dihadiri dan/atau diwakili lebih dari ½ (satu per dua) dari jumlah anggota Dewan Komisaris yang sedang menjabat (kuorum). Keputusan rapat harus diambil berdasarkan musyawarah untuk mufakat. Dalam hal keputusan berdasarkan musyawarah untuk mufakat tidak tercapai, maka keputusan dilakukan berdasarkan suara terbanyak. Dewan Komisaris dapat juga mengambil keputusan yang sah tanpa mengadakan rapat, dengan ketentuan semua anggota Dewan Komisaris telah diberitahu secara tertulis mengenai usul keputusan yang dimaksud dan semua anggota Dewan Komisaris memberikan persetujuan mengenai usul yang diajukan secara tertulis dengan menandatangani sirkuler tersebut.

Hasil rapat wajib dituangkan dalam risalah rapat, kemudian ditandatangani oleh seluruh anggota Dewan Komisaris yang hadir dan disampaikan kepada seluruh anggota Dewan Komisaris. Untuk rapat Dewan Komisaris bersama dengan Direksi, risalah rapat ditandatangani oleh Direksi dan Dewan Komisaris yang hadir dan disampaikan kepada seluruh Direksi dan Dewan Komisaris.

Meetings of the Board of Commissioners and Board of Directors

Board of Commissioners Meeting

BOC Charter stipulates that the Board of Commissioners can hold regular meetings, at least 1 (one) time in 2 (two) months or more if deemed necessary by the Board of Commissioners. All members of the Board of Commissioners must physically attend meetings of the Board of Commissioners at least 2 (two) times a year. In addition, the Board of Commissioners is required to hold regular meetings with the Board of Directors at least 1 (one) time in 4 (four) months. Internal meetings of the Board of Commissioners and joint meetings with the Board of Directors are held at the Bank's domicile or the Bank's main business activities.

A meeting is valid and has the right to make binding decisions if attended and/or represented by more than ½ (one half) of the number of members of the Board of Commissioners who are currently serving (quorum). Meeting decisions must be taken based on deliberation to reach consensus. In the event that a decision based on deliberation to reach consensus is not reached, the decision is made based on the majority vote. The Board of Commissioners can also make valid decisions without holding a meeting, provided that all members of the Board of Commissioners have been notified in writing regarding the proposed decision in question and all members of the Board of Commissioners have given their approval to the proposal submitted in writing by signing the circular.

The results of the meeting must be stated in the minutes of the meeting, then signed by all members of the Board of Commissioners present and submitted to all members of the Board of Commissioners. For joint meetings between the Board of Commissioners and the Board of Directors, the minutes of the meeting are signed by the Directors and Board of Commissioners.

Perbedaan pendapat yang terjadi dalam rapat wajib dicantumkan secara jelas dalam risalah rapat beserta alasan perbedaan pendapat tersebut. Risalah rapat merupakan bukti sah, baik untuk para anggota Dewan Komisaris maupun pihak lain mengenai keputusan yang diambil dalam rapat yang bersangkutan. Risalah rapat juga wajib diadministrasikan dengan baik oleh Sekretaris Perusahaan.

Di tahun 2024, Dewan Komisaris telah menyelenggarakan Rapat Internal sebanyak 21 kali dan Rapat Gabungan bersama Direksi sebanyak 12 kali. Adapun risalah dan tingkat kehadiran Dewan Komisaris dalam rapat sepanjang tahun 2024 adalah sebagai berikut:

present and submitted to all Directors and Board of Commissioners. Rapat Direksi

Sebagaimana diatur dalam BOD Charter, Direksi dapat menyelenggarakan rapat internal secara berkala minimal 1 (satu) kali dalam 1 (satu) bulan atau lebih jika dianggap perlu oleh Direktur Utama atau anggota Direksi lainnya. Di samping itu, Direksi wajib mengadakan rapat Direksi bersama dengan Dewan Komisaris secara berkala sekurang-kurangnya sebanyak 1 (satu) kali dalam 4 (empat) bulan.

Keputusan rapat Direksi diambil berdasarkan musyawarah untuk mufakat. Dalam hal keputusan berdasarkan musyawarah untuk mufakat tidak tercapai, maka keputusan diambil dengan pemungutan suara berdasarkan suara setuju lebih dari ½ (satu per dua) dari jumlah suara yang dikeluarkan yang sah dalam rapat.

Sepanjang tahun 2024, Direksi telah menyelenggarakan Rapat Internal sebanyak 47 kali dan Rapat Gabungan bersama Dewan Komisaris sebanyak 12 kali. Adapun risalah dan tingkat kehadiran Direksi dalam rapat di tahun 2024 adalah sebagai berikut:

Board of Directors Meeting

BOD Charter regulates that the Board of Directors can hold regular internal meetings 1 (one) time in 1 (one) month or more if deemed necessary by the President Director or other members of the Board of Directors. In addition, the Board of Directors is required to hold joint Board of Directors meetings with the Board of Commissioners periodically at least 1 (one) time in 4 (four) months.

Decisions at the Board of Directors meetings are taken based on deliberation to reach consensus. In the event that a decision based on deliberation to reach consensus is not reached, the decision is taken by voting based on affirmative votes of more than ½ (onehalf) of the number of valid votes cast at the meeting.

Throughout 2024, the Board of Directors held 47 Internal Meetings and 12 Joint Meetings with the Board of Commissioners. The minutes and attendance of the Board of Directors meetings in 2024 are as follows:

Nominasi dan Remunerasi Dewan Komisaris dan Direksi

Nomination and Remuneration of Board of Commissioners and Directors

Sebagai organ tertinggi dalam organisasi Bank, Pemegang Saham memiliki kewenangan untuk mengangkat dan memberhentikan anggota Dewan Komisaris dan Direksi melalui mekanisme RUPS. Pemegang saham juga berwenang untuk mendelegasikan penetapan besaran remunerasi bagi anggota Dewan Komisaris dan Direksi kepada Dewan Komisaris dengan mempertimbangkan rekomendasi dari Komite Remunerasi dan Nominasi.

Prosedur Nominasi Dewan Komisaris dan Direksi

Allo Bank telah menetapkan sejumlah kriteria bagi anggota Dewan Komisaris dan Direksi sesuai dengan ketentuan yang berlaku. Calon anggota Dewan Komisaris dan Direksi dapat berasal dari pemegang saham pengendali atau dari sumber-sumber lainnya. Setiap calon yang dinominasikan akan dikaji oleh Komite Remunerasi dan Nominasi untuk disampaikan kepada Dewan Komisaris lalu diusulkan kepada Pemegang Saham. Penetapan calon yang dinominasikan dilakukan melalui mekanisme RUPS untuk kemudian mengikuti tahapan selanjutnya, yaitu uji kepatutan dan kelayakan yang dilakukan oleh OJK.

Kebijakan Remunerasi Dewan Komisaris dan Direksi

Bank menetapkan besaran remunerasi bagi Dewan Komisaris dan Direksi berdasarkan Keputusan RUPS setiap tahunnya. Besaran remunerasi serta fasilitas lain yang diberikan bagi Dewan Komisaris akan ditetapkan di dalam RUPS Tahunan oleh Pemegang Saham dengan memperhatikan rekomendasi dari Komite Remunerasi dan Nominasi. Prosedur penetapan remunerasi bagi Dewan Komisaris dan Direksi terdiri dari:

1. Pemegang Saham melakukan pembahasan pada RUPS.

As the highest organ in the Bank's organization, Shareholders have the authority to appoint and dismiss members of the Board of Commissioners and Directors through the GMS mechanism. Shareholders are also authorized to delegate the determination of the amount of remuneration for members of the Board of Commissioners and Directors to the Board of Commissioners by considering recommendations from the Remuneration and Nomination Committee.

Nomination Procedure for Board of Commissioners and Directors

Allo Bank has set a number of criteria for members of the Board of Commissioners and Board of Directors in accordance with applicable provisions. The Board of Commissioners and Directors candidates may come from controlling shareholders or from other sources. The Bank has established a number of criteria for members of the Board of Commissioners and Directors in accordance with applicable regulations. Each nominated candidate will be reviewed by the Remuneration and Nomination Committee to be submitted to the Board of Commissioners and then proposed to Shareholders. The determination of the nominated candidates is carried out through the GMS mechanism and then follows the next stage, namely the fit and proper test carried out by the OJK.

Remuneration Policy for Board of Commissioners and Directors

The Bank determines the remuneration for the Board of Commissioners and Board of Directors based on the Annual GMS Decision. The remuneration amount and other benefits provided to the Board of Commissioners are determined in the Annual GMS by shareholders, taking into account the recommendations of the Remuneration and Nomination Committee. The procedure for determining remuneration for the Board of Commissioners and Board of Directors consists of:

1. The Shareholders conduct discussions at the GMS.

- RUPS memberikan wewenang dan kuasa kepada Dewan Komisaris untuk menetapkan besaran remunerasi.
- Komite Remunerasi dan Nominasi melakukan kajian dan evaluasi untuk menentukan remunerasi bagi Dewan Komisaris.
- Komite Remunerasi dan Nominasi memberikan rekomendasi kepada Dewan Komisaris.
- Dewan Komisaris melakukan pembahasan atas usulan Komite Remunerasi dan Nominasi untuk kemudian diusulkan melalui surat kepada Pemegang Saham Pengendali.
- Surat Penetapan oleh Pemegang Saham Pengendali kepada Dewan Komisaris.
- Surat Dewan Komisaris kepada Direksi tentang Penetapan Remunerasi Dewan Komisaris dan Direksi.
- The GMS delegates authority to the Board of Commissioners to determine the amount of remuneration.
- The Remuneration and Nomination Committee conducts a study and evaluation to determine the remuneration for the Board of Commissioners.
- The Remuneration and Nomination Committee provides recommendations to the Board of Commissioners.
- The Board of Commissioners discusses the recommendations from the Remuneration and Nomination Committee and proposes them to the Controlling Shareholders through a letter.
- The Controlling Shareholders issue a Letter of Appointment to the Board of Commissioners.
- The Board of Commissioners issues a letter to the Directors regarding the determination of remuneration for the Board of Commissioners and Directors.

Organ Pendukung Dewan Komisaris

Board of Commissioners Supporting Organ

Dewan Komisaris senantiasa dibantu oleh 3 (tiga) Komite di bawah Dewan Komisaris, yaitu Komite Audit, Komite Pemantau Risiko, serta Komite Remunerasi dan Nominasi. Pembentukan komite tersebut ditujukan untuk membantu Dewan Komisaris dalam melaksanakan tugas pengawasan.

Komite Audit

Komite Audit merupakan organ pendukung yang bertugas untuk mendukung pelaksanaan tugas Dewan Komisaris dalam memantau dan mengevaluasi perencanaan maupun pelaksanaan audit dan kecukupan proses laporan pelaporan keuangan termasuk memberikan rekomendasi penunjukan akuntan publik serta melakukan pengawasan terhadap efektivitasnya.

Dasar Hukum

Pembentukan Komite Audit mengacu pada peraturan perundang-undangan dan best practice yang diterapkan di lembaga perbankan di Indonesia, di antaranya:

1. Peraturan Otoritas Jasa Keuangan ("POJK") POJK No. 33/POJK.04/2014 tanggal 8 Desember 2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik.
2. POJK No. 17/POJK.03/2023 tanggal 14 September 2023 tentang Penerapan Tata Kelola bagi Bank Umum.
3. POJK No. 13/POJK.03/2017 tanggal 27 Maret 2017 tentang Penggunaan Jasa Akuntan Publik dan Kantor Akuntan Publik dalam Kegiatan Jasa Keuangan.
4. POJK No. 1/POJK.03/2019 tanggal 28 Januari 2019 tentang Penerapan Fungsi Audit Intern pada Bank Umum.
5. SEOJK No. 36/SEOJK.03/2017 tentang Tata Cara Penggunaan Jasa Akuntan Publik dan Kantor Akuntan Publik dalam Kegiatan Jasa Keuangan.
6. Anggaran Dasar Bank.

The Board of Commissioners is always assisted by 3 (three) Committees, namely the Audit Committee, the Risk Oversight Committee, and the Remuneration and Nomination Committee. The establishment of these committees is intended to assist the Board of Commissioners in performing its supervisory duties effectively.

Audit Committee

The Audit Committee is a supporting organ of the Board of Commissioners whose task is to support the implementation of the Board of Commissioners' duties in monitoring and evaluating the planning and implementation of audits and the adequacy of the financial reporting process, including providing recommendations for the appointment of public accountants and supervising their effectiveness.

Legal Basis

The formation of the Audit Committee is guided by and based on applicable laws and regulations as well as best practices implemented in banking institutions in Indonesia, including:

1. Financial Services Authority Regulation ("POJK") POJK No. 33/POJK.04/2014 dated December 8, 2014 concerning the Directors and Board of Commissioners of Issuers or Public Companies.
2. POJK No. 17/POJK.03/2023 dated September 14, 2023 concerning Implementation of Governance for Conventional Bank.
3. POJK No. 13/POJK.03/2017 dated March 27, 2017 concerning the Use of Public Accounting Services and Public Accounting Firms in Financial Services Activities.
4. POJK No. 1/POJK.03/2019 dated January 28, 2019 concerning Implementation of the Internal Audit Function in Conventional Bank.
5. SEOJK No. 36/SEOJK.03/2017 concerning Procedures for Using the Services of Public Accountants and Public Accounting Firms in Financial Services Activities.
6. Bank Articles of Association.

Tujuan Pembentukan Komite Audit

Bank membentuk Komite Audit dengan tujuan untuk:

1. Membantu/mendukung efektivitas pelaksanaan tugas Dewan Komisaris dalam melakukan pengawasan atas pengelolaan perusahaan oleh Direksi.

Atas audit yang telah dilakukan, SKAI memberikan rekomendasi dan seluruh rekomendasi audit yang telah jatuh tempo telah ditindaklanjuti dengan tepat waktu. Atas audit yang telah dilakukan, SKAI melakukan monitoring sejumlah 70 tindak lanjut hasil audit, dimana terdapat 43 sudah dilakukan tindak lanjut dan sisanya 27 belum jatuh tempo pada 31 Desember 2024.

Tinjauan dan Hasil Penelitian SKAI atas Efektivitas Sistem Pengendalian Internal

Sebagai *third lines of defense*, SKAI bertugas untuk melakukan pemeriksaan terhadap efektivitas sistem pengendalian internal melalui kegiatan audit berbasis risiko yang tertuang dalam Program Kerja Audit Tahunan 2024 yang telah disetujui oleh Direktur Utama dan Dewan Komisaris berdasarkan rekomendasi Komite Audit. Berdasarkan hasil pemeriksaan terhadap efektivitas sistem pengendalian internal Bank, SKAI menyimpulkan bahwa sistem pengendalian internal Bank telah memadai untuk memitigasi risiko yang secara signifikan dapat mengganggu operasional Bank, walaupun masih terdapat beberapa aspek pengendalian yang perlu ditingkatkan sehingga pengendalian internal menjadi lebih efektif dan efisien.

Rencana Kerja Audit Tahun 2025

SKAI telah menyusun Rencana Kerja Audit Tahun 2025 dengan mempertimbangkan strategi dan Rencana Bisnis Bank untuk satu tahun mendatang. Rencana Kerja Audit Tahun 2025 menggunakan pendekatan audit berbasis risiko dengan fokus pengawasan seluruh kegiatan operasional Bank. Untuk merealisasikan rencana kerjanya, SKAI akan terus melakukan peningkatan kompetensi auditor, pengembangan metodologi serta optimalisasi alat bantu audit seperti *Audit Management System* (AMS). Berdasarkan pertimbangan-pertimbangan tersebut, SKAI telah menetapkan sejumlah rencana kerja audit di tahun 2025 dengan merencanakan 13 penugasan audit reguler.

Competency Development of SKAI

In addition to participating in certification programs, Internal Auditors always participate in training or competency development programs to support and optimize the role and function of Internal Audit. Information related to the competency improvement program conducted by the Head of SKAI in 2024 can be seen in the Company Profile Chapter in this Annual Report.

SKAI Task Implementation Report

Throughout 2024, SKAI completed 14 audit assignments consisting of regular audits and audits on additional requests from management with an achievement of 100% audit realization in 2024. Following the audit, SKAI provided recommendations and all overdue audit recommendations were followed up in a timely manner. Selain itu, SKAI monitors a total of 70 follow-up audit results, of which 43 have been followed up and the remaining 27 are not due on December 31, 2024.

Review and Results of SKAI Research on Effectiveness of Internal Control System

As the third line of defense, SKAI is tasked with examining the effectiveness of the internal control system through risk-based audit activities contained in the 2024 Annual Audit Work Program approved by the President Director and the Board of Commissioners based on the recommendations of the Audit Committee. Based on the results of the examination of the effectiveness of the Bank's internal control system, SKAI concluded that the Bank's internal control system is adequate to mitigate risks that could significantly disrupt the Bank's operations, although there are still several aspects of control that need to be improved so that internal control becomes more effective and efficient.

The 2025 Audit Work Plan

SKAI has developed the 2025 Audit Work Plan by considering the Bank's strategy and Business Plan for the coming year. The 2025 Audit Work Plan uses a risk-based audit approach with a focus on monitoring all of the Bank's operational activities. To realize its work plan, SKAI will continue to improve auditor competencies, develop methodologies and optimize audit tools such as the Audit Management System (AMS). Based on these considerations, SKAI has established a number of audit work plans in 2025 by planning 13 regular audit assignments.

Fungsi Keadpatuhan

Compliance Function

Fungsi kepatuhan Allo Bank dibentuk sebagai bagian dari serangkaian tindakan atau langkah preventif untuk memastikan bahwa kebijakan, ketentuan, sistem, dan prosedur, serta kegiatan usaha yang dilakukan oleh Bank telah sesuai dengan ketentuan dan peraturan perundang-undangan yang berlaku. Serta memastikan kepatuhan Bank terhadap komitmen yang dibuat Bank kepada Regulator dan/atau otoritas pengawas lain yang berwenang.

Kondisi bisnis perbankan yang terus berkembang membuat Bank turut dihadapkan oleh penambahan eksposur risiko. Perkembangan kondisi ini mengharuskan Bank untuk melakukan upaya preventif (*ex-ante*) maupun kuratif (*ex-post*) untuk memitigasi risiko tersebut. Untuk itu, Bank membentuk Satuan Kerja Keadpatuhan yang bertugas untuk menjalankan fungsi kepatuhan guna memastikan eksposur risiko dalam kegiatan usaha Bank dapat ditekan melalui tindakan yang bersifat preventif (*ex-ante*).

Dalam menerapkan fungsi kepatuhan, Allo Bank mengacu pada Peraturan OJK No. 46/POJK.03/2017 tentang Pelaksanaan Fungsi Keadpatuhan Bank Umum. Saat ini Allo Bank telah memiliki kebijakan dari standar prosedur kepatuhan yang menjabarkan tugas dan tanggung jawab Satuan Kerja Keadpatuhan dalam menjalankan fungsi kepatuhan.

Struktur Organisasi Fungsi Keadpatuhan

Pembentukan Satuan Kerja Keadpatuhan selaku pelaksana fungsi kepatuhan Bank telah ditetapkan melalui SK Direksi No. 101/DIRAB/24 tanggal 19 Desember 2024 tentang Perubahan Struktur Organisasi (Januari 2025) PT Allo Bank Indonesia Tbk. Satuan Kerja Keadpatuhan bertanggung jawab langsung kepada Direktur yang membawahkan fungsi kepatuhan. Penunjukan dan pengangkatan Direktur yang membawahkan fungsi kepatuhan telah memenuhi persyaratan yang berlaku dan dilaksanakan melalui proses sebagaimana ditentukan oleh OJK.

Allo Bank's compliance function was formed as part of a series of preventive actions or steps to ensure that policies, provisions, systems, and procedures, as well as business activities carried out by the Bank are in accordance with applicable laws and regulations. As well as ensuring the Bank's compliance with the commitments made by the Bank to the Regulator and/or other authorized supervisory authorities.

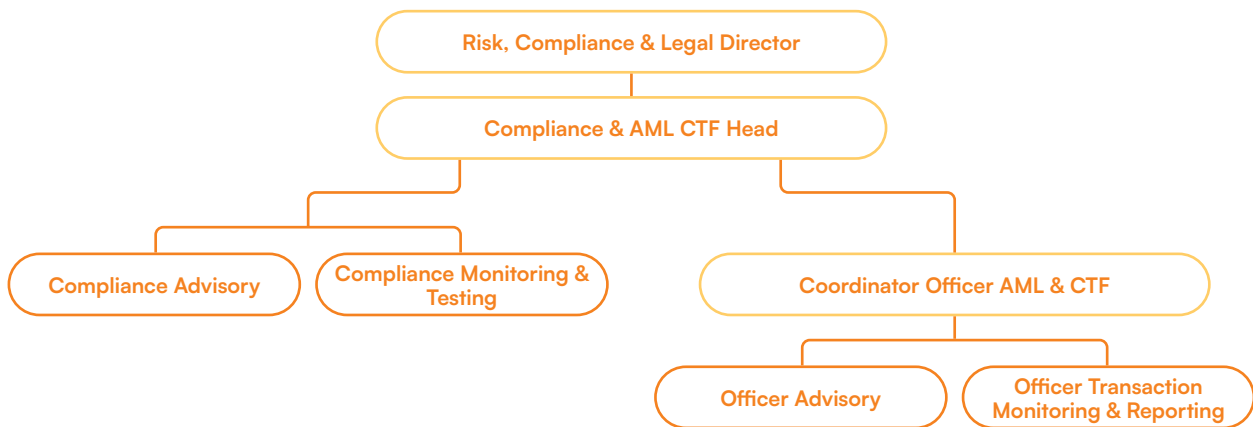

The ever-evolving banking business conditions have also put the Bank in a position against the increasing risk exposure. These conditions require the Bank to make preventive (*ex-ante*) and curative (*ex-post*) efforts to mitigate these risks. To that end, the Bank has formed a Compliance Work Unit tasked with carrying out the compliance function to ensure that risk exposure in the Bank's business activities can be reduced through preventive (*ex-ante*) actions.

In implementing the compliance function, Allo Bank refers to OJK Regulation No. 46/POJK.03/2017 concerning the Implementation of the Compliance Function of Conventional Bank. Currently, Allo Bank has a policy of standard compliance procedures that outlines the duties and responsibilities of the Compliance Work Unit in carrying out the compliance function.

Compliance Function Structure

The establishment of the Compliance Work Unit as the executor of the Bank's compliance function has been determined through the Decree of the Board of Directors No. 101/DIRAB/24 dated December 19, 2024 concerning Changes to the Organizational Structure (January 2025) of PT Allo Bank Indonesia Tbk. The Compliance Work Unit is directly responsible to the Director in charge of the compliance function. The appointment and promotion of the Director in charge of the compliance function has met the applicable requirements and is carried out through a process as determined by the OJK.

Manajemen Risiko

Risk Management

Sebagai wujud komitmen dalam menjalankan praktik tata kelola perusahaan yang baik, Allo Bank menerapkan pengelolaan risiko terkini secara proaktif demi mencapai pertumbuhan keuangan maupun operasional yang optimal. Untuk itu, Bank menjadikan pengelolaan risiko sebagai tanggung jawab manajemen dalam memastikan tercapainya sasaran organisasi dengan melakukan internalisasi proses manajemen risiko di Bank sehingga akan melekat pada setiap aktivitas. Di samping itu, Bank juga menerapkan manajemen risiko terpadu dan komprehensif sehingga mampu mendukung pencapaian target kinerja dan menjaga kelangsungan usaha.

Dengan menerapkan strategi manajemen risiko yang proaktif, Bank percaya bahwa hal tersebut dapat meningkatkan efektivitas penggunaan modal dan tingkat pengembalian modal sehingga dapat memberikan nilai tambah bagi pemegang saham. Bank juga memperhatikan cakupan penilaian penerapan manajemen risiko melalui profil risiko Bank, baik penilaian inherent risk maupun penilaian kualitas penerapan manajemen risiko serta menyesuaikan setiap indikator penilaian sesuai dengan peraturan yang baru dengan menggunakan konsep *Risk Based Bank Rating* (RBBR).

Mekanisme pengelolaan risiko secara *day to day* dengan berdasarkan prinsip kehati-hatian telah dituangkan dalam beberapa kebijakan dan prosedur, yang merupakan aturan acuan dalam implementasi manajemen risiko pada seluruh kegiatan bisnis Bank yang meliputi kebijakan, strategi, organisasi, sistem informasi manajemen risiko, pengawasan risiko, pengelolaan produk, aktivitas baru dan *Business Continuity Plan* (BCP). Untuk menjamin tercapainya praktik manajemen risiko yang baik pada Bank, Komite Pemantau Risiko dan Komite Audit berkontribusi dalam mendukung pelaksanaan tugas Dewan Komisaris. Komite Pemantau Risiko memiliki tanggung jawab dalam pemantauan dan evaluasi pelaksanaan manajemen risiko di Bank, sedangkan Komite Audit bertanggung jawab dalam pemantauan dan evaluasi pelaksanaan audit, pengendalian proses internal dan pelaporan keuangan.

As a token of our commitment to implementing good corporate governance practices, Allo Bank adopts the latest risk management principles proactively to achieve optimal financial and operational growth. To that end, the Bank delegates management to be responsible for the risk management in ensuring the achievement of organizational targets by internalizing the risk management process in the Bank, allowing us to attach it in a daily basis. In addition, the Bank also implements integrated and comprehensive risk management, so it can support the achievement of performance targets and maintain business continuity.

By implementing a proactive risk management strategy, the Bank believes that it can enhance the effectiveness of capital use and the level of return on capital, presenting added value for shareholders. The Bank also pays attention to the scope of risk management implementation assessment through the Bank's risk profile, both inherent risk assessment and risk management implementation quality assessment and adjusts each assessment indicator in accordance with new regulations using the *Risk Based Bank Rating* (RBBR) concept.

The day-to-day risk management mechanism based on the principle of prudence has been outlined in several policies and procedures, which are reference rules in implementing risk management in all Bank business activities including policies, strategies, organizations, risk management information systems, risk supervision, product management, new activities and Business Continuity Plan (BCP). To ensure the achievement of good risk management practices in the Bank, the Risk Oversight Committee and the Audit Committee contribute to supporting the implementation of the Board of Commissioners' duties. The Risk Oversight Committee is responsible for monitoring and evaluating the implementation of risk management in the Bank, while the Audit Committee is responsible for monitoring and evaluating the implementation of audits, internal process control and financial reporting.

Gambaran Umum Manajemen Risiko

Sejalan dengan Peraturan Otoritas Jasa Keuangan No. 18/POJK.03/2016 tanggal 16 Maret 2016 tentang Penerapan Manajemen Risiko bagi Bank Umum, Allo Bank memandang perlunya untuk membangun kesadaran dan budaya manajemen risiko terpadu (*integrated risk culture*) guna mencapai tujuan Bank jangka panjang. Fokus penerapan manajemen risiko Bank sendiri lebih diutamakan pada efektivitas penerapan tata kelola dan kerangka kerja manajemen risiko.

Kerangka Manajemen Risiko

Kerangka kerja manajemen risiko Bank menetapkan pendekatan pengelolaan risiko dan kerangka pengendalian di mana risiko dikelola untuk mendapatkan keseimbangan antara risiko (*risk*) dan pendapatan (*return*). Penerapan kerangka kerja manajemen risiko dilakukan melalui perumusan tingkat risiko yang akan diambil (*risk appetite*), dan toleransi risiko (*risk tolerance*) bagi setiap jenis risiko, pengembangan kebijakan dan prosedur manajemen risiko yang berkesesuaian serta pengembangan struktur pengendalian internal secara terpadu. Selain itu, Bank juga membangun budaya risiko yang menitikberatkan kesadaran seluruh pegawai akan risiko dan efektivitas proses manajemen risiko. Penerapan manajemen risiko di Allo Bank mengacu pada empat pilar manajemen risiko, yaitu:

1. Pengawasan aktif Dewan Komisaris dan Direksi.
2. Kecukupan kebijakan, prosedur, dan penetapan limit manajemen risiko.
3. Kecukupan proses identifikasi, pengukuran, pemantauan, dan pengendalian Risiko serta sistem informasi manajemen risiko.
4. Sistem pengendalian internal yang menyeluruh.

Penerapan manajemen risiko Allo Bank juga berpedoman pada dokumen-dokumen dari *Basel Committee on Banking Supervision*.

Struktur Organisasi dan Tata Kelola

Dalam menjalankan memastikan pengelolaan risiko, Bank telah membentuk Komite Manajemen Risiko dan Komite Aset dan Liabilitas (ALCO) pada tingkat Direksi serta Komite Pemantau Risiko pada tingkat Dewan Komisaris. Komite Pemantau Risiko bertanggung jawab untuk mengevaluasi keakuratan kebijakan manajemen risiko dan implementasinya, memantau serta mengevaluasi kinerja dari Komite Manajemen Risiko dan Satuan Kerja Manajemen Risiko. Komite Manajemen Risiko menetapkan strategi, kebijakan, dan prosedur manajemen risiko, serta memantau implementasinya, mengembangkan budaya pengelolaan risiko, dan memastikan sumber daya yang memadai telah dikembangkan untuk memastikan pengelolaan risiko di Allo Bank. Sementara, ALCO bertanggung jawab untuk mengelola modal dan menetapkan kebijakan terkait dengan pengelolaan neraca dan kepatuhan terhadapnya, termasuk di dalamnya manajemen risiko likuiditas, kecukupan modal, dan risiko suku bunga.

General Overview of Risk Management

In line with Financial Services Authority Regulation No. 18/POJK.03/2016 dated March 16, 2016 concerning the Implementation of Risk Management for Conventional Bank, Allo Bank acknowledges the urgency of raising awareness and establishing a culture of integrated risk management in order to achieve the Bank's long-term goals. In implementing the risk management, the Bank has put more emphasis on the effectiveness of implementing governance and risk management frameworks.

Risk Management Framework

The Bank's risk management framework establishes a risk management approach and control framework in which risk is managed to achieve a balance between risk and return. The risk management framework is formed through the formulation of the level of risk to be taken (*risk appetite*), and risk tolerance for each type of risk, the development of appropriate risk management policies and procedures, and the development of an integrated internal control structure. In addition, the Bank also builds a risk culture that emphasizes the awareness of all employees of risk and the effectiveness of the risk management process. The implementation of risk management at Allo Bank refers to four pillars of risk management, namely:

1. Active supervision of the Board of Commissioners and Directors.
2. Adequacy of risk management policies, procedures, and determination of limits.
3. Adequacy of the process of identification, measurement, monitoring, and control of Risk and the risk management information system.
4. Comprehensive internal control system.

The implementation of Allo Bank's risk management is also guided by documents from the *Basel Committee on Banking Supervision*.

Organizational Structure and Governance

In ensuring risk management, the Bank has established a Risk Management Committee and an Asset and Liability Committee (ALCO) at the Board of Directors level and a Risk Oversight Committee at the Board of Commissioners level. The Risk Oversight Committee is responsible for evaluating the accuracy of risk management policies and their implementation, monitoring and evaluating the performance of the Risk Management Committee and the Risk Management Work Unit. The Risk Management Committee establishes risk management strategies, policies, and procedures, and monitors their implementation, develops a risk management culture, and ensures that adequate resources have been developed to ensure risk management at Allo Bank. Meanwhile, ALCO is responsible for managing capital and establishing policies related to balance sheet management and compliance with it, including liquidity risk management, capital adequacy, and interest rate risk.

Jenis Risiko

Sesuai aturan POJK No. 18/POJK.03/2016 dan SEOJK No. 34/SEOJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum, Allo Bank mengelola risiko berdasarkan aktivitas fungsional Bank yang terdiri dari:

Risiko Kredit

Risiko Kredit adalah risiko yang timbul sebagai akibat kegagalan *counterparty* memenuhi liabilitasnya. Bank melakukan pengelolaan risiko kredit dengan menyusun strategi dan kerangka kerja serta menjalankan upaya mitigasi risiko atas aspek bisnis perkreditan mikro, retail, komersial, maupun konsumsi, penempatan antar-bank serta pembelian surat berharga. Bank memiliki aktivitas perkreditan melalui model bisnis kredit digital, seperti *Paylater* dan *Instant Cash*. Bank menerapkan proses risk management mulai dari identifikasi, pengukuran, pemantauan hingga pengendalian risiko kredit untuk dapat dikelola dengan tepat dan efektif.

Bank menyadari bahwa dengan mengubah model bisnis menjadi digital, risiko yang melekat pada aktivitas perkreditan yang berbasis *platform digital* akan timbul, mulai dari akses calon debitur yang lebih luas karena dapat diakses oleh calon debitur kapanpun dan dimanapun. Selain itu *platform digital* membutuhkan verifikasi calon debitur dan dokumen persyaratan yang lebih akurat akibat tidak adanya tatap muka langsung dengan calon debitur dan tanpa penyerahan dokumentasi fisik.

Untuk menjaga agar kualitas kredit Bank tetap terjaga dengan baik, maka pemantauan terhadap kualitas kredit terus dilakukan secara rutin, baik per kategori kredit maupun portofolio kredit secara keseluruhan. Sistem pengukuran profil risiko debitur, prosedur, sistem manajemen risiko, sistem database dan organisasi perkreditan terus disempurnakan dengan penekanan kepada penerapan prinsip “empat mata” (*four eyes principle*) dimana keputusan kredit diambil berdasarkan pertimbangan dari dua sisi, yaitu sisi pengembangan bisnis dan sisi analisis risiko kredit.

Risiko Pasar

Risiko pasar (*market risk*) merupakan risiko yang timbul dari portofolio yang dimiliki oleh Bank karena adanya pergerakan variabel pasar (*adverse movement*) yang berpotensi merugikan Bank. Risiko pasar sendiri dibagi menjadi 2 (dua), yakni risiko suku bunga dan risiko nilai tukar. Secara umum, langkah-langkah dan rencana yang dilakukan untuk mengantisipasi risiko pasar atas transaksi yang terkait dengan risiko nilai tukar dan suku bunga adalah dengan melakukan penetapan dan kontrol limit risiko pasar seperti *Limit VaR*, *Limit Nominal* dan *Limit Stop Loss* serta melakukan *stress test* dalam mengukur risiko. Pengelolaan risiko pasar sebagai Bank umum berbasis digital juga akan tetap berpedoman dalam pengelolaan risiko pasar yang sehat.

Types of Risk

In accordance with POJK No. 18/POJK.03/2016 and SEOJK No. 34/SEOJK.03/2016 concerning the Implementation of Risk Management for Conventional Bank, Allo Bank manages risks based on the Bank's functional activities consisting of:

Credit Risk

Credit Risk is the risk that arises as a result of the counterparty's failure to fulfill its obligations. The Bank manages credit risk by developing strategies and frameworks and implementing risk mitigation efforts for aspects of micro, retail, commercial, and consumer credit businesses, inter-bank placements and purchases of securities. The Bank has credit activities through digital credit business models, such as *Paylater* and *Instant Cash*. The Bank implements a risk management process, starting from identification, measurement, monitoring to control of credit risk that is managed appropriately and effectively.

The Bank realizes that by changing the business model to digital, the risks inherent in credit activities based on digital platforms will arise, starting from wider access for prospective debtors because they can be accessed by prospective debtors anytime and anywhere. In addition, digital platforms require more accurate verification of prospective debtors and required documents due to the absence of direct face-to-face meetings with prospective debtors and without submission of physical documentation.

To ensure that the Bank's credit quality is maintained properly, monitoring of credit quality continues to be carried out routinely, both per credit category and the overall credit portfolio. The debtor risk profile measurement system, procedures, risk management system, database system and credit organization are continuously being improved with an emphasis on the application of the “four eyes” principle where credit decisions are taken based on considerations from two sides, namely the business development side and the credit risk analysis side.

Market Risk

Market risk is a risk arising from the portfolio owned by the Bank due to the movement of market variables (*adverse movement*) that has the potential to harm the Bank. Market risk is divided into 2 (two), namely interest rate risk and exchange rate risk. In general, the steps and plans to anticipate market risk on transactions related to exchange rate and interest rate risks are taken by determining and controlling market risk limits such as *VaR Limit*, *Nominal Limit* and *Stop Loss Limit* and conducting stress tests in measuring risk. As a digital-based conventional bank, the Bank consistently upholds sound market risk management.

Risiko Likuiditas

Risiko likuiditas muncul sebagai akibat dari mismatch struktur aset dan liabilitas Bank. Bank mengelola risiko likuiditas untuk memastikan kemampuan dalam memenuhi liabilitas kepada nasabah atau *counterparty* yang jatuh tempo dengan menjaga dan mempertahankan jumlah aset likuid yang cukup untuk membayar simpanan para nasabah, penyediaan dana dalam rangka pemberian kredit, pemenuhan kebutuhan likuiditas operasional dan menjaga agar jumlah aset yang jatuh tempo pada setiap periode dapat menutupi jumlah liabilitas yang jatuh tempo. Bank akan terus meningkatkan dan mengembangkan manajemen risiko likuiditas yang efektif dan efisien untuk mengelola serta mengendalikan akibat dari aktivitas bank.

Bank senantiasa mengidentifikasi dan memantau faktor utama yang mempengaruhi kemampuan Bank untuk memperoleh dana, termasuk mengidentifikasi dan memantau alternatif pendanaan yang dapat memperkuat kapasitasnya untuk bertahan pada kondisi krisis antara lain:

1. Memenuhi *primary reserve* yang menjadi kewajiban untuk memenuhi persyaratan internal maupun eksternal;
2. Memelihara *secondary reserve* dalam bentuk Surat Berharga dan antar Bank Aktiva dalam rangka memenuhi kebutuhan operasional harian dan memenuhi kebutuhan tak terduga, seperti adanya penarikan uang dalam jumlah besar;
3. Strategi suku bunga, alternatif investasi bagi pemilik dana, perubahan perilaku nasabah, perubahan nilai tukar dan selisih suku bunga yang ditawarkan oleh bank bank pesaing utama atau hal lain yang mempengaruhi perubahan struktur dana, volatilitas dana, serta *core funds* dipantau secara berkala;
4. Melakukan perhitungan dan pemantauan proyeksi *cashflow* dan profil maturitas Bank serta melakukan pengendalian agar tetap terjaga sesuai appetite manajemen;
5. Tetap mempertahankan core deposan pada level atau persentase tertentu dan mengupayakan penyebaran jangka waktu penempatan dana pihak ketiga sehingga tidak terkonsentrasi pada satu titik jatuh tempo; dan
6. Mengupayakan pendanaan berbiaya rendah melalui program pemasaran maupun segmentasi.

Risiko Operasional

Risiko operasional adalah risiko yang disebabkan adanya ketidakcukupan dan/atau tidak berfungsinya proses internal (kebijakan, sistem, dan prosedur), kesalahan sistem, kesalahan manusia, atau adanya problem eksternal yang mempengaruhi operasional Bank. Untuk meminimalisasi risiko operasional pada setiap aktivitas fungsional, maka Bank menyusun kebijakan dan prosedur serta penetapan limit yang ditujukan untuk memantau secara intensif kerugian risiko operasional pada seluruh aspek operasional Bank.

Dalam melakukan pengelolaan risiko operasional, Bank menerapkan metodologi untuk mengidentifikasi dan mengukur risiko operasional. Metodologi ini digunakan untuk mengukur penerapan kontrol

Liquidity Risk

Liquidity risk arises as a result of the mismatch of the Bank's asset and liability structure. The Bank manages liquidity risk to ensure the ability to meet obligations to customers or counterparties that are due by maintaining and preserving sufficient liquid assets to pay customer deposits, provide funds for credit, fulfill operational liquidity needs and ensure that the amount of assets that are due in each period can cover the amount of liabilities that are due. The Bank will continue to improve and develop effective and efficient liquidity risk management to manage and control the consequences of bank activities.

The Bank continuously identifies and monitors the main factors that affect the Bank's ability to obtain funds, including identifying and monitoring funding alternatives that can strengthen its capacity to survive in crisis conditions. Those include:

1. Fulfilling primary reserve which is an obligation to fulfill internal and external requirements;
2. Maintaining secondary reserves in the form of Securities and inter-bank assets in order to meet daily operational needs and meet unexpected needs, such as withdrawals of large amounts of money;
3. Interest rate strategies, investment alternatives for fund owners, changes in customer behavior, changes in exchange rates and interest rate differences offered by major competing banks or other things that influence changes in fund structure, fund volatility and core funds are monitored regularly;
4. Calculating and monitoring cash flow projections and the Bank's maturity profile and carrying out controls so that they are maintained in line with management appetite;
5. Maintaining core depositors at a certain level or percentage and strive to spread the placement period for third party funds so that they are not concentrated at one maturity point; and
6. Seeking low-cost funding through marketing and segmentation programs.

Operational Risk

Operational risk is a risk caused by inadequacy and/or non-functioning of internal processes (policies, systems, and procedures), system errors, human errors, or external problems that affect the Bank's operations. To minimize operational risk in each functional activity, the Bank has formulated policies and procedures and set limits aimed at intensively monitoring operational risk losses in all aspects of the Bank's operations.

In managing operational risk, the Bank applies certain methodology to identify and measure operational risk, as well as measure the implementation of controls on previously identified major risks. To

terhadap risiko-risiko utama yang telah diidentifikasi sebelumnya, sehingga dapat mengidentifikasi risiko tersebut secara dini, sehingga dapat segera memperbaiki kontrol yang diperlukan. Sebagai penunjang proses mitigasi dan pengendalian risiko operasional, Bank senantiasa melakukan:

1. Menggunakan sistem APU PPT & PPPSPM untuk memitigasi risiko akibat transaksi pencucian uang dan pendanaan terorisme;
2. Melakukan uji coba kelangsungan operasional bisnis dalam *Business Continuity Management* (BCM) yang mencakup *Emergency Response Plan* (ERP), *Crisis Management Plan* (CMP), *Disaster Recovery Plan* (DRP) dan *Business Continuity Plan* (BCP); dan
3. Penanganan atas pengaduan nasabah yang lebih profesional dengan tersedianya *problem handling* (*help desk*).

Risiko Strategis

Risiko strategis adalah risiko antara lain disebabkan adanya penetapan dan pelaksanaan strategi Bank yang tidak tepat, pengambilan keputusan rencana bisnis yang tidak tetap atau kurang responsifnya Bank terhadap perubahan eksternal. Pengelolaan risiko strategis melalui proses pertimbangan dan pengambilan keputusan setiap kebijakan secara kolektif dan komprehensif oleh Direksi dan Komite-komite yang telah dibentuk serta memantau realisasi rencana strategis dengan membandingkan target yang akan dicapai dan memastikan bahwa risiko yang akan diambil masih dalam batas toleransi.

Seiring dengan strategi Bank yang menggunakan model bisnis digital, maka Bank mengelola kesesuaian strategi tersebut sesuai dengan lingkungan bisnis yang ada. Bank juga mengukur tingkat persaingan dan posisi bisnis Bank dalam formulasi strategi bisnis, serta pencapaian rencana bisnis terhadap realisasi kinerja yang dicapai.

Risiko Reputasi

Risiko reputasi adalah risiko yang antara lain disebabkan oleh adanya publikasi negatif yang terkait dengan kegiatan usaha Bank atau persepsi negatif terhadap Bank. Identifikasi risiko reputasi dilakukan pada faktor-faktor risiko yang melekat pada aktivitas fungsional yang mencakup keterbukaan (*disclosure requirement*), keluhan nasabah terhadap pelayanan Bank, perilaku karyawan Bank dalam melayani nasabah dan sistem komunikasi Bank serta seluruh aktivitas perbankan.

Sebagai salah satu entitas anak di bawah CT Corpora melalui Mega Corpora, Bank percaya bahwa hal ini dapat meningkatkan reputasinya dalam industri perbankan. Meskipun demikian, kompleksitas produk dan bisnis dapat meningkatkan potensi risiko yang ada karena model bisnis digital yang meningkatkan frekuensi interaksi digital dengan nasabah. Bank juga memastikan adanya perlindungan nasabah dengan melakukan identifikasi, menyiapkan dan memastikan kesiapan komunikasi kepada para nasabah agar tidak menimbulkan dampak negatif bagi nasabah yang berpotensi

this end, the Bank is able to identify the risks earlier, allowing us to immediately improve necessary control. To support the operational risk mitigation and control process, the Bank has done the following matters:

1. Using the AML-CFT & CPF system to mitigate risks resulting from money laundering and terrorism financing transactions;
2. Conducting business operational continuity trials in Business Continuity Management (BCM) which includes Emergency Response Plan (ERP), Crisis Management Plan (CMP), Disaster Recovery Plan (DRP) and Business Continuity Plan (BCP); And
3. More professional handling of customer complaints with the availability of problem handling (*help desk*).

Strategic Risk

Strategic risk is a risk caused by, among other things, the determination and implementation of inappropriate Bank strategies, inconsistent business plan decision-making or the Bank's lack of responsiveness to external changes. Strategic risk management is carried out through a process of consideration and decision-making for each policy collectively and comprehensively by the Board of Directors and the Committees that have been formed and monitoring the realization of the strategic plan by comparing the targets to be achieved and ensuring that the risks to be taken are still within tolerance limits.

In line with the Bank's strategy using a digital business model, the Bank manages the suitability of the strategy in accordance with the existing business environment. The Bank also measures the level of competition and the Bank's business position in the formulation of business strategies, as well as the achievement of business plans against the realization of performance achieved.

Reputation Risk

Reputation risk is a risk caused by, among other things, negative publications related to the Bank's business activities or negative perceptions of the Bank. Reputation risk identification is carried out on risk factors inherent in functional activities that include disclosure requirements, customer complaints about the Bank's services, the behavior of Bank employees in serving customers and the Bank's communication system and all banking activities.

The Bank believes that its status as one of the subsidiary entities under CT Corpora through Mega Corpora can help us improve its reputation in the banking industry. However, the complexity of products and businesses can increase the potential risks that exist because the digital business model increases the frequency of digital interactions with customers. The Bank also ensures customer protection by identifying, preparing and ensuring the readiness of communication to customers. This could prevent negative impact to customers as well as turn back on the potential

menjadi pemberitaan negatif. Selain itu, Bank bersikap proaktif terkait dengan penanganan komplain yang diterima dengan mengetahui *root cause* permasalahan dan merumuskan solusi yang tepat dalam menindaklanjuti keluhan nasabah.

Risiko Hukum

Risiko hukum adalah risiko yang disebabkan oleh adanya kelemahan aspek yuridis, yang antara lain berupa tuntutan hukum, ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan seperti tidak terpenuhinya syarat sah kontrak dan pengikatan agunan yang tidak sempurna. Faktor risiko hukum juga sejalan dengan rencana pengembangan bisnis Bank. Bank akan melakukan identifikasi, mengukur dan mengendalikan risiko hukum yang timbul dari operasional bank dalam model bisnis digital serta risiko hukum yang melekat dengan rencana kerjasama/sinergi dengan perusahaan lain, baik dalam ekosistem CT Corpora maupun kerja sama dengan perusahaan pihak ketiga lainnya.

Bank mengelola risiko hukum dengan memastikan seluruh aktivitas dan hubungan kegiatan usaha Bank dengan pihak ketiga didasarkan pada aturan dan persyaratan yang dapat melindungi kepentingan Bank dari segi hukum melalui:

1. Peninjauan secara berkala dengan memastikan seluruh aktivitas dan hubungan kegiatan usaha Bank dengan pihak ketiga didasarkan pada aturan dan persyaratan yang dapat melindungi kepentingan Bank dari segi hukum;
2. Pengembangan budaya kepatuhan dan kepedulian terhadap risiko hukum kepada seluruh pegawai pada setiap jenjang organisasi secara berkelanjutan.

Risiko Kepatuhan

Risiko kepatuhan merupakan risiko yang disebabkan akibat Bank tidak mematuhi ketentuan perundang-undangan yang berlaku. Kegiatan usaha bank yang terus mengalami perubahan tersebut sejalan dengan perkembangan teknologi informasi, globalisasi dan integrasi pasar keuangan, sehingga kompleksitas kegiatannya semakin tinggi. Kompleksitas kegiatan usaha bank yang semakin meningkat memerlukan adanya peningkatan peran dan fungsi Satuan Kerja Kepatuhan dalam pengelolaan Risiko Kepatuhan, agar Bank senantiasa mematuhi seluruh ketentuan dan perundang-undangan yang berlaku serta komitmen yang dibuat oleh Bank kepada regulator.

Bank mengelola risiko kepatuhan dengan melakukan penelaahan secara komprehensif untuk memastikan kesesuaian kebijakan standar operasi dan prosedur serta pengembangan produk baru dengan peraturan eksternal. Satuan kerja Kepatuhan telah melaksanakan pengkajian dalam rangka mencegah penyimpangan terhadap peraturan perundang-undangan dan ketentuan lain yang berlaku, meliputi:

1. Mewujudkan terlaksananya budaya kepatuhan pada semua tingkatan organisasi dan kegiatan usaha Bank;
2. Mengelola risiko kepatuhan yang dihadapi oleh Bank, dengan mengacu pada berbagai ketentuan terkait tata kelola bank umum; dan

to become negative news. In addition, the Bank proactively handles complaints received by identifying the root cause of the problem and formulating appropriate solutions in following up on customer complaints.

Legal Risk

Legal risk is a risk caused by weaknesses in legal aspects, including lawsuits, the absence of supporting laws and regulations or weaknesses in obligations such as non-fulfillment of valid contract requirements and imperfect collateral binding. Legal risk factors are also in line with the Bank's business development plan. The Bank will identify, measure and control legal risks arising from the bank's operations in the digital business model as well as legal risks inherent in cooperation/synergy plans with other companies, both in the CT Corpora ecosystem and cooperation with other third-party companies.

The Bank manages legal risk by ensuring that all activities and business relationships between the Bank and third parties are based on rules and requirements that can protect the Bank's interests from a legal perspective through:

1. Periodic reviews to ensure that all Bank business activities and relationships with third parties are based on rules and requirements that can protect the Bank's interests from a legal perspective;
2. Developing a culture of compliance and awareness of legal risks for all employees at every level of the organization on an ongoing basis.

Compliance Risk

Compliance risk is a risk caused by the Bank not complying with applicable statutory provisions. The Bank's business activities constantly experiencing changes are in line with developments in information technology, globalization and financial market integration. Thus, the complexity of their activities is increasingly high. The increasing complexity of bank business activities requires the Compliance Work Unit to have a more solid role and function in managing Compliance Risk. This allows the Bank to comply with all applicable regulations and legislation as well as commitments made by the Bank to regulators.

In handling compliance risk, the Bank regularly conducts reviews to ensure the conformity of standard operating policies and procedures as well as new product development with external regulations. The Compliance work unit has carried out reviews in order to prevent deviations from applicable laws and regulations, including:

1. Realize the implementation of a culture of compliance at all levels of the Bank's organization and business activities;
2. Manage compliance risks faced by the Bank, by referring to various provisions related to conventional bank governance; and

3. Memastikan kepatuhan Bank terhadap komitmen yang dibuat oleh Bank kepada Otoritas Jasa Keuangan dan atau otoritas pengawas lain yang berwenang.

3. Ensure the Bank's compliance with commitments made by the Bank to the Financial Services Authority and/or other competent supervisory authorities.

Tinjauan terhadap Efektivitas Sistem Manajemen Risiko

Perseroan melakukan peninjauan terhadap efektivitas manajemen risiko secara berkala. Proses ini dilakukan melalui pengkajian atas RAS dan Profil Risiko agar tetap selaras dengan kondisi Perseroan terkini maupun regulasi terbaru. Pada tahun 2024 Perseroan telah melakukan tinjauan terhadap RAS dan metodologi penilaian Profil Risiko, di mana terdapat perubahan yang telah disetujui Direksi dan disampaikan kepada Dewan Komisaris sebagai bagian dari komitmen Perseroan dalam menjaga kerangka manajemen risiko yang relevan dan efektif.

Review of the Effectiveness of the Risk Management System

The Company periodically reviews the effectiveness of its risk management system. This process is conducted through a review of the RAS and Risk Profile to ensure they remain aligned with the Company's current conditions and the latest regulations. In 2024, the Company reviewed the RAS and the Risk Profile assessment methodology, with the proposed changes approved by the Board of Directors and submitted to the Board of Commissioners. This initiative reflects the Company's commitment to maintaining a relevant and effective risk management framework.

Profil Risiko dan Tingkat Kesehatan Bank

Peraturan OJK No. 18/POJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum mengatur bahwa Bank harus melakukan *self-assessments* melalui Profil Risiko yang dilaporkan ke Regulator secara triwulanan. Proses penilaian Profil Risiko Bank meliputi 8 (delapan) risiko utama yaitu risiko kredit, risiko pasar, risiko likuiditas, risiko strategik, risiko operasional, risiko hukum, risiko kepatuhan, dan risiko reputasi.

Risk Profile and Bank Soundness Level

OJK Regulation No. 18/POJK.03/2016 concerning the Implementation of Risk Management for Conventional Bank stipulates that Banks must conduct self-assessments through a Risk Profile reported to the Regulator quarterly. The Bank Risk Profile assessment process includes 8 (eight) main risks, namely credit risk, market risk, liquidity risk, strategic risk, operational risk, legal risk, compliance risk, and reputation risk.

Penilaian Profil Risiko tersebut dilakukan dengan parameter pengukuran risiko tidak hanya menggunakan data historis, tetapi juga dengan *forward looking* dengan mempertimbangkan strategi bisnis dan kondisi makroekonomi. Melalui Profil Risiko, Allo Bank dapat mengelola risiko melalui tindakan yang tepat, dan dilakukan secara menyeluruh dan komprehensif berdasarkan dengan lini bisnis Bank. Berdasarkan pada peraturan OJK No. 4/POJK.03/2016 tentang Penilaian Tingkat Kesehatan Bank, Allo Bank telah melakukan penilaian atas Tingkat Kesehatan Bank yang meliputi 4 (empat) faktor, antara lain *Risk Profile*, *Good Corporate Governance* (GCG), *Earnings*, dan *Capital*.

Management Statement on Adequacy of Risk Management System

The Bank continuously reviews the performance of its risk management system to ensure that the process operates as planned. Based on the monitoring results of the RAS and Risk Profile throughout 2024, the Board of Directors and Board of Commissioners assessed that, overall, the risk indicators demonstrated that risk management was adequately implemented and effectively carried out. Additionally, they evaluated that the Risk Management Directorate and the implementers of the three lines of defence performed well in ensuring the adequacy of risk management and internal control.

Disclosure of Recovery Plan

1. Purpose of the Action Plan

The Bank has prepared and submitted a Recovery Action Plan to OJK, aiming to achieve and maintain financial system stability in alignment with the mission of the Government of the Republic of Indonesia to prevent and manage financial system crises in order to support the national economy.

The Recovery Action Plan reflects the Bank's commitment to:

- Ensuring a stable and resilient financial system capable of withstanding potential financial crises caused by pressure on various financial conditions.
- Preventing and addressing existing problems by outlining preemptive measures and response strategies to mitigate financial stress that could threaten the Bank's business continuity.

The Recovery Action Plan has been tailored to the Bank's specific conditions and is aligned with Financial Services Authority Regulation No. 5 of 2024 concerning the Determination of Supervision Status and Handling of General Bank Issues, where Article 14 of this regulation requires the Bank to develop and submit a Recovery Action Plan to the Financial Services Authority, covering the following aspects:

- Executive Summary
- General Overview of the Bank, including its financial condition, business lines, office network, material subsidiaries, business group structure, and business relationships, along with scenario analyses of potential changes in the Bank's condition.
- Recovery Options, detailing recovery plan indicators, trigger levels, and recovery strategies related to capital, liquidity, profitability, and asset quality.
- Disclosure of the Recovery Plan including submission to internal and external parties.

2. Action Plan Framework

- General Overview of the Bank
A general overview of the Bank is provided by assessing its development to date, including its business lines, which are categorized as core and non-core, as well as critical and

maupun kritikal dan non-kritikal. Di samping itu, Bank juga menjelaskan aspek bisnis dan kinerja serta rencana pengembangan bisnis yang telah diformulasikan

Dalam hal strategi pengelolaan risiko, Bank melihat bahwa tujuan dari Rencana Pemulihan adalah untuk memberikan Bank sebuah kerangka kerja untuk secara efektif dan efisien menangani dampak keuangan dari peristiwa stres yang parah dan menghindari kegagalan atau penyelesaian. Komponen-komponen dalam Rencana Pemulihan berasal dari dan sejalan dengan proses manajemen risiko lainnya, seperti yang mengatur permodalan, likuiditas, uji stres, kelangsungan usaha atau perencanaan penyelesaian.

b. Opsi Pemulihan

Rencana Pemulihan pada dasarnya merupakan strategi yang diterapkan oleh Bank untuk mempersiapkan pengeluaran keuangan tak terduga atau darurat. Tujuan utama dari Rencana Pemulihan adalah untuk memastikan bahwa Bank memiliki akses terhadap dana likuid atau sumber dana yang cukup untuk menangani peristiwa keuangan yang tidak terduga yang dapat mempengaruhi operasi atau stabilitas keuangan Bank.

Beberapa komponen utama yang termasuk dalam Rencana Pemulihan adalah:

- Identifikasi potensi risiko;
- Mengidentifikasi potensi risiko atau peristiwa yang dapat menyebabkan kondisi krisis keuangan;
- Penilaian dampak risiko;
- Mengevaluasi potensi dampak risiko keuangan dari peristiwa/risiko krisis yang terjadi;
- Penetapan ambang batas atau pemicu (*threshold/triggers*);
- Menetapkan ambang batas atau pemicu (*threshold/triggers*) yang mengindikasikan kapan Rencana Pemulihan harus diaktifkan;
- Strategi pendanaan tambahan;
- Mengembangkan strategi untuk memperoleh pendanaan atau likuiditas tambahan selama krisis;
- Prosedur komunikasi dan pelaporan;
- Menyusun prosedur komunikasi dan pelaporan yang jelas untuk memastikan bahwa semua pemangku kepentingan mendapatkan informasi yang diperlukan dan siap menghadapi kondisi krisis keuangan yang terjadi, sebagaimana diatur dalam ketentuan internal lainnya yang berlaku mengenai *Crisis Management Plan*.

c. Pengungkapan Rencana Pemulihan

Bank akan melakukan pengungkapan Rencana Aksi Pemulihan baik untuk *stakeholders* internal maupun *stakeholders* eksternal atau publik secara umum, sebagai bagian dari komitmen terhadap keterbukaan informasi sebagai bentuk komitmen Bank dalam rangka membantu mewujudkan stabilitas sistem keuangan yang kokoh dalam menghadapi ancaman krisis keuangan yang disebabkan oleh tekanan terhadap berbagai kondisi keuangan.

non-critical. Additionally, the Bank outlines its business and performance aspects, and future business development plans.

From a risk management perspective, the Bank recognizes that the purpose of the Recovery Plan is to establish a framework that enables the Bank to effectively and efficiently manage the financial impact of severe stress events, thereby preventing failure or forced resolution. The components of the Recovery Plan are derived from and aligned with other risk management processes, including capital and liquidity management, stress testing, business continuity planning, and resolution planning.

b. Recovery Options

The Recovery Plan serves as a strategic approach implemented by the Bank to prepare for unexpected financial distress or emergency situations. Its primary objective is to ensure that the Bank has access to sufficient liquid assets or funding sources to address unforeseen financial events that could impact its operations or overall financial stability.

Some of the key components of the Recovery Plan include:

- Identification of potential risks.
- Identification of potential risks or events that may cause a financial crisis.
- Risk impact assessment.
- Evaluation of the potential financial risk impact of a crisis event or risk.
- Determination of thresholds or triggers.
- Determination of thresholds or triggers that indicate when the Recovery Plan should be activated.
- Additional funding strategies.
- Development of strategies to obtain additional funding or liquidity during a crisis.
- Communication and reporting procedures.
- Establishment of clear communication and reporting procedures to ensure that all stakeholders receive the necessary information and are prepared to respond to any financial crisis conditions, as regulated in other applicable internal provisions regarding the Crisis Management Plan.

c. Disclosure of the Recovery Plan

The Bank is committed to transparency by disclosing the Recovery Action Plan to both internal and external stakeholders, as well as the public. This initiative reflects the Bank's dedication to maintaining a stable financial system and addressing potential financial crises caused by various financial conditions.

Bank juga mengembangkan rencana komunikasi krisis sebagai panduan standar untuk mengatasi permasalahan keuangan dalam konteks komunikasi korporat yang menetapkan tata kelola, struktur dan sumber daya komunikasi secara terpadu guna memberikan respons cepat yang akurat kepada masing-masing pemangku kepentingan, menetapkan akuntabilitas untuk team yang diberi tugas yang bertujuan untuk meminimalkan dampak permasalahan keuangan terhadap reputasi Bank dan mengungkapkan Rencana Aksi Pemulihan dengan pendekatan terstruktur.

3. Tata Kelola Rencana Aksi Pemulihan

Rencana Aksi Pemulihan yang efektif membantu manajemen mengidentifikasi kapan Bank menghadapi atau mungkin menghadapi peristiwa stres yang parah yang mengancam atau mungkin mengancam kekuatan keuangan dan kelayakannya. Dalam hal ini, manajemen Bank akan mengambil tindakan yang tepat untuk memulihkan kekuatan keuangan dan kelayakan bank. Rencana Pemulihan sangat penting bagi ketahanan Bank, dan terintegrasi ke dalam kerangka kerja tata kelola risiko Bank, serta memainkan peran penting dalam manajemen krisis. Rencana Pemulihan juga mengakui transisi Bank dari operasi bisnis biasa ke peringatan dini tentang stres parah hingga stres parah itu sendiri, dan terhubung dengan rencana penyelesaian jika penurunan keuangan tidak diperbaiki.

Proses perencanaan pemulihan harus bersifat berkelanjutan. Proses ini melengkapi fungsi tata kelola risiko dan mendukung operasinya yang aman dan sehat. Dalam proses pengembangan dan pemeliharaan Rencana Pemulihan, manajemen dan Direksi terus berkomitmen untuk meningkatkan tata kelola risiko dengan tujuan untuk mengurangi dampak keuangan dari peristiwa tak terduga di masa depan.

Di bawah arahan regulator khususnya OJK, Bank terus mengembangkan pemicu atau metrik sepanjang kontinum business as usual, peringatan dini, pemulihan, dan penyelesaian agar dapat merespons dengan cepat dan pulih dari dampak keuangan peristiwa stres yang parah.

Bank juga akan mengkoordinasikan Rencana Pemulihan dengan upaya perencanaan pemulihan dan penyelesaian oleh perusahaan induknya, sehingga rencana tersebut konsisten dan tidak saling bertentangan.

4. Penyampaian Rencana Aksi

Bank telah menyampaikan Rencana Aksi kepada Otoritas Jasa Keuangan untuk pertama kalinya pada tahun 2024 dengan mengacu pada Peraturan Otoritas Jasa Keuangan No. 5 Tahun 2024 tentang Penetapan Status Pengawasan dan Penanganan Permasalahan Bank Umum dimana pada pasal 14 tercantum bahwa Bank wajib menyusun dan menyampaikan Rencana Aksi Pemulihan kepada Otoritas Jasa Keuangan.

Additionally, the Bank has developed a crisis communication plan as a standardized guideline for managing financial issues within its corporate communications framework. This plan establishes structured governance, communication protocols, and resource allocation to ensure timely and accurate responses to stakeholders. It also assigns clear accountability to the designated crisis management team, aiming to minimize the impact of financial challenges on the Bank's reputation. The disclosure of the Recovery Action Plan follows a structured approach to enhance stakeholder confidence and regulatory compliance.

3. Recovery Action Plan Governance

An effective Recovery Action Plan enables management to identify situations where the Bank is experiencing or may experience a severe stress event that could threaten its financial strength and viability. In such cases, the Bank's management will take appropriate measures to restore financial stability. The Recovery Plan is essential to the Bank's resilience, as it is integrated into the Bank's risk governance framework and plays a key role in crisis management. It also outlines the Bank's transition from normal business operations to early warning of financial distress and, if necessary, to a severe stress scenario. Additionally, it is linked to the resolution plan should the financial deterioration remain unaddressed.

The recovery planning process is continuous, complementing the Bank's risk governance function and supporting its safe and sound operations. In developing and maintaining the Recovery Plan, management and the Board of Directors remain committed to enhancing risk governance to minimize the financial impact of unforeseen future events.

Under regulatory guidance, particularly from OJK, the Bank continues to refine its triggers and metrics across various stages—ranging from business as usual, early warning, recovery, and resolution—ensuring a swift response to financial stress events and facilitating effective recovery.

Furthermore, the Bank coordinates its Recovery Plan with the recovery and resolution planning efforts of its parent company to ensure consistency and alignment, preventing any potential conflicts between the plans.

4. Submission of the Action Plan

The Bank submitted its Action Plan to the Financial Services Authority for the first time in 2024, in accordance with Financial Services Authority Regulation No. 5 of 2024 on the Determination of Supervision Status and Handling of Commercial Bank Issues, where Article 14 of this regulation mandates that banks must prepare and submit a Recovery Action Plan to the Financial Services Authority.

Sistem Pengendalian Internal

Internal Control System

Sistem Pengendalian Internal (SPI) merupakan suatu mekanisme pengendalian yang ditetapkan oleh Direksi dengan persetujuan Dewan Komisaris secara berkesinambungan (*ongoing basis*) yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Komisaris, Direksi, serta seluruh pejabat dan pegawai Bank. Penerapan SPI di lingkungan Bank bertujuan untuk:

1. Menjaga dan mengamankan harta kekayaan Bank.
2. Menjamin tersedianya laporan yang akurat.
3. Meningkatkan kepatuhan terhadap ketentuan yang berlaku.
4. Mengurangi dampak kerugian keuangan, penyimpangan termasuk kecurangan (*fraud*) dan pelanggaran aspek kehati-hatian.
5. Meningkatkan efektivitas organisasi dan meningkatkan efisiensi biaya.

Pedoman Sistem Pengendalian Internal

Sistem pengendalian internal merupakan komponen penting dalam manajemen bank dan menjadi dasar bagi kegiatan operasional bank yang sehat dan aman. Pedoman sistem pengendalian internal Allo Bank telah mengacu pada Surat Edaran Otoritas Jasa Keuangan No. 35/SEOJK.03/2017 tentang pedoman Standar Sistem Pengendalian Intern bagi Bank Umum mencakup 5 (lima) elemen pokok yang saling berkaitan, yaitu:

1. Pengawasan oleh manajemen dan kultur pengendalian.
2. Identifikasi dan penilaian risiko.
3. Kegiatan pengendalian dan pemisahan fungsi.
4. Sistem akuntansi, informasi, dan komunikasi.
5. Kegiatan pemantauan dan tindakan koreksi penyimpangan.

Internal Control System is a control mechanism established by the Board of Directors with the approval of the Board of Commissioners on an ongoing basis, the quality of design and implementation of which is influenced by the Board of Commissioners, the Board of Directors, and all officers and employees of the Bank. The implementation of SPI in the Bank's environment aims to:

1. Maintain and secure the Bank's assets.
2. Ensure the availability of accurate reports.
3. Increase compliance with applicable regulations.
4. Reduce the impact of financial losses, irregularities including fraud and violations of prudential aspects.
5. Increase organizational effectiveness and increase cost efficiency.

Internal Control System Guidelines

The internal control system is an important component in bank management and is the basis for sound and safe bank operational activities. Allo Bank's internal control system guidelines refer to Financial Services Authority Circular Letter No. 35/SEOJK.03/2017 concerning guidelines for Internal Control System Standards for Conventional Bank covering 5 (five) main interrelated elements, namely:

1. Management supervision and control culture.
2. Risk identification and assessment.
3. Control activities and segregation of functions.
4. Accounting, information and communication systems.
5. Monitoring activities and corrective actions for deviations.

Hasil Evaluasi Penerapan Sistem Pengendalian Internal

Bank secara konsisten melakukan evaluasi atas pelaksanaan sistem pengendalian internal di setiap jenjang organisasi. Satuan Kerja Audit Internal melakukan evaluasi atas kecukupan dan efektivitas Sistem Pengawasan Internal secara menyeluruh dan pengawasan yang dilakukan untuk mendukung asersi Direksi tentang efektivitas Sistem Pengendalian Internal Bank yang diterapkan.

Hasil evaluasi yang dilakukan oleh SKAI kemudian disampaikan kepada manajemen untuk ditindaklanjuti dan dimonitor pelaksanaannya guna memastikan Sistem Pengendalian Internal Bank telah cukup memadai dalam mendukung pencapaian tujuan dan sasaran yang telah ditetapkan. Berdasarkan hasil pemeriksaan serta paparan hasil evaluasi terhadap efektivitas dan kecukupan pengendalian internal pada Bank, khususnya pada kecukupan sistem, prosedur, struktur organisasi, sumber daya manusia, dan pelaporan, Bank menyimpulkan bahwa sistem pengendalian internal telah berjalan baik, termasuk diantaranya kelengkapan, akurasi, dan ketersediaan data pada sistem informasi.

Penilaian Kecukupan Penerapan Sistem Pengendalian Internal oleh Direksi dan/atau Dewan Komisaris

Berdasarkan hasil evaluasi atas efektivitas dan kecukupan pengendalian internal Bank, khususnya pada kecukupan sistem, prosedur, struktur organisasi, sumber daya manusia, dan pelaporan, Direksi menilai bahwa penerapan Sistem Pengendalian Internal telah berjalan dengan baik dan memadai, baik dari kecukupan infrastruktur maupun metode. Untuk itu, Bank berkomitmen untuk terus meningkatkan kualitas penerapan sistem pengendalian internal ke depan guna memastikan kinerja usaha Bank tetap sehat dan aman.

Results of Evaluation of Implementation of Internal Control System

The Bank consistently evaluates the implementation of the internal control system at every level of the organization. The Internal Audit Work Unit evaluates the adequacy and effectiveness of the Internal Supervisory System as a whole and the supervision carried out to support the Board of Directors' assertions regarding the effectiveness of the Bank's Internal Control System implemented.

The results of the evaluation conducted by SKAI are then submitted to management for follow-up and monitoring of its implementation to ensure that the Bank's Internal Control System is sufficient to support the achievement of the goals and objectives that have been set. Based on the results of the examination and the presentation of the evaluation results on the effectiveness and adequacy of internal control at the Bank, especially on the adequacy of systems, procedures, organizational structure, human resources, and reporting, the Bank concludes that the internal control system has been running well, including the completeness, accuracy, and availability of data in the information system.

Assessment of Adequacy of Implementation of Internal Control System by Board of Directors and/or Board of Commissioners

Based on the evaluation results of the effectiveness and adequacy of the Bank's internal control, especially on the adequacy of systems, procedures, organizational structure, human resources, and reporting, the Board of Directors assesses that the implementation of the Internal Control System has been running well and adequately, both in terms of the adequacy of infrastructure and methods. To this end, the Bank is committed to continuously improving the quality of the implementation of the internal control system in the future to ensure that the Bank's business performance remains sound and safe.

The Bank's Code of Conduct also regulates sanctions for violations that occur according to the level of violation committed. Throughout 2024, the Bank found any violations of the Code of Conduct in 3 cases. All cases that occurred have been followed up by the Bank in accordance with applicable provisions. The details of the sanctions imposed in the last 2 (two) years are as follows:

Penerapan Program Anti Pencucian Uang, Pencegahan Pendanaan Terorisme dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal

Implementation of Anti-Money Laundering, Counter-Terrorist Financing, and Counter-Proliferation Financing of Weapons of Mass Destruction Program

Sebagai bentuk pemenuhan ketentuan OJK, Bank Indonesia, maupun peraturan perundang-undangan lainnya, Direksi dan Dewan Komisaris berkomitmen penuh untuk memastikan Allo Bank melakukan seluruh kegiatan usahanya dengan tetap mendukung Anti Pencucian Uang (APU), Pencegahan Pendanaan Terorisme (PPT) dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal (PPPSPM).

Dewan Komisaris melakukan pengawasan secara aktif dalam mengawasi pelaksanaan tanggung jawab Direksi terhadap penerapan program APU PPT & PPPSPM, termasuk komitmen yang dibuat oleh Allo Bank kepada Otoritas Jasa Keuangan/Bank Indonesia serta pelaporan kepada regulator sesuai peraturan yang berlaku. Bank senantiasa meningkatkan kualitas penerapan Program APU PPT & PPPSPM, baik melalui pengawasan aktif dari manajemen, penyempurnaan kebijakan, penyelenggaraan program pelatihan, penyempurnaan sistem informasi, maupun inisiatif-inisiatif lainnya.

Berdasarkan POJK No. 8 Tahun 2023 tentang Penerapan Program Anti Pencucian Uang, Pencegahan Pendanaan Terorisme, dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal di Sektor Jasa Keuangan, Allo Bank telah menerapkan program APU PPT & PPPSPM yang mencakup sejumlah faktor, seperti:

1. Pengawasan Aktif Direksi dan Dewan Komisaris.
2. Kebijakan dan prosedur.
3. Pengendalian internal.
4. Sistem informasi manajemen.
5. SDM dan pelatihan.

To comply with the provisions of the OJK, Bank Indonesia, and other laws and regulations, the Board of Directors and Board of Commissioners are fully committed to ensuring that Allo Bank carries out all its business activities while continuing to support Anti-Money Laundering (AML), Countering the Financing of Terrorism (CFT) and Counter Proliferation Financing of Mass Destruction Weapons (CPF).

The Board of Commissioners actively supervises the implementation of the Board of Directors' responsibilities for the implementation of the AML CFT & CPF program, including commitments made by Allo Bank to the Financial Services Authority/Bank Indonesia and reporting to regulators in accordance with applicable regulations. The Bank continues to improve the quality of the implementation of the AML CFT & CPF Program, both through active supervision from management, policy improvement, implementation of training programs, improvement of information systems, and other initiatives.

Based on POJK No. 8 of 2023 concerning the Implementation of the Anti-Money Laundering, Prevention of Terrorism Financing, and Prevention of Proliferation of Weapons of Mass Destruction Programs in the Financial Services Sector, Allo Bank has implemented the AML CFT & CPF program which includes a number of factors, such as:

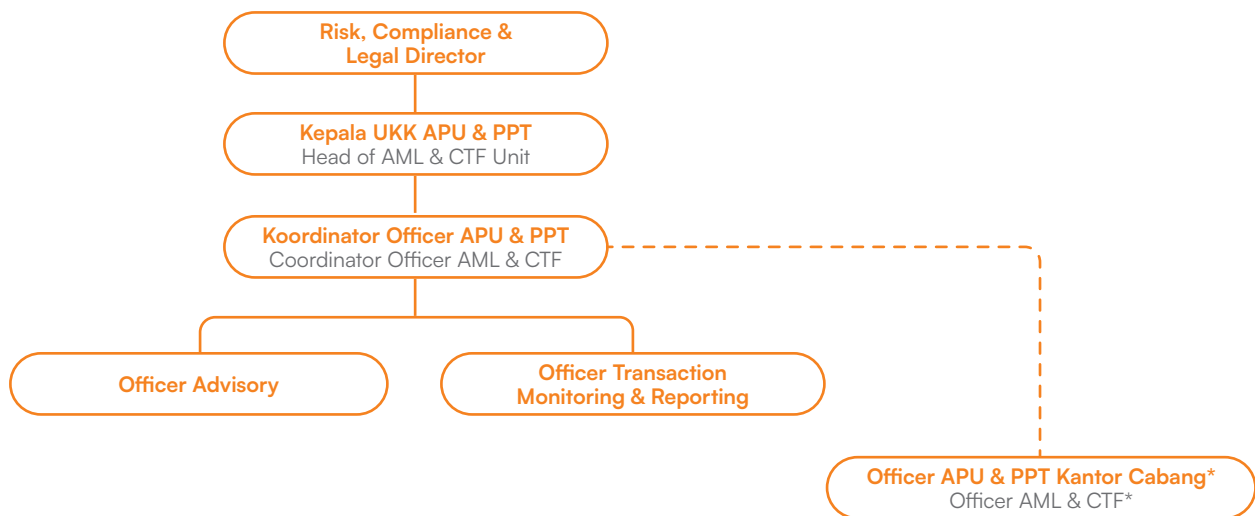

1. Active supervision of the Board of Directors and Board of Commissioners.
2. Policies and procedures.
3. Internal control.
4. Management information system.
5. Human resources and training

Penerapan Program Anti Pencucian Uang (APU), Pencegahan Pendanaan Terorisme (PPT) dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal (PPPSPM) Tahun 2024

1. Struktur Organisasi dalam Penerapan Program APU PPT & PPPSPM

Dalam menerapkan program APU PPT & PPPSPM, Bank menetapkan Divisi Compliance dan AML-CFT sebagai Unit Kerja Khusus (UKK) penerapan program APU PPT & PPPSPM yang mana Divisi Compliance dan AML-CFT melapor dan bertanggung jawab langsung kepada Direktur yang membawahi fungsi kepatuhan di Allo Bank dalam hal ini Direktur Risiko, Kepatuhan & Hukum. Selain itu penerapan APU PPT & PPPSPM juga diterapkan oleh Kepala Bagian Operasional di setiap Kantor Cabang yang memiliki fungsi supervisi dan memastikan bahwa kegiatan operasional di Kantor Cabang masing-masing telah sesuai dengan penerapan program APU PPT & PPPSPM.

Adapun struktur organisasi APU PPT & PPPSPM pada tahun 2024 digambarkan sebagai berikut:

2. Program Dalam Penerapan Program APU PPT & PPPSPM

Dalam upaya pencegahan dan meminimalisasi Bank digunakan sebagai sarana pencucian uang, pendanaan terorisme, dan pendanaan proliferasi senjata pemusnah massal, maka Allo Bank menerapkan program APU PPT & PPPSPM melalui:

- a. Pengawasan Aktif Direksi dan Komisaris
Peran aktif dari Direksi dan Dewan Komisaris sangat diperlukan dalam menciptakan efektivitas penerapan Program APU PPT & PPPSPM, mengingat peranan Direksi dan Dewan Komisaris akan mempengaruhi Tingkat pencapaian tujuan organisasi untuk penerapan Program APU PPT & PPPSPM. Bentuk pengawasan aktif Direksi dan Dewan Komisaris antara lain sebagai berikut:

Implementation of the Anti Money Laundering (AML), Countering the Financing of Terrorism (CFT) and Counter-Proliferation Financing of Weapons of Mass Destruction (CPF)

1. Organizational Structure in Implementing the AML-CFT & CPF Program

In implementing the AML-CFT & CPF program, the Bank designated the Compliance and AML-CFT Divisions as Special Work Units (UKK) for implementing the AML-CFT & CPF programs where the Compliance and AML-CFT Divisions report and are directly responsible to the Director who oversees the compliance function at Allo Bank, in this case the Director of Risk, Compliance & Legal. Apart from that, the implementation of AML-CFT & CPF is also implemented by the Head of Operations at each Branch Office who has a supervisory function and ensures that operational activities in each Branch Office are in accordance with the implementation of the AML-CFT & CPF program.

The organizational structure of AML-CFT & CPF in 2023 is described as follows:

2. Program in Implementing the AML-CFT & CPF Program

In an effort to prevent and minimize banks being used as a means of money laundering, financing terrorism and funding the proliferation of weapons of mass destruction, Allo Bank implements the AML-CFT & CPF program through:

- a. Active Supervision of Directors and Commissioners
The active role of the Board of Directors and Board of Commissioners is very necessary in creating effective implementation of the AML-CFT & CPF Program, considering that the role of the Directors and Board of Commissioners will influence the level of achievement of organizational goals for implementing the AML-CFT & CPF Program. Forms of active supervision by the Board of Directors and Board of Commissioners include the following:

- Persetujuan Direksi atas penetapan Divisi Compliance & AML-CFT sebagai UKK yang bertanggung jawab terhadap penerapan Program APU PPT & PPPSPM;
 - Persetujuan Direksi dan Dewan Komisaris atas Kebijakan APU PPT & PPPSPM;
 - Laporan berkala (bulanan, triwulanan, dan semesteran) terkait kewajiban pelaporan dan implementasi Program APU PPT & PPPSPM kepada Direksi dan Dewan Komisaris;
 - Persetujuan Direksi atas Laporan Rencana dan Realisasi Penginian Data Nasabah;
 - AML Forum yang dihadiri Direksi dan Dewan Komisaris untuk membahas pelaksanaan Program APU PPT & PPPSPM.
- b. Kecukupan dan Efektivitas Kebijakan & Prosedur
- Bank telah menyusun Kebijakan dan Prosedur APU PPT & PPPSPM yang secara berkala dilakukan peninjauan dan penyempurnaan sesuai ketentuan yang berlaku. Untuk memperkuat penerapan APU PPT & PPPSPM, maka di setiap prosedur produk dan aktivitas perbankan diatur pula prosedur pelaksanaan APU PPT & PPPSPM guna mengidentifikasi dan melakukan penilaian risiko tindak pidana pencucian uang, tindak pidana pendanaan terorisme dan/atau tindak pidana pendanaan proliferasi senjata pemusnah massal untuk masing-masing produk atau aktivitas. Untuk memastikan implementasi Program APU PPT & PPPSPM telah berjalan sebagaimana mestinya maka dilakukan supervisi oleh Divisi Compliance & AML-CFT.

Kebijakan dan prosedur penerapan program APU PPT sejalan dan sesuai dengan Peraturan OJK (POJK) No. 8 Tahun 2023 tentang Penerapan Program APU PPT & PPPSPM di sektor jasa keuangan, yang antara lain mengatur:

- Pengawasan Aktif Direksi dan Dewan Komisaris;
- Prosedur *Customer Due Diligence* dan/atau *Enhanced Due Diligence* terhadap Calon Nasabah/Nasabah/*Beneficial Owner/Walk in Customer* termasuk memastikan bahwa mereka tidak masuk dalam Daftar Terduga Teroris dan Organisasi Teroris dan/atau Daftar Proliferasi Senjata Pemusnah Massal dan daftar *watchlist* lainnya (*OFAC List*, *UN List*);
- Penerapan Program APU PPT & PPPSPM berdasarkan pendekatan berbasis risiko (*Risk-Based Approach*);
- Prosedur Pemantauan Profil dan Transaksi Nasabah;
- Pelaksanaan Prosedur Transfer Dana;
- Penatausahaan Dokumen Nasabah dan Transaksi;
- Penerapan Program APU PPT & PPPSPM di Jaringan
- Kantor dan Entitas Anak dalam Konglomerasi Keuangan;

- Approval from the Board of Directors on the appointment of the Compliance & AML-CFT Division as UKK responsible for implementing the AML-CFT & CPF Program;
 - Approval of the Board of Directors and Board of Commissioners on the AML-CFT & CPF Policy;

 - Approval from the Board of Directors on the Plan and Realization Report on Updating Customer Data;
 - AML Forum attended by the Board of Directors and Board of Commissioners to discuss the implementation of the AML-CFT & CPF Program.
- b. Adequacy and Effectiveness of Policies & Procedures
- The Bank has prepared AML-CFT & CPF Policies and Procedures which are regularly reviewed and refined in accordance with applicable regulations. To strengthen the implementation of AML-CFT & CPF, every banking product and activity procedure also regulates procedures for implementing AML-CFT & CPF to identify and assess the risk of criminal acts of money laundering, criminal acts of financing terrorism and/or criminal acts of funding the proliferation of weapons of mass destruction for each product or activity. To ensure that the implementation of the AML-CFT & CPF Program is running as it should, supervision is carried out by the Compliance & AML-CFT Division.

The policies and procedures for implementing the AMLCTF program are in line with and in accordance with OJK Regulation (POJK) No. 8 of 2023 concerning Implementation of the AML-CFT & CPF Program in the financial services sector, which among other things regulates:

- Active Supervision of the Board of Directors and Board of Commissioners;
- Customer Due Diligence and/or Enhanced Due Diligence procedures for prospective Customers/Customers/Beneficial Owner/Walk in Customers including ensuring that they are not included in the List of Suspected Terrorists and Terrorist Organizations and/or the Proliferation of Weapons of Mass Destruction List and other watchlists (*OFAC List*, *UN List*);

- Administration of Customer Documents and Transactions;
- Implementation of the AML-CFT & CPF Program on the Network
- Offices and Subsidiaries in Financial Conglomerates;

- Pengendalian Internal; dan
 - Sumber Daya Manusia dan Pelatihan.
- c. Pengendalian intern yang efektif dalam penerapan APU PPT & PPPSPM antara lain dilakukan dengan:
- Dimilikinya kebijakan dan prosedur APU PPT & PPPSPM serta pemantauan internal yang memadai;
 - Adanya batasan wewenang dan tanggung jawab yang jelas terhadap satuan kerja terkait dengan penerapan program APU PPT & PPPSPM baik melalui *first line of defense* (*risk taking unit*), *second line of defense* maupun *third line of defense*; dan
 - Dilakukannya pemeriksaan untuk memastikan efektivitas pelaksanaan Program APU PPT & PPPSPM oleh Satuan Kerja Audit Internal.
 - Pengembangan sistem aplikasi internal pendukung kewajiban pelaporan sesuai dengan *requirement* format pelaporan GoAML PPATK;
 - Pengembangan *system interface* GoAML dalam mendukung kewajiban pelaporan yang telah disesuaikan dengan ketentuan GoAML;
- d. Sistem Manajemen Informasi
- Untuk mengoptimalkan pemantauan transaksi dalam pelaksanaan Program APU PPT & PPPSPM, Bank secara berkelanjutan mengembangkan teknologi sistem informasi, antara lain:
- Melakukan penyempurnaan sistem dan aplikasi pendukung untuk *Anti Money Laundering Detection System*, *Filtering & Screening Terrorist* (DTTOT List), *PEP Screening Detection* dan *Customer Due Diligence Risk Scoring*, baik secara batch maupun realtime. AML System digunakan untuk mendukung pelaksanaan Prinsip Mengenal Nasabah yang lebih Optimal, khususnya dalam pendeteksian/pemantauan transaksi nasabah yang memiliki pola perilaku dan pola transaksi pencucian uang dan pendanaan terorisme.
 - Pengembangan aplikasi pemanfaatan data *Politically Exposed Person* (PEP) PPATK;
 - Pengembangan aplikasi KYC untuk melakukan *filtering* dan *screening* calon nasabah terhadap Data Teroris/*Terrorist List*, Daftar Proliferasi Senjata Pemusnah Massal, *PEP List*, *OFAC List*, *UN List* dan *Fraudulent List*;
- e. Sumber Daya Manusia dan Pelatihan
- Bank secara berkesinambungan menyelenggarakan pelatihan, sosialisasi dan Reminder mengenai penerapan Program APU PPT & PPPSPM kepada seluruh pegawai secara berkesinambungan untuk meningkatkan kompetensi, antara lain meliputi:
- Pelatihan, metode pelatihan dapat dilakukan secara elektronik/*online base*, maupun melalui tatap muka.
 - Pelaksanaan Supervisi dan Sosialisasi penerapan Program APU PPT & PPPSPM.
 - Penyampaian Email Blast terkait tipologi, modus terbaru dan lesson learned terkait APU PPT & PPPSPM kepada Pegawai Bank.
- Internal Control; and
 - Human Resources and Training.
- c. Effective internal control in implementing AML-CFT & CPF includes, among other things, carried out by:
- Having AML-CFT & CPF policies and procedures as well as adequate internal monitoring;
 - There are clear boundaries of authority and responsibility for work units related to the implementation of the AMLCTF & CPF program either through the first line of defense (*risk taking unit*), second line of defense and third line of defense; and
 - Conducting inspections to ensure the effectiveness of the implementation of the AML-CFT & CPF Program by the Internal Audit Work Unit.
 - Development of an internal application system to support reporting obligations in accordance with the PPATK GoAML reporting format requirements;
 - Development of a GoAML interface system to support reporting obligations that have been adjusted to GoAML provisions;
- d. Information Management System
- To optimize transaction monitoring in the implementation of the AML-CFT & CPF Program, the Bank continuously develops information system technology, including:
- Improve the supporting systems and applications for the Anti Money Laundering Detection System, Terrorist Filtering & Screening (DTTOT List), PEP Screening Detection and Customer Due Diligence Risk Scoring, both in batch and real time. The AML System is used to support more optimal implementation of Know Your Customer Principles, especially in detecting/monitoring customer transactions that have money laundering and terrorism financing behavior and transaction patterns.
 - Developing an application for utilizing PPATK Politically Exposed Person (PEP) data;
 - Developing a KYC application to filter and screen prospective customers against Terrorist Data/Terrorist List, Proliferation of Weapons of Mass Destruction List, PEP List, OFAC List, UN List and Fraudulent List;
- e. Human Resources and Training
- The Bank continuously provides training, outreach and reminders regarding the implementation of the AML-CFT & CPF Program to all employees on an ongoing basis to improve competency, including:
- Training, training methods can be carried out electronically/*online*, or face to face.
 - Implementation of Supervision and Socialization of the implementation of the AML-CFT & CPF Program
 - Submission of Email Blast regarding typology, latest modes and lessons learned regarding AML-CFT & CPF to Bank Employees.

- f. Melaksanakan program Peningkatan kualitas data nasabah
- g. Menjalin dan membina kerja sama maupun koordinasi dengan pihak regulator dan Aparat Penegak Hukum, khususnya dalam pemenuhan permintaan data dan/atau informasi nasabah.
- h. Berperan aktif dalam program kerja dan kegiatan rezim APU PPT yang diselenggarakan oleh regulator/pemerintah.

3. Penguatan Program APU PPT & PPPSPM Semakin kompleksnya produk, jasa dan layanan perbankan, serta meningkatnya penggunaan teknologi digital, hal ini berpotensi meningkatkan risiko perbankan untuk digunakannya sebagai sarana pencucian uang, pendanaan terorisme dan pendanaan proliferasi senjata pemusnah massal oleh para pelaku kejahatan. Sehubungan dengan hal tersebut, Bank perlu memastikan bahwa implementasi APU PPT & PPPSPM telah berjalan dengan baik dan sesuai dengan ketentuan, selain itu perlu dilakukan upaya perbaikan dalam pelaksanaannya.

Beberapa inisiatif perbaikan yang dilakukan Bank, antara lain:

- a. Meningkatkan *awareness* dan kompetensi pegawai terkait implementasi APU PPT & PPPSPM;
- b. Melakukan evaluasi proses penerimaan nasabah
- c. Melakukan updating atas kebijakan dan prosedur internal sesuai dengan ketentuan yang berlaku.

- f. Menindaklanjuti seluruh hasil audit baik dari internal maupun eksternal terkait dengan implementasi APU PPT & PPPSPM sesuai dengan waktu yang telah ditetapkan;
- g. Melakukan koordinasi secara aktif dengan Regulator dan Aparat Penegak Hukum dalam pemenuhan permintaan data dan pemberian keterangan dalam upaya Pencegahan dan Pemberantasan Tindak Pidana Pencucian Uang, Pencegahan Pendanaan Terorisme dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal.

- f. Implementing a program to improve customer data quality
- g. Establishing and fostering cooperation and coordination with regulators and Law Enforcement Officials, especially in fulfilling customer data and/or information requests.
- h. Playing an active role in the work program and activities of the AML-CFT regime organized by the regulator/ government.

3. Strengthening the AML-CFT & CPF Program
The increasing complexity of banking products, services and services, as well as the increasing use of digital technology, has the potential to increase the risk of banking being used as a means of money laundering, financing terrorism and financing the proliferation of weapons of mass destruction by criminals. In connection with this, the Bank needs to ensure that the implementation of AML-CFT & CPF has gone well and in accordance with the provisions, in addition to that efforts need to be made to improve its implementation.

Several improvement initiatives carried out by the Bank include:

- a. Raising employee awareness and competence regarding the implementation of AML-CFT & CPF;
- b. Evaluating the customer acceptance process
- c. Updating internal policies and procedures in accordance with applicable regulations.
- d. Developing AML systems and other applications to support the optimization of AML-CFT & CPF implementation
- e. Improving the quality of customer data and reporting analysis to regulators in accordance with regulations;
- f. Follow up on all internal and external audit results related to the implementation of AML-CFT & CPF according to the specified time;
- g. Coordinate actively with Regulators and Law Enforcement Officials in fulfilling requests for data and providing information in efforts to Prevent and Eradicate Money Laundering, Prevent Terrorism Financing and Prevent Funding for the Proliferation of Weapons of Mass Destruction.

Perlakuan yang Sama terhadap Seluruh Pemegang Saham

Equal Treatment for All Shareholders

Mengacu pada Undang-Undang Perseroan Terbatas dan Peraturan OJK yang berlaku, Allo Bank memastikan bahwa seluruh kegiatan operasionalnya senantiasa memperhatikan prinsip perlakuan yang sama dan setara kepada seluruh pemegang saham, seperti:

1. Menyediakan informasi mengenai laporan keuangan yang dapat diakses pada situs web Bank.
2. Pengumuman, Panggilan Rapat Umum Pemegang Saham yang dilakukan secara terbuka melalui situs web bank.
3. Mempunyai kesempatan yang sama untuk bersuara dalam Rapat Umum Pemegang Saham.

Referring to the Limited Liability Company Law and applicable OJK Regulations, Allo Bank ensures that all its operational activities always pay attention to the principle of equal and equal treatment to all shareholders, such as:

1. Provide information regarding financial reports that can be accessed on the Bank's website.
2. Announcement, invitation to the General Meeting of Shareholders which is made openly via the bank's website.
3. Have the same opportunity to speak at the General Meeting of Shareholders.

Pemberian Dana untuk Kegiatan Sosial dan Politik

Providing Funds for Social and Political Activities

Bank memiliki kebijakan yang melarang adanya keterlibatan seluruh Insan Bank dalam kegiatan politik aktif, termasuk dengan memberikan dana untuk kepentingan politik. Kebijakan ini diterapkan untuk menjaga independensi dan profesionalisme Bank dan karyawan. Kebijakan ini juga sejalan dengan semangat Bank untuk terus memberikan nilai tambah bagi seluruh pemangku kepentingan, termasuk terhadap masalah sosial kemasyarakatan yang diwujudkan melalui program-program tanggung jawab sosial dan lingkungan.

The Bank has a policy that prohibits the involvement of all Bank Personnel in active political activities, including providing funds for political interests. This policy is implemented to maintain the independence and professionalism of the Bank and its employees. This policy is also in line with the Bank's dedication to providing added value to all stakeholders, including social issues in society that are realized through social and environmental responsibility programs.

Penyediaan Dana kepada Pihak Terkait dan Penyediaan Dana Besar

Provision of Funds to Related Parties and Provision of Large Funds

Sebagaimana diatur oleh POJK No. 17 Tahun 2023 tentang Penerapan Tata Kelola Bank Umum, Bank wajib menerapkan prinsip kehati-hatian dalam penyediaan dana paling sedikit dengan menerapkan penyebaran atau diversifikasi portofolio penyediaan dana yang diberikan. Pengungkapan penyediaan dana kepada pihak terkait (individu atau kelompok, termasuk Direksi, Dewan Komisaris, Pejabat Eksekutif Bank, serta pihak terkait lainnya) dan penyediaan dana besar (*large exposure*) mengacu pada SEOJK No. 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum bagian Transparansi Penerapan Tata Kelola. Dalam penyediaan dana kepada pihak terkait dan penyediaan dana besar, Allo Bank selalu menerapkan prinsip kehati-hatian dan dilakukan sesuai dengan ketentuan yang berlaku.

Kebijakan Penyediaan Dana kepada Pihak Terkait dan Penyediaan Dana Besar

Penyediaan dana kepada pihak terkait dan kepada debitur dalam jumlah besar senantiasa dilakukan dengan memperhatikan prinsip kehati-hatian, melalui proses *review* dan mekanisme yang sesuai dengan kebijakan Bank serta telah memenuhi ketentuan OJK maupun peraturan perundang-undangan yang berlaku, antara lain menyangkut aspek Batas Maksimum Pemberian Kredit (BMPK).

As regulated by POJK No. 17 of 2023 concerning the Implementation of Conventional Bank Governance, Banks are required to apply the principle of prudence in providing funds at least by implementing the distribution or diversification of the portfolio of funds provided. Disclosure of the provision of funds to related parties (individuals or groups, including the Board of Directors, Board of Commissioners, Bank Executive Officers, and other related parties) and the provision of large exposure refers to SEOJK No. 13/SEOJK.03/2017 concerning the Implementation of Governance for Conventional Bank, section on Transparency of Governance Implementation. In providing funds to related parties and providing large funds, Allo Bank always applies the principle of prudence and is carried out in accordance with applicable provisions.

Policy on Providing Funds to Related Parties and Providing Large Funds

Provision of funds to related parties and to debtors in large amounts is always carried out by paying attention to the principle of prudence, through a review process and mechanisms in accordance with Bank policies and has complied with OJK provisions and applicable laws and regulations, including aspects of the Maximum Credit Limit (BMPK).

Untuk transaksi material dengan pihak terkait dan transaksi yang berpotensi menimbulkan benturan kepentingan bagi Bank, persetujuan Dewan Komisaris wajib didasari oleh rekomendasi dari Komite Audit yang diberikan sebelum melakukan transaksi material dengan pihak afiliasi. Penyediaan dana besar harus dianalisa kelayakannya minimum sama atau lebih berhati-hati (*prudent*) daripada penyediaan dana kepada debitur umum. Syarat dan ketentuan penyediaan dana diterapkan adalah sesuai dengan ketentuan dan prosedur perkreditan yang berlaku di Allo bank.

Pelaporan rutin BMPK kepada OJK atau Bank Indonesia dilakukan secara tepat waktu. Sepanjang tahun 2024 tidak terdapat pelanggaran atau pelampauan atas BMPK (Batas Maksimum Pemberian Kredit). Penyediaan Dana kepada Pihak Terkait (*Related Party*) dan kepada Debitur Inti Individu dan Grup (*Large Exposure*) di Bank selama tahun 2024:

For material transactions with related parties and transactions that have the potential to cause a conflict of interest for the Bank, the approval of the Board of Commissioners must be based on recommendations from the Audit Committee given before making material transactions with affiliated parties. Penjelasan Direksi

Board of Directors' Explanation

[OJK D.1]

Pemegang Saham dan Pemangku
Kepentingan yang Terhormat,

Puji syukur kami haturkan kepada Tuhan yang Maha Esa, atas kehendak-Nya, PT Allo Bank Indonesia Tbk berhasil melewati tahun 2024 dengan pencapaian kinerja yang sangat baik. Hingga akhir tahun 2024, jumlah nasabah tercatat lebih dari 11 juta nasabah, naik signifikan dibanding jumlah nasabah pada awal tahun yang sama, yaitu sebanyak 7,6 juta atau naik 44,74%. Kenaikan nasabah tersebut sejalan dengan peningkatan pendapatan bunga, pendapatan operasional neto, laba bersih dan aset. Pencapaian tersebut merupakan cerminan atas ketepatan dan konsistensi segenap manajemen dan karyawan dalam mengimplementasikan kebijakan dan inisiatif strategis di sepanjang tahun pelaporan.

Dear Shareholders and Stakeholders,

We would like to begin by expressing our gratitude to God Almighty, as it was thanks to His grace that PT Allo Bank Indonesia Tbk was successfully able to emerge from 2024 with excellent achievements in its performance. By the end of 2024, we recorded more than 11 million customers, a significant increase compared to the 7.6 million customers we had at the beginning of that very same year, or an increase of 44.74%. This increase in customers was in line with increases in interest income, net operating income, net profit and assets. This achievement serves as a reflection of the accuracy and consistency on the part of all the Bank's management and employees in implementing strategic policies and initiatives throughout the reporting year.

Keberhasilan Allo Bank semakin bermakna karena diraih pada saat pertumbuhan ekonomi Indonesia mengalami perlambatan. Badan Pusat Statistik menyatakan pertumbuhan ekonomi Indonesia tahun 2024 tercatat sebesar 5,03, turun dibanding tahun sebelumnya yang mencapai 5,05%. Selain Indonesia, perlambatan pertumbuhan ekonomi juga dialami mitra dagang utama Indonesia yaitu Tiongkok dan Amerika Serikat. Adapun pertumbuhan ekonomi global, menurut proyeksi Dana Moneter Internasional (IMF) tercatat sebesar 3,2%, melambat dibanding tahun 2023 yang mencapai 3,3%.

Secara spesifik, merujuk data BPS, lapangan usaha Jasa Keuangan dan Asuransi, di mana industri perbankan termasuk di dalamnya, tumbuh 4,74% pada tahun 2024. Pertumbuhan tersebut sedikit menurun dibandingkan tahun 2023 dengan pertumbuhan sebesar 4,77%. Perlambatan pertumbuhan lapangan usaha ini dipengaruhi berbagai faktor diantaranya ketidakpastian ekonomi global dan tekanan eksternal seperti fluktuasi nilai tukar serta perlambatan investasi asing sehingga menekan likuiditas dan minat investasi di Indonesia. Selain itu, kebijakan moneter yang lebih ketat dan pengetatan regulasi di sektor keuangan juga membuat lembaga jasa keuangan lebih berhati-hati dalam mengelola risiko dan pinjaman sehingga mempengaruhi laju ekspansi produk dan layanan keuangan yang dikelolanya. Faktor berikutnya adalah terjadinya pergeseran perilaku konsumen yang menjadi lebih selektif dan konservatif dalam mengambil keputusan finansial. Perubahan tersebut menambah beban bagi industri jasa keuangan dalam mempertahankan pertumbuhan yang sebelumnya lebih dinamis.

Di tengah kondisi yang penuh dinamika di lapangan usaha jasa keuangan itulah, Allo Bank berhasil memanfaatkan peluang yang ada, mengoptimalkan semua sumber daya sehingga mampu meraih kinerja terbaik. Melalui laporan keberlanjutan inilah, pencapaian kinerja aspek ekonomi tersebut kami sampaikan. Selain aspek ekonomi, sesuai dengan Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik atau POJK Keuangan Berkelanjutan, laporan ini juga menyampaikan pencapaian kinerja aspek sosial dan lingkungan.

Dukungan Allo Bank terhadap Keuangan Berkelanjutan

Indonesia berkomitmen untuk melaksanakan pembangunan berkelanjutan sesuai dengan amanat perundang-undangan. Berdasarkan Undang-Undang No. 32 Tahun 2009 tentang Perlindungan dan Pengelolaan Lingkungan Hidup, pembangunan berkelanjutan didefinisikan sebagai upaya yang terencana dan sadar untuk mengintegrasikan aspek lingkungan, sosial, dan ekonomi ke dalam strategi pembangunan. Tujuannya adalah untuk memastikan keberlanjutan lingkungan serta kesejahteraan dan kualitas hidup generasi sekarang dan mendatang.

Allo Bank's success is even more meaningful considering it made all of its aforementioned accomplishments during a time when Indonesia's economic growth was experiencing a period of slowed-down activity. The Central Statistics Agency (BPS) has noted that Indonesia's economic growth in 2024 was recorded at 5.03 percent, which was down compared to the previous year's 5.05 percent. In addition to Indonesia, a slowing of economic growth was also experienced by Indonesia's main trading partners, specifically, China and the United States. Meanwhile, global economic growth, according to projections by the International Monetary Fund (IMF), was recorded at 3.2%, which slowed down compared to 3.3 percent in 2023.

Specifically, when looking at Central Statistics Agency data, the Financial Services and Insurance business sector in Indonesia, which includes the banking industry, grew by 4.74 percent in 2024. This growth was slightly lower than the same sector's 4.77 percent growth in 2023. The slowdown in growth in this business sector was influenced by various factors that included global economic uncertainty, external pressures (such as exchange rate fluctuations) and slowdown in foreign investment, which resulted in a suppression of liquidity and investment interest in Indonesia. Tighter monetary policies and tightened regulations in the financial sector have also made financial services institutions more careful in managing risks and loans in such a way that affected the rate of expansion of all the financial products and services they managed. The next factor was a shift in consumer behavior towards becoming more selective and conservative in making financial decisions. This change added to the financial services industry's burden in maintaining its previously more dynamic growth.

In the midst of these dynamic conditions within the field of financial services as a business, Allo Bank was able to succeed in taking advantage of existing opportunities and optimizing all of its resources so as to achieve its best in performance. We would like to use this sustainability report to convey our achievements when it comes to economic performance. In addition to this economic aspect, we will also use this report to convey our achievements in social and environmental performance. We are doing this in accordance with Financial Services Authority (OJK) Regulation No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies (hereinafter referred to as "POJK on Sustainable Finance").

Allo Bank's Support for Sustainable Finance

Indonesia is committed to implementing sustainable development in accordance with the mandate of law. The country defines sustainable development as a planned and conscious effort to integrate environmental, social and economic aspects into development strategies. It uses this definition in accordance with Law No. 32 of 2009 concerning Environmental Protection and Management. The nation's goal is to ensure environmental sustainability as well as welfare and quality of life for both its present and its future generations.

Untuk mendukung pelaksanaan pembangunan berkelanjutan, pemerintah telah mengeluarkan berbagai regulasi dan kebijakan, salah satunya adalah POJK Keuangan Berkelanjutan tahun 2017. Sesuai dengan peraturan ini, Allo Bank sebagai perusahaan publik diwajibkan untuk menerapkan prinsip keuangan berkelanjutan mulai 1 Januari 2021. Keuangan berkelanjutan merupakan dukungan menyeluruh dari sektor jasa keuangan untuk mendorong pertumbuhan ekonomi yang berkelanjutan dengan menyeimbangkan kepentingan ekonomi, sosial, dan lingkungan.

Dukungan Allo Bank terhadap keuangan berkelanjutan direalisasikan melalui penyusunan Rencana Aksi Keuangan Berkelanjutan (RAKB), yang merupakan bagian integral dari Rencana Bisnis Bank. Dalam RAKB ini, Bank merumuskan berbagai rencana, program, dan kebijakan strategis untuk mengimplementasikan prinsip-prinsip keuangan berkelanjutan. Selain itu, sesuai dengan ketentuan dalam POJK Keuangan Berkelanjutan, Bank juga mengalokasikan dana untuk membiayai berbagai program Tanggung Jawab Sosial dan Lingkungan (TJSL).

Selain itu, Allo Bank juga menunjukkan dukungan terhadap keuangan berkelanjutan melalui pengelolaan kantor yang ramah lingkungan. Sebagai bank umum berbasis digital, operasional Bank dirancang untuk meminimalisir dampak lingkungan dibandingkan bank-bank konvensional. Dengan demikian, penggunaan energi dan emisi yang dihasilkan lebih rendah, begitu juga dengan pemanfaatan air dan jumlah limbah yang dihasilkan.

Kebijakan Allo Bank untuk Merespons Tantangan dalam Pemenuhan Strategi Keberlanjutan

Bank-bank berbasis digital di Indonesia semakin agresif dalam menjalankan ekspansi bisnis di sepanjang tahun 2024. Sebab itu, persaingan di antara bank berbasis digital pun semakin ketat. Untuk merespons tantangan tersebut, Allo Bank menerapkan berbagai kebijakan dalam pemenuhan strategi keberlanjutan. Selaras dengan visi menjadi bank umum berbasis digital terbaik, Bank terus melakukan pengembangan dan penyempurnaan teknologi informasi sebagai jantung operasi layanan. Untuk itu, pada 17 Mei 2024, Bank meresmikan penggunaan *Data Center* Allo Bank yang dirancang dengan arsitektur yang memenuhi standar internasional tertinggi. Selain arsitektur, keamanan juga menjadi prioritas Bank, dengan pemisahan antara lingkungan *core system* dengan *surrounding system* dan *development system* untuk meningkatkan keamanan dan keandalan layanan.

Selaras dengan itu, Bank melakukan *assessment* atas *Control Objectives for Information and Related Technology* ("COBIT") 2019 dengan hasil Tingkat Kematangan TI di level 4,21. Keberhasilan tersebut menjadi pemenuhan salah satu komitmen dan dedikasi Bank dalam menerapkan standar terbaik dalam tata kelola teknologi informasi. *Assessment* ini juga merupakan langkah penting dalam memperkuat kapabilitas TI dan meningkatkan efisiensi serta keamanan layanan

In order to support its sustainable development implementation, the government has issued various regulations and policies, one of which was the POJK on Sustainable Finance that it published in 2017. In accordance with this regulation, Allo Bank (as a public company) is required to implement sustainable finance principles. It began implementing these principles on January 1, 2021. Sustainable finance requires comprehensive support from the financial services sector to encourage sustainable economic growth that can balance economic, social, and environmental interests.

Allo Bank's support for sustainable finance is realized through its preparation of a Sustainable Finance Action Plan (RAKB), which serves as an integral part of the Bank's Business Plan. It is through this RAKB that the Bank has formulated various strategic plans, programs, and policies to implement sustainable finance principles. In addition, in accordance with the provisions of the POJK on Sustainable Finance, the Bank is also obligated to allocate funds to finance various Social and Environmental Responsibility (TJSL) programs.

In addition, Allo Bank has also lent its support for sustainable finance through its efforts in terms of environmentally friendly office management. As a digital-based conventional bank, the Bank's operations are designed to have minimal environmental impact compared to conventional banks. As a result, its energy usage and its emissions produced are both lower, as are its water usage and its waste production.

Allo Bank's Policy to Respond to Challenges in Fulfilling Sustainability Strategy

Digital banks in Indonesia have become increasingly aggressive in its efforts to carry out business expansions throughout 2024. This has resulted in tightened competition among digital banks. To respond to these challenges, Allo Bank has implemented various policies to fulfill its own sustainability strategies. In line with its vision of becoming the best digital-based conventional bank, the Bank has continued to develop and improve on its information technology serving as the heart of its service operations. For this reason, the Bank inaugurated its Allo Bank Data Center on May 17, 2024. This data center was designed with architecture that met the highest possible international standards. In addition to its world-class architecture, the data center's security was also a priority for the Bank. Towards this end, the Bank ensured a separation between the data center's core system environment and its surrounding system and development system to improve on the security and reliability of its services.

In line with this, the Bank conducted an assessment on Control Objectives for Information and Related Technology ("COBIT") 2019 with a resulting IT Maturity Level of 4.21. The Bank's success in this assessment served as a way of fulfilling one of the Bank's commitments and dedications in implementing the best-possible standards in information technology governance. This assessment was also an important step for strengthening the Bank's IT

yang diberikan kepada nasabah serta mencerminkan bentuk keseriusan Allo Bank dalam terus berinovasi dan memastikan bahwa setiap proses bisnis yang menggunakan TI berjalan dengan baik, terkontrol dan berkelanjutan.

Untuk merealisasikan strategi keberlanjutan usaha, pada tahun 2024, Allo Bank merilis produk baru berupa Rekening Dana Nasabah, *Virtual Account* dan *Virtual Debit Card*. Sementara itu, di bidang pemasaran, Bank terus mengembangkan strategi dan berupaya menjalin kemitraan strategis dengan berbagai ekosistem terkemuka lainnya melalui penerapan model *Open Banking* dalam upaya mengembangkan ekosistem digital dan meningkatkan nilai layanan finansial yang disediakan oleh Bank secara *contextual*, terutama untuk sektor-sektor yang dekat dengan aspek-aspek kehidupan nasabah.

Hal yang tak kalah penting, untuk mengukuhkan *branding*, Bank terus fokus menysasar segmen milenial dan Gen Z sebagai segmen utama dengan mengadakan berbagai program marketing yang unik. Program tersebut di antaranya Allo Bank Festival pada 21-22 Juni 2024 di Istora Senayan Jakarta dengan mengusung tema *Intimate Concert Experience* bersama bintang tamu internasional WAY V dan musisi-musisi nasional Indonesia.

Selain berbagai kebijakan di atas, Allo Bank secara konsisten menjalin komunikasi dengan segenap pemangku kepentingan, termasuk mengembangkan kanal pengaduan apabila ada di antara mereka yang terdampak dengan operasional Bank. Selaras dengan itu, untuk memaksimalkan manfaat atas keberadaan Bank, sekaligus menguatkan pelibatan pemangku kepentingan, khususnya masyarakat sebagai salah satu pemangku kepentingan eksternal utama, Bank menyelenggarakan berbagai program Tanggung Jawab Sosial dan Lingkungan (TJSL)/*Corporate Social Responsibility* (CSR).

Konsisten dan kesungguhan Bank dalam merealisasikan strategi keberlanjutan mendapatkan apresiasi dari pihak eksternal berupa pemberian penghargaan. Di sepanjang tahun 2024, penghargaan yang diraih Bank antara lain The Highest Digital Index Deposit Conventional Bank 2024 dari Infobank; The Best Conventional Bank 2024, The Best Digital Bank (KBMI 2) 2024, The 2nd Highest Digital Index Digital Bank 2024, The Best Saving Account Conventional Bank (KBMI 2) 2024, keempatnya dari Infobank; 5th Indonesia Top Bank Awards 2024 in KBMI 2 Category dari The Iconomics; Best Bank 2024: KBMI 2 (Modal Inti Lebih dari Rp6T - Rp14T) dari investortrust; Top 100 CEO & The 200 Future Leaders Forum 2024: Indra Utoyo - Banker Of The Year 2024, Sajal Bhatnagar - Future Leaders of the Year 2024 dari InfoBank, serta Predicate "Very Good" for Outstanding Digital Innovation 2024 dari SWA Media Group.

capabilities and boosting the efficiency and security of its services to customers. The assessment also reflected Allo Bank's seriousness in continuing to innovate and ensuring that every business process that used IT ran well, was controlled and was sustainable.

In 2024, Allo Bank released new products in the form of Customer Fund Accounts, Virtual Accounts and Virtual Debit Cards as a way to realize its business sustainability strategy. Meanwhile, within the marketing sector, the Bank continued to develop strategies for establishing strategic partnerships with various other leading ecosystems through its implementation of an Open Banking model in an effort to develop a digital ecosystem and increase the contextual value of its financial services, especially for sectors that stood close to aspects of customer life.

No less important was the Bank's effort to strengthen its branding through its focus on targeting millennial and Gen Z segments as its primary segments. It did this by hosting a variety of unique marketing programs that included the Allo Bank Festival on June 21-22, 2024 at Istora Senayan Jakarta. This event, designed as an Intimate Concert Experience, featured performances from international guest star WAY V and Indonesian national musicians.

In addition to the aforementioned policies, Allo Bank also worked to consistently communicate with all stakeholders. Its efforts towards this end included opening a complaints channel for anyone affected by the Bank's operations. In line with that, the Bank organized various Corporate Social Responsibility (CSR) programs that involved stakeholders, especially the community as one of the Bank's primary external stakeholders. Allo Bank did this in order to maximize the list of benefits available as a result of its presence as a business entity.

The Bank's consistency and seriousness in realizing its sustainability strategy has received various awards from external parties that served as forms of appreciation for its efforts. Throughout 2024, the list of the awards the Bank won included The Highest Digital Index Deposit Conventional Bank 2024 from Infobank & Isentia; The Best Conventional Bank 2024, The Best Digital Bank (KBMI 2) 2024, The 2nd Highest Digital Index Digital Bank 2024, The Best Saving Account Conventional Bank (KBMI 2) 2024, all four of which are from Infobank; 5th Indonesia Top Bank Awards 2024 in KBMI 2 Category from The Iconomics; Best Bank 2024: KBMI 2 (Core Capital More than IDR6T - IDR14T) from investortrust; Top 100 CEO & The 200 Future Leaders Forum 2024: Indra Utoyo - Banker Of The Year 2024, Sajal Bhatnagar - Future Leaders of the Year 2024 from InfoBank, and a Predicate of "Very Good" for Outstanding Digital Innovation 2024 from SWA Media Group.

Penerapan Keuangan Berkelanjutan Tahun 2023

Di sepanjang tahun 2024, Allo Bank telah berupaya semaksimal mungkin untuk melaksanakan keuangan berkelanjutan dengan menyelaraskan pencapaian aspek ekonomi, lingkungan hidup, dan sosial. Upaya tersebut meraih hasil sebagai berikut:

1. Kinerja Aspek Ekonomi

Setiap tahun, Allo Bank menyusun Rencana Bisnis Bank (RBB) secara matang dan realistis berdasarkan prinsip kehati-hatian dan penerapan manajemen risiko. Rencana bisnis antara lain berisi tentang rencana Bank untuk meningkatkan kinerja usaha serta strategi untuk merealisasikan rencana tersebut sesuai target dan waktu yang ditetapkan. Penyusunan rencana bisnis senantiasa memperhatikan faktor eksternal dan internal yang dapat mempengaruhi kelangsungan usaha Bank, prinsip kehati-hatian, penerapan manajemen risiko, dan asas perbankan yang sehat.

Segecap manajemen dan karyawan Allo Bank terus mengukuhkan sinergi untuk merealisasikan target-target dalam RBB tahun 2024 dan membuahkan hasil yang membanggakan. Pendapatan Operasional tercatat sebesar Rp1,447 triliun, naik 25% dibandingkan pencapaian tahun 2023, didorong oleh pertumbuhan pendapatan bunga bersih dan pendapatan berbasis biaya. Pendapatan bunga bersih tumbuh 8% menjadi Rp1,118 triliun ditopang oleh pertumbuhan kredit di tengah kondisi ekonomi makro yang penuh tantangan. Laba Bersih sebesar Rp467 miliar atau naik 5% dibanding tahun sebelumnya.

Pencapaian tersebut sejalan dengan peningkatan jumlah akuisisi/*onboarding* nasabah hingga akhir tahun 2024 yang mencapai lebih dari 11 juta nasabah. Selain itu, juga selaras dengan keberhasilan Bank meningkatkan *engagement* sehingga nasabah puas dan sering bertransaksi di Allo Bank. Dalam hal ini, Bank mencatatkan peningkatan signifikan dalam jumlah transaksi khususnya transaksi menggunakan QRIS, transfer melalui BI-Fast maupun pembayaran *Bill Payment*.

2. Kinerja Aspek Lingkungan

Operasional Bank sebagai lembaga jasa keuangan tidak berdampak langsung bagi lingkungan. Walau demikian, Bank senantiasa merujuk berbagai regulasi yang mengatur hubungan antara industri perbankan dengan lingkungan. Dengan memperhatikan prinsip kehati-hatian, Allo Bank merilis produk dan layanan berupa giro, tabungan, deposito dan pinjaman konsumsi (*instant cash* dan *pay later*) yang semuanya tidak berkontribusi negatif terhadap lingkungan.

Sustainable Finance Implementation in 2023

Throughout 2024, Allo Bank has made every possible effort to implement sustainable finance by aligning its achievements when it came to its economic, environmental, and social aspects. These efforts have bore the following results:

1. Economic Aspect Performance

Every year, Allo Bank prepares a mature and realistic Bank Business Plan (RBB) that it designs based on the principle of prudence and risk management implementation. This business plan includes the Bank's plans to improve business performance, as well as accompanying strategies to realize these plans within an established time frame and with clear goals. The process of preparing this business plan always takes into account any external and internal factors that can potentially affect the Bank's business continuity. The plan also takes into account the principle of prudence and the implementation of risk management, all while being guided by healthy banking as a concept.

All management and employees of Allo Bank continue to strengthen synergy to realize the targets in the 2024 RBB and produce good results. Operating Revenue was recorded at IDR1.447 trillion, up 25% compared to the achievement in 2023, driven by growth in net interest income and fee-based income. Net interest income grew 8% to IDR1.118 trillion supported by credit growth amidst challenging macroeconomic conditions. Net Profit reached IDR467 billion or up 5% compared to the previous year.

These achievements were in line with an increase in Allo Bank's number of customer acquisitions/*onboarding* until the end of 2024 that reached more than 11 million customers. In addition, these achievements were also in line with the Bank's success in boosting *engagement* so that customers are satisfied and carried out transactions frequently through Allo Bank. As a result, the Bank was also able to record a significant increase in the number of transactions, particularly those using QRIS, as well as the number of transfers via BI-Fast and Bill Payment payments.

2. Environmental Aspect Performance

The Bank's operations as a financial services institution do not have any direct impact on the environment. At the same time, the Bank still paid heed to various regulations that governed the relationship between the banking industry and the environment. The Bank paid attention to the principle of prudence and released products and services in the form of current accounts, savings, deposits and consumer loans (*instant cash* and *pay later*), none of which had any sort of negative environmental contributions.

Pemenuhan tanggung jawab terhadap lingkungan juga diwujudkan Bank dengan mengoptimalkan operasional kantor yang ramah lingkungan dengan mengedepankan prinsip 3R (*Reduce, Reuse & Recycle*). Prinsip tersebut diimplementasikan dalam pengelolaan penggunaan kertas, energi listrik, bahan bakar minyak, air/air limbah maupun limbah, baik limbah yang termasuk dalam Bahan Berbahaya dan Beracun (B3) maupun non-B3B sesuai dengan regulasi yang berlaku. Jika pun dalam laporan ini terdapat kenaikan penggunaan kertas, energi, emisi dan air, hal itu dipengaruhi oleh meningkatnya operasional Bank, termasuk di antaranya penambahan karyawan.

3. Kinerja Aspek Sosial

Tanggung jawab pada aspek sosial dilaksanakan Bank dengan menjawab dan memenuhi berbagai keperluan dan harapan para pemangku kepentingan, baik internal maupun eksternal. Untuk karyawan, Bank dengan konsisten memperlakukan karyawan secara setara sehingga tidak terjadi insiden diskriminasi, memenuhi hak-hak normatif sesuai regulasi ketenagakerjaan, memberikan peluang yang sama untuk maju dan berkembang melalui keikutsertaan berbagai pendidikan dan pelatihan, serta mewujudkan lingkungan kerja yang sehat dan aman sesuai kaidah Kesehatan dan Keselamatan Kerja (K3).

Terkhusus untuk pengembangan kompetensi karyawan, pada tahun 2024, Bank telah menyelenggarakan pengembangan kompetensi sebanyak 179 program, yang diikuti oleh 439 pegawai atau 93% dari total pegawai dengan jumlah jam pelatihan sebanyak 1.472 jam. Adapun biaya pengembangan kompetensi tercatat sebesar Rp4,853 miliar naik dibandingkan tahun 2023, yang mencapai Rp3,886 miliar. Sementara itu, untuk kinerja K3, Bank berhasil mempertahankan pencapaian tahun sebelumnya yaitu tidak tercatat adanya kecelakaan kerja dan penyakit akibat kerja.

Adapun pemenuhan tanggung jawab kepada nasabah sebagai salah satu pemangku kepentingan eksternal utama, Bank secara berkelanjutan melakukan inovasi produk dan jasa agar sesuai dengan harapan terkini. Selain itu, Bank juga mengoptimalkan layanan agar semakin efektif dan efisien, serta memudahkan nasabah bertransaksi di manapun dan kapanpun. Lebih dari itu, sebagai bagian dari layanan terbaik serta perlindungan terhadap nasabah, Bank juga berkomitmen untuk menyelesaikan semua pengaduan nasabah sesuai dengan *Service Level Agreement* (SLA) yang berlaku. Berdasarkan survei internal yang diadakan Bank kepada nasabah, sebanyak 78,56% nasabah menyatakan puas dengan produk dan layanan Bank.

Komitmen lain yang senantiasa dipegang Bank adalah menjaga dan melindungi kerahasiaan data nasabah agar tidak ada yang bocor, apalagi hilang. Upaya tersebut berhasil dipertahankan sebagaimana tahun sebelumnya, yang ditandai dengan tidak adanya pengaduan berkaitan dengan kebocoran data atau hilangnya data nasabah.

The Bank also realized its environmental responsibility by optimizing environmentally friendly office operations. It did this by prioritizing the "3R" principle (*Reduce, Reuse & Recycle*). This principle was implemented in the Bank through its management of paper use, electrical energy, fuel oil, waste water and waste, whether it was waste categorized as "Hazardous and Toxic Materials" or non-Hazardous and Toxic Materials. It carried out all of this in accordance with applicable regulations. Any increase mentioned in this report in the Bank's use of paper, energy, emissions and water was influenced by an increase in the Bank's operations, including its addition of employees.

3. Social Aspect Performance

The Bank carried out its social responsibility by responding to (and fulfilling the various needs and expectations of) both internal and external stakeholders. For employees, the Bank consistently treated its employees equally so that there were no incidents of discrimination. It also fulfilled all normative rights in accordance with employment regulations, provided equal opportunities for employees to advance and develop through participation in various education sessions and training activities, and created a healthy and safe work environment that operated in accordance with Occupational Health and Safety principles.

Specifically, in terms of employee competency development, the Bank organized 179 competency development programs in 2024 that were attended by 439 employees (or 93% of the Bank's total employees) with a total of 1,472 training hours. The Bank's competency development cost was recorded at IDR4.853 billion, an increase compared to IDR3.886 billion in 2023. Meanwhile, in terms of Occupational Health and Safety performance, the Bank managed to maintain its previous year's achievement of having no work accidents or work-related diseases being recorded.

In terms of fulfilling its responsibilities to customers as one of its primary external stakeholders, the Bank worked to continuously innovate its products and services to meet current expectations. In addition, the Bank also optimized services to be more effective and efficient, and made it easier for customers to transact anywhere and anytime. Moreover, as part of its best service and protection for customers, the Bank also committed itself to resolving all customer complaints in accordance with applicable Service Level Agreements (SLA). Based on Bank's own internal survey to customers, some 78.56% of customers expressed satisfaction with the Bank's products and services.

Another commitment that the Bank always upheld was its effort to maintain and protect the confidentiality of customer data so that nothing is ever leaked, let alone lost. The Bank was able to successfully maintain this level of data security as it had in the previous year, which was a year marked by the absence of complaints related to data leaks or any losses of customer data.

Sementara itu, kepada masyarakat sebagai pemangku eksternal yang lain, Bank mengukuhkan manfaat melalui pelaksanaan berbagai program Tanggung Jawab Sosial dan Lingkungan (TJSL). Pada tahun 2024 kegiatan tersebut berupa Gerakan Berbagi Pangan dan Sembako ("Gebrag"), program PIJAR sebagai gerakan mengajar di berbagai sekolah di daerah-daerah pelosok Indonesia, dan pengadaan program kebun hidroponik di beberapa lokasi. Implementasi program-program TJSL tersebut, sekaligus merupakan upaya nyata dan dukungan konkret Bank terhadap Tujuan Pembangunan Berkelanjutan (TPB/SDGs).

Di sisi lain, kepada pemerintah, Bank memenuhi tanggung jawab dengan melakukan pembayaran pajak tepat waktu; kepada mitra/vendor, Bank melakukan pengadaan barang dan jasa yang transparan; sedangkan kepada regulator, Bank senantiasa merealisasikan kepatuhan terhadap regulasi yang berlaku.

Strategi Pencapaian Target

Bank berkomitmen untuk menjaga keselarasan antara aspek ekonomi, sosial dan lingkungan dalam menjalankan usaha. Dalam hal ini, Bank meyakini bahwa implementasi aspek lingkungan dan sosial berkelanjutan akan dipengaruhi oleh pencapaian dalam mewujudkan target-target kinerja aspek ekonomi yang disampaikan dalam RBB Tahun 2024. Untuk itu, Bank telah menetapkan langkah-langkah strategis tahun 2024 sebagai berikut:

1. Melakukan penetrasi pasar berkelanjutan ke berbagai segmentasi nasabah dengan terus memberikan nilai tambah (*added value*) melalui implementasi 3 pilar strategi bisnis Bank (*acquisition, engagement, and monetization*);
2. Meningkatkan layanan digital secara signifikan yang berdampak pada peningkatan aset dan liabilitas;
3. Menjalin kolaborasi dengan mitra strategis (*strategic partners*) ekosistem utama melalui penerapan model *open banking* untuk memperkaya dan meningkatkan nilai layanan finansial yang disediakan oleh Bank;
4. Penguatan data *driven organization* dengan memanfaatkan kapabilitas *Artificial Intelligence (AI)* dan data *analytic* untuk meningkatkan keunggulan kompetitif Bank;
5. Penguatan manajemen risiko menggunakan teknologi terkini melalui peningkatan *IT Maturity* dalam rangka memperkuat operasional Bank;
6. Pengembangan talenta DIGITAL untuk mencapai kinerja Bank yang unggul; dan
7. Penguatan *Good Corporate Governance (GCG)* di seluruh fungsi organisasi Bank.

Untuk menjaga kinerja ekonomi berjalan sesuai dengan yang ditargetkan, Bank melakukan monitoring atas implementasi inisiatif strategis tersebut secara berkala dalam rapat Direksi dan Dewan Komisaris. Kebijakan tersebut dilakukan dengan tujuan agar target kinerja ekonomi yang telah ditetapkan dapat tercapai, serta merumuskan solusi alternatif apabila terdapat hambatan di dalam merealisasikan target pada tahun pelaporan.

Meanwhile, when it came to its commitments to the community as another external stakeholder, the Bank provided benefits through its implementation of various Social and Environmental Responsibility (CSR) programs. In 2024, these activities included its Food and Grocery Sharing Movement ("Gebrag"), its PIJAR program that served as a teaching movement in various schools in remote areas of Indonesia, and its provision of hydroponic garden programs throughout several locations. The implementation of these CSR programs also served as the Bank's way of supporting the nation's Sustainable Development Goals (SDGs).

In terms of the Bank's commitment to the government, Allo Bank fulfilled its responsibilities by making tax payments on time. For its partners/vendors, the Bank carried out transparent procurement of goods and services. Finally, for regulators, the Bank always ensured that it was in compliance with all applicable regulations.

Target Achievement Strategy

The Bank is committed to maintaining a sense of harmony between its economic, social and environmental aspects as it operates its business. The Bank believes that its implementation of sustainable environmental and social aspects will be influenced by any achievements it makes in realizing its economic aspect performance targets that it has stated in its Bank Business Plan. To that end, the Bank has established the following strategic steps for 2024:

1. Carrying out sustainable market penetration to various customer segments by continuing to provide added value through its implementation of the 3 pillars of the Bank's business strategy (*acquisition, engagement, and monetization*);
2. Significantly increasing digital services that have an impact on increasing assets and liabilities;
3. Establishing collaboration with strategic partners in its main ecosystem through its implementation of an open banking model to enrich and increase the value of the Bank's financial services;
4. Strengthening data driven organizations by utilizing Artificial Intelligence (AI) and data analytics capabilities to increase the Bank's competitive advantage;
5. Strengthening risk management by using the latest technology and increasing IT Maturity in order to strengthen the Bank's operations;
6. Development of DIGITAL talent to achieve even better Bank performance; and
7. Strengthening Good Corporate Governance (GCG) across all of the Bank's organizational functions.

In order to ensure that it can maintain economic performance levels that are in accordance with its targets, the Bank periodically monitors its implementation of its strategic initiatives through Board of Directors and Board of Commissioners meetings. These efforts are done with the aim of guaranteeing that the Bank's economic performance targets can be achieved, as well as to have these meetings serve as a venue for formulating alternative solutions if there are obstacles in realizing its targets in the reporting year.

Prospek dan Peluang

Pada tahun 2025, perekonomian Indonesia diproyeksikan tumbuh stabil di kisaran 5%. Bank Dunia dalam laporannya pada Oktober 2024 memperkirakan pertumbuhan sebesar 5,1% untuk tahun 2025. Sementara itu, Pemerintah Indonesia sebagaimana disampaikan dalam Anggaran Pendapatan dan Belanja Negara Tahun 2025 menargetkan pertumbuhan ekonomi sebesar 5,2%. Di sisi lain, pertumbuhan ekonomi Indonesia tahun 2025 akan menghadapi berbagai kendala dan tantangan di antaranya defisit transaksi berjalan yang diperkirakan melebar antara 0,5% hingga 1,3% dari PDB, serta terjadinya penyusutan kelas menengah yang dapat mempengaruhi konsumsi domestik.

Di tengah proyeksi optimistis, sekaligus tantangan yang patut diwaspadai, industri perbankan Indonesia diharapkan tetap solid dan berperan aktif dalam mendukung pertumbuhan ekonomi tahun 2025. Dalam hal ini, Otoritas Jasa Keuangan (OJK) optimistis terhadap kinerja positif sektor jasa keuangan, meskipun menghadapi tantangan likuiditas yang dapat mempengaruhi penyaluran kredit. Bank Indonesia memproyeksikan pertumbuhan kredit perbankan akan meningkat menjadi 11-13% pada tahun 2025, lebih tinggi dibandingkan proyeksi tahun sebelumnya.

Berdasarkan latar belakang dan proyeksi tersebut, Allo Bank telah menetapkan berbagai target dalam RBB Tahun 2025, terkhusus pada aspek ekonomi, serta rencana strategis untuk mencapainya. Target tersebut di antaranya Laba Bersih sebesar Rp466 miliar; Kredit yang Diberikan sebesar Rp9,7 triliun atau 130% dibandingkan realisasi tahun 2024, dan Dana Pihak Ketiga sebesar Rp8,4 triliun atau 138% dibandingkan realisasi tahun 2024.

Selaras dengan penetapan tersebut, Allo Bank telah menetapkan berbagai inisiatif strategis dan berkomitmen untuk melaksanakannya secara konsisten dengan menguatkan sinergi antara manajemen dan karyawan. Berbekal spirit untuk memberikan kontribusi terbaik, Allo Bank optimistis dapat mencapai target-target tersebut demi mewujudkan bisnis yang berkelanjutan.

Prospects and Opportunities

In 2025, the Indonesian economy is projected to grow steadily in the range of 5%. In its October 2024 report, the World Bank specifically estimated a total growth of 5.1% for 2025. Meanwhile, the Government of Indonesia has stated in its 2025 State Budget that it is targeting an economic growth of 5.2%. At the same time, Indonesia's economic growth in 2025 is set to face various obstacles and challenges, including its current account deficit, which is estimated to widen between 0.5% and 1.3% of GDP, as well as a shrinking middle class that could affect domestic consumption.

In the midst of these optimistic projections, as well as in the midst of challenges that should continue to be monitored, the Indonesian banking industry is expected to remain in solid condition and continue to play an active role in supporting economic growth in 2025. In this regard, the Financial Services Authority (OJK) is optimistic about the positive performance of the financial services sector in the face of liquidity challenges that could affect credit distribution. Bank Indonesia projects that banking credit growth will increase to 11-13% in 2025, higher than the previous year's projections.

With all of these projections in mind, Allo Bank has set various targets in its 2025 RBB, specifically when it comes to the economic aspects. It has also established strategic plans for how to achieve these targets. The targets include Net Profit of IDR466 billion; Lending of IDR9.7 trillion or 130% compared to the realization in 2024, and Third Party Funds of IDR8.4 trillion or 138% compared to the realization in 2024.

In line with these goals, Allo Bank has established various strategic initiatives and is committed to implementing them consistently. It aims to do so by strengthening its synergy between management and employees. Armed with its desire to provide the best in contributions, Allo Bank is optimistic that it can achieve its targets in order to realize its goal of sustainable business operations.

Penutup

Pencapaian kinerja terbaik Allo Bank secara berkesinambungan merupakan hasil kerja bersama dan dukungan dari segenap pemangku kepentingan, baik internal maupun eksternal, dalam merealisasikan inisiatif-inisiatif strategis dalam RBB Tahun 2024. Untuk itu, kami mengucapkan terima kasih kepada Dewan Komisaris yang telah melakukan pengawasan dan memberikan arahan sehingga Direksi dapat menjalankan inisiatif-inisiatif strategis dengan baik. Ungkapan yang sama kami sampaikan kepada pemegang saham yang telah memberikan kepercayaan kepada kami untuk mengelola perusahaan selama tahun pelaporan. Secara khusus, kepada seluruh karyawan, kami berterima kasih atas kerja keras, dedikasi, dan loyalitas yang diberikan selama ini.

Ungkapan terima kasih juga kami sampaikan kepada pemerintah, regulator, nasabah, mitra/pemasok, dan maupun masyarakat yang senantiasa mendukung keberadaan Allo Bank sebagai bank digital terpercaya. Kami berharap dukungan tersebut tetap diberikan agar Allo Bank terus bertumbuh dan mampu menjawab harapan segenap pemangku kepentingan dan pemegang saham demi mewujudkan visi "Menjadi bank umum berbasis digital terbaik melalui aplikasi All in One dengan memanfaatkan ekosistem untuk memberikan nilai tambah yang sebesar-besarnya bagi bangsa."

Conclusion

Allo Bank's continuous achievements and best performance is the result of joint efforts and support from internal and external stakeholders in realizing strategic initiatives in the 2024 Bank Business Plan. We would like to thank the Board of Commissioners for their supervision and direction that has ensured that the Board of Directors were able to carry out strategic initiatives properly throughout the year. We would also like to express the same gratitude to shareholders who have bestowed us with their trust to manage the company during the reporting year. To all employees, we thank you for your hard work, dedication, and loyalty.

We would also like to express our gratitude to the government, regulators, customers, partners/suppliers, and the community for always supporting Allo Bank as a trusted digital bank. We hope that this support will continue so that Allo Bank can keep growing and continue to answer the expectations of all stakeholders and shareholders. All of this is so that we can realize our vision of "Becoming the best digital-based conventional bank through an All in One application that utilizes the ecosystem to provide the greatest added value for the nation."

Strategi Keberlanjutan Allo Bank

Allo Bank Sustainability Strategy

[OJK A.1]

Pembangunan berkelanjutan yang mampu menjaga stabilitas ekonomi serta bersifat inklusif yang saat ini sedang dijalankan Indonesia memerlukan sistem perekonomian nasional yang mengedepankan keselarasan antara aspek ekonomi, sosial, dan lingkungan hidup. Sejalan dengan itu, untuk menggerakkan perekonomian nasional yang mengedepankan keselarasan antara aspek ekonomi, sosial dan lingkungan hidup, mampu menjaga stabilitas ekonomi serta bersifat inklusif dibutuhkan sumber pendanaan dalam jumlah yang memadai. Dalam konteks ini, pengembangan sistem lembaga keuangan yang ramah lingkungan hidup sebagaimana diamanatkan dalam Undang-Undang No. 32 Tahun 2009 tentang Perlindungan dan Pengelolaan Lingkungan Hidup menjadi semakin makna penting.

Sejalan dengan upaya untuk mewujudkan pembangunan berkelanjutan, Otoritas Jasa Keuangan (OJK) menerbitkan Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang

Sustainable development, which maintains economic stability and promotes inclusivity, is currently being implemented in Indonesia. This requires a national economic system that prioritizes harmony between economic, social, and environmental aspects. In line with this, driving the national economy while ensuring this harmony, maintaining economic stability, and fostering inclusivity requires adequate funding sources. In this context, the development of an environmentally friendly financial system, as mandated by Law No. 32 of 2009 concerning Environmental Protection and Management, has become increasingly important.

To support sustainable development efforts, the Financial Services Authority (OJK) issued Financial Services Authority Regulation No. 51/POJK.03/2017 concerning the Implementation

Penerapan Keuangan Berkelanjutan Bagi Lembaga Jasa Keuangan, Emiten, dan Perusahaan Publik atau POJK Keuangan Berkelanjutan. Sesuai peraturan tersebut, keuangan berkelanjutan didefinisikan sebagai dukungan menyeluruh dari sektor jasa keuangan untuk menciptakan pertumbuhan ekonomi berkelanjutan dengan menyelaraskan kepentingan ekonomi, sosial dan lingkungan hidup.

Terbitnya POJK Keuangan Berkelanjutan telah menempatkan lembaga jasa keuangan ke dalam sistem keuangan yang ramah lingkungan, sebagaimana diamanatkan dalam Undang-Undang No. 32 Tahun 2009 tentang Perlindungan dan Pengelolaan Lingkungan Hidup. Pada pasal 43, ayat 3, huruf c, disebutkan tentang pengembangan sistem lembaga keuangan dan pasar modal yang ramah lingkungan hidup.

Selain menerjemahkan spirit undang-undang lingkungan, penerbitan POJK Keuangan Berkelanjutan tak lepas dari *Roadmap* Keuangan Berkelanjutan di Indonesia 2015-2019 yang dikeluarkan oleh Otoritas Jasa Keuangan. Selepas itu, disusul dengan terbitnya *Roadmap* Keuangan Berkelanjutan Tahap II (2021-2025). Fokus *Roadmap* Tahap II adalah mendorong terciptanya ekosistem keuangan berkelanjutan secara komprehensif dengan melibatkan seluruh pihak terkait dan mendorong pengembangan kerja sama dengan pihak lain. OJK berharap *roadmap* terbaru tersebut dapat menjadi landasan bagi pelaku sektor jasa keuangan, sekaligus menjadi rujukan bagi kementerian/lembaga terkait dalam mengembangkan inisiatif-inisiatif pembiayaan inovatif yang selaras dengan prinsip keuangan berkelanjutan.

Sesuai dengan *Roadmap Keuangan Berkelanjutan Tahap II* (2021-2025) yang dirilis OJK, Allo Bank sebagai salah satu perusahaan yang bergerak di industri perbankan mendukung penuh penerapan Keuangan Berkelanjutan di Indonesia. Hal ini diharapkan dapat meningkatkan daya tahan dan daya saing Bank sehingga mampu tumbuh dan berkembang secara berkesinambungan, serta berkontribusi atas permasalahan isu serta mitigasi risiko dalam hal permasalahan lingkungan hidup dan dapat terus berkontribusi secara positif pada stabilitas sistem keuangan.

Dukungan dan komitmen Bank untuk menerapkan keuangan berkelanjutan, sekaligus mendukung pembangunan berkelanjutan di Indonesia, diwujudkan dengan menyusun Rencana Aksi Keuangan Berkelanjutan (RAKB), seperti diatur dalam pasal 4 ayat (1) POJK Keuangan Berkelanjutan. RAKB yang menjadi bagian tak terpisahkan dengan Rencana Bisnis Bank (RBB) berisi rencana, program dan kebijakan strategis sebagai implementasi prinsip-prinsip Keuangan Berkelanjutan.

of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies (POJK on Sustainable Finance). According to this regulation, sustainable finance is defined as comprehensive support from the financial services sector to foster sustainable economic growth by integrating economic, social, and environmental interests.

The issuance of the POJK on Sustainable Finance has positioned financial services institutions within an environmentally friendly financial system, as mandated by Law No. 32 of 2009 on Environmental Protection and Management. Article 43, paragraph 3, letter c of the law highlights the development of an environmentally friendly financial institution and capital market system.

Beyond reflecting the spirit of environmental law, the issuance of the POJK on Sustainable Finance is also closely tied to the 2015-2019 Sustainable Finance Roadmap in Indonesia, issued by the Financial Services Authority. This was followed by the Sustainable Finance Roadmap Phase II (2021-2025), which focuses on creating a comprehensive sustainable finance ecosystem by involving all relevant parties and fostering cooperation with other parties. The OJK expects this latest roadmap to serve as a foundation for financial services sector players and as a reference for ministries and related institutions in developing innovative financing initiatives aligned with sustainable finance principles.

In accordance with the Sustainable Finance Roadmap Phase II (2021-2025) released by OJK, Allo Bank, as a banking industry player, fully supports the implementation of Sustainable Finance in Indonesia. This commitment is expected to enhance the Bank's resilience and competitiveness, enabling sustainable growth while addressing key environmental issues and mitigating related risks. Furthermore, Allo Bank aims to contribute positively to the stability of the financial system.

The Bank's commitment to sustainable finance and its support for sustainable development in Indonesia is demonstrated through the preparation of a Sustainable Finance Action Plan (RAKB), as mandated by Article 4, paragraph (1) of the POJK on Sustainable Finance. The RAKB, which is an integral part of the Bank's Business Plan (RBB), outlines strategic plans, programs, and policies as an implementation of Sustainable Finance principles.

Tentang Laporan Keberlanjutan

About This Sustainability Report

Laporan Keberlanjutan merupakan media untuk menunjukkan akuntabilitas dan transparansi bagi PT Allo Bank Indonesia Tbk dalam menjalankan usaha beserta dampak operasinya terhadap ekonomi, lingkungan hidup dan sosial. Untuk itu, setiap tahun, Bank menerbitkan Laporan Keberlanjutan sebagai bagian tak terpisahkan dari Laporan Tahunan Perusahaan.

Laporan keberlanjutan tahun buku 2024 ini merupakan penerbitan ketiga, sedangkan laporan tahun sebelumnya terbit pada April 2024. Laporan ini berisi tentang kinerja keberlanjutan yang terdiri dari tiga aspek, yaitu aspek ekonomi, lingkungan, dan sosial beserta dampak yang ditimbulkannya selama periode 1 Januari-31 Desember 2024. Implementasi keselarasan atas ketiga aspek sekaligus merupakan dukungan Bank terhadap penerapan keuangan berkelanjutan serta pencapaian Tujuan Pembangunan Berkelanjutan/TBP (*Sustainable Development Goals/SDGs*) di Indonesia.

Penerbitan laporan ini merupakan kepatuhan Allo Bank terhadap Peraturan Otoritas Jasa Keuangan (POJK) No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik. Bank menerbitkan laporan ini dalam statusnya sebagai Bank Umum Kegiatan Usaha (BUKU) 3 per 1 Januari 2022, atau Kelompok Bank berdasarkan Modal Inti (KBMI) 2 sesuai Peraturan OJK No. 12/POJK.03/2021 tentang Bank Umum. Selain edisi cetak, laporan yang sama dapat diunduh di *website* resmi Bank, yaitu <https://www.allobank.com/>.

This Sustainability Report serves as a medium for PT Allo Bank Indonesia Tbk to demonstrate its accountability and transparency in running its business and in showing the impact of its operations on the economy, on the environment and on society. For this reason, the Bank publishes this Sustainability Report annually as an integral part of its Annual Report.

This 2024 fiscal year's sustainability report marks the third time the Bank has published this report. The previous year's report was published in April 2024. This report contains information on sustainability performance that consists of three aspects, specifically, economic, environmental, and social aspects, alongside any impacts they caused during the period spanning January 1 to December 31, 2024. The Bank's alignment of these three aspects also serves as its way of implementing sustainable finance and achieving the nation's Sustainable Development Goals (SDGs).

The publication of this report is Allo Bank's way of complying with Financial Services Authority Regulation (POJK) No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies. The Bank has published this report in its status as an entity categorized as a "Conventional Bank with Business Activities (BUKU) 3" as of January 1, 2022, or as a "Bank Group based on Core Capital (KBMI) 2" in accordance with POJK No. 12/POJK.03/2021 concerning Conventional Bank. In addition to its printed edition, this same report can be downloaded on the Bank's official website located at <https://www.allobank.com/>.

Profil Perusahaan

Company Profile

PT Allo Bank Indonesia Tbk, yang selanjutnya disebut juga dengan Allo Bank atau Bank, sebelumnya dikenal dengan nama PT Bank Arta Griya yang berdiri pada 21 Oktober 1992. Kemudian, pada 18 Januari 1993, namanya berubah menjadi PT. Bank Harda Griya, yang dikenal dengan sebutan Bank Harda. Tiga tahun kemudian, tepatnya pada 10 Desember 2016, namanya kembali diubah menjadi PT Bank Harda Internasional (BHI). Pada tahun 2015, BHI melakukan Penawaran Saham Perdana (IPO) kepada masyarakat. Selanjutnya, BHI resmi diakuisisi oleh PT Mega Corpora dan mendapatkan persetujuan OJK pada Maret 2021. Pada 30 Juni 2021, BHI resmi berganti nama menjadi PT Allo Bank Indonesia Tbk.

Allo merupakan singkatan dari *All in One*, yang mewujudkan aspirasi Bank bagi nasabahnya untuk *Experience a Simple Life*. Allo Bank adalah anak perusahaan dari CT Corp, sebuah grup bisnis terintegrasi terkemuka yang berfokus pada konsumen di Indonesia dengan beragam usaha di layanan keuangan, media, ritel, gaya hidup dan hiburan. Sejak *grand launching* pada 20 Mei 2022 sampai dengan akhir tahun 2024, Allo Bank telah berkembang menjadi bank umum berbasis digital terkemuka dengan melayani lebih dari 11 juta nasabah.

Sejak Juli 2022, Allo Bank berkantor pusat di Menara Bank Mega, Lantai 5-6, Jalan Kapten P. Tendean No. 12-14A, Jakarta Selatan 12790, Telepon: (+62 21) 7990671, 79184705, 79182387, Faksimile: (+62 21) 3841022, 3851023, Email: corsec@allobank.com, Website: www.allobank.com.

Perubahan Signifikan pada Bank [\[OJK C.6\]](#)

Pada tahun pelaporan terdapat perubahan signifikan antara lain Bank merilis produk Rekening Dana Nasabah (RDN) pada 1 Juli 2024. Peluncuran produk tersebut dilakukan setelah PT Kustodian Sentral Efek Indonesia (KSEI) menetapkan dan melakukan penandatanganan Perjanjian Kerja Sama (PKS) dengan sebanyak 23 Bank Administrator Rekening Dana Nasabah (Bank Administrator RDN) dan Bank Pembayaran, di mana salah satunya adalah Allo Bank .

Sesuai dengan Surat Edaran Otoritas Jasa Keuangan No. 6/SEOJK.04/2019 tentang Pedoman Pembukaan Rekening Efek Nasabah dan Rekening Dana Nasabah Secara Elektronik Melalui Perusahaan Efek yang Melakukan Kegiatan Usaha Sebagai Perantara Pedagang Efek, yang dimaksud Rekening Dana Nasabah adalah rekening dana atas nama nasabah di Bank RDN yang ditunjuk oleh Lembaga Penyimpanan dan Penyelesaian sesuai ketentuan peraturan perundang-undangan, yang diadministrasikan oleh Perantara Pedagang Efek berdasarkan kuasa atau instruksi dari nasabah .

Selain itu, Bank juga menawarkan layanan pembayaran *Virtual Account* dan layanan *Virtual Debit Card* dalam rangka memenuhi berbagai aspek kebutuhan finansial nasabahnya secara aman, nyaman dan handal.

As of December 31, 2024, the Bank employed 484 individuals, marking an increase from 380 employees in 2023. The breakdown of employees according to gender, position, age, education, and employment status is provided comprehensively in the Profile Chapter of the Bank's Annual Report. [\[OJK C.3\]](#)

Significant Changes in the Bank [\[OJK C.6\]](#)

During the reporting year, significant changes took place, including the launch of the Customer Fund Account (RDN) product on July 1, 2024. This product was introduced following PT Kustodian Sentral Efek Indonesia (KSEI)'s approval and the signing of a Cooperation Agreement (PKS) with 23 Customer Fund Account Administrator Banks (RDN Administrator Banks) and Payment Banks, one of which is Allo Bank.

In accordance with the Financial Services Authority's Circular Letter No. 6/SEOJK.04/2019 concerning Guidelines for Opening Customer Securities Accounts and Customer Fund Accounts Electronically Through Securities Companies Acting as Securities Trading Intermediaries, the Customer Fund Account is a fund account registered under the customer's name at an RDN Bank designated by the Depository and Settlement Institution, in compliance with relevant laws and regulations. This account is managed by a Securities Trading Intermediary based on the customer's power of attorney or instructions.

Additionally, the Bank also offers Virtual Account payment services and Virtual Debit Card services, providing customers with a secure, convenient, and reliable financial experience.

Tata Kelola Berkelanjutan

Sustainable Governance

Tata Kelola Perusahaan yang Baik (*Good Corporate Governance*) memiliki peran krusial dalam industri perbankan Indonesia, terutama bagi bank umum berbasis layanan digital seperti Allo Bank. Penerapan tata kelola secara paripurna tidak hanya memperkuat posisi Bank dalam menghadapi persaingan, tetapi juga mendukung perkembangan jangka panjang dan meningkatkan kepercayaan para pemangku kepentingan. Lebih lanjut, bagi Allo Bank yang beroperasi dalam lingkungan teknologi digital yang cepat berubah, tata kelola yang baik menjadi semakin penting untuk memastikan penggunaan teknologi yang inovatif dan aman, manajemen risiko yang memadai, serta perlindungan data nasabah yang maksimal.

Allo Bank sebagai bagian dari pelaku industri perbankan berkomitmen untuk mendukung sepenuhnya penerapan tata kelola yang baik bagi bank sebagaimana disampaikan dalam POJK Tata Kelola. Dukungan direalisasikan Bank dengan menerapkan prinsip-prinsip tata kelola yaitu keterbukaan (*transparency*), akuntabilitas (*accountability*), tanggung jawab (*responsibilities*), independensi (*independency*), serta kewajaran, dan kesetaraan (*fairness & equity*). Untuk mendapatkan hasil terbaik, prinsip-prinsip tersebut diterapkan Bank di seluruh tingkatan atau jenjang organisasi.

Penanggung Jawab Penerapan Keuangan Berkelanjutan di Allo Bank

Sebagai lembaga jasa keuangan sekaligus perusahaan terbuka, Allo Bank berkewajiban untuk menerapkan Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik atau POJK Keuangan Berkelanjutan. Untuk mengukuhkan penerapan keuangan berkelanjutan, Bank melakukan sejumlah penyesuaian tata kelola perusahaan yang baik, yaitu tata kelola yang mengutamakan aspek Lingkungan (*Environmental*), Sosial (*Social*) dan Tata Kelola (*Governance*) atau ESG. Penyesuaian yang dilakukan Bank antara lain berkaitan dengan penanggung jawab

Good Corporate Governance plays a crucial role in the Indonesian banking industry, especially for digital service-based conventional bank such as Allo Bank. Implementing comprehensive governance not only strengthens the Bank's position in facing competition but also supports long-term growth and enhances stakeholder trust. Furthermore, for Allo Bank, which operates in a rapidly evolving digital technology environment, good governance is increasingly important to ensure the adoption of innovative and secure technology, effective risk management, and optimal customer data protection.

As part of the banking industry, Allo Bank is committed to fully supporting the implementation of good governance, as outlined in the POJK on Governance. The Bank realizes this commitment by applying the principles of corporate governance—transparency, accountability, responsibility, independence, and fairness and equity. To achieve the best outcomes, these principles are implemented across all levels of the organization.

Responsible Party in Implementing Sustainable Finance at Allo Bank

As a financial services institution and a public company, Allo Bank is obliged to comply with Financial Services Authority Regulation No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies (POJK Sustainable Finance). To strengthen its commitment to sustainable finance, the Bank has made a number of adjustments to its corporate governance framework by prioritizing environmental, social, and governance (ESG) aspects. These adjustments include assigning responsibility for implementing sustainable finance in accordance with Appendix II of POJK Sustainable Finance. The appendix outlines

penerapan keuangan berkelanjutan sebagaimana diatur dalam Lampiran II POJK Keuangan Berkelanjutan. Dalam lampiran tersebut antara lain mengatur tentang tugas anggota Direksi dan anggota Dewan Komisaris, pegawai, pejabat dan/atau unit kerja yang menjadi penanggung jawab penerapan keuangan berkelanjutan.

Di Allo Bank, penerapan keuangan berkelanjutan secara umum menjadi tanggung jawab Direktur Utama sebagai pemimpin tertinggi. Namun demikian, dalam pelaksanaan penerapan keuangan berkelanjutan, hampir seluruh pemimpin divisi yang ada di Bank turut terlibat antara lain Sekretaris Perusahaan & PMO, *Funding*, Kredit, HRD, *Finance*, *Procurement & Business Planning*, serta Manajemen Risiko dan Kepatuhan. Pada tahun 2024, Bank memperoleh sertifikasi COBIT 2019 dengan Tingkat Maturitas TI di level 4.21. Keberhasilan tersebut menjadi pemenuhan salah satu komitmen dan dedikasi Bank dalam menerapkan standar terbaik dalam tata kelola teknologi informasi. Pencapaian ini merupakan bentuk keseriusan Bank dalam berinovasi secara terus menerus dan memastikan bahwa setiap proses bisnis yang menggunakan teknologi informasi berjalan dengan baik, terkontrol, dan berkelanjutan.

Secara internal Bank telah melakukan beberapa inisiatif untuk implementasi dokumentasi secara *paperless* salah satunya dengan penggunaan tanda tangan digital. Sehingga memungkinkan manajemen untuk menandatangani dokumen secara hemat waktu, menghemat biaya percetakan, pengiriman dan penyimpanan juga mengurangi kesalahan yang terkait dengan tanda tangan manual.

Dalam rangka peningkatan kompetensi karyawan, berbagai program training internal telah dilakukan secara daring dan sertifikat yang diberikan kepada karyawan berbentuk sertifikat secara *online*. Bank menggunakan KnowBe4 sebagai platform untuk melakukan training secara berkala kepada karyawan dimana karyawan bisa mendapatkan sertifikat secara *online*.

Memenuhi prinsip tata kelola, Bank telah melakukan pengkajian pada kebijakan penerapan keuangan berkelanjutan, dan kebijakan lain yang relevan dengan prinsip keuangan berkelanjutan. Selanjutnya Bank dalam menjalankan hubungan bisnis Bank dengan Nasabah dan pihak eksternal secara *Bank wide*, Bank mengedepankan prinsip kehati-hatian (*Prudential Banking*), beretika, juga nilai-nilai sosial yang berlaku umum.

Untuk meningkatkan awareness karyawan terhadap kebersihan di lingkungan tempat bekerja, Bank telah menetapkan kebijakan terkait tempat kerja bersih dan lingkungan kantor bersih.

Dalam hal melakukan edukasi literasi inklusi keuangan atas produk perbankan digital untuk mendukung *cashless society*, Bank menjadi fasilitator dan juga bekerjasama dengan berbagai institusi termasuk lembaga pendidikan.

the duties of the Board of Directors, Board of Commissioners, employees, officials, and relevant work units in implementing sustainable finance.

At Allo Bank, the overall responsibility for sustainable finance rests with the President Director as the highest-ranking leader. However, its implementation involves nearly all division leaders, including Corporate Secretary & PMO, Funding, Credit, HRD, Finance, Procurement & Business Planning, and Risk Management & Compliance. In 2024, the Bank obtained COBIT 2019 certification with an IT Maturity Level of 4.21. This achievement reflects the Bank's commitment and dedication to implementing the highest standards in information technology governance. It also demonstrates the Bank's continuous efforts to innovate and ensure that all business processes involving information technology are well-managed, controlled, and sustainable.

Internally, the Bank has launched several initiatives to adopt paperless documentation, including the use of digital signatures. This initiative enables management to sign documents efficiently, reducing printing, shipping, and storage costs while minimizing errors associated with manual signatures.

To enhance employee competency, the Bank has conducted various internal training programs online, with certificates issued digitally. Additionally, Allo Bank utilizes the KnowBe4 platform to provide regular training sessions, allowing employees to obtain certifications online.

In alignment with governance principles, the Bank has updated its policies on sustainable finance implementation and other policies relevant to sustainable finance principles. Furthermore, in conducting business relations with customers and external parties across the Bank, it prioritizes the principle of prudence (*Prudential Banking*), ethics, and generally accepted social values.

To raise employee awareness about workplace cleanliness, the Bank has introduced policies promoting a clean work environment.

In terms of promoting financial inclusion and literacy education on digital banking products to support a cashless society, the Bank acts as a facilitator and collaborates with various institutions, including educational institutions.

Kegiatan tanggung jawab lingkungan secara internal, Bank mengimplementasikan nya antara lain dengan meminimalisir penggunaan kertas, tempat makan/tempat minum sekali pakai, upaya dalam rangka hemat penggunaan air, hemat penggunaan listrik, serta penyediaan tempat khusus kertas tidak terpakai di samping mesin printer.

Kampanye kepada seluruh karyawan dilakukan melalui *Culture Awareness Program* via *email blast* kepada seluruh karyawan, dan *Clean Desk Awareness* berupa kebijakan dan kuis yang ditujukan kepada seluruh karyawan.

Komitmen dan Kebijakan Tanggung Jawab Sosial Perusahaan (*Corporate Social Responsibility* atau “CSR”) Allo Bank dalam menerapkan kegiatan tanggung jawab sosialnya mengacu pada prinsip keberlanjutan (*sustainability*) sebagai bentuk komitmen Bank untuk mendukung misi *Sustainable Development Goals* (SDGs) dan membangun hubungan harmonis dengan masyarakat, lingkungan, komunitas dan seluruh pemangku kepentingan lainnya melalui perilaku yang transparan dan beretika.

CSR juga merupakan bentuk komitmen Allo Bank kepada lingkungan dengan tujuan untuk berperan serta dalam pembangunan berkelanjutan selaras dengan prinsip *Triple Bottom Line* yaitu *People, Planet, Profit* (3P) serta memberikan nilai tambah kepada semua pemangku kepentingan termasuk internal perusahaan guna mendukung pertumbuhan Bank. Allo bank mendefinisikan CSR sebagai tanggung jawab atas dampak dari keputusan dan aktivitasnya pada masyarakat dan lingkungan, melalui perilaku yang transparan dan beretika yang bertujuan untuk:

1. Membangun citra dan reputasi Bank yang dapat meningkatkan kepercayaan kepada Allo Bank
2. Membangun hubungan yang harmonis dengan segenap pemangku kepentingan.
3. Menumbuhkan positive value karyawan terhadap Allo Bank.
4. Konsisten dengan pembangunan berkelanjutan (*sustainable development*) dan kesejahteraan masyarakat.
5. Mematuhi peraturan dan ketentuan yang berlaku.

Allo Bank terus berupaya memaksimalkan manfaat atas keberadaan Bank di tengah masyarakat melalui berbagai program CSR di bawah branding “Allo Bank Pelita”, termasuk program kerja sama dengan CT Arsa Foundation untuk semakin memperkuat dampak sosial kepada semua *stakeholders*.

Untuk memperkuat tata kelola yang mengutamakan ESG, sekaligus menyelaraskan dengan Rencana Aksi Keuangan Berkelanjutan (RAKB), Allo Bank melakukan tiga penyesuaian kebijakan manajemen risiko dan tata kelola perusahaan yang baik sebagai berikut:

1. Melakukan pembaruan kebijakan perkreditan Bank terkait pengaturan pemberian kredit yang perlu dihindari dengan mempertimbangkan dampak aktivitas usaha yang dihasilkan dari calon debitur terhadap keberlangsungan lingkungan hidup dan dampak negatif terhadap sosial.
2. Melakukan pembaruan terhadap *Standard Operating Procedure* (SOP) kredit terkait penerapan Keuangan Berkelanjutan.

Regarding internal environmental responsibility, the Bank implements initiatives such as minimizing paper usage, reducing disposable food and drink containers, conserving water and electricity, and providing designated disposal areas for unused paper near printers.

Employee engagement in these initiatives is encouraged through the Culture Awareness Program, which includes email blasts to all employees, as well as Clean Desk Awareness campaigns in the form of policies and quizzes directed at all staff.

Allo Bank's Corporate Social Responsibility (CSR) commitment and policy in implementing its social responsibility initiatives are based on the principle of sustainability, reflecting the Bank's dedication to supporting the Sustainable Development Goals (SDGs) mission. Through transparent and ethical behavior, the Bank aims to build harmonious relationships with society, the environment, communities, and all other stakeholders.

CSR is also a manifestation of Allo Bank's commitment to environmental sustainability, aligning with the Triple Bottom Line principle—People, Planet, and Profit (3P)—while delivering added value to all stakeholders, including internal entities, to support the Bank's growth. Allo Bank defines CSR as the responsibility for the impact of its decisions and activities on society and the environment, carried out through transparent and ethical practices with the following objectives:

1. Enhancing the Bank's image and reputation to strengthen public trust.
2. Building and maintaining harmonious relationships with all stakeholders.
3. Fostering positive employee value towards Allo Bank.
4. Ensuring alignment with sustainable development and community welfare.
5. Complying with applicable rules and regulations.

Allo Bank continuously strives to maximize its positive impact on society through various CSR programs under the “Allo Bank Pelita” branding, including a collaboration program with the CT Arsa Foundation, further reinforcing the Bank's social impact on all stakeholders.

To enhance governance that prioritizes ESG aspects while aligning with the Sustainable Finance Action Plan (RAKB), Allo Bank has made three adjustments to its risk management policies and corporate governance framework:

1. Updating the Bank's credit policy to include regulations on credit provisions that should be avoided, particularly those involving business activities generated by prospective debtors with negative environmental and social impacts.
2. Revising the Standard Operating Procedure (SOP) pertaining to the implementation of Sustainable Finance Principles.

3. Melakukan sosialisasi dan peningkatan kesadaran terhadap pemahaman keuangan berkelanjutan. Untuk meminimalisasi risiko dalam penerapan ESG, Allo Bank telah mencanangkan target penyesuaian dan pembaruan kebijakan perkreditan Bank, SOP kredit, serta meningkatkan kesadaran atas keuangan berkelanjutan dalam analisis industri dan akan meningkatkan kepercayaan pemangku kepentingan dan mendukung pembangunan berkelanjutan.

3. Initiating outreach efforts and heightened awareness regarding sustainable finance. To mitigate risks associated with ESG implementation, Allo Bank has set a target to adjust and update the Bank's credit policy and SOP as well as enhancing awareness of sustainable finance in industry analysis. These efforts are expected to strengthen stakeholder trust and contribute to sustainable development.

Pengembangan Kompetensi Terkait Keuangan Berkelanjutan

Allo Bank memberikan kesempatan seluas-luasnya kepada Dewan Komisaris, Direksi dan seluruh pemimpin divisi untuk mengikuti pengembangan kompetensi terkait penerapan keuangan berkelanjutan. Bank meyakini pengembangan kompetensi tersebut akan sangat membantu dalam penerapan keuangan berkelanjutan pada tahun pelaporan maupun pada tahun-tahun berikutnya. Pengembangan kompetensi selengkapnyanya selama pada tahun 2024 disampaikan dalam tabel berikut: [\[OJK E.2\]](#)

Sustainable Financial Competencies Development

Allo Bank provides extensive opportunities for the Board of Commissioners, Board of Directors, and all division leaders to participate in competency development programs related to sustainable finance. The Bank believes that enhancing competencies will significantly support the effective implementation of sustainable finance both in the reporting year and in the years to come. A detailed overview of the competency development programs conducted in 2024 is presented in the following table:

Penilaian Risiko Atas Penerapan Keuangan Berkelanjutan [OJK E.3]

Penerapan keuangan berkelanjutan membawa sejumlah risiko bagi perbankan yang perlu dikelola dengan cermat, termasuk tantangan dalam mengintegrasikan aspek Lingkungan, Sosial, dan Tata Kelola (ESG) ke dalam proses manajemen risiko. Risiko-risiko ini mencakup risiko kredit, risiko pasar, risiko likuiditas, dan risiko operasional. Selain itu, bank juga menghadapi risiko terkait perubahan iklim, yang dapat mempengaruhi kemampuan debitur untuk mengembalikan pinjaman. Untuk meminimalkan dampak atas risiko yang muncul, maka implementasi manajemen risiko menjadi sangat penting, baik yang terkait dengan fungsi identifikasi, pengukuran, pemantauan, dan pengendalian risiko yang dihadapi bank, termasuk dalam menerapkan berbagai program keuangan berkelanjutan.

Untuk meraih hasil terbaik, Allo Bank menerapkan manajemen risiko dengan mengacu pada Peraturan Otoritas Jasa Keuangan No. 18/POJK.03/2016 dan Surat Edaran Otoritas Jasa Keuangan No. 34/SEOJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum. Kerangka kerja manajemen risiko Bank menetapkan pendekatan pengelolaan risiko dan kerangka pengendalian di mana risiko dikelola untuk mendapatkan keseimbangan antara risiko (*risk*) dan pendapatan (*return*).

Allo Bank menerapkan kerangka kerja manajemen risiko melalui perumusan tingkat risiko yang akan diambil (*risk appetite*) dan toleransi risiko (*risk tolerance*) bagi setiap jenis risiko. Selain itu, Bank juga mengembangkan kebijakan dan prosedur manajemen risiko yang berkesesuaian serta pengembangan struktur pengendalian internal secara terpadu. Lebih dari itu, Bank juga membangun budaya risiko yang menitikberatkan kesadaran seluruh pegawai akan risiko dan efektivitas proses manajemen risiko.

Adapun penerapan manajemen risiko di Allo Bank mengacu pada empat pilar manajemen risiko sebagai berikut:

1. Pengawasan aktif Dewan Komisaris dan Direksi.
2. Kecukupan kebijakan, prosedur, dan penetapan limit manajemen risiko.
3. Kecukupan proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko serta sistem informasi manajemen risiko.
4. Sistem pengendalian internal yang menyeluruh.

Selain mengacu keempat pilar di atas, manajemen risiko Allo Bank juga merujuk pada *best practices* yang dikeluarkan oleh *Basel Committee on Banking Supervision*.

Di sepanjang tahun 2024, segenap manajemen dengan dukungan karyawan Allo Bank secara konsisten menerapkan manajemen risiko terpadu dan komprehensif sehingga mampu mendukung pencapaian target kinerja dan menjaga kelangsungan usaha. Bank optimis penerapan strategi manajemen risiko yang proaktif akan meningkatkan efektivitas penggunaan modal dan tingkat pengembangan modal (*Return on Equity*) sehingga dapat memberikan nilai tambah bagi pemegang saham.

Risk Assessment on Sustainable Finance Implementation [OJK E.3]

The implementation of sustainable finance introduces various risks that banks must manage carefully, including the challenge of integrating Environmental, Social, and Governance (ESG) aspects into the risk management process. These risks include credit risk, market risk, liquidity risk, and operational risk. Additionally, banks face climate change-related risks that may impact borrowers' ability to repay loans. To mitigate the impact of these emerging risks, a strong risk management framework is essential, encompassing the identification, measurement, monitoring, and control of risks, including those associated with various sustainable finance programs.

To ensure effective risk management, Allo Bank adheres to Financial Services Authority Regulation No. 18/POJK.03/2016 and Financial Services Authority Circular Letter No. 34/SEOJK.03/2016 concerning the Implementation of Risk Management for Conventional Bank. The Bank's risk management framework is designed to establish a structured approach to risk control, balancing risk and return to optimize decision-making.

Allo Bank implements a risk management framework by defining the level of risk it is willing to take (*risk appetite*) and establishing risk tolerance for each type of risk. In addition, the Bank develops appropriate risk management policies and procedures while strengthening its integrated internal control structure. Moreover, the Bank fosters a risk-aware culture, emphasizing the importance of risk awareness among all employees and the effectiveness of the risk management process.

The Bank's risk management is structured around four key pillars:

1. Active supervision by the Board of Commissioners and Board of Directors.
2. Adequate risk management policies, procedures, and limits for risk control.
3. Effective risk identification, measurement, monitoring, and control processes, supported by an advanced risk management information system.
4. A comprehensive internal control system.

In addition to these pillars, Allo Bank aligns its risk management practices with international best practices issued by the *Basel Committee on Banking Supervision*.

Throughout 2024, with the support of its employees, Allo Bank consistently implemented an integrated and comprehensive risk management framework to ensure the achievement of performance targets and business continuity. The Bank remains optimistic that a proactive risk management strategy will enhance capital efficiency and optimize Return on Equity (ROE), ultimately creating added value for shareholders.

Dalam menerapkan manajemen risiko, Bank senantiasa memperhatikan cakupan penilaian penerapan manajemen risiko melalui profil risiko, baik penilaian *inherent risk* maupun penilaian kualitas penerapan manajemen risiko. Selain itu, Bank juga menyesuaikan setiap indikator penilaian sesuai dengan peraturan yang baru dengan menggunakan konsep *Risk Based Bank Rating* (RBBR).

Lebih lanjut, untuk menguatkan implementasi manajemen risiko, Allo Bank terus berupaya untuk meningkatkan hasil penilaian peringkat komposit melalui perbaikan dan evaluasi pada empat kategori risiko utama yang dihadapi Bank, di samping risiko lainnya. Keempat risiko utama yang dihadapi Bank adalah risiko kredit, risiko pasar, risiko likuiditas, risiko operasional. Dengan melibatkan semua unsur dalam Bank, Dewan Komisaris dan Direksi yang mempunyai tugas memastikan penerapan manajemen risiko menyatakan bahwa manajemen risiko telah memadai sesuai kompleksitas dan profil risiko Bank serta memahami dengan baik jenis dan tingkat risiko yang melekat pada kegiatan bisnis Bank.

Hubungan dengan Pemangku Kepentingan [OJK E.4]

Komunikasi dan hubungan yang harmonis antara Allo Bank dengan segenap pemangku kepentingan, baik pemangku internal maupun eksternal, merupakan pondasi yang kokoh untuk mewujudkan kinerja terbaik. Merujuk pada Peraturan Otoritas Jasa Keuangan (POJK) No. 17 Tahun 2023 tentang Penerapan Tata Kelola Bagi Bank Umum (POJK Tata Kelola), pemangku kepentingan adalah seluruh pihak yang memiliki kepentingan secara langsung atau tidak langsung terhadap kegiatan usaha Bank. Berdasarkan pengertian tersebut, Allo Bank merumuskan pemangku kepentingan sebagai kelompok atau individu yang terpengaruh oleh kegiatan, produk dan jasa yang ditawarkan Bank. Disisi lain, keberadaan mereka juga mempengaruhi Allo Bank dalam mewujudkan keberhasilan penerapan strategi dan pencapaian tujuan.

Untuk mewujudkan hubungan yang harmonis, Allo Bank melibatkan pemangku kepentingan sesuai dengan kepentingan masing-masing. Proses pelibatan pemangku kepentingan mencakup upaya Bank untuk memenuhi harapan dari setiap pemangku kepentingan dengan menggunakan sumber daya yang dimiliki, dengan cara yang tepat, dapat dipertanggungjawabkan, serta tidak bertentangan dengan ketentuan yang diatur dalam peraturan perundang-undangan yang berlaku.

Allo Bank secara berkesinambungan melibatkan para pemangku kepentingan sejalan dengan komitmen untuk meningkatkan transparansi, akuntabilitas, serta mendapatkan masukan berharga untuk perbaikan kinerja dan pengembangan produk/layanan yang sesuai kebutuhan nasabah. Lebih dari itu, pelibatan pemangku kepentingan juga penting dalam mendukung implementasi keuangan berkelanjutan dan tata kelola perusahaan yang baik di Bank.

In executing its risk management strategy, the Bank conducts risk profile assessments, covering both inherent risk evaluations and risk management quality assessments. Additionally, the Bank continuously adapts its assessment indicators in response to new regulations, employing the Risk-Based Bank Rating (RBBR) concept.

To further strengthen risk management, Allo Bank is committed to improving composite rating assessments through continuous evaluation and refinement of the four primary risks it faces: credit risk, market risk, liquidity risk, operational risk. By involving all elements within the Bank, the Board of Commissioners and Board of Directors, who are responsible for ensuring proper risk management implementation, have affirmed that the Bank's risk management framework is adequate given the Bank's complexity and risk profile. Furthermore, they have demonstrated a comprehensive understanding of the types and levels of risks inherent in the Bank's business operations.

Relations with Stakeholders [OJK E.4]

Harmonious communication and strong relationships between Allo Bank and all stakeholders, both internal and external, serve as a solid foundation for achieving optimal performance. Referring to Financial Services Authority Regulation (POJK) No. 17 of 2023 concerning the Implementation of Governance for Conventional Bank (POJK Governance), stakeholders are defined as all parties who have a direct or indirect interest in the Bank's business activities. Based on this understanding, Allo Bank identifies stakeholders as groups or individuals affected by the Bank's activities, products, and services. At the same time, these stakeholders also play a role in influencing the Bank's ability to successfully implement its strategies and achieve its goals.

To foster harmonious relationships, Allo Bank engages stakeholders based on their respective interests. The stakeholder engagement process involves the Bank's efforts to meet stakeholder expectations by utilizing its resources appropriately and accountably, while ensuring compliance with applicable laws and regulations.

Allo Bank consistently engages with stakeholders in alignment with its commitment to enhancing transparency and accountability while gaining valuable insights for improving performance and developing products and services that meet customer needs. Furthermore, stakeholder engagement plays a crucial role in supporting the implementation of sustainable finance and good corporate governance at the Bank.

Berdasarkan uraian di atas, pemangku kepentingan Allo Bank dan metode keterlibatan selengkapnya adalah sebagai berikut:

Based on the description above, the complete list of Allo Bank's stakeholders and their engagement methods are as follows:

Permasalahan dalam Penerapan Keuangan Berkelanjutan [OJK E.5]

Selama tahun 2024, Allo Bank telah berupaya maksimal untuk menerapkan keuangan berkelanjutan, termasuk melaksanakan program-program terpilih dalam Rencana Aksi Keuangan Berkelanjutan (RAKB) Tahun 2024.

Identifikasi atas tantangan dan hambatan terkait dengan perubahan di lingkungan internal dan eksternal yang dapat mempengaruhi pelaksanaan RAKB antara lain sebagai berikut:

1. Merubah pola pikir atas budaya berkelanjutan yang perlu untuk ditingkatkan dan dikembangkan.
2. Menyatukan persepsi dari level management sampai ke karyawan terkait program yang berkelanjutan.
3. Berkontribusi dalam meningkatkan tingkat pemahaman masyarakat terhadap literasi keuangan secara berkelanjutan.
4. Situasi dan kondisi eksternal antara lain perubahan kebijakan pemerintah dan regulator.

Tindakan antisipatif terhadap tantangan internal dan eksternal dimulai dengan mengembangkan SDM, membangun *awareness*, kemudian didukung oleh kebijakan, sistem, serta metode monitoring serta konsistensi Bank dalam melaksanakan bisnis bank sesuai visi dan misi serta Rencana Bisnis Bank (RBB). Bank pun perlu bersifat adaptif terhadap perubahan eksternal.

Issues in Sustainable Finance Implementation [OJK E.5]

Throughout 2024, Allo Bank has made significant efforts to implement sustainable finance, including executing selected programs from the 2024 Sustainable Finance Action Plan (RAKB).

Challenges and obstacles related to changes in the internal and external environment that may impact the implementation of RAKB include:

1. The need to enhance and develop a sustainable culture mindset.
2. Aligning perceptions of sustainable programs across all levels of management and employees.
3. Contributing to increasing the level of public understanding of financial literacy in a sustainable manner.
4. External factors, such as changes in government policies and regulations.

To address these internal and external challenges, the Bank has adopted an anticipatory approach, beginning with human resource development and awareness-building, supported by policies, systems, monitoring methods, and the Bank's commitment to conducting business in accordance with its vision, mission, and Business Plan (RBB). Additionally, the Bank must remain adaptive to external changes.

Kinerja Keberlanjutan

Sustainability Performance

Allo Bank sebagai bagian dari lembaga jasa keuangan di Indonesia berkomitmen untuk menerapkan keuangan berkelanjutan, sebagaimana diatur dalam POJK No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten, dan Perusahaan Publik atau POJK Keuangan Berkelanjutan. Menurut peraturan ini, keuangan berkelanjutan adalah dukungan menyeluruh dari sektor jasa keuangan untuk menciptakan pertumbuhan ekonomi berkelanjutan dengan menyelaraskan kepentingan ekonomi, lingkungan hidup, dan sosial.

Bagi Bank, keselarasan antara aspek ekonomi, lingkungan hidup dan sosial merupakan suatu keharusan karena fungsi suatu perusahaan bukan hanya mencetak laba tetapi juga dituntut menjaga kelestarian lingkungan hidup dan menunjukkan kepedulian pada isu-isu sosial. Lebih dari itu, Bank meyakini keselarasan ketiga aspek merupakan fondasi penting untuk mewujudkan bisnis yang berkesinambungan dengan pencapaian kinerja yang optimal.

Kegiatan Membangun Budaya Keberlanjutan [OJK F.1]

Dukungan Allo Bank terhadap penerapan keuangan berkelanjutan direalisasikan melalui berbagai kebijakan antara lain menyusun Rencana Aksi Keuangan Berkelanjutan (RAKB), mengembangkan produk dan/atau jasa keuangan berkelanjutan berbasis teknologi digital, melaksanakan edukasi keuangan berkelanjutan, dan sebagainya. Lebih lanjut, untuk mendukung implementasi keuangan berkelanjutan yang efektif, Allo Bank menerapkan 8 (delapan) prinsip sebagai panduan yaitu:

1. Prinsip investasi bertanggung jawab;
2. Prinsip strategi dan praktik bisnis berkelanjutan;
3. Prinsip pengelolaan risiko sosial dan lingkungan hidup;
4. Prinsip tata kelola;
5. Prinsip komunikasi yang informatif;
6. Prinsip inklusif;

As part of Indonesia's financial services sector, Allo Bank is committed to implementing sustainable finance, in accordance with POJK No. 51/POJK.03/2017 on the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies (POJK Sustainable Finance). This regulation defines sustainable finance as comprehensive support from the financial services sector to foster sustainable economic growth by aligning economic, environmental, and social interests.

For the Bank, aligning economic, environmental, and social aspects is essential, as a company's role extends beyond generating profits to also maintaining environmental sustainability and demonstrating social concern. Furthermore, the Bank believes that integrating these three aspects forms a crucial foundation for achieving sustainable business growth and optimal performance.

Activities to Build a Culture of Sustainability [OJK F.1]

Allo Bank supports sustainable finance through various policies, including preparing a Sustainable Finance Action Plan (RAKB), developing sustainable financial products and services based on digital technology, implementing sustainable finance education, and more. To ensure the effective implementation of sustainable finance, Allo Bank adheres to eight guiding principles:

1. Principle of responsible investment;
2. Principle of sustainable business strategy and practice;
3. Principle of social and environmental risk management;
4. Principle of governance;
5. Principle of informative communication;
6. Principle of inclusiveness;

7. Prinsip pengembangan sektor unggulan prioritas; dan
8. Prinsip koordinasi dan kolaborasi

Berpedoman pada delapan prinsip tersebut, selanjutnya Bank menetapkan budaya keberlanjutan, yaitu komitmen untuk mengintegrasikan prinsip-prinsip keberlanjutan dalam setiap aspek operasional dan pengambilan keputusan. Lebih lanjut, sosialisasi sebagai upaya membangun budaya keberlanjutan dilakukan Bank melalui berbagai media dan kesempatan, seperti situs/*website*, media sosial, pertemuan antara manajemen dengan karyawan atau pertemuan dengan mitra kerja, masyarakat atau pemangku kepentingan eksternal lainnya, baik yang terjadwal maupun yang insidental.

Sesuai bidang usaha yang dijalankan Allo Bank, budaya keberlanjutan direalisasikan melalui berbagai program dan kebijakan antara lain memberikan layanan kepada nasabah secara setara, menghargai hak asasi manusia, melaksanakan program CSR, menerapkan operasional kantor yang ramah lingkungan, menciptakan lingkungan kerja yang aman dan sehat sesuai dengan prinsip Kesehatan dan Keselamatan Kerja (K3) dan sebagainya.

KINERJA EKONOMI BERKELANJUTAN

Sekilas Ekonomi Global dan Nasional

Pertumbuhan ekonomi global tahun 2024 mengalami perlambatan dibandingkan tahun 2023. Merujuk laporan *World Economic Outlook Update* yang dirilis oleh Dana Moneter Internasional (IMF) April 2024, pertumbuhan ekonomi global diproyeksikan sebesar 3,2% untuk tahun 2024, atau melambat dibandingkan tahun 2023 dengan pertumbuhan sebesar 3,3%. Perlambatan tersebut disebabkan oleh beberapa faktor diantaranya kebijakan moneter yang lebih ketat di negara-negara maju serta ketidakpastian geopolitik yang berkelanjutan.

Ekonomi beberapa mitra dagang utama Indonesia tetap tumbuh di tengah pertumbuhan ekonomi global yang penuh tantangan. Singapura tumbuh 4,0% dibanding tahun sebelumnya dengan pertumbuhan 1,1%, Malaysia tumbuh 5,1% (2023: 3,6%), Korea Selatan tumbuh 2,0% (2023: 1,4%). Adapun ekonomi Tiongkok tumbuh 5,0%, melambat dibandingkan tahun 2023 dengan pertumbuhan sebesar 5,4%. Tren yang sama terjadi dengan ekonomi Amerika Serikat di mana tahun 2024 tumbuh sebesar 2,8%, melambat dibanding tahun 2023 dengan pertumbuhan sebesar 2,9%.

Merujuk data Badan Pusat Statistik (BPS), ekonomi Indonesia tahun 2024 tumbuh sebesar 5,03%, melambat dibandingkan tahun 2023 yang mencapai 5,05%. Dari sisi produksi, penyumbang utama pertumbuhan ekonomi tahun 2024 adalah Industri Pengolahan, Konstruksi, dan Perdagangan. Hal ini sejalan dengan peningkatan aktivitas produksi dan permintaan luar negeri. Adapun tiga lapangan usaha dengan pertumbuhan tertinggi adalah Jasa Lainnya, Transportasi & Pergudangan, serta Akomodasi & Makan Minum.

7. Principle of priority sector development; and
8. Principle of coordination and collaboration.

Guided by these principles, the Bank fosters a culture of sustainability by committing to integrating sustainability principles into all aspects of operations and decision-making. To further instill this culture, the Bank conducts socialization efforts through various media and engagement opportunities, such as websites, social media, internal meetings, and discussions with partners, communities, and other external stakeholders, both in scheduled and incidental.

In alignment with its business activities, Allo Bank demonstrates its commitment to sustainability through various programs and policies, including providing equitable services to customers, upholding human rights, implementing CSR programs, promoting environmentally friendly office operations, and ensuring a safe and healthy work environment in compliance with Occupational Health and Safety (OHS) principles.

SUSTAINABLE ECONOMIC PERFORMANCE

Overview of Global and National Economy

Global economic growth in 2024 is expected to slow compared to 2023. According to the *World Economic Outlook Update* released by the International Monetary Fund (IMF) in April 2024, global economic growth is projected at 3.2% for 2024, down from 3.3% in 2023. This slowdown is attributed to several factors, including tighter monetary policies in developed countries and ongoing geopolitical uncertainties.

Despite the challenging global economic conditions, the economies of several of Indonesia's key trading partners continued to grow. Singapore recorded a 4.0% growth rate, a significant increase from 1.1% in 2023. Malaysia expanded by 5.1% (2023: 3.6%), while South Korea's economy grew by 2.0% (2023: 1.4%). Meanwhile, China's economy grew by 5.0%, slowing from 5.4% in 2023. A similar trend was observed in the United States, where economic growth stood at 2.8% in 2024, slowing down compared to 2.9% in the previous year.

According to data from the Central Statistics Agency (BPS), Indonesia's economy in 2024 grew by 5.03%, slightly lower than the 5.05% recorded in 2023. From a production perspective, the main contributors to economic growth in 2024 were the Manufacturing, Construction, and Trade sectors, supported by increased production activities and rising foreign demand. The business sectors with the highest growth included Other Services, Transportation & Warehousing, and Accommodation & Food & Beverage.

Walau mengalami perlambatan, pertumbuhan ekonomi Indonesia tahun 2024 masih berada dalam rentang pertumbuhan yang disampaikan berbagai lembaga ekonomi global. Bank Dunia, Dana Moneter Internasional (IMF) dan Asia Development Bank (ADB) memproyeksikan pertumbuhan ekonomi Indonesia tahun 2024 sebesar 5%. Adapun Bank Indonesia memproyeksikan pertumbuhan ekonomi sebesar 5,1%, sedangkan Kementerian Keuangan di angka 5-5,2%.

Kinerja Lapangan Usaha Jasa Keuangan 2024

BPS menyebutkan pertumbuhan ekonomi Indonesia tahun 2024 ditopang oleh bertumbuhnya semua lapangan usaha, termasuk jasa keuangan yang tumbuh sebesar 4,74%, sedikit melambat dibandingkan tahun 2023 dengan pertumbuhan 4,77%. Perlambatan tersebut dipengaruhi oleh berbagai hal antara lain ketidakpastian ekonomi global dan tekanan eksternal seperti fluktuasi nilai tukar serta perlambatan investasi asing turut menekan likuiditas dan minat investasi di dalam negeri. Selain itu, kebijakan moneter yang lebih ketat dan pengetatan regulasi di sektor keuangan membuat lembaga keuangan harus lebih berhati-hati dalam mengelola risiko dan pinjaman sehingga mempengaruhi laju ekspansi produk dan layanan keuangan. Di sisi lain, pergeseran perilaku konsumen yang menjadi lebih selektif dan konservatif dalam mengambil keputusan finansial juga menambah beban industri jasa keuangan dalam mempertahankan pertumbuhan yang sebelumnya lebih dinamis.

Berkaitan dengan kinerja sektor jasa keuangan, Otoritas Jasa Keuangan (OJK) menilai stabilitas sektor ini terjaga stabil di tengah dinamika perekonomian global dan domestik. Sejumlah indikator perkembangan sektor perbankan menguatkan sinyal tersebut. Kinerja intermediasi perbankan tumbuh positif dengan profil risiko yang terjaga. Pada November 2024, pertumbuhan kredit masih melanjutkan *double digit growth* sebesar 10,79% yoy (Oktober 2024: 10,92 persen) menjadi Rp7.717 triliun.

Sementara itu, berdasarkan jenis penggunaan, Kredit Investasi tumbuh tertinggi yaitu sebesar 13,77%, diikuti oleh Kredit Konsumsi 10,94%, sedangkan Kredit Modal Kerja 8,92%. Berdasarkan kategori debitur, kredit korporasi tumbuh sebesar 16,19%, sedangkan kredit UMKM juga tetap tumbuh sebesar 4,02%.

Di sisi lain, Dana Pihak Ketiga (DPK) perbankan tercatat tumbuh sebesar 7,54% yoy (Oktober 2024: 6,74 persen yoy) menjadi Rp8.835,9 triliun, dengan giro, tabungan, dan deposito masing-masing tumbuh sebesar 10,97%, 6,55%, dan 5,57% yoy. Sementara itu, likuiditas industri perbankan pada November 2024 tetap memadai dengan rasio Alat Likuid/Non-Core Deposit (AL/NCD) dan Alat Likuid/Dana Pihak Ketiga (AL/DPK) masing-masing sebesar 112,94% (Oktober 2024: 113,64%) dan 25,57% (Oktober 2024: 25,58%) dan masih di atas *threshold* masing-masing sebesar 50% dan 10%. Adapun *Liquidity Coverage Ratio* (LCR) berada di level 213,07%.

Despite the slight deceleration, Indonesia's economic growth in 2024 remains within the range projected by various global economic institutions. The World Bank, International Monetary Fund (IMF), and Asian Development Bank (ADB) all forecast Indonesia's economic growth at 5% for the year. Meanwhile, Bank Indonesia projects a 5.1% growth rate, while the Ministry of Finance estimates growth between 5.0% and 5.2%.

Banking Industry Performance in 2024

According to the BPS, Indonesia's economic growth in 2024 was supported by the expansion of all business sectors, including financial services, which grew by 4.74%, slightly slower than the 4.77% growth recorded in 2023. The slowdown was influenced by various factors, including global economic uncertainty and external pressures such as exchange rate fluctuations and a decline in foreign investment, which also impacted liquidity and investment interest within the country. Additionally, tighter monetary policies and stricter financial regulations compelled financial institutions to adopt a more cautious approach in risk and loan management, thereby affecting the pace of expansion in financial products and services. Moreover, shifting consumer behavior, with a more selective and conservative approach to financial decisions, further contributed to the challenges faced by the financial services industry in maintaining its previous growth momentum.

Despite these challenges, the Financial Services Authority (OJK) assessed that the stability of the financial services sector remained intact amid the dynamics of both the global and domestic economy. Several banking sector indicators reinforced this positive outlook. Banking intermediation performance showed continued growth, supported by a stable risk profile. As of November 2024, credit growth remained in double digits at 10.79% year-on-year (yoy), compared to 10.92% in October 2024, bringing total credit disbursement to IDR7,717 trillion.

By type of credit usage, Investment Loan recorded the highest growth at 13.77%, followed by Consumer Loan at 10.94%, while Working Capital Loan grew by 8.92%. Based on the debtor category, corporate loan expanded by 16.19%, while MSME credit also continued to grow, increasing by 4.02%.

Meanwhile, Third-Party Funds (TPF) in the banking sector grew by 7.54% yoy (October 2024: 6.74% yoy) to IDR8,835.9 trillion, with current, savings, and time deposits growing by 10.97%, 6.55%, and 5.57% yoy, respectively. The banking sector's liquidity remained adequate in November 2024, with the ratio of Liquid Assets to Non-Core Deposits (AL/NCD) and Liquid Assets to Third-Party Funds (AL/TPF) standing at 112.94% (October 2024: 113.64%) and 25.57% (October 2024: 25.58%), respectively—well above the minimum thresholds of 50% and 10%. The Liquidity Coverage Ratio (LCR) was reported at 213.07%.

OJK juga mencatat kualitas kredit tetap terjaga dengan rasio NPL gross sebesar 2,19% (Oktober 2024: 2,20%) dan NPL net sebesar 0,75% (Oktober 2024: 0,77%). *Loan at Risk* (LaR) juga menunjukkan tren penurunan menjadi sebesar 9,82% (Oktober 2024: 9,94%). Rasio LaR tersebut sudah lebih rendah dibandingkan sebelum pandemi yaitu sebesar 9,93% pada Desember 2019. Secara umum, tingkat profitabilitas bank (ROA) sebesar 2,69% (Oktober 2024: 2,73%), yang menunjukkan kinerja industri perbankan tetap resilien dan stabil.

Lebih lanjut, ketahanan perbankan juga tetap kuat tecermin dari permodalan (CAR) yang berada di level tinggi yaitu sebesar 26,92% (Oktober 2024: 27,02%), meskipun sedikit menurun didorong oleh pertumbuhan ATMR yang sejalan dengan pertumbuhan kredit. Permodalan perbankan yang solid menjadi bantalan mitigasi risiko yang kuat di tengah kondisi ketidakpastian global.

Rencana dan Kebijakan Strategis Bank Tahun 2024

Industri perbankan nasional menghadapi berbagai tantangan di sepanjang tahun 2024. Selain ketepatan dalam memanfaatkan kebijakan pemerintah untuk pemulihan ekonomi pasca pandemi atau *post pandemic policy responses*, perbankan juga menghadapi tantangan berupa *spillover effect* tensi geopolitik yang masih tinggi. Sumber resmi Otoritas Jasa Keuangan menyatakan kondisi tersebut mendorong volatilitas harga komoditas dan energi, lonjakan inflasi dan kenaikan suku bunga era *higher for longer*, serta adanya potensi perlambatan ekonomi.

Tantangan berikutnya adalah perkembangan yang sangat luar biasa dalam konteks *digitalization* berupa percepatan digitalisasi dan *emerging technology* serta aspek kesiapan industri baik dari sisi *people*, dari proses, maupun teknologi. Tantangan yang tak kalah penting adalah risiko keuangan terkait dengan iklim (*climate related risks*) serta upaya untuk mencapai target *net zero emission*.

Menghadapi berbagai tantangan tersebut, Allo Bank mengimplementasikan sejumlah strategi inovatif untuk memastikan pertumbuhan yang berkelanjutan. Salah satu langkah kunci adalah memperkuat kolaborasi dengan berbagai mitra strategis di dalam maupun di luar ekosistem CT Corpora, yang memungkinkan Bank untuk memanfaatkan basis pelanggan yang luas. Melalui penerapan model *open banking*, Allo Bank berupaya untuk meningkatkan layanan finansialnya sehingga memberikan kemudahan bagi nasabah dalam bertransaksi di era digital.

Selaras dengan itu, Bank secara konsisten mendayagunakan infrastruktur *phygital* (*physical and digital*) yang memberikan berbagai macam keuntungan bagi nasabah. Dalam hal ini, infrastruktur *phygital* Allo Bank menggabungkan aplikasi *Mobile Banking* Allo Bank dengan jaringan kanal fisik antara lain TransMart, Metro, Mitra Bukalapak, dan Indomaret.

Sesuai dengan Rencana Bisnis Bank, selama tahun 2024, Allo Bank fokus pada pengembangan beberapa ekosistem utama melalui akselerasi adopsi teknologi & transformasi digital. Melalui

OJK also reported that credit quality remained well-managed, with a gross Non-Performing Loan (NPL) ratio of 2.19% (October 2024: 2.20%) and a net NPL of 0.75% (October 2024: 0.77%). The Loan at Risk (LaR) ratio showed a downward trend, decreasing to 9.82% in November 2024 (October 2024: 9.94%). Notably, this ratio was lower than the pre-pandemic level of 9.93% recorded in December 2019. Overall, banking profitability, as measured by Return on Assets (ROA), stood at 2.69% (October 2024: 2.73%), indicating that the banking industry remains resilient and stable.

Furthermore, the banking sector's capital resilience remained strong, as reflected in the high Capital Adequacy Ratio (CAR) of 26.92% (October 2024: 27.02%). Although slightly lower due to an increase in ATMR driven by credit growth, the sector's solid capital base continues to serve as a robust risk mitigation buffer amid ongoing global uncertainties.

Bank's Strategic Plan and Policy for 2024.

The national banking industry faced various challenges throughout 2024. In addition to the need for precise utilization of government policies for post-pandemic economic recovery, the banking sector also encountered spillover effects from persistent geopolitical tensions. According to official sources from the Financial Services Authority (OJK), these conditions contributed to volatility in commodity and energy prices, surges in inflation, and prolonged high interest rates, as well as the potential for an economic slowdown.

Another challenge was the rapid advancement of digitalization, including the acceleration of emerging technologies and the industry's readiness in terms of people, processes, and technology. Equally important were climate-related financial risks and efforts to achieve the net-zero emissions target.

To navigate these challenges, Allo Bank implemented a range of innovative strategies to ensure sustainable growth. A key initiative was strengthening collaboration with strategic partners, both within and beyond the CT Corpora ecosystem, allowing the Bank to leverage its extensive customer base. Through the implementation of the open banking model, Allo Bank aimed to enhance financial services, offering customers greater convenience in conducting transactions in the digital era.

Additionally, the Bank continued to optimize its *phygital* (physical and digital) infrastructure, providing numerous benefits to customers. This approach integrates the Allo Bank Mobile Banking application with a network of physical service points, including TransMart, Metro, Mitra Bukalapak, and Indomaret, ensuring seamless and accessible banking services.

Aligned with its Business Plan, Allo Bank focused on developing several key ecosystems throughout 2024 by accelerating technology adoption and digital transformation. This shift moved digital services

pengembangan tersebut akan terwujud perubahan dari layanan digital yang hanya dianggap sebagai produk menjadi layanan digital sebagai platform untuk mengintegrasikan berbagai layanan internal maupun eksternal, kemudian berkembang menjadi suatu ekosistem yang terbuka, mudah untuk dipersonalisasi dan bernilai tinggi. Melalui pendekatan ini, Bank memiliki keyakinan untuk menjadi lebih berdampak dan bermakna dalam setiap aspek finansial dari kehidupan sesuai dengan standar ekspektasi dan kebutuhan nasabah.

Allo Bank optimis, penerapan berbagai strategi inovatif secara konsisten merupakan pondasi untuk mewujudkan pertumbuhan berkesinambungan, yang tercermin dari kinerja keuangan dan profitabilitas yang baik. Terlebih lagi, strategi inovatif tersebut ditopang pengelolaan fungsi intermediasi secara *prudent*, budaya *smart spending* dan *cost discipline* di seluruh jenjang organisasi dan ditopang struktur permodalan yang kuat.

Berpegang kepada arah kebijakan sebagaimana tersebut di atas, Bank telah menetapkan dan menerapkan langkah-langkah strategis tahun 2024 sebagai berikut:

1. Melakukan penetrasi pasar berkelanjutan ke berbagai segmentasi nasabah dengan terus memberikan nilai tambah (*added value*) melalui implementasi 3 pilar strategi bisnis Bank (*acquisition, engagement, and monetization*);
2. Meningkatkan layanan digital secara signifikan yang berdampak pada peningkatan aset dan liabilitas;
3. Menjalin kolaborasi dengan mitra strategis (*strategic partners*) ekosistem utama melalui penerapan model *open banking* untuk memperkaya dan meningkatkan nilai layanan finansial yang disediakan oleh Bank;
4. Penguatan data *driven organization* dengan memanfaatkan kapabilitas *Artificial Intelligence* (AI) dan *data analytic* untuk meningkatkan keunggulan kompetitif Bank;
5. Penguatan manajemen risiko menggunakan teknologi terkini melalui peningkatan *IT Maturity* dalam rangka memperkuat operasional Bank;
6. Pengembangan talenta DIGITAL untuk mencapai kinerja Bank yang unggul; dan
7. Penguatan *Good Corporate Governance* (GCG) di seluruh fungsi organisasi Bank.

Kinerja Allo Bank Tahun 2024

Selama tahun 2024, manajemen didukung segenap karyawan Allo Bank telah melakukan sosialisasi dan bersinergi dengan seluruh jajaran untuk menerapkan berbagai langkah strategis tersebut di atas, sekaligus sebagai upaya dan komitmen Bank dalam membangun budaya keberlanjutan. Upaya tersebut membawa hasil dengan pencapaian kinerja yang membanggakan selama tahun pelaporan. Dari segi jumlah nasabah misalnya, per 31 Desember 2024, Allo Bank telah memiliki sebanyak lebih dari 11 juta nasabah. Pencapaian ini membuktikan bahwa Bank berhasil masuk dan melakukan penetrasi baik ke kota-kota *Tier-1* maupun ke kota *Tier-2*, hingga *Tier-3* sehingga terus bertumbuh secara kompetitif dan berkelanjutan. beyond being mere products, transforming them into a platform that integrates various internal and external services. The Bank aimed to evolve into an open ecosystem, easy to personalize and high-value, allowing it to make a greater impact on customers' financial lives while meeting their expectations and needs.

Allo Bank remains optimistic that the consistent implementation of these innovative strategies will serve as a strong foundation for sustainable growth, reflected in solid financial performance and profitability. These strategies are further reinforced by prudent intermediation management, a culture of smart spending, disciplined cost control across all organizational levels, and a robust capital structure.

In line with the policy direction mentioned above, the Bank has established and implemented the following strategic steps for 2024:

1. Expanding market penetration across various customer segments by continuously providing added value through the Bank's three business strategy pillars: acquisition, engagement, and monetization.
2. Significantly enhancing digital services to drive growth in both assets and liabilities
3. Collaborating with strategic partners within key ecosystems by implementing an open banking model to enrich and enhance the value of the Bank's financial services.
4. Strengthening data-driven organization by leveraging Artificial Intelligence (AI) and data analytics to enhance the Bank's competitive advantage.
5. Strengthening risk management through the latest technology and increasing IT Maturity to reinforce operational resilience.
6. Developing DIGITAL talent to drive superior bank performance
7. Strengthening Good Corporate Governance (GCG) across all levels of the Bank's organizational structure.

Allo Bank Performance in 2024

Throughout 2024, Allo Bank's management, supported by all employees, has conducted extensive socialization and synergy across all levels of the organization to implement the strategic steps outlined earlier. These initiatives reflect the Bank's commitment to fostering a culture of sustainability. As a result, Allo Bank has achieved notable performance milestones during the reporting year. For instance, in terms of customer acquisition, as of December 31, 2024, the Bank had more than 11 million customers. This achievement demonstrates Allo Bank's successful market penetration, not only in Tier-1 cities but also in Tier-2 and Tier-3 cities, enabling it to grow competitively and sustainably. Selanjutnya, berkaitan dengan penerapan POJK Keuangan Berkelanjutan, terkhusus tentang pembiayaan atau investasi pada instrumen keuangan atau proyek yang sejalan dengan penerapan keuangan berkelanjutan, Allo Bank telah melakukan pemetaan tentang produk dan layanan yang ditawarkan kepada nasabah. Pemetaan merujuk pada Pedoman Teknis bagi Bank Terkait Implementasi POJK No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik yang diterbitkan OJK tahun 2018, dan pasal 4, Peraturan Otoritas Jasa Keuangan No. 60/POJK.04/2017 Tentang Penerbitan dan Persyaratan Efek Bersifat Utang Berwawasan Lingkungan (*Green Bond*) yang menjelaskan 11 (sebelas) Kegiatan Usaha Berwawasan Lingkungan (KUBL). Selain ke-11 kategori, ditambahkan 1 (satu) kategori kegiatan usaha berkelanjutan, yaitu kategori Usaha Mikro, Kecil, dan Menengah (UMKM) sebagai perwujudan prinsip keuangan berkelanjutan, yaitu prinsip inklusif.

Furthermore, regarding the implementation of POJK Sustainable Finance, particularly in financing and investment aligned with sustainable finance principles, Allo Bank has conducted a thorough mapping of its products and services. This mapping is based on the Technical Guidelines for Banks related to POJK No. 51/POJK.03/2017 on Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies, issued by OJK in 2018. Additionally, it refers to Article 4 of Financial Services Authority Regulation No. 60/POJK.04/2017 concerning the issuance and requirements of Environmentally Friendly Debt Securities (Green Bonds), which defines 11 Environmentally Friendly Business Activities (KUBL). Beyond these categories, an additional category has been introduced, namely Micro, Small, and Medium Enterprises (MSMEs), reinforcing the principle of inclusiveness in sustainable finance.

Berdasarkan pemetaan yang dilaksanakan Allo Bank mengenai produk dan layanan, maka Bank memiliki pembiayaan sesuai KUBL dengan mulai mengembangkan pembiayaan kepada segmen UMKM sejak tahun 2024 dengan pendekatan berbasis ekosistem [OJK F.3]

KINERJA LINGKUNGAN KEBERLANJUTAN

Industri perbankan memiliki peran yang sangat penting dalam menangani permasalahan lingkungan, terutama dalam konteks perubahan iklim yang semakin mendesak. Dengan kapasitasnya untuk mengalokasikan sumber daya keuangan, bank dapat mempengaruhi keputusan investasi yang berdampak langsung pada lingkungan. Melalui penerapan prinsip-prinsip *Environmental, Social, and Governance* (ESG), sektor perbankan tidak hanya dapat mengelola risiko yang berkaitan dengan lingkungan, tetapi juga berkontribusi pada upaya keberlanjutan yang lebih luas. Misalnya, Bank dapat memilih untuk mendanai proyek-proyek ramah lingkungan, seperti energi terbarukan dan inisiatif pengurangan emisi karbon sehingga membantu mencapai target *Net Zero Emission* pada tahun 2060 atau lebih cepat.

Seiring dengan itu, perhatian bank terhadap masalah lingkungan juga menjadi faktor penting dalam menjaga reputasi dan kepercayaan nasabah. Dalam era di mana nasabah semakin sadar akan isu-isu keberlanjutan, bank yang abai terhadap tanggung jawab sosial dan lingkungan berisiko kehilangan kepercayaan dari klien, investor dan segenap pemangku kepentingan lainnya.

SUSTAINABLE ENVIRONMENTAL PERFORMANCE

The banking industry plays a crucial role in addressing environmental challenges, particularly in the face of intensifying climate change. With its capacity to allocate financial resources, banks have the power to influence investment decisions that directly impact the environment. By integrating Environmental, Social, and Governance (ESG) principles, banks can not only mitigate environmental risks but also contribute to broader sustainability initiatives. For example, banks can prioritize funding for environmentally friendly projects such as renewable energy and carbon emission reduction programs, thereby helping to achieve the Net Zero Emission target by 2060 or earlier.

At the same time, banks' commitment to environmental issues is increasingly becoming a key factor in maintaining customer trust and corporate reputation. In an era where sustainability awareness is growing, banks that fail to uphold social and environmental responsibilities risk losing the confidence of clients, investors, and other stakeholders. Conversely, weak ESG practices can lead to

Di sisi lain, praktik buruk dalam hal ESG dapat menyebabkan dampak negatif jangka panjang bagi bank itu sendiri, termasuk peningkatan risiko kredit dan kerugian finansial akibat perubahan iklim. Bercermin pada kondisi faktual serupa itu, industri perbankan perlu mengintegrasikan faktor-faktor lingkungan ke dalam proses pengambilan keputusan guna memastikan keberlangsungan usaha dan reputasi di mata publik.

Tuntutan agar industri perbankan berkontribusi terhadap kelestarian lingkungan merupakan implementasi Undang-Undang Republik Indonesia No. 10 Tahun 1998 tentang Perubahan Atas Undang-Undang No. 7 Tahun 1992 tentang Perbankan, yang di dalamnya mengatur tentang prinsip kehati-hatian dalam penyaluran kredit; Undang-Undang Republik Indonesia No. 32 Tahun 2009 tentang Perlindungan dan Pengelolaan Lingkungan Hidup di mana dalam Pasal 43, ayat (3), huruf c terdapat klausul, "Pengembangan sistem lembaga keuangan dan pasar modal yang ramah lingkungan hidup"; serta Otoritas Jasa Keuangan merilis Peraturan Otoritas Jasa Keuangan No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan bagi Lembaga Jasa Keuangan, Emiten dan Perusahaan Publik (POJK Keuangan Berkelanjutan).

Berdasarkan regulasi tersebut, maka kalangan perbankan di Indonesia memiliki kewajiban untuk menerapkan prinsip keuangan berkelanjutan atau *sustainable finance*. Otoritas Jasa Keuangan (OJK) menyebutkan *sustainable finance* memiliki empat dimensi, yaitu pencapaian keunggulan industri, sosial, dan ekonomi dalam rangka mengurangi ancaman pemanasan global serta pencegahan terhadap permasalahan lingkungan hidup dan sosial lainnya; pergeseran target menuju ekonomi rendah karbon yang kompetitif; promosi investasi ramah lingkungan hidup di berbagai sektor usaha/ekonomi; dan pemberian dukungan pada pelaksanaan prinsip-prinsip pembangunan Indonesia 4P (*pro-growth, pro-jobs, pro-poor, dan pro-environment*).

Komitmen Allo Bank

Allo Bank mendukung penerapan keuangan berkelanjutan di Indonesia dengan melakukan penyesuaian sejumlah kebijakan agar selaras dengan komitmen mengutamakan nilai Lingkungan (*Environmental*), Sosial (*Social*), dan Tata Kelola (*Governance*) atau ESG. Penyesuaian yang dilakukan antara lain melakukan pembaruan kebijakan penyaluran kredit, serta pembaruan *Standard Operating Procedure* (SOP) kredit terkait penerapan keuangan berkelanjutan.

Secara spesifik, Bank juga mulai mencanangkan program-program berkelanjutan terkait aspek *environment* dan *social*. Dalam hal ini, Bank menjadikan kelompok-kelompok usaha yang mengedepankan bisnis berkelanjutan sebagai target dan sasaran pemberian kredit. Sejalan dengan itu, secara internal, Bank secara optimal menerapkan operasional kantor yang ramah lingkungan dengan memegang prinsip 3R (*Reduce, Reuse, & Recycle*). Prinsip ini diwujudkan melalui pengelolaan yang baik terkait penggunaan bahan baku/material kertas, energi (bahan bakar minyak dan listrik), air serta limbah.

long-term consequences, such as higher credit risk and financial losses due to climate change. Given these realities, the banking industry must integrate environmental considerations into its decision-making processes to ensure business sustainability and long-term reputational strength.

The demand for the banking industry to contribute to environmental sustainability is an implementation of Republic of Indonesia Law No. 10 of 1998 concerning Amendments to Law No. 7 of 1992 on Banking, which regulates the principle of prudence in credit distribution; Republic of Indonesia Law No. 32 of 2009 on Environmental Protection and Management, where in Article 43, paragraph (3), letter c, there is a clause stating, "Development of an environmentally friendly financial institution and capital market system"; and the Financial Services Authority Regulation No. 51/POJK.03/2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers, and Public Companies (POJK Sustainable Finance), released by the Financial Services Authority.

Based on these regulations, the banking sector in Indonesia is required to implement the principles of sustainable finance. The Financial Services Authority (OJK) states that sustainable finance consists of four dimensions: achieving industrial, social, and economic excellence to reduce the threat of global warming and prevent environmental and social issues; shifting targets towards a competitive low-carbon economy; promoting environmentally friendly investments across various business and economic sectors; and supporting the implementation of Indonesia's 4P development principles (*pro-growth, pro-jobs, pro-poor, and pro-environment*).

Allo Bank's Commitment

Allo Bank actively supports the implementation of sustainable finance in Indonesia by adjusting several policies to align with its commitment to prioritizing Environmental, Social, and Governance (ESG) values. These adjustments include updating credit distribution policies and revising the Standard Operating Procedure (SOP) for credit related to the implementation of sustainable finance.

Furthermore, the Bank has launched various sustainability-focused programs related to environmental and social aspects. As part of this initiative, Allo Bank prioritizes business groups engaged in sustainable practices as key targets for credit distribution. Internally, the Bank is also committed to environmentally friendly office operations, adopting the 3R principle (*Reduce, Reuse, & Recycle*). This principle is applied through efficient management of raw materials such as paper, as well as energy, water, and waste consumption.

Pengelolaan Bahan Baku/Material Kertas [OJK F.5]

Allo Bank, sebagai institusi perbankan berbasis digital, masih membutuhkan kertas untuk keperluan administratif. Meskipun demikian, Bank telah mengambil langkah-langkah signifikan untuk meminimalkan penggunaan kertas yang bahan bakunya berasal dari pohon yang diproses menjadi *pulp*. Upaya penghematan kertas antara lain dilakukan dengan mengoptimalkan penggunaan *soft copy* atau melalui media surel.

Inisiatif pengurangan penggunaan kertas ini secara tidak langsung berkontribusi pada pelestarian lingkungan dan mengurangi penebangan pohon.

Sejalan dengan itu, Allo Bank juga telah mengimplementasikan *DigiSign*, solusi tanda tangan elektronik yang menawarkan berbagai manfaat termasuk peningkatan efisiensi yang memungkinkan manajemen menandatangani dokumen secara elektronik dengan aman dan nyaman, menghemat waktu serta mengurangi kesalahan yang terkait dengan tanda tangan manual. Selain menghemat biaya dan mempromosikan kebijakan ramah lingkungan, implementasi tanda tangan digital juga menghilangkan kebutuhan akan tanda tangan berbasis kertas, sekaligus menghemat biaya pencetakan, pengiriman, dan penyimpanan.

Penggunaan kertas di Allo Bank menghasilkan limbah kertas berupa dokumen yang sudah tidak terpakai, meski volumenya tidak signifikan. Untuk mengolah limbah kertas, Bank menyerahkan kepada pihak ketiga untuk didaur ulang (*recycle*) atau digunakan kembali (*reuse*). Walaupun kertas termasuk bahan baku/material yang bisa didaur ulang, namun Bank tidak menggunakan hasil daur ulang tersebut dalam operasional sehari-hari.

Per 31 Desember 2024, Bank menggunakan kertas sebanyak sebanyak 287 rim, naik dibandingkan tahun 2023 yang mencapai 268 rim. Kenaikan dipengaruhi oleh pelaksanaan pemenuhan Sertifikasi BSMR yang memerlukan kelengkapan dokumen peserta.

Raw Material Management in Paper [OJK F.5]

As a digital banking institution, Allo Bank still requires paper for administrative purposes. However, the Bank has taken significant steps to minimize paper consumption, particularly since its raw materials come from tree-derived pulp. Efforts to reduce paper usage include optimizing soft copy documentation and email correspondence.

This initiative indirectly contributes to environmental conservation by reducing deforestation.

In line with this, Allo Bank has implemented *DigiSign*, an electronic signature solution that enhances efficiency by enabling secure and convenient digital document signing. This solution saves time, minimizes errors associated with manual signatures, reduces costs, and eliminates the need for physical paper-based signatures, thereby cutting down on printing, shipping, and storage expenses.

Despite its efforts to reduce paper usage, Allo Bank still generates paper waste, primarily from unused documents, although the volume remains minimal. To manage this waste, the Bank partners with third-party recycling companies. While paper is a recyclable material, Allo Bank does not reuse recycled paper in its daily operations.

As of December 31, 2024, Allo Bank consumed 287 reams of paper, up from 268 reams in 2023. The increase was primarily driven by the implementation of BSMR Certification, which required comprehensive participant documentation.

Pengelolaan Energi

Allo Bank memanfaatkan dua sumber energi utama dalam menjalankan operasional usahanya, yaitu listrik dan Bahan Bakar Minyak (BBM), yang dipasok oleh pihak ketiga. Listrik digunakan untuk penerangan serta sumber energi berbagai peralatan elektronik sarana dan sarana kantor, seperti komputer, laptop, mesin fotokopi, mesin AC, dan lain-lain. Sementara itu, BBM diperlukan untuk sumber energi kendaraan operasional, serta bahan bakar genset sebagai sumber energi cadangan jika pasokan listrik dari pihak ketiga mengalami masalah.

Energy Management

Allo Bank relies on two primary energy sources to support its business operations: electricity and fuel (BBM), both supplied by third parties. Electricity is used for lighting and powering various electronic equipment and office facilities, including computers, laptops, photocopiers, air conditioners, and others. Meanwhile, fuel is essential for operational vehicles and as a backup energy source for generators in case of power supply disruptions.

Bercermin bahwa BBM dan listrik merupakan sumber energi tak terbarukan yang ketersediaannya terbatas —terlebih lebih dari separuh pembangkit listrik masih berbasis batu bara, maka Bank secara konsisten melakukan efisiensi penggunaan kedua jenis energi. Efisiensi listrik antara lain dilakukan dengan mengoptimalkan penggunaan lampu hemat energi (LED), mematikan lampu, AC, sarana dan prasarana elektronik lain setelah selesai jam kantor, pemadaman listrik di waktu tertentu dan sebagainya. Sedangkan penghematan BBM diantaranya dilakukan dengan melakukan kontrol ketat pada penggunaan BBM kendaraan operasional maupun kendaraan dinas jabatan. Efisiensi BBM juga dilakukan dengan menyelenggarakan rapat secara *online* dengan memanfaatkan aplikasi teknologi informasi terkini untuk jenis rapat tertentu. Dengan demikian, peserta rapat tidak perlu menggunakan moda transportasi tertentu, termasuk kendaraan dinas jabatan.

Efisiensi energi di Allo Bank sejalan dengan Instruksi Presiden Republik Indonesia No. 13 Tahun 2011 tentang Penghematan Energi dan Air, serta Peraturan Menteri Energi dan Sumber Daya Mineral Republik Indonesia No. 13 Tahun 2012 tentang Penghematan Pemakaian Tenaga Listrik. Kebijakan tersebut sekaligus merupakan upaya Allo Bank mengurangi emisi gas rumah kaca sebagai salah satu penyebab pemanasan global dan perubahan iklim. [\[OJK F.7, F.8\]](#)

Per 31 Desember 2024, penggunaan listrik Allo Bank sebesar 389.000 kWh yang diperoleh dari konversi pembayaran tagihan listrik sebesar Rp972,5 juta dibagi harga listrik golongan I-4 pada jam puncak yaitu Rp2.500. Jumlah itu naik dibanding tahun 2023 dengan penggunaan listrik sebesar 71.720 kWh pada tahun 2023 yang diperoleh dengan rumus yang sama dengan pembayaran tagihan sebesar Rp179,3 juta. Kenaikan dipengaruhi antara lain adanya pemenuhan daya listrik untuk infrastruktur *Data Center* Allo Bank baru yang diresmikan pada bulan Mei 2024.

Adapun penggunaan bensin selama tahun 2024 tercatat sebesar 26.610 liter yang diperoleh dari konversi pembayaran bensin sebanyak Rp368,9 juta dibagi dengan rerata bensin Ron95 yang lebih ramah lingkungan sebesar Rp13.864/liter. Jumlah itu naik dibandingkan tahun 2023 dengan penggunaan bensin sebesar 16.272 liter yang diperoleh dengan rumus yang sama dengan total pembayaran bensin sebesar Rp225,6 juta. Kenaikan antara lain dipengaruhi oleh bertambahnya jumlah karyawan sebesar 27,37% pada tahun 2024. [\[OJK F.6\]](#)

Pengelolaan Emisi Gas Rumah Kaca

Emisi gas rumah kaca (GRK) merupakan salah satu penyebab terjadinya pemanasan global dan perubahan iklim yang berdampak negatif bagi bumi dan kehidupan di atasnya. Untuk mengurangi dampak tersebut antara lain Allo Bank melakukan penghematan penggunaan energi baik listrik maupun bahan bakar minyak sebagai sumber emisi.

Dalam laporan ini, emisi yang dilaporkan adalah emisi GRK langsung (cakupan 1) yang dihasilkan dari penggunaan bahan bakar fosil (bio solar) dan emisi GRK (cakupan 2) tidak langsung yang bersumber

Reflecting on the fact that fuel and electricity are non-renewable energy sources with limited availability, and that more than half of power plants still rely on coal, the Bank consistently promotes efficient use of both energy types. Electricity efficiency is achieved by optimizing the use of energy-saving LED lamps, turning off lights, air conditioners, and other electronic equipment after office hours, and scheduling power shutdowns at specific times. Meanwhile, fuel efficiency is carried out through strict monitoring of fuel consumption for operational and official vehicles. Additionally, the Bank promotes virtual meetings by utilizing advanced information technology applications for certain types of meetings, thereby reducing the need for transportation, including the use of official vehicles.

These energy-saving initiatives align with Presidential Instruction No. 13 of 2011 on Energy and Water Conservation and Minister of Energy and Mineral Resources Regulation No. 13 of 2012 on Electricity Consumption Reduction. Moreover, these efforts support Allo Bank's commitment to reducing greenhouse gas emissions, a key factor in global warming and climate change. [\[OJK F.7, F.8\]](#)

As of December 31, 2024, Allo Bank's electricity consumption totaled 389,000 kWh, calculated by dividing the electricity bill payment of IDR972.5 million by the electricity tariff for class I-4 at peak hours of IDR2,500 per kWh. This amount marked an increase from 71,720 kWh in 2023, which was determined using the same formula based on an electricity bill payment of IDR179.3 million. The increase was primarily due to the electricity demand for the new Allo Bank Data Center infrastructure, which was inaugurated in May 2024.

Meanwhile, gasoline consumption in 2024 reached 26,610 liters, calculated by dividing total gasoline expenses of IDR368.9 million by the average price of RON95 gasoline (IDR13,864 per liter), which is considered a more environmentally friendly option. This figure rose compared to 16,272 liters in 2023, derived using the same formula with total gasoline expenses of IDR225.6 million. The increase was driven primarily by a 27.37% rise in the number of employees in 2024. [\[OJK F.6\]](#)

Greenhouse Gas Emission Management

Greenhouse gas (GHG) emissions contribute to global warming and climate change, which negatively impact the environment and human life. To mitigate these effects, Allo Bank is committed to conserving energy by reducing the consumption of electricity and fuel, both of which are significant emission sources.

In this report, the Bank discloses both direct GHG emissions (Scope 1), which result from fossil fuel consumption (bio-solar), and indirect GHG emissions (Scope 2), which originate from electricity purchased

dari penggunaan listrik yang dibeli dari pihak ketiga. Penghitungan emisi GRK (cakupan 1) langsung dilakukan dengan merujuk metode yang dipakai Indonesia dan negara-negara *non-Annex 1* (negara berkembang) berupa *Tier-1*, yaitu berdasarkan data konsumsi energi dikalikan faktor emisi *default* IPCC 2006 (*Intergovernmental Panel on Climate Change*/Panel Antarpemerintah tentang Perubahan Iklim).

from third parties. The calculation of direct GHG emissions (Scope 1) follows the methodology used by Indonesia and other non-Annex 1 countries (developing countries), known as Tier-1, which is based on energy consumption data multiplied by the default emission factor from the 2006 Intergovernmental Panel on Climate Change (IPCC) guidelines.

$$\text{GHG Emissions} \left(\frac{\text{kg}}{\text{yr}} \right) = \text{Energy Consumption} \left(\frac{\text{TJ}}{\text{yr}} \right) \times \text{Emission Factor} \left(\frac{\text{kg}}{\text{TJ}} \right)$$

Sesuai tabel di bawah, emisi gas rumah kaca dari penggunaan bensin tahun 2024 tercatat sebesar 60.984 kgCO₂eq atau 61 ton CO₂eq, naik dibanding tahun 2023 dengan emisi sebesar 37.422 kgCO₂eq atau 37 tonCO₂eq. Kenaikan sejalan dengan bertambahnya jumlah penggunaan bensin. [\[QJK F.11\]](#)

According to the table below, GHG emissions from gasoline consumption in 2024 amounted to 60,984 kgCO₂eq (61 tons CO₂eq), up from 37,422 kgCO₂eq (37 tons CO₂eq) in 2023. This increase is directly correlated with the rise in gasoline consumption. [\[QJK F.11\]](#)

Processed from the Guidelines for the Implementation of the Ministry of Environment's National Greenhouse Gas Inventory 2012

Sementara itu, penghitungan emisi gas rumah kaca tidak langsung (cakupan 2) dari penggunaan listrik dilakukan dengan mengalikan konsumsi listrik (dalam Kwh per tahun) dengan *average grid emission factor* yang dikeluarkan Kementerian ESDM merujuk RUPTL PLN 2015-2024 yaitu sebesar 0,929 kgCO₂/Kwh (2017) untuk Jawa Bali. Dengan rumus tersebut, maka didapat emisi cakupan 2 tahun 2024 adalah 361.381 kgCO₂eq atau 361 tonCO₂eq, naik dibanding tahun 2023 dengan emisi sebesar 66.627 kgCO₂eq atau 67 tonCO₂eq. Kenaikan sejalan dengan bertambahnya jumlah penggunaan listrik.

Meanwhile, indirect GHG emissions (Scope 2) from electricity consumption are calculated by multiplying total electricity usage (in kWh per year) by the average grid emission factor issued by the Ministry of Energy and Mineral Resources, which references the 2015-2024 PLN RUPTL. The emission factor used for Java-Bali is 0.929 kgCO₂/kWh (2017). Using this formula, Scope 2 emissions in 2024 totaled 361,381 kgCO₂eq (361 tons CO₂eq), compared to 66,627 kgCO₂eq (67 tons CO₂eq) in 2023. This increase is in line with the higher electricity consumption.

Dengan demikian, per 31 Desember 2024, jumlah emisi yang dihasilkan Allo Bank adalah sebesar 422.365 kgCO₂eq atau 422 tonCO₂eq, naik dibandingkan tahun 2023 dengan emisi sebesar 104.049 kgCO₂eq atau 104 tonCO₂eq.

As a result, as of December 31, 2024, Allo Bank's total GHG emissions amounted to 422,365 kgCO₂eq (422 tons CO₂eq), a significant increase compared to 104,049 kgCO₂eq (104 tons CO₂eq) in 2023.

Pengelolaan Air

Air bersih merupakan salah satu kebutuhan vital dalam operasional Allo Bank, terkhusus untuk memenuhi keperluan domestik karyawan seperti air minum, mencuci peralatan dapur, wudhu, pembilasan di kamar kecil, mencuci kendaraan dan sebagainya. Bank mendapatkan air bersih dari pihak ketiga, yaitu produsen air dalam kemasan serta Perusahaan Daerah Air Minum (PDAM).

Water Management

Clean water is a critical resource for Allo Bank's operations, primarily used for employee needs, including drinking water, kitchen sanitation, ablution, restroom use, and vehicle washing. The Bank sources clean water from third parties, including bottled water suppliers and the Regional Drinking Water Company (PDAM).

Sejalan dengan terus berkurangnya pasokan sumber air bersih, termasuk semakin banyaknya polutan pada air permukaan

In line with the declining supply of clean water sources and the increasing presence of pollutants in surface water, which serves as

sebagai sumber air baku PDAM, maka Bank mengoptimalkan efisiensi penggunaan air bersih. Selain mengeluarkan himbauan agar menggunakan air secara bijaksana/tidak boros, Bank juga melakukan pemeliharaan jaringan pipa secara rutin dan melakukan penggantian apabila terdapat kebocoran. Efisiensi penggunaan air di Allo Bank sejalan dengan Instruksi Presiden Republik Indonesia No. 13 Tahun 2011 tentang Penghematan Energi dan Air.

Penghematan air semakin bermakna karena cakupan layanan air bersih di Jakarta pada April 2024 baru mencapai sekitar 67%, masih jauh dari target cakupan sebesar 100% pada tahun 2030. Di sisi lain, kualitas air tanah di sebagian wilayah Ibu Kota juga tidak memenuhi baku mutu karena mengandung bakteri E-Coli, serta memiliki kadar salinitas tinggi akibat intrusi air laut.

Per 31 Desember 2024, Bank mengeluarkan biaya pembelian air sebesar Rp90,5 juta, naik dibandingkan tahun 2023, yang mencapai Rp50,3 juta. Kenaikan dipengaruhi oleh penambahan jumlah karyawan dan area kerja. [\[OJK F.8\]](#)

Pengelolaan Limbah/Sampah

Operasional Allo Bank menghasilkan limbah, baik cair maupun padat, termasuk kategori Bahan Berbahaya dan Beracun (B3) maupun non-B3. Limbah B3 antara lain berupa aki bekas dan oli bekas dari kendaraan operasional, serta lampu bekas, cartridge bekas, maupun elektronik bekas dari operasional perkantoran. Adapun limbah non-B3 antara lain berupa sampah domestik dari aktivitas karyawan, baik berupa sampah organik maupun non-organik.

Terhusus pengelolaan sampah perkantoran, selain menyediakan tempat sampah dengan jumlah yang cukup, dan memisahkan sampah berdasarkan jenisnya, Bank bekerja sama dengan pihak ketiga untuk mengangkut sampah tersebut ke tempat pembuangan akhir. Sejalan dengan itu, untuk mengurangi volume sampah, Bank menerapkan sejumlah kebijakan dengan berpatokan pada prinsip 3R (*Reduce, Reuse, dan Recycle*). Upaya untuk mengurangi limbah plastik air minum dalam kemasan atau kemasan plastik sekali pakai misalnya, Bank menerapkan kebijakan dengan menyediakan pitcher kaca sebagai tempat air minum dan tidak menyediakan air minum dalam kemasan. Bank juga menerapkan spirit *green living* dengan mengurangi penggunaan tempat makan/minum sekali pakai. Adapun pengelolaan limbah B3, Bank bekerja sama dengan pihak ketiga yang berizin sehingga keberadaan limbah tersebut tidak berdampak negatif bagi lingkungan.

Biaya Lingkungan

Per 31 Desember 2024, Bank mengeluarkan biaya lingkungan sebesar Rp215 juta, naik dibandingkan tahun 2023, yang mencapai Rp195 juta. Biaya lingkungan tersebut digunakan Bank untuk membiayai berbagai program Tanggung Jawab Sosial dan Lingkungan seperti yang telah diungkapkan pada Laporan Tahunan ini. [\[OJK F.4\]](#)

raw water for PDAM, the Bank optimizes clean water efficiency. In addition to issuing guidelines for responsible water usage, the Bank routinely maintains the pipeline network and replaces pipes in case of leaks. The Bank's water efficiency efforts align with Presidential Instruction No. 13 of 2011 on Energy and Water Conservation

Water-saving measures have become increasingly crucial, as clean water coverage in Jakarta was only at 67% as of April 2024, still far from the 100% target by 2030. Additionally, groundwater quality in some areas of the capital remains poor, with E-Coli contamination and high salinity levels due to seawater intrusion.

As of December 31, 2024, Allo Bank's water expenses reached IDR90.5 million, up from IDR50.3 million in 2023. This increase was influenced by a rise in the number of employees and expansion of work areas. [\[OJK F.8\]](#)

Waste Management

Allo Bank's operations generate both liquid and solid waste, including hazardous and toxic materials (B3) and non-B3 waste. B3 waste includes used batteries, used oil from operational vehicles, used lamps, used printer cartridges, and discarded electronics from office operations. Non-B3 waste includes domestic waste from employee activities, consisting of organic and non-organic waste.

Specifically for office waste management, in addition to providing sufficient trash bins and segregating waste by type, the Bank collaborates with third-party services for waste collection and disposal. To further reduce waste volume, the Bank implements policies based on the 3R principle (*Reduce, Reuse, and Recycle*). For instance, to reduce plastic waste from bottled water and single-use plastic packaging, the Bank provides glass pitchers for drinking water and eliminates bottled drinking water. Additionally, the Bank reduces the use of disposable food and beverage containers as part of its green living initiative. For B3 waste management, the Bank partners with licensed third-party providers to ensure that waste disposal does not negatively impact the environment.

Environmental Costs

As of December 31, 2024, Allo Bank incurred environmental costs totaling IDR215 million, an increase from IDR195 million in 2023. These costs were allocated to finance various Social and Environmental Responsibility programs, as detailed in this Annual Report. [\[OJK F.4\]](#)

KINERJA SOSIAL KEBERLANJUTAN

Keberhasilan Allo Bank mencatatkan kinerja terbaik, termasuk membukukan nasabah hingga 11 juta dalam usianya yang ketiga tahun, membuktikan besarnya dukungan pemangku kepentingan terhadap keberadaan Bank. Pencapaian tersebut semakin bermakna karena kompetisi bank umum berbasis digital di Indonesia yang jumlahnya belasan sangat ketat dan kian agresif dalam menjalankan bisnis. Semua bank berlomba memberikan layanan yang memungkinkan calon nasabah dan/atau nasabah memperoleh informasi, melakukan komunikasi, registrasi, pembukaan rekening, transaksi perbankan, dan penutupan rekening, termasuk memperoleh informasi lain dan transaksi di luar produk perbankan seperti nasihat keuangan (*financial advisory*), investasi, transaksi sistem perdagangan berbasis elektronik (*e-commerce*), dan sebagainya.

Dukungan yang diterima Allo Bank merupakan hasil hubungan timbal balik atas keberhasilan Bank memenuhi tanggung jawabnya terhadap para pemangku kepentingan, baik internal maupun eksternal. Pemangku kepentingan internal Bank adalah pemegang saham, manajemen dan karyawan lintas divisi dan beragam level jabatan. Adapun pemangku kepentingan eksternal di antaranya nasabah dan klien, regulator dan masyarakat di sekitar lokasi perusahaan beroperasi, termasuk mereka yang penerima manfaat CSR (*Corporate Social Responsibility*).

Pemenuhan tanggung jawab terhadap pemangku kepentingan yang sangat beragam dilakukan Allo Bank berdasarkan pemetaan yang matang. Dengan demikian, Bank memperoleh gambaran yang jelas tentang harapan dan kebutuhan masing-masing pemangku kepentingan. Bank berkomitmen untuk menunaikan tanggung jawab tersebut karena hal itu merupakan sarana terbaik untuk menjalin hubungan dan menciptakan komunikasi positif dengan para pemangku kepentingan. Sebagai entitas bisnis, relasi yang berkualitas dengan pemangku kepentingan merupakan modal penting untuk mewujudkan usaha yang berkelanjutan.

Berdasarkan kategori pemangku kepentingan yang berbeda-beda, maka upaya yang dilakukan Allo Bank untuk memenuhi hak-hak dan harapan pemangku kepentingan juga beragam. Pemenuhan hak tersebut antara lain berkaitan dengan ketenagakerjaan, Keselamatan dan Kesehatan Kerja (K3), asasi manusia, pelibatan masyarakat, tanggung jawab atas produk/jasa dan sebagainya.

Landasan Kebijakan

Komitmen Allo Bank memenuhi tanggung jawab kepada segenap pemangku kepentingan internal maupun eksternal merujuk pada berbagai regulasi yang berlaku di Indonesia di antaranya:

1. Undang-Undang No. 1 Tahun 1970 tentang Keselamatan Kerja
2. Undang-Undang No. 8 Tahun 1999 tentang Perlindungan Konsumen
3. Undang-Undang No. 13 tahun 2003 tentang Ketenagakerjaan
4. Undang-Undang No. 40 Tahun 2007 tentang Perseroan Terbatas
5. Undang-Undang Republik Indonesia No. 24 Tahun 2011 tentang Badan Penyelenggara Jaminan Sosial

SUSTAINABLE SOCIAL PERFORMANCE

Allo Bank's strong performance, including reaching 11 million customers in its third year, reflects the immense support from stakeholders for the Bank's growth. This achievement is even more significant given the intense competition among digital-based conventional bank in Indonesia, with dozens of players competing aggressively. Banks continuously strive to enhance customer experiences by offering services that enable prospective and existing customers to access information, communicate, register, open accounts, conduct banking transactions, close accounts, and engage in additional financial activities such as financial advisory, investment, and electronic trading system transactions (*e-commerce*).

The support Allo Bank receives is the result of a mutual relationship between the Bank and its stakeholders, both internal and external. The Bank's internal stakeholders include shareholders, management, and employees across various divisions and organizational levels. External stakeholders consist of customers, clients, regulators, and communities in the Bank's operational areas, including beneficiaries of CSR (*Corporate Social Responsibility*) programs.

To ensure effective stakeholder engagement, Allo Bank conducts comprehensive stakeholder mapping, allowing the Bank to gain a clear understanding of expectations and needs. The Bank remains committed to fulfilling these responsibilities, recognizing that maintaining strong relationships with stakeholders is essential for long-term business sustainability.

Given the diverse range of stakeholders, Allo Bank tailors its approach to fulfilling stakeholder expectations. These efforts cover areas such as employment, Occupational Safety and Health (K3), human rights, community involvement, and product and service responsibility.

Policy Foundation

Allo Bank's commitment to fulfilling its responsibilities to all internal and external stakeholders refers to various regulations in force in Indonesia, including:

1. Law No. 1 of 1970 concerning Occupational Safety
2. Law No. 8 of 1999 concerning Consumer Protection
3. Law No. 13 of 2003 concerning Manpower
4. Law No. 40 of 2007 concerning Limited Liability Companies
5. Law of the Republic of Indonesia No. 24 of 2011 concerning Social Security Administering Body

Berdasarkan berbagai regulasi di atas, selanjutnya Bank telah menyusun berbagai regulasi internal sebagai panduan operasional keseharian yang berkaitan dengan pengelolaan kepegawaian, Kesehatan dan Keselamatan Kerja (K3), tanggung jawab produk dan lain sebagainya.

Layanan Setara untuk Nasabah [OJK F.17]

Layanan setara bagi nasabah merupakan prinsip fundamental bagi Allo Bank dalam menjalankan bisnis. Untuk itu, Bank memastikan bahwa setiap nasabah, tanpa memandang latar belakang seperti agama, ras, suku, gender, pandangan politik dan lain-lain, memiliki akses yang sama untuk mendapatkan layanan terbaik. Bank meyakini kualitas dan kesetaraan layanan merupakan kunci penting untuk meraih kepercayaan dan loyalitas nasabah.

Penerapan kesetaraan kepada nasabah merupakan kepatuhan Allo Bank terhadap Undang-Undang Perlindungan Konsumen pasal 7, huruf c, "memperlakukan atau melayani konsumen secara benar dan jujur serta tidak diskriminatif." Dalam penjelasan pasal tersebut

In compliance with these regulations, the Bank has developed internal regulations that serve as operational guidelines for employee management, Occupational Health and Safety (K3), product responsibility, and other related areas.

Equality in Customer Service [OJK F.17]

Equal service for customers is a fundamental principle for Allo Bank in running its business. To that end, the Bank ensures that every customer, regardless of their background—such as religion, race, ethnicity, gender, political views, or other factors—has equal access to the best service. The Bank believes that quality and equality of service are key factors in gaining customer trust and loyalty.

The application of equality in customer service is Allo Bank's compliance with the Consumer Protection Law, Article 7, letter (c), which states: "Treating or serving consumers properly, honestly, and without discrimination." The article further explains: "Business actors

disebutkan, "Pelaku usaha dilarang membedakan konsumen dalam memberikan pelayanan. Pelaku usaha dilarang membedakan mutu pelayanan kepada konsumen." Sebagai bagian dari Lembaga Jasa Keuangan, kesetaraan perlakuan kepada nasabah Bank juga merujuk pada Peraturan Otoritas Jasa Keuangan No. 6/POJK.07/2022 tentang Perlindungan Konsumen dan Masyarakat Sektor Jasa Keuangan di mana pada pasal 35 ayat 1 terdapat klausul "PUJK wajib memberikan akses yang setara kepada setiap konsumen sesuai klasifikasi konsumen".

Kesetaraan Kesempatan Kerja [OJK F.18]

Allo Bank secara konsisten menerapkan lingkungan kerja yang adil dan setara tanpa diskriminasi bagi semua karyawan, serta mendukung keberagaman sebagai bagian dari kekuatan Bank. Komitmen tersebut diberlakukan sejak proses rekrutmen dan berlaku untuk semua karyawan *existing*, baik terkait dengan pelatihan dan pengembangan kompetensi, karir, remunerasi, dan sebagainya. Selaras dengan komitmen tersebut, Bank memberikan kesempatan yang sama dan setara kepada seluruh karyawan laki-laki dan perempuan untuk bekerja, meniti karier dan menempati posisi-posisi penting, termasuk di jajaran *top management*. Prinsip kesetaraan dan non-diskriminasi dalam kesempatan kerja di Allo Bank diatur melalui regulasi internal yaitu *Code of Conduct* dan Peraturan Perusahaan.

Penerapan kesetaraan kesempatan bekerja di Allo Bank selaras dengan spirit Pasal 28 I ayat (2) Undang-Undang Dasar Negara Republik Indonesia Tahun 1945, yaitu: "Setiap orang berhak bebas dari perlakuan yang bersifat diskriminatif atas dasar apapun dan berhak mendapatkan perlindungan terhadap perlakuan yang bersifat diskriminatif itu." Selain itu, juga sesuai dengan Undang-Undang Republik Indonesia No. 7 Tahun 1984 tentang Pengesahan Konvensi Mengenai Penghapusan Segala Bentuk Diskriminasi terhadap Wanita (*Convention On The Elimination Of All Forms Of Discrimination Against Women*), serta Instruksi Presiden Republik Indonesia No. 9 Tahun 2000 tentang Pengarusutamaan Gender dalam Pembangunan Nasional.

Tenaga Kerja Anak dan Kerja Paksa [OJK F.19]

Tenaga kerja anak dan kerja paksa merupakan pelanggaran hak asasi manusia yang harus dihapuskan. Sejalan dengan spirit tersebut, maka Allo Bank menetapkan secara jelas batas minimal usia karyawan dan jam kerja. Untuk usia minimal karyawan, Bank memastikan seluruh karyawan, baik tetap maupun kontrak, telah berusia di atas 18 tahun. Hal tersebut sesuai dengan kebijakan rekrutmen Bank, yaitu untuk pendidikan kandidat minimal SMU (sederajat), sedangkan usia minimal 18 tahun. Adapun jam kerja yang berlaku di Bank adalah 8 (delapan) jam dalam 1 (satu) hari dan 40 (empat puluh) jam dalam 1 (satu) minggu untuk 5 (lima) hari kerja dalam 1 (satu) minggu, sesuai dengan pasal 77 Undang-Undang No. 13 tahun 2003 tentang Ketenagakerjaan. Dengan ketentuan seperti itu, maka setiap karyawan memiliki waktu istirahat yang cukup. Komitmen dan kepatuhan Bank terhadap regulasi tentang usia dan jam kerja karyawan membawa hasil dengan tidak adanya praktik pekerja anak dan kerja paksa.

are prohibited from discriminating against consumers in providing services. Business actors are prohibited from discriminating in the quality of service to consumers." As part of a Financial Services Institution, equality of treatment for Bank customers also refers to Financial Services Authority Regulation No. 6/POJK.07/2022 concerning Consumer and Community Protection in the Financial Services Sector. According to Article 35, Paragraph 1, the regulation states: "PUJK is required to provide equal access to each consumer according to consumer classification."

Equal Employment Opportunity [OJK F.18]

Allo Bank consistently upholds a fair and equal working environment, ensuring no discrimination among employees and embracing diversity as a key strength of the Bank. This commitment is implemented from the recruitment process and applies to all employees, covering training and competency development, career progression, remuneration, and other employment aspects. In line with this commitment, the Bank provides equal opportunities for both male and female employees to work, advance their careers, and hold key positions, including top management roles. The principles of equality and non-discrimination in employment at Allo Bank are regulated through internal policies, including the Code of Conduct and Company Regulations.

The implementation of equal employment opportunities at Allo Bank aligns with Article 28I, paragraph (2) of the 1945 Constitution of the Republic of Indonesia, which states: "Everyone has the right to be free from discriminatory treatment on any basis and has the right to receive protection against such discriminatory treatment." Additionally, this commitment complies with Law No. 7 of 1984 concerning the Ratification of the Convention on the Elimination of All Forms of Discrimination Against Women and Presidential Instruction No. 9 of 2000 regarding Gender Mainstreaming in National Development.

Child Labor and Forced Labor [OJK F.19]

Child labor and forced labor are human rights violations that must be eliminated. In line with this principle, Allo Bank strictly regulates the minimum employment age and working hours. To ensure compliance, the Bank sets the minimum age for all employees, both permanent and contract, at 18 years. This is in accordance with Allo Bank's recruitment policy, which requires candidates to have at least a high school education (or equivalent) and a minimum age of 18 years. The Bank's working hours policy stipulates 8 (eight) hours per day and 40 (forty) hours per week, following a 5-day workweek. This is in line with Article 77 of Law No. 13 of 2003 concerning Manpower, ensuring that employees have adequate rest periods. Due to these strict regulations, Allo Bank has effectively prevented any instances of child labor or forced labor.

Selain merujuk pada undang-undang ketenagakerjaan, semangat Bank untuk turut serta menghapus pekerja anak dan kerja paksa sesuai dengan Undang-Undang No. 20 Tahun 1999 tentang Pengesahan *ILO Convention No. 138 Concerning Minimum Age for Admission to Employment* (Konvensi ILO Mengenai Usia Minimum untuk Diperbolehkan Bekerja), dan Undang-Undang Republik Indonesia No. 1 Tahun 2000 tentang Pengesahan *ILO Convention No. 182 Concerning The Prohibition And Immediate Action for The Elimination of The Worst Forms of Child Labour* (Konvensi ILO No. 182 Mengenai Pelarangan dan Tindakan Segera Penghapusan Bentuk-Bentuk Pekerjaan Terburuk untuk Anak). Sedangkan pemberlakuan jam kerja dengan batasan waktu yang jelas sehingga tidak terjadi kerja paksa sejalan dengan Undang-Undang No. 19 Tahun 1999 tentang Pengesahan *ILO Convention No. 105 Concerning The Abolition of Forced Labour* (Konvensi ILO Mengenai Penghapusan Kerja Paksa).

Upah Minimum Regional [OJK F.20]

Pemenuhan upah minimum bukan hanya kewajiban hukum bagi Allo Bank, tetapi juga strategi yang penting dalam menciptakan hubungan kerja yang harmonis, meningkatkan produktivitas, dan memastikan keberlanjutan perusahaan. Untuk itu, dalam pemberian upah, Bank berupaya semaksimal mungkin memenuhi kriteria keadilan agar memacu semangat karyawan untuk bekerja dan berprestasi. Seiring dengan itu, Bank secara konsisten mengadopsi sistem pengupahan tanpa diskriminasi sehingga setiap karyawan memperoleh perlakuan yang sama, baik laki-laki maupun perempuan. Jika terdapat perbedaan, hal itu lebih disebabkan oleh pencapaian kinerja atau prestasi masing-masing karyawan.

Selaras dengan kepatuhan terhadap regulasi terkait upah, terkhusus remunerasi bagi karyawan tetap di tingkat terendah, Bank memberikan upah minimum dengan tetap memperhatikan pemenuhan kebutuhan hidup layak. Besaran upah minimum diberikan dengan menyesuaikan harga kebutuhan pokok, tingkat inflasi, standar kelayakan hidup, dan variabel lainnya, sebagaimana ditentukan oleh pemerintah. Dengan demikian, Allo Bank memastikan telah memenuhi ketentuan Upah Minimum Regional (UMR), termasuk bagi karyawan tetap level terendah, bahkan dengan memberikan upah yang lebih tinggi dibanding UMR, seperti upah karyawan di DKI Jakarta. Terkhusus pemberian upah karyawan tetap level terendah pada tahun 2024, Bank merujuk pada Peraturan Pemerintah (PP) No. 51 Tahun 2023 tentang Perubahan atas Peraturan Pemerintah No. 36 Tahun 2021 tentang Pengupahan, yang di dalamnya mengatur tentang Upah Minimum Provinsi (UMP) 2024.

Komitmen Bank memberikan kesetaraan upah tanpa memandang gender merupakan implementasi undang-undang ketenagakerjaan, serta Konvensi ILO No. 100/1951 tentang Pengupahan yang Sama bagi Pekerja Laki-laki dan Wanita untuk Pekerjaan yang Sama Nilainya (*Equal Remuneration for Men and Women Workers for Work of Equal Value*).

Lingkungan Kerja yang Layak dan Aman [OJK F.21]

Lingkungan kerja yang layak dan aman sesuai kaidah Keselamatan dan Kesehatan Kerja (K3) merupakan pondasi penting bagi Allo Bank dalam menjalankan usaha. Bank meyakini bahwa penciptaan lingkungan kerja terbaik akan membuat karyawan bekerja dengan

In addition to complying with labor laws, the Bank's commitment to eliminating child and forced labor aligns with Law No. 20 of 1999 concerning the Ratification of ILO Convention No. 138 regarding the Minimum Age for Admission to Employment, and Law of the Republic of Indonesia No. 1 of 2000 concerning the Ratification of ILO Convention No. 182 regarding the Prohibition and Immediate Action for the Elimination of the Worst Forms of Child Labor. Furthermore, the implementation of working hours with clear time limits to prevent forced labor aligns with Law No. 19 of 1999 regarding the Ratification of ILO Convention No. 105 concerning the Abolition of Forced Labor.

Regional Minimum Wage [OJK F.20]

Ensuring compliance with minimum wage regulations is not only a legal obligation for Allo Bank but also a strategic initiative to foster harmonious workplace relations, boost productivity, and sustain the company's growth. The Bank strives to maintain fair wage standards to motivate employees and encourage high performance. Alongside this, Allo Bank maintains a non-discriminatory wage system, ensuring that male and female employees receive equal treatment. Any wage differences are based on individual performance and achievements rather than gender.

In compliance with wage regulations, particularly regarding the remuneration of the lowest-level permanent employees, the Bank sets its minimum wage while considering the cost of living, inflation rates, and other key economic variables determined by the government. As a result, Allo Bank ensures compliance with the Regional Minimum Wage (UMR), including for entry-level permanent employees, and even offers wages above the UMR, particularly in DKI Jakarta. The Bank's determination of minimum wages for entry-level permanent employees in 2024 refers to Government Regulation (PP) No. 51 of 2023, which amends Government Regulation No. 36 of 2021 concerning Wages, regulating the 2024 Provincial Minimum Wage (UMP).

The Bank's commitment to providing equal pay regardless of gender aligns with labor laws and ILO Convention No. 100/1951 on Equal Remuneration for Men and Women Workers for Work of Equal Value.

Decent and Safe Working Environment [OJK F.21]

A decent and safe working environment, in compliance with Occupational Safety and Health (OHS) regulations, is a crucial foundation for Allo Bank in running its business. The Bank believes that fostering the best possible working environment

tenang dan nyaman tanpa khawatir terjadi kecelakaan atau penyakit akibat kerja. Upaya yang dilakukan Bank untuk menghindari risiko kecelakaan kerja antara lain menyusun *layout* kantor dengan baik dan menggunakan peralatan-peralatan yang ergonomis. Seiring dengan itu, Bank juga menyediakan sarana dan prasarana K3, termasuk apabila terjadi kondisi darurat. Sarana dan prasarana tersebut antara lain alat deteksi asap, alat pemadam api ringan, *hydrant*, kotak Pertolongan Pertama pada Kecelakaan (P3K), tempat ibadah, ruang parkir, keamanan 24 jam, dan lain-lain.

Selaras dengan upaya memberikan kenyamanan kerja bagi karyawan yang bekerja di kantor, Perseroan juga menyelenggarakan berbagai program perlindungan bagi karyawan yang bekerja di lapangan. Selain memberikan pelatihan K3 yang relevan, termasuk strategi mitigasi risiko dan prosedur tanggap darurat, Bank juga menyediakan asuransi yang melindungi dari risiko kecelakaan di luar kantor.

Lebih lanjut, untuk menumbuhkan budaya K3, Bank juga secara kontinu melakukan sosialisasi K3. Komitmen dan berbagai upaya dalam mengedepankan keselamatan dan kesehatan kerja membawa hasil dengan tidak adanya kecelakaan kerja dan penyakit akibat kerja di Allo Bank selama tahun 2024.

Pelatihan dan Pengembangan Kemampuan Karyawan [OJK F.22]

Allo Bank secara berkesinambungan menyelenggarakan pelatihan dan pendidikan untuk mengembangkan kompetensi pegawai sehingga mereka mampu menjalankan tugas dan tanggung jawab secara maksimal. Kegiatan tersebut menjadi fokus karena sebagai bank umum berbasis digital, Bank memerlukan pegawai dengan kualifikasi dan kompetensi yang spesifik di bidang bisnis digital dan teknologi informasi. Adapun aspek kompetensi yang menjadi target pengembangan disesuaikan dengan kekuatan pegawai (*strength-based development*) dan arahan bisnis Bank.

Selain program pengembangan kepemimpinan, Bank juga akan membuat, menyelenggarakan dan ikut dalam program pengembangan teknis, khususnya di bidang teknologi informasi dan digital, *cyber security*, *data analytics*, dan *digital marketing*. Bank mendukung pengembangan personal dan profesional pegawai untuk mempelajari hal baru sesuai minat dan kompetensi yang dimiliki. Pelaksanaan program yang dilakukan akan menggunakan metode yang efektif, seperti pembelajaran *virtual*, *electronic*, maupun tatap muka.

Selama tahun 2024, Bank telah menyelenggarakan pengembangan kompetensi sebanyak 179 program, yang diikuti oleh 439 pegawai atau 93% dari total pegawai dengan jumlah jam pelatihan sebanyak 1.472 jam. Adapun biaya pengembangan kompetensi tercatat sebesar Rp4,853 miliar naik dibandingkan tahun 2023, yang mencapai Rp3,886 miliar. Rekapitulasi program pengembangan kompetensi dan rerata jam pelatihan pegawai selengkapnya disajikan dalam tabel berikut:

allows employees to work with a sense of security and comfort, free from concerns about workplace accidents or occupational illnesses. To mitigate the risk of workplace accident, the Bank has taken several measures, including optimizing office layouts and utilizing ergonomic equipment. Additionally, the Bank provides OHS facilities and infrastructure, particularly for emergencies. These include smoke detectors, fire extinguishers, hydrants, first aid kits (P3K), places of worship, parking spaces, 24-hour security, and other essential safety features.

In line with efforts to ensure a comfortable working environment for office-based employees, the Bank also implements various protection programs for field employees. In addition to offering relevant OHS training, including risk mitigation strategies and emergency response procedures, the Bank provides insurance coverage against potential workplace accidents occurring outside the office.

Furthermore, to cultivate a strong OHS culture, the Bank continuously raises awareness through various initiatives. Its commitment to prioritizing OHS has yielded positive results, with no recorded workplace accidents or occupational illnesses at Allo Bank throughout 2024.

Employee Training and Development [OJK F.22]

Allo Bank continuously provides training and education to enhance employee competencies, ensuring they can perform their duties and responsibilities optimally. These development programs are a priority, as the Bank, operating as a digital-based conventional bank, requires employees with specialized qualifications in digital business and information technology. The targeted competency development areas are aligned with employees' strengths (*strength-based development*) and the Bank's strategic business direction.

Beyond leadership development programs, the Bank also initiates, organizes, and participates in technical development programs, particularly in information and digital technology, cybersecurity, data analytics, and digital marketing. The Bank strongly supports employees' personal and professional development, encouraging them to explore new areas aligned with their interests and expertise. These programs are delivered through various effective learning methods, including virtual, electronic, and face-to-face training sessions.

Throughout 2024, the Bank conducted 179 competency development programs, attended by 439 employees—representing 93% of the total workforce, with a cumulative total of 1,472 training hours. The total investment in competency development amounted to IDR4.853 billion, marking an increase from IDR3.886 billion in 2023. A comprehensive summary of the competency development programs and the average employee training hours is presented in the following table:

Dampak Operasi terhadap Masyarakat Sekitar [OJK F.23]

Allo Bank memilih pendekatan operasional sebagai bank umum berbasis digital untuk merespons pesatnya perkembangan dunia digital. Sejalan dengan itu, Bank telah menetapkan visi dan misi yang disetujui oleh Dewan Komisaris dan Direksi sebagai panduan untuk mencapai kinerja yang optimal. Dengan berpedoman pada visi dan misi tersebut, seluruh kegiatan operasional Bank tidak menimbulkan dampak negatif bagi masyarakat sekitar.

Sebaliknya, keberadaan Bank justru memberikan manfaat positif bagi masyarakat diantaranya menyediakan lapangan kerja dan kesempatan untuk menjadi pemasok barang dan jasa. Dampak positif yang lain, masyarakat mendapat manfaat atas pelaksanaan berbagai program Tanggung Jawab Sosial dan Lingkungan (TJSL) yang diimplementasikan dalam bentuk kegiatan *Corporate Social Responsibility* (CSR). Lebih lanjut, sebagai bank umum berbasis digital, operasional Allo Bank tidak memiliki dampak langsung terhadap lingkungan. Oleh karena itu, tidak ada pengaduan terkait masalah lingkungan yang ditujukan kepada Bank selama tahun pelaporan.

Pengaduan Masyarakat [OJK F.24]

Kepatuhan terhadap regulasi merupakan spirit yang dipegang Allo Bank dalam menjalankan usaha sehingga operasional usahanya tidak berdampak negatif bagi masyarakat dan lingkungan. Walau demikian, sebagai bentuk pemenuhan tanggung jawab kepada masyarakat, Allo Bank tetap membuka diri terhadap kemungkinan adanya pengaduan dari masyarakat dan pemangku kepentingan yang lain, termasuk nasabah, yang terdampak oleh operasional Bank dan berkomitmen untuk menyelesaikan pengaduan tersebut secepatnya. Impact of Operations on the Surrounding Community [OJK F.23]

Allo Bank has adopted an operational approach as a digital-based conventional bank to keep pace with the rapid development of the digital world. In line with this, the Bank has established a vision and mission, approved by the Board of Commissioners and Directors, to serve as a guide for achieving optimal performance. By adhering to this vision and mission, the Bank ensures that its operational activities do not negatively impact the surrounding community.

On the contrary, the Bank's presence provides significant benefits to the community, including job creation and opportunities for individuals and businesses to become suppliers of goods and services. Another positive impact comes from the various Social and Environmental Responsibility (TJSL) programs carried out through Corporate Social Responsibility (CSR) initiatives. Furthermore, as a digital-based conventional bank, Allo Bank's operations do not have a direct environmental impact. Consequently, no complaints related to environmental issues were reported to the Bank during the reporting year.

Public Complaints [OJK F.24]

Compliance with regulations is a core principle upheld by Allo Bank to ensure that its business operations do not negatively impact society or the environment. However, as part of its responsibility to the community, Allo Bank remains open to receiving complaints from the public and other stakeholders, including customers, who may be affected by its operations. The Bank is committed to addressing and resolving complaints promptly. Those wishing to submit complaints regarding the Bank's operations can do so by visiting its operational office or using the following channels:

Selama tahun 2024, Bank menerima pengaduan sebanyak 19.335 kasus, naik dibandingkan tahun 2023 yang mencapai 13.375 kasus. Topik pengaduan yang masuk terbagi dalam beberapa kategori yaitu Kartu ATM/Debit/Mesin ATM, *Electronic Banking* dan Sistem Pembayaran Lainnya (Transfer Dana), dan semuanya (99,91%) telah ditindaklanjuti sesuai *Standard Operating Procedure* yang berlaku.

Kegiatan Tanggung Jawab Sosial Lingkungan (TJSL) [OJK F.25]

Allo Bank menyelenggarakan Program TJSL/CSR sebagai jembatan antara Bank dengan masyarakat. Melalui program tersebut, Bank tidak hanya berkontribusi pada peningkatan kualitas hidup dan pemberdayaan masyarakat, tetapi juga memperkuat reputasi dan kepercayaan publik terhadap Bank. Dalam era digital yang terus berkembang, program CSR membantu Allo Bank untuk menunjukkan komitmennya terhadap tanggung jawab sosial dan lingkungan, yang pada gilirannya dapat menarik minat investor dan nasabah yang peduli terhadap dampak sosial dan lingkungan.

CSR juga merupakan bentuk komitmen Allo Bank kepada lingkungan dengan tujuan untuk berperan serta dalam pembangunan berkelanjutan selaras dengan prinsip *Triple Bottom Line* yaitu *People, Planet, Profit* (3P) serta memberikan nilai tambah kepada semua pemangku kepentingan, termasuk internal perusahaan guna mendukung pertumbuhan Bank.

Di Allo Bank, CSR didefinisikan sebagai tanggung jawab atas dampak dari keputusan dan aktivitasnya pada masyarakat dan lingkungan melalui perilaku yang transparan dan beretika yang bertujuan untuk:

1. Membangun citra dan reputasi Bank yang dapat meningkatkan kepercayaan kepada Allo Bank.
2. Membangun hubungan yang harmonis dengan segenap pemangku kepentingan.
3. Menumbuhkan *positive value* karyawan terhadap Allo Bank.
4. Konsisten dengan pembangunan berkelanjutan (*sustainable development*) dan kesejahteraan masyarakat.
5. Mematuhi peraturan dan ketentuan yang berlaku.

Allo Bank terus berupaya memaksimalkan manfaat atas keberadaan Bank di tengah masyarakat melalui berbagai program CSR di bawah branding "Allo Bank Pelita", termasuk program kerja sama dengan CT Arsa Foundation untuk semakin memperkuat dampak sosial kepada semua *stakeholders*. Pelaksanaan CSR sekaligus merupakan dukungan Bank terhadap 17 Tujuan Pembangunan Berkelanjutan (TPB) atau *Sustainable Development Goals* (SDGs) yang saat ini sedang dilaksanakan pemerintah. Kolaborasi program CSR pada tahun 2024 dan dukungan terhadap TPB/SDGs selengkapnya adalah sebagai berikut:

1. Gerakan Berbagi Pangan dan Sembako ("Gebrag") berupa penyediaan paket sembako dan menu makanan gratis untuk meningkatkan nutrisi dan memenuhi gizi masyarakat pra-sejahtera di daerah sekitar Jabodetabek saat berbuka puasa selama bulan Ramadhan 2024. Program ini sejalan dengan TPB ke-3 Kesehatan yang Baik dan Kesejahteraan;

During 2024, the Bank received a total of 19,335 complaints, representing an increase compared to 2023, which recorded 13,375 cases. The complaints were categorized into several topics, including ATM/Debit Cards/ATM Machines, Electronic Banking and Other Payment Systems (Fund Transfers), all of which (99.91%) were followed up in accordance with the applicable Standard Operating Procedure.

Corporate Social and Environmental Responsibility Activities [OJK F.25]

Allo Bank implements the TJSL/CSR Program as a means of fostering relationships with the community. Through this program, the Bank not only contributes to improving quality of life and empowering communities but also enhances its reputation and strengthens public trust. In the ever-evolving digital era, CSR initiatives enable Allo Bank to demonstrate its commitment to social and environmental responsibility, attracting investors and customers who value social and environmental impacts.

CSR is also a reflection of Allo Bank's commitment to environmental responsibility, supporting sustainable development in line with the Triple Bottom Line principle: People, Planet, and Profit (3P). By doing so, the Bank provides added value to all stakeholders, including its internal workforce, to support long-term business growth.

At Allo Bank, CSR is defined as the Bank's responsibility for the impact of its decisions and activities on society and the environment through transparent and ethical behavior. The objectives of Allo Bank's CSR initiatives include:

1. Enhancing the Bank's image and reputation to strengthen public trust.
2. Building and maintaining harmonious relationships with all stakeholders.
3. Cultivating employee positive value towards Allo Bank.
4. Aligning with sustainable development and community welfare.
5. Complying with all applicable laws and regulations.

Allo Bank continuously seeks to maximize the positive impact of its presence in the community through various CSR initiatives under the "Allo Bank Pelita" branding. One of the key initiatives includes a collaboration with the CT Arsa Foundation to further amplify the Bank's social impact across its stakeholder network. Additionally, these CSR programs reflect Allo Bank's support for the 17 Sustainable Development Goals (SDGs) set by the government. The CSR collaborations undertaken in 2024 and their alignment with the SDGs are as follows:

1. Food and Grocery Sharing Movement ("Gebrag"). This initiative provides free food packages and meals to improve nutrition and meet the dietary needs of underprivileged individuals in the Jabodetabek area during Ramadan 2024. This program aligns with SDG 3: Good Health and Well-being.

2. Inisiasi untuk program PIJAR sebagai gerakan mengajar di berbagai sekolah di daerah-daerah pelosok Indonesia yang dilakukan secara berkala dengan masa pengabdian selama satu tahun. Dalam hal ini, Allo Bank Pelita bekerja sama dan mendukung program PIJAR CT Arsa Foundation tahun 2024 dan program tersebut akan terus berjalan di sepanjang tahun 2025. Program yang selaras dengan TPB ke-4 Pendidikan Bermutu ini bertujuan untuk meningkatkan motivasi siswa dan kapasitas guru dalam bidang literasi dan numerasi, sekaligus membangun kepedulian masyarakat terhadap hal tersebut. Program ini.
3. Program kebun hidroponik pada tiga lokasi di sekitar Rumah Inspirasi CT Arsa di Kamal, Jakarta Barat. Program CSR berjalan sejak semester II tahun 2024 dan akan terus berjalan pada tahun 2025. Program ini bertujuan untuk meningkatkan gizi, mendukung ketahanan pangan dan memberdayakan ekonomi masyarakat pra-sejahtera di sekitar lokasi Rumah Inspirasi, sekaligus untuk menjaga lingkungan melalui kegiatan menanam hidroponik, dan mengajak anak-anak untuk menyukai dan mengonsumsi sayur-sayuran yang ditanam sendiri. Program ini mendukung TPB ke-3 Kesehatan yang baik dan kesejahteraan, TPB ke-8 Pekerjaan layak dan pertumbuhan ekonomi, serta TPB ke-12 Konsumsi dan produksi yang bertanggung jawab.
2. Initiation of the PIJAR Program. A teaching movement implemented in various schools located in remote areas of Indonesia. Conducted on a one-year service cycle, this program aims to enhance student motivation and teacher capacity in literacy and numeracy while raising community awareness about education. Allo Bank Pelita collaborates with and supports the PIJAR CT Arsa Foundation initiative, which began in 2024 and will continue through 2025. This program aligns with SDG 4: Quality Education.
3. Hydroponic Garden Program — Launched in the second half of 2024 at three locations around CT Arsa Inspiration House in Kamal, West Jakarta, this program began in the second half of 2024 and will continue into 2025. It aims to improve nutrition, support food security, and empower the local economy of underprivileged communities while promoting environmental sustainability through hydroponic farming. Additionally, it encourages children to grow and consume their own vegetables. This program aligns with SDG 3: Good Health and Well-being, SDG 8: Decent Work and Economic Growth, and SDG 12: Responsible Consumption and Production.

Inovasi dan Pengembangan Produk/Jasa Keuangan Berkelanjutan [OJK F.26]

Allo Bank memahami bahwa kebutuhan nasabah selalu berubah seiring dengan perkembangan zaman. Oleh karena itu, untuk tetap kompetitif dan unggul dalam persaingan, penting bagi Bank untuk terus melakukan inovasi serta mengembangkan produk dan layanan secara berkelanjutan. Upaya inovasi dan pengembangan yang dilakukan oleh Bank tidak hanya terbatas pada produk dan layanan, tetapi juga mencakup aspek pemasaran dan berbagai bidang lainnya.

Untuk mewujudkan keseriusan Bank dalam melakukan inovasi secara terus-menerus dan memastikan bahwa setiap proses bisnis yang menggunakan teknologi informasi berjalan dengan baik, terkontrol, dan berkelanjutan, pada tahun 2024, Bank melakukan *assessment* COBIT 2019 dan memperoleh nilai Tingkat Maturitas TI di level 4,21. Keberhasilan tersebut menjadi pemenuhan salah satu komitmen dan dedikasi Bank dalam menerapkan standar terbaik dalam tata kelola teknologi informasi.

Tak kalah penting adalah pengembangan infrastruktur teknologi informasi secara berkelanjutan dimana Allo Bank telah menyelesaikan pembangunan *Data Center* baru sebagai jantung utama dari operasional layanan Bank dengan layanan berbasis aplikasi digital. Untuk mengantisipasi tuntutan pengembangan inovasi dan layanan ke depan, sesuai dengan harapan dari para *stakeholders* maka dibutuhkan *Data Center* dengan kesiapan Skalabilitas, Ketersediaan, Keandalan, Keamanan, serta sumber daya yang ramah lingkungan. Hal tersebut menuntut Allo Bank untuk dapat mengelola *Data Center* secara independen dalam mencapai kapabilitas operasional yang unggul dimaksud.

Innovation and Development of Sustainable Financial Products and Services [OJK F.26]

Allo Bank recognizes that customer needs continue to evolve with the times. Therefore, to remain competitive and ahead in the industry, it is crucial for the Bank to continuously innovate and develop its products and services in a sustainable manner. The Bank's innovation and development efforts extend beyond products and services to include marketing strategies and various other areas.

To demonstrate its commitment to continuous innovation and ensure that all business processes utilizing information technology run smoothly, securely, and sustainably, the Bank conducted a COBIT 2019 assessment in 2024, achieving an IT Maturity Level score of 4.21. This achievement reflects the Bank's dedication to implementing the highest standards of information technology governance.

Equally important is the development of sustainable information technology infrastructure. Allo Bank has successfully completed the construction of a new *Data Center*, which serves as the backbone of the Bank's digital application-based service operations. To anticipate future demands for innovation and service expansion, and in line with stakeholder expectations, the *Data Center* has been designed with Scalability, Availability, Reliability, Security, and Environmentally friendly resources in mind. This infrastructure allows Allo Bank to independently manage its *Data Center* while achieving superior operational capabilities.

Data Center baru Allo Bank mulai dibangun pada Mei 2023 dan selesai pada April 2024. Pembangunan fisik selesai pada Desember 2023, diikuti dengan Sertifikasi TIA Rated-3 pada Februari 2024. Kemudian dilanjutkan dengan pengadaan perangkat utama Data Center yang terdiri dari perangkat server, jaringan, dan security. Pada akhirnya, fasilitas infrastruktur TI ini diresmikan oleh Chairman CT Corp pada 17 Mei 2024.

Infrastruktur Data Center yang baru dirancang dengan arsitektur yang memenuhi standar internasional tertinggi. Selain arsitektur, keamanan juga menjadi prioritas Bank, dengan pemisahan antara lingkungan *core system* dengan *surrounding system* dan *development system* untuk meningkatkan keamanan dan keandalan layanan. Perangkat-perangkat yang ada saat ini disiapkan untuk mendukung perkembangan bisnis hingga 15 juta pelanggan di masa depan.

Inovasi lain, pada tahun 2024, Allo Bank merilis produk baru berupa Rekening Dana Nasabah, *Virtual Account* dan *Virtual Debit Card*. Sementara itu, di bidang pemasaran, Bank terus mengembangkan strategi dan berupaya menjalin kemitraan strategis dengan berbagai ekosistem terkemuka lainnya melalui penerapan model *Open Banking* dalam upaya mengembangkan ekosistem digital dan meningkatkan nilai layanan finansial yang disediakan oleh Bank secara *contextual*, terutama untuk sektor-sektor yang dekat dengan aspek-aspek kehidupan nasabah.

Kerahasiaan Data Nasabah

Kerahasiaan data nasabah adalah salah satu hak fundamental yang selalu dijaga oleh Allo Bank. Dalam hal ini, penggunaan data atau informasi yang berkaitan dengan nasabah hanya dapat dilakukan sesuai dengan ketentuan yang ditetapkan oleh peraturan dan perundang-undangan yang berlaku. Melindungi informasi nasabah juga merupakan wujud kepercayaan yang berdampak pada reputasi Bank, sebagaimana diatur dalam Undang-Undang Republik Indonesia No. 27 Tahun 2022 tentang Pelindungan Data Pribadi dan Surat Edaran Otoritas Jasa Keuangan No. 14/SEOJK.07/2014 mengenai Kerahasiaan dan Keamanan Data dan/atau Informasi Pribadi Konsumen. Terkait dengan transparansi penggunaan data pribadi nasabah, Bank tidak akan membagikan data pribadi tersebut kepada pihak ketiga tanpa mendapatkan persetujuan tertulis dari pemilik data.

Terkait Pelindungan Data Pribadi, Bank sebagai sebuah lembaga jasa keuangan yang menghimpun dan memproses data pribadi nasabah telah memiliki *Task Force* terkait Pelindungan Data Pribadi. *Task Force* yang terdiri dari Unit Risiko Siber, Unit Legal, Unit Kepatuhan, dan Unit Keamanan Informasi memastikan kepatuhan terhadap implementasi dari Undang-Undang No. 27 Tahun 2022 tentang Perlindungan Data Pribadi. Untuk mengukuhkan kinerjanya, *Task Force* telah melaksanakan pelatihan kesadaran terhadap Pelindungan Data Pribadi untuk karyawan, serta menyelenggarakan *workshop* pengisian dokumentasi perekaman pemrosesan data pribadi (*Records of Processing Activity* atau RoPA) yang diikuti oleh semua perwakilan dari semua divisi yang ada di Bank telah dilakukan. Seiring dengan itu, *Risk Assessment* terkait Pelindungan

Construction of the new Data Center began in May 2023 and was completed in April 2024. The physical construction was finished in December 2023, followed by TIA Rated-3 Certification in February 2024. Subsequently, the Bank procured key Data Center equipment, including servers, network infrastructure, and security devices. Finally, this advanced IT infrastructure was officially inaugurated by the Chairman of CT Corp on May 17, 2024.

The new Data Center infrastructure is designed with an architecture that meets the highest international standards. Security is also a top priority, with a clear separation between core system environments, supporting systems, and development systems to enhance security and service reliability. The Bank's infrastructure is built to support business growth, with the capacity to serve up to 15 million customers in the future.

In addition, in 2024, Allo Bank introduced new financial products, including Customer Fund Accounts, Virtual Accounts, and Virtual Debit Cards. In the marketing sector, the Bank continues to refine its strategies and actively pursues strategic partnerships with leading financial and digital ecosystems. Through the implementation of the Open Banking model, the Bank is working to develop a comprehensive digital ecosystem and enhance the value of its financial services, particularly in sectors closely integrated into customers' daily lives.

Customer Confidentiality

Protecting customer data confidentiality is one of Allo Bank's fundamental commitments. The use of customer data or information is strictly governed by applicable laws and regulations. Safeguarding customer information is not only a legal obligation but also a key factor in maintaining customer trust and protecting the Bank's reputation. This commitment aligns with Law No. 27 of 2022 concerning Personal Data Protection and the Financial Services Authority Circular Letter No. 14/SEOJK.07/2014 concerning Security Consumer Personal Data and/or information. In line with data transparency, the Bank ensures that no personal customer data is shared with third parties without the explicit written consent of the data owner.

As a financial services institution that collects and processes customer data, Allo Bank has established a Personal Data Protection Task Force, comprising members from the Cyber Risk Unit, Legal Unit, Compliance Unit, and Information Security Unit. This Task Force ensures strict compliance with Law No. 27 of 2022 on Personal Data Protection. To enhance its effectiveness, the Task Force has conducted awareness training for employees and organized a workshop on documenting personal data processing (*Records of Processing Activity* or RoPA), attended by representatives from all Bank divisions. Additionally, the Risk Assessment on Personal Data Protection was carried out through a Data Protection Impact Assessment (DPIA), conducted after the completion of the RoPA process across all Bank divisions.

Data Pribadi dalam bentuk *Data Protection Impact Assessment* (DPIA) juga dilakukan oleh *Task Force* Pelindungan Data Pribadi setelah proses RoPA di masing-masing divisi selesai dilakukan.

Bank secara konsisten membangun budaya risiko terkait dengan pengamanan dan pelindungan data nasabah melalui program pelatihan dan kesadaran terkait keamanan informasi. Program ini dilaksanakan secara periodik dan diuji dengan melakukan simulasi terkait ancaman keamanan siber.

Kesungguhan Allo Bank dalam menjaga data pelanggan membawa hasil dengan tidak adanya insiden pengaduan dari nasabah maupun dari regulator terkait pelanggaran kerahasiaan nasabah, baik berupa kebocoran, pencurian, atau kehilangan data nasabah. Dengan demikian, Bank tidak mendapat denda atau sanksi berkaitan dengan pelanggaran terhadap privasi pelanggan pada tahun pelaporan.

Dampak Produk/Jasa [OJK F.27, F.28]

Dampak produk dan jasa merupakan fokus bagi Allo Bank dalam menjalankan bisnis. Untuk itu, Bank senantiasa melakukan evaluasi terhadap setiap produk dan layanan yang ditawarkan kepada nasabah. Selain itu, Allo Bank juga telah menyusun klasifikasi produk secara menyeluruh, termasuk profil risiko yang menyertainya. Selanjutnya, sesuai dengan prinsip keuangan berkelanjutan dan mengacu pada Kriteria Kegiatan Usaha Berkelanjutan (KKUB) dalam POJK Keuangan Berkelanjutan, Bank akan menyalurkan kredit dengan menerapkan prinsip kehati-hatian, termasuk upaya untuk mencegah risiko dan dampak negatif yang mungkin muncul. Dalam penyaluran kredit yang mendukung prinsip *Environmental, Social and Governance* (ESG) yang memberikan manfaat positif bagi masyarakat dan lingkungan, Bank memfokuskan perhatian pada sektor UMKM dan industri yang berwawasan lingkungan. Berdasarkan prinsip-prinsip tersebut, selama tahun 2024, tidak ada produk atau layanan yang ditawarkan oleh Bank yang berdampak negatif terhadap aspek lingkungan dan sosial.

Kontribusi terhadap Literasi dan Inklusi Keuangan

Literasi dan inklusi keuangan memiliki peranan yang sangat penting dalam meningkatkan pemahaman masyarakat terhadap produk dan layanan keuangan, serta membantu masyarakat membuat keputusan yang lebih bijak dalam pengelolaan keuangan. Untuk itu, pemerintah menekankan peran lembaga jasa keuangan, termasuk perbankan, dalam meningkatkan inklusi keuangan melalui berbagai program dan kegiatan. Sesuai dengan Peraturan Otoritas Jasa Keuangan No. 76 /POJK.07/2016 tentang Peningkatan Literasi dan Inklusi Keuangan di Sektor Jasa Keuangan Bagi Konsumen dan/atau Masyarakat, literasi keuangan adalah pengetahuan, keterampilan, dan keyakinan, yang mempengaruhi sikap dan perilaku untuk meningkatkan kualitas pengambilan keputusan dan pengelolaan keuangan dalam rangka mencapai kesejahteraan. Adapun inklusi keuangan adalah ketersediaan akses pada berbagai lembaga, produk dan layanan jasa keuangan sesuai dengan kebutuhan dan kemampuan masyarakat dalam rangka meningkatkan kesejahteraan masyarakat.

The Bank is also committed to building a strong risk-aware culture regarding customer data security. It conducts regular training and awareness programs on information security, supplemented by periodic cybersecurity threat simulations to test and strengthen the Bank's security framework.

Allo Bank's commitment to customer data protection has resulted in a zero-incident record for 2024, with no complaints from customers or regulators regarding breaches of confidentiality, data leaks, theft, or loss of customer data. Consequently, the Bank did not receive any fines or sanctions related to customer privacy violations during the reporting year.

Impact of Products and Services [OJK F.27, F.28]

The impact of products and services is a key focus for Allo Bank in conducting its business. To ensure that its offerings align with customer needs and sustainability principles, the Bank continuously evaluates all products and services. Additionally, Allo Bank has developed a comprehensive product classification system, including an assessment of associated risks. In line with sustainable finance principles and referring to the Sustainable Business Activity Criteria (KKUB) outlined in the POJK Sustainable Finance regulation, the Bank adheres to a prudent credit distribution approach. This includes efforts to mitigate risks and prevent negative impacts that may arise. In supporting Environmental, Social, and Governance (ESG) principles, the Bank prioritizes financing for the MSME sector and environmentally conscious industries to create positive social and environmental benefits. Based on these principles, throughout 2024, the Bank did not offer any products or services that had a negative impact on environmental or social aspects.

Contribution to Financial Literacy and Inclusion

Financial literacy and inclusion play a vital role in enhancing public understanding of financial products and services, enabling individuals to make wiser decisions in financial management. Recognizing this, the government mandates financial service institutions, including banks, to actively promote financial inclusion through various programs and initiatives. According to Financial Services Authority Regulation No. 76/POJK.07/2016 on Financial Literacy and Inclusion in the Financial Services Sector, financial literacy refers to knowledge, skills, and confidence that influence an individual's behavior and decision-making in managing finances to achieve financial well-being. Meanwhile, financial inclusion refers to the availability of access to diverse financial institutions, products, and services tailored to the needs and capabilities of the community to improve their overall welfare.

Untuk mengukur indeks literasi dan inklusi keuangan masyarakat, untuk pertama kalinya Otoritas Jasa Keuangan (OJK) dan Badan Pusat Statistik (BPS) melakukan Survei Nasional Literasi dan Inklusi Keuangan (SNLIK) Tahun 2024. Hasil survei kolaborasi dua lembaga yang diumumkan pada awal Agustus 2024 menyebutkan indeks literasi keuangan masyarakat sebesar 65,43% dan inklusi keuangan 75,02%.

Pengumpulan data SNLIK 2024 dilakukan pada 9 Januari-5 Februari 2024 di 34 provinsi yang mencakup 120 kabupaten/kota termasuk 8 wilayah kantor OJK (1.080 blok sensus). Jumlah sampel SNLIK tahun 2024 sebanyak 10.800 responden yang berumur antara 15-79 tahun.

OJK dan BPS menegaskan indeks literasi dan inklusi keuangan hasil SNLIK 2024 tidak dapat langsung dibandingkan secara langsung terhadap indeks literasi dan inklusi keuangan hasil tahun 2022. Sebab, metodologi sampling untuk SNLIK 2024 berbeda dengan SNLIK 2022. Dalam SNLIK 2024 metodologi sampling yang digunakan adalah *stratified multistage cluster sampling* yang lebih mampu merepresentasikan tingkat literasi dan inklusi keuangan masyarakat secara keseluruhan. Adapun SNLIK 2022 menggunakan metodologi *purposive sampling* dan *simple random sampling* yang menghasilkan sampel responden yang cenderung bias ke perkotaan dan kelompok masyarakat berpendidikan tinggi. Merujuk hasil SNLIK 2022, indeks literasi keuangan masyarakat tercatat sebesar 49,68%, sedangkan indeks inklusi keuangan mencapai 85,10%.

Lebih lanjut, hasil SNLIK 2024 menunjukkan bahwa berdasarkan gender, indeks literasi keuangan perempuan lebih tinggi dibandingkan dengan indeks literasi keuangan laki-laki, yakni masing-masing sebesar 66,75% dan 64,14%. Indeks inklusi keuangan perempuan juga lebih tinggi dibandingkan dengan indeks inklusi keuangan laki-laki, yakni masing-masing 76,08% dan 73,97%. Sementara itu, berdasarkan klasifikasi desa, indeks literasi dan inklusi keuangan wilayah perkotaan masing-masing sebesar 69,71% dan 78,41%, lebih tinggi dibandingkan di wilayah perdesaan yakni masing-masing sebesar 59,25% dan 70,13%.

Berdasarkan umur, kelompok 26-35 tahun, 36-50 tahun, dan 18-25 tahun memiliki indeks literasi keuangan tertinggi, yakni masing-masing sebesar 74,82%, 71,72%, dan 70,19%. Sebaliknya, kelompok umur 15-17 tahun dan 51-79 tahun memiliki indeks literasi keuangan terendah, yakni masing-masing sebesar 51,70% dan 52,51%. Kemudian, kelompok umur 26-35 tahun, 36-50 tahun, dan 18-25 tahun memiliki indeks inklusi keuangan tertinggi, yakni masing-masing sebesar 84,28%, 81,51%, dan 79,21%. Namun demikian, kelompok umur 15-17 tahun dan 51-79 tahun memiliki indeks inklusi keuangan terendah, yakni masing-masing sebesar 57,96% dan 63,53%.

Sebagai bentuk kepatuhan dalam memenuhi kewajiban Bank sebagaimana terlampir dalam POJK No. 3 Tahun 2023 tentang Peningkatan Literasi dan Inklusi Keuangan di Sektor Jasa Keuangan Bagi Konsumen dan Masyarakat dan POJK No. 22 Tahun 2023

To assess the financial literacy and inclusion index, the Financial Services Authority (OJK) and the Central Statistics Agency (BPS) conducted the 2024 National Financial Literacy and Inclusion Survey (SNLIK) for the first time. The survey results, announced in early August 2024, reported a financial literacy index of 65.43% and a financial inclusion index of 75.02%.

The SNLIK 2024 data collection took place from January 9 to February 5, 2024, across 34 provinces and 120 districts/cities, covering 1,080 census blocks under 8 OJK regional offices. The survey sampled 10,800 respondents aged 15-79 years.

OJK and BPS emphasized that the financial literacy and inclusion index from SNLIK 2024 cannot be directly compared to the SNLIK 2022 results due to differences in sampling methodologies. The 2024 survey used a stratified multistage cluster sampling method, which provides a more comprehensive and representative measure of financial literacy and inclusion across various demographic groups. In contrast, the 2022 survey used purposive sampling and simple random sampling methods, which tended to be biased toward urban and highly educated respondents. For reference, the 2022 SNLIK results recorded a financial literacy index of 49.68% and a financial inclusion index of 85.10%.

Furthermore, the results of the 2024 SNLIK indicate that, based on gender, the women's financial literacy index is higher than the men's financial literacy index, at 66.75% and 64.14%, respectively. Similarly, the women's financial inclusion index surpasses that of men, standing at 76.08% compared to 73.97%. Meanwhile, based on village classification, the financial literacy and inclusion indexes in urban areas are 69.71% and 78.41%, respectively, which are higher than those in rural areas, at 59.25% and 70.13%, respectively.

From an age group perspective, the 26-35, 36-50, and 18-25 age groups have the highest financial literacy indexes, at 74.82%, 71.72%, and 70.19%, respectively. In contrast, the 15-17 and 51-79 age groups record the lowest financial literacy indexes, at 51.70% and 52.51%, respectively. Similarly, the 26-35, 36-50, and 18-25 age groups exhibit the highest financial inclusion indexes, at 84.28%, 81.51%, and 79.21%, respectively. However, the 15-17 and 51-79 age groups have the lowest financial inclusion indexes, at 57.96% and 63.53%, respectively.

In compliance with POJK No. 3 of 2023 concerning Increasing Literacy and Financial Inclusion in the Financial Services Sector for Consumers and the Community in the Financial Services Sector and POJK No. 22 of 2023 concerning Consumer and Public Protection

tentang Pelindungan Konsumen dan Masyarakat di Sektor Jasa Keuangan, Allo Bank telah menyelenggarakan berbagai program kegiatan untuk pelaksanaan literasi dan inklusi keuangan di sepanjang tahun 2024. Kegiatan tersebut di antaranya program Allo Goes to Campus yang merupakan bentuk pelaksanaan literasi keuangan kepada lembaga pendidikan perguruan tinggi. Melalui program ini, Bank mengunjungi perguruan tinggi atau lokasi diselenggarakannya acara dan memberikan literasi keuangan dalam bentuk kegiatan sosialisasi secara tatap muka dalam mengisi rangkaian atau acara yang diselenggarakan oleh kampus atau kolaborasi kegiatan dengan Bank pada acara tertentu.

Pelaksanaan literasi dan inklusi keuangan juga diselenggarakan melalui kolaborasi *company visit* oleh perguruan tinggi sebagai rangkaian kegiatan dari Allo Goes to Campus, yang sudah berjalan sejak tahun 2022. Pelaksanaan program ini merupakan bentuk komitmen dan kepedulian Bank agar masyarakat Indonesia dan kalangan muda lebih melek dan mendapatkan pengetahuan yang tepat mengenai literasi keuangan. Selanjutnya, Bank juga rutin memberikan edukasi keuangan melalui sosialisasi dan edukasi untuk publik atau umum melalui segmen pada beberapa program ekonomi atau keuangan termasuk sinar dan televisi seperti segmen *Money Talks* oleh CNBC TV Indonesia dan segmen Inovasi Digital dalam siaran sinar oleh SWA Media. Bank juga memberikan literasi keuangan dalam beberapa kegiatan yang diselenggarakan oleh OJK Institute. Selain program dengan kegiatan tatap muka, Bank juga secara rutin memberikan edukasi keuangan secara daring melalui media sosial untuk jangkauan yang lebih luas.

Jumlah Produk/Jasa yang Ditarik Kembali [OJK F.29]

Selama tahun 2024, tidak ada produk/jasa Bank yang ditarik kembali dari pasar dengan alasan apapun.

Survei Kepuasan Nasabah terhadap Produk dan/atau Jasa Keuangan Berkelanjutan [OJK F.30]

Survei kepuasan nasabah memiliki peran penting bagi Allo Bank dalam meningkatkan kualitas produk dan layanan yang ditawarkan. Melalui survei ini, Bank dapat memahami kebutuhan, harapan, dan pengalaman nasabah, termasuk tantangan yang mereka hadapi dalam mengakses produk dan layanan Allo Bank. Lebih lanjut, informasi tersebut menjadi dasar yang kuat bagi Bank untuk merancang strategi peningkatan pelayanan, mengembangkan produk yang lebih relevan, serta memastikan bahwa setiap program yang dijalankan benar-benar memberikan dampak positif bagi nasabah.

Merujuk hasil survei tahun 2024, sebanyak 78,56% nasabah menyatakan puas dengan produk dan layanan Allo Bank, sedikit menurun 1,67% dibandingkan tahun 2023 dengan skor kepuasan nasabah (*customer satisfaction score*) sebesar 80,23%. Pengukuran tingkat kepuasan nasabah terdiri dari berbagai aspek, seperti ketersediaan produk dan fitur, kemudahan penggunaan aplikasi, keamanan transaksi dan respons layanan pelanggan yang tanggap.

in the Financial Services Sector, Allo Bank has implemented various programs to promote financial literacy and inclusion throughout 2024. One of the flagship initiatives is "Allo Goes to Campus," a program designed to enhance financial literacy among university students. Under this initiative, the Bank conducts campus visits and organizes face-to-face educational sessions as part of university events or in collaboration with academic institutions.

The implementation of financial literacy and inclusion is also carried out through collaborations with universities, which conduct company visits as part of the Allo Goes to Campus initiative, a program that has been running since 2022. This program reflects the Bank's commitment to ensuring that Indonesians, particularly young people, become more financially literate and acquire the right knowledge about financial management. Additionally, the Bank regularly provides financial education through public outreach initiatives, including segments on economic and financial programs such as the *Money Talks* segment on CNBC TV Indonesia and the Digital Innovation segment on SWA Media's podcast broadcasts. The Bank also supports financial literacy efforts through various activities organized by the OJK Institute. Beyond in-person programs, the Bank consistently delivers financial education online through social media, allowing for broader accessibility and outreach.

Number of Products and Services Recalled [OJK F.29]

Throughout 2024, no products/services of the Bank were withdrawn from the market for any reason.

Customer Satisfaction Survey on Sustainable Financial Products and Services [OJK F.30]

Customer satisfaction surveys play a crucial role for Allo Bank in enhancing the quality of its products and services. Through these surveys, the Bank gains valuable insights into customer needs, expectations, and experiences, including any challenges they face in accessing Allo Bank's products and services. This information serves as a strong foundation for the Bank to develop service improvement strategies, introduce more relevant products, and ensure that every program implemented has a meaningful and positive impact on customers.

According to the 2024 survey results, 78.56% of customers expressed satisfaction with Allo Bank's products and services, reflecting a slight decrease of 1.67% compared to 2023, when the customer satisfaction score was 80.23%. The measurement of customer satisfaction levels is based on several key aspects, including product and feature availability, ease of application usage, transaction security, and responsiveness of customer service.

The Shareholders, Board of Commissioners and Directors

PT Allo Bank Indonesia Tbk

Opini

Kami telah mengaudit laporan keuangan PT Allo Bank Indonesia Tbk ("Bank") terlampir, yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2024, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan ekuitas dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan PT Allo Bank Indonesia Tbk tanggal 31 Desember 2024, serta kinerja keuangan dan arus kasnya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis Opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan pada laporan kami. Kami independen terhadap Bank berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opinion

We have audited the financial statements of PT Allo Bank Indonesia Tbk ("the Bank"), which comprise the statement of financial position as of December 31, 2024, and the statements of profit or loss and other comprehensive income, changes in equity, and cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of PT Allo Bank Indonesia Tbk as of December 31, 2024, and its financial performance and cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements paragraph of our report. We are independent of the Bank in accordance with the ethical requirements that are relevant to our audit of the financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our opinion.

Hal Audit Utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan periode ini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut:

Kerugian Kredit Ekspektasian ("KKE") - Cadangan Kerugian Penurunan Nilai atas Kredit yang Diberikan
Seperti yang dijelaskan dalam Catatan 10 (Kredit yang diberikan) atas laporan keuangan pada tanggal 31 Desember 2024, total kredit yang diberikan sebesar Rp7.478.035 juta dengan cadangan kerugian penurunan nilai sebesar Rp104.484 juta.

Cadangan kerugian penurunan nilai atas kredit yang diberikan ditentukan Bank berdasarkan kerangka kerugian kredit ekspektasian ("KKE") sesuai dengan PSAK 109: Instrumen Keuangan, seperti yang dijelaskan dalam Catatan 2.k (i) (Penurunan nilai aset keuangan) atas laporan keuangan.

Kami fokus pada area ini karena signifikansi nilai tercatat atas kredit yang diberikan, yang mewakili 53,5% dari jumlah aset Bank pada tanggal 31 Desember 2024 dan besarnya nilai cadangan kerugian penurunan nilai yang dibentuk atas kredit tersebut nilainya signifikan terhadap laporan keuangan Bank. Lebih lanjut, penentuan KKE membutuhkan pertimbangan manajemen yang subjektif dan melibatkan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

Bank menghitung KKE untuk kredit yang diberikan yang tidak memburuk dan kredit yang diberikan yang memburuk. Untuk kredit yang diberikan yang tidak memburuk dan kredit yang diberikan yang memburuk, yang secara individual tidak dianggap signifikan, Bank menghitung KKE secara kolektif menggunakan model KKE dengan beberapa asumsi utama, antara lain *probability of default*, *loss given default*, dan *exposure at default*, setelah memperhitungkan faktor masa depan dan informasi eksternal lainnya.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

The key audit matter identified in our audit is outlined as follows:

Expected Credit Losses ("ECL") - Allowance for Impairment Losses of Loans

As described in Notes 10 (Loans) to the financial statements as of December 31, 2024, the total loans amounted to Rp7,478,035 million with allowance for impairment losses of loans amounted to Rp104,484 million.

The allowance for impairment losses of loans is determined by the Bank based on the Expected Credit Losses ("ECL") framework under PSAK 109: Financial Instrument, as described in Notes 2.k (i) (Impairment of financial assets) to the financial statements.

We focused on this area as the total loans represents 53.5% of the total assets of the Bank as of December 31, 2024, and the allowance for impairment losses provided against the loans were significant to the Bank's financial statements. Furthermore, determining ECL involves subjective management judgement and is subject to a high degree of estimation uncertainty.

The Bank calculated ECL for both non-impaired loans and impaired loans. For non-impaired loans and impaired loans which are not considered individually significant, the Bank assesses collective ECL using the ECL modelling approach that incorporates key assumptions, including probability of default, loss given default, and exposure at default, after considering forward-looking factors and other external information.

Untuk kredit yang memburuk, yang secara individual dianggap signifikan, Bank menghitung KKE secara individual dengan menggunakan estimasi arus kas ekspektasian dari kredit yang diberikan, yang membutuhkan pertimbangan signifikan dalam mengestimasi probabilitas rata-rata tertimbang kerugian kredit, serta estimasi waktu dan jumlah pembayaran dari kredit yang diberikan.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

1. Kami memperoleh pemahaman atas pendekatan Bank dalam mengidentifikasi kredit yang diberikan yang mengalami peningkatan risiko kredit secara signifikan atau bukti objektif penurunan nilai, dan melakukan pengujian, berdasarkan uji petik, kesesuaian dari klasifikasi kualitas kredit yang diberikan dengan menelaah dokumen kredit dari debitur-debitur yang menjadi sampel, serta membuat penilaian independen kami apakah ada peningkatan risiko kredit secara signifikan atau terdapat bukti objektif penurunan nilai.
2. Kami menilai kecukupan cadangan kerugian penurunan nilai yang dihitung secara individual dengan menguji, berdasarkan uji petik, kecukupan cadangan kerugian penurunan nilai yang dihitung oleh manajemen, dengan mengevaluasi kesesuaian estimasi probabilitas rata-rata tertimbang kerugian kredit yang diberikan, serta estimasi waktu dan jumlah pembayaran dari kredit yang diberikan, yang diterapkan oleh Bank dalam mengestimasi arus kas ekspektasian dari kredit yang diberikan.
3. Kami menilai metodologi dan menguji asumsi permodelan signifikan yang digunakan dalam model KKE kolektif, dengan bantuan pakar permodelan kredit kami. Kami menguji *probability of default*, *loss given default* dan *exposure at default*, yang mencakup (i) evaluasi prakiraan makroekonomi Indonesia dengan membandingkan prakiraan dengan informasi yang tersedia untuk umum tentang prospek makroekonomi Indonesia; dan (ii) menguji kelengkapan dan keakuratan data yang digunakan dalam model dengan data aktual yang tersedia di Bank.
4. Kami melakukan perhitungan ulang dan menguji, berdasarkan uji petik, akurasi perhitungan KKE yang dinilai secara kolektif dan individual.

For impaired loans, which are considered individually significant, the Bank assesses individual ECL by estimating the expected cash flows obtained from the loans, which requires significant judgement in estimating the weighted average probability of credit losses, and the timing and amount of the repayments against the loans.

How our audit addresses the key audit matter

We have performed the following audit procedures to address this key audit matter:

1. *We understood the Bank's approach over the identification of financial assets that have experienced a significant increase in credit risk or objective evidence of impairment, and tested, on a sample basis, the appropriateness of the credit quality classification by reviewing the credit files of those sampled debtors, and formed our own independent judgement as to whether there was a significant increase in credit risk or any objective evidence of impairment.*
2. *We assessed the adequacy of individual allowance for impairment losses by testing, on a sample basis, the adequacy of the allowance for impairment losses calculated by management, by evaluating the appropriateness of weighted average probability of credit losses, and the timing and amount of the repayments against the loans, which were applied by the Bank in estimating the expected cash flow obtained from the loans.*
3. *We assessed the methodologies applied and tested the significant modelling assumptions used in collective ECL models, with assistance from our credit modelling expert. We tested probability of default, loss given default and exposure at default, which included (i) evaluating the forecasts of Indonesia macroeconomics by comparing forecasts with publicly available information on the Indonesia macroeconomic outlook; and (ii) testing the completeness and accuracy of data used in the model with the actual data available within the Bank.*
4. *We recalculated and tested, on a sample basis, the accuracy of the collective and individual ECL calculation.*

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, jika tersedia dan, dalam melakukannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan, manajemen bertanggung jawab untuk menilai kemampuan Bank dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Bank atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melakukannya.

Other information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Bank.

Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, tetapi bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas efektivitas pengendalian internal Bank.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*

- Menyimpulkan ketepatan penggunaan basis akuntansi atas kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Bank untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.*
- *Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

From the matters communicated with those charged with governance, we determine such matter that was of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. We describe the matter in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. Ikhtisar Kebijakan Akuntansi Material

Kebijakan akuntansi utama yang diterapkan dalam penyusunan laporan keuangan Bank adalah seperti dijabarkan di bawah ini:

Pernyataan Kepatuhan

Laporan keuangan telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia ("SAK"), yang mencakup Pernyataan dan interpretasi yang diterbitkan oleh Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia ("DSAK"), serta peraturan Pasar Modal yang berlaku antara lain Peraturan Otoritas Jasa Keuangan/Badan Pengawas Pasar Modal dan Lembaga Keuangan (OJK/Bapepam-LK) No. VIII.G.7 tentang pedoman penyajian laporan keuangan, keputusan Ketua Bapepam-LK No. KEP-347/BL/2012 tentang penyajian dan pengungkapan laporan keuangan emiten atau perusahaan publik.

2.a. Dasar Penyusunan Laporan Keuangan

Laporan keuangan disusun berdasarkan biaya perolehan, kecuali untuk aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan seluruh instrumen aset keuangan yang diukur berdasarkan nilai wajar dan aset tanah dan gedung yang diukur pada nilai wajar. Laporan keuangan disusun menggunakan basis akrual, kecuali untuk laporan arus kas.

Bank telah menyusun laporan keuangan dengan dasar bahwa Bank akan terus mempertahankan kelangsungan usaha.

2. Summary of Material Accounting Policies

The principal accounting policies adopted in preparing the financial statements of the Bank are set out below:

Statement of Compliance

The financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards ("SAK") which comprise the Statements and interpretations issued by the Financial Accounting Standards Board of Indonesian Institute of Accountants ("DSAK"), and regulations in the Capital Market include Regulations of Financial Services Authority/Capital Market and Supervisory Board and Financial Institution (OJK/Bapepam-LK) No. VIII.G.7 regarding guidelines for the presentation of financial statements, decree of Chairman of Bapepam-LK No. KEP-347/BL/2012 regarding presentation and disclosure of financial statements of the issuer or public company.

2.a. Basis for Preparation of Financial Statements

The financial statements have been prepared under the historical cost convention, as modified by financial assets at fair value through other comprehensive income and financial assets and land and buildings measured at fair value. The financial statements have been prepared using the accrual basis except for the statement of cash flow.

The Bank has prepared the financial statement on the basis that it will continue to operate as a going concern.

Laporan arus kas disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan. Untuk tujuan laporan arus kas, kas dan setara kas mencakup giro pada bank lain, giro pada Bank Indonesia, penempatan pada Bank Indonesia dan pada bank lain dengan jangka waktu kurang dari 3 bulan.

Pos-pos dalam Penghasilan Komprehensif Lainnya disajikan terpisah antara akun-akun yang akan direklasifikasikan ke laba rugi dan akun-akun yang tidak akan direklasifikasikan ke laba rugi.

Dalam penyusunan laporan keuangan sesuai dengan Standar Akuntansi Keuangan di Indonesia, dibutuhkan estimasi dan asumsi yang mempengaruhi:

- nilai aset dan liabilitas dilaporkan, dan pengungkapan atas aset dan liabilitas kontinjensi pada tanggal laporan keuangan,
- jumlah pendapatan dan beban selama periode pelaporan

Walaupun estimasi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan tindakan saat ini, hasil yang timbul mungkin berbeda dengan jumlah yang diestimasi semula.

Estimasi-estimasi dan asumsi-asumsi yang digunakan ditelaah secara berkesinambungan. Revisi atas estimasi akuntansi diakui pada periode dimana estimasi tersebut direvisi dan periode yang akan datang yang dipengaruhi oleh revisi estimasi tersebut.

Secara khusus, informasi mengenai hal-hal penting yang terkait dengan ketidakpastian estimasi dan pertimbangan-pertimbangan penting dalam penerapan kebijakan akuntansi yang memiliki dampak yang signifikan terhadap jumlah yang diakui dalam laporan keuangan dijelaskan di Catatan 3.

Mata uang penyajian yang digunakan pada laporan keuangan adalah Rupiah, yang merupakan mata uang fungsional Bank.

The statement of cash flows is prepared based on the direct method by classifying cash flows on the basis of operating, investing, and financing activities. For purposes of the statement of cash flows, cash and cash equivalent consist of cash, current accounts with other banks, current accounts with Bank Indonesia, placement with Bank Indonesia and other banks with a period of less than 3 months.

The items under Other Comprehensive Income (OCI) are presented separately between items to be reclassified to profit or loss and those items not to be reclassified to profit or loss.

The preparation of financial statements in conformity with Financial Accounting Standards in Indonesia requires the use of estimates and assumptions that affect:

- the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements,
- the reported amounts of revenues and expenses during the reporting period

Although these estimates are based on management's best knowledge of current events and activities, actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have significant effect on the amount recognized in the financial statements are described in Note 3.

The presentation currency used in the financial statements is Indonesian Rupiah, which is the functional currency of the Bank.

New and revised statements and interpretation of financial accounting standards effective in the current year

The following are amendments and improvements to standards which effective for periods beginning on or after January 1, 2024,

(i) Klasifikasi

Bank mengklasifikasikan aset keuangannya berdasarkan kategori sebagai berikut pada saat pengakuan awal:

- Aset keuangan yang diukur pada nilai wajar melalui laba rugi;
- Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain;
- Aset keuangan yang diukur pada biaya perolehan diamortisasi.

Bank melakukan pengujian karakteristik arus kas kontraktual dari aset keuangan yang dikelola untuk mengetahui karakteristik arus kas kontraktual berasal hanya dari pembayaran pokok dan bunga dari jumlah pokok terutang (*Solely Payment of Principal and Interest* atau *Pass SPPI*) yang konsisten dengan pengaturan pinjaman dasar (*Basic Lending Agreement*).

(i) Classification

The Bank classifies its financial assets according to the following categories at initial recognition:

- Financial assets measured at fair value through profit or loss;
- Financial assets measured at fair value through other comprehensive income;
- Financial assets measured at amortized cost.

The Bank assess the contractual cash flow characteristics of financial assets to determine the characteristics of contractual cash flows only from the payment of principal and interest from the outstanding principal (*Solely Payment of Principal and Interest or Pass SPPI*) that is consistent with basic lending agreement.

Dalam melakukan penilaian, Bank mempertimbangkan:

- Imbalan untuk nilai waktu dari uang;
- *Leverage*;
- Variabilitas pada waktu dan jumlah arus kas;
- Instrumen yang terkait secara kontraktual;
- Pembayaran dipercepat; dan
- Ketentuan kontrak tidak sah dan *de minimis*.

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual; dan
- Persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain (FVTOCI) jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Persyaratan kontraktual dari aset keuangan tersebut memenuhi kriteria SPPI.

Pada saat pengakuan awal, Bank dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai aset keuangan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

Saat pengakuan awal Bank dapat membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada

In making the assessment, the Bank considers:

- *The time value of money element of interest;*
- *Leverage;*
- *Variability in timing or amount of cash flows;*
- *Contractually linked instruments;*
- *Early repayment; and*
- *Non-genuine features and de minimis.*

Financial assets are measured at amortized cost if they meet the following conditions:

- *Financial assets are managed in a business model that aims to have financial assets in order to collect contractual cash flow; and*
- *The contractual terms of the financial asset provide rights on a certain date for cash flow obtained solely from payment of principal and interest (SPPI) on the principal amount outstanding.*

Financial assets are measured at fair value through other comprehensive income (FVTOCI) if they meet the following conditions:

- *Financial assets are managed in a business model that aims to collect contractual cash flow and sell financial assets; and*
- *The contractual requirements of the financial assets meet the SPPI criteria.*

At initial recognition, the Bank may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

At initial recognition, the Bank can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost or fair value

biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch").

Penilaian model bisnis

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

- Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci Bank;
- Apakah risiko yang memengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

Aset keuangan yang dimiliki untuk diperdagangkan atau dikelola dan penilaian kinerjanya berdasarkan nilai wajar diukur pada nilai wajar melalui laba rugi.

Derivatif juga dikategorikan dalam kelompok ini, kecuali derivatif yang ditetapkan sebagai instrumen lindung nilai efektif.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Untuk tujuan penilaian ini, pokok didefinisikan sebagai nilai wajar dari aset keuangan pada saat pengakuan awal. Bunga didefinisikan sebagai imbalan untuk nilai waktu atas uang dan risiko kredit terkait jumlah pokok terutang pada periode waktu tertentu dan juga risiko dan biaya peminjaman standar, dan juga margin laba.

through other comprehensive income at fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as "accounting mismatch").

Evaluation of business models

The business model is determined at a level that reflects how Bank's financial assets are managed together to achieve certain business objectives.

The evaluation of the business model is carried out by considering, but not limited to, the following:

- How the performance of the business model and financial assets held in the business model are evaluated and reported to the Bank's key management personnel;
- What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- How to evaluate the performance of managers of financial assets (for example, whether performance appraisals are based on the fair value of the assets being managed or the contractual cash flows obtained).

Financial assets held for trading or managed and which performance appraisals based on fair value are measured at fair value through profit or loss.

Derivatives are also categorized under this classification unless they are designated as effective hedging instruments.

Evaluation of contractual cash flows obtained solely from payment of principal and interest

For the purpose of this valuation, principal is defined as the fair value of financial assets at initial recognition. Interest is defined as compensation for the time value of money and credit risk in relation to the principal amount owed over a certain period of time and also the risk and standard borrowing costs, as well as profit margins.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga dilakukan dengan mempertimbangkan persyaratan kontraktual, termasuk apakah aset keuangan mengandung persyaratan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual. Dalam melakukan penilaian, Bank mempertimbangkan:

- Peristiwa kontinjensi yang akan mengubah waktu atau jumlah arus kas kontraktual;
- Fitur *leverage*;
- Persyaratan pembayaran di muka dan perpanjangan kontraktual;
- Persyaratan mengenai klaim yang terbatas atas arus kas yang berasal dari aset spesifik; dan
- Fitur yang dapat mengubah nilai waktu dari elemen uang.

Liabilitas keuangan diklasifikasikan ke dalam kategori sebagai berikut pada saat pengakuan awal:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;
- Liabilitas keuangan lain. Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

(ii) Pengakuan

Bank pada awalnya mengakui kredit yang diberikan serta simpanan pada tanggal perolehan. Pembelian dan penjualan aset keuangan yang lazim (reguler) diakui pada tanggal perdagangan dimana Bank memiliki komitmen untuk membeli atau menjual aset tersebut. Semua aset dan liabilitas keuangan lainnya pada awalnya diakui pada tanggal perdagangan dimana Bank menjadi suatu pihak dalam ketentuan kontraktual instrumen tersebut.

An assessment of contractual cash flows obtained solely from principal and interest payments is made by considering contractual terms, including whether financial assets contain contractual terms that can change the timing or amount of contractual cash flows. In assessing, the Bank considers:

- Contingency events that will change the timing or amount of contractual cash flow;
- Leverage feature;
- Terms of advance payment and contractual extension;
- Requirements regarding limited claims for cash flows from specific assets; and
- Features that can change the time value of the money element.

Financial liabilities are classified into the following categories at initial recognition:

- Financial liabilities at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading;
- Other financial liabilities. Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

(ii) Recognition

The Bank initially recognizes loans and deposits on the date of origination. Regular way purchases and sales of financial assets are recognized on the trade date at which the Bank commits to purchase or sell the asset. All other financial assets and liabilities are initially recognized on the trade date at which the Bank becomes a party to the contractual provisions of the instruments.

A financial asset or liability is initially measured at fair value plus (for an item not valued at fair value through profit and loss at initial recognition) transaction costs subsequently measured at fair value that

dapat diatribusikan secara langsung atas perolehan aset keuangan atau penerbitan liabilitas keuangan. Pengukuran aset dan liabilitas keuangan setelah pengakuan awal tergantung pada klasifikasi aset dan liabilitas keuangan tersebut.

Biaya transaksi hanya meliputi biaya-biaya yang dapat diatribusikan secara langsung untuk perolehan suatu aset keuangan atau penerbitan suatu liabilitas keuangan dan merupakan biaya tambahan yang tidak akan terjadi apabila instrumen keuangan tersebut tidak diperoleh atau diterbitkan. Untuk aset keuangan, biaya transaksi ditambahkan pada jumlah yang diakui pada awal pengakuan aset, sedangkan untuk liabilitas keuangan, biaya transaksi dikurangkan dari jumlah utang yang diakui pada awal pengakuan liabilitas.

Biaya transaksi tersebut diamortisasi selama umur instrumen berdasarkan metode suku bunga efektif dan dicatat sebagai bagian dari pendapatan bunga untuk biaya transaksi sehubungan dengan aset keuangan atau sebagai bagian dari beban bunga untuk biaya transaksi sehubungan dengan liabilitas keuangan.

Liabilitas keuangan pada awalnya diukur pada:

- (i) Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.
Kategori ini terdiri dari dua subkategori: liabilitas keuangan diklasifikasikan sebagai diperdagangkan dan liabilitas keuangan yang pada saat pengakuan awal telah ditetapkan diukur pada nilai wajar melalui laba rugi.
- (ii) Liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi, kecuali:
 - a. Liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi.
 - b. Liabilitas keuangan yang timbul ketika pengalihan aset keuangan tidak memenuhi syarat penghentian pengakuan atau ketika pendekatan keterlibatan berkelanjutan diterapkan.
 - c. Kontrak jaminan keuangan.
 - d. Komitmen dengan suku bunga di bawah pasar.

Imbalan kontinjensi yang diakui oleh pihak pengakuisisi dalam kombinasi bisnis.

are directly attributable to the acquisition of financial assets or issuance of financial liabilities. The subsequent measurement of assets and liabilities depends on their classifications.

Transaction costs include only those costs that are directly attributable to the acquisition of a financial asset or issue of a financial liability and are incremental costs that would not have been incurred if the instrument had not been acquired or issued. In the case of financial assets, transaction costs are added to the amount recognized initially, while for financial liabilities, transaction costs are deducted from the amount of debt recognized initially.

Such transaction costs are amortized over the terms of the instruments based on the effective interest method and are recorded as part of interest income for transaction costs related to financial assets or interest expense for transaction costs related to financial liabilities.

Financial liabilities are initially measured at:

- (i) Financial liabilities at fair value through profit or loss.
This category consists of two sub categories: financial liabilities classified as trading and financial liabilities which at initial recognition were designated at fair value through profit or loss.
- (ii) Financial liabilities at amortized cost, except:
 - a. Financial liabilities at fair value through profit or loss.
 - b. Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach is applied.
 - c. Financial guarantee contracts.
 - d. Commitment to provide loans at below market interest rates.

Contingent consideration recognized by the acquirer in the business combination.

- (iii) Pengukuran setelah pengakuan awal
Setelah pengakuan awal, Bank mengukur aset keuangan, sesuai dengan klasifikasi aset keuangan pada:
- a. Biaya perolehan diamortisasi.
 - b. Nilai wajar melalui penghasilan komprehensif lain.
 - c. Nilai wajar melalui laba rugi.

a. Aset keuangan pada biaya perolehan diamortisasi

Aset keuangan pada biaya perolehan diamortisasi diukur dengan menjumlahkan aset keuangan yang diukur saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif menggunakan metode bunga efektif yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya dan disesuaikan dengan penyisihan kerugiannya.

Keuntungan atau kerugian akibat fluktuasi nilai wajar tidak diakui untuk aset keuangan pada biaya perolehan diamortisasi.

Pendapatan bunga dihitung menggunakan metode bunga efektif yaitu dengan menerapkan suku bunga efektif atas jumlah tercatat bruto aset keuangan, kecuali untuk:

- Aset keuangan yang dibeli atau yang berasal dari aset keuangan memburuk. Untuk aset keuangan tersebut, Bank menerapkan suku bunga efektif yang disesuaikan dengan kredit atas biaya perolehan diamortisasi aset keuangan sejak pengakuan awal.
- Aset keuangan yang tidak dibeli atau yang berasal dari aset keuangan memburuk tetapi selanjutnya menjadi aset keuangan memburuk. Untuk aset keuangan tersebut, Bank menerapkan suku bunga efektif atas biaya perolehan diamortisasi aset keuangan di periode pelaporan selanjutnya.

Bank dalam suatu periode pelaporan menghitung pendapatan bunga dengan menerapkan metode bunga efektif atas biaya perolehan diamortisasi aset keuangan, pada periode pelaporan selanjutnya, menghitung pendapatan bunga dengan menerapkan suku

- (iii) *Subsequent Measurement*
After initial recognition, the Bank measures financial assets, according to the classification of financial assets at:
- a. Amortized cost.*
 - b. Fair value through other comprehensive income.*
 - c. Fair value through profit or loss.*

a. Financial assets at amortized cost

Financial assets at amortized cost are measured by adding up the financial assets measured at initial recognition minus principal payments, added or reduced by cumulative amortization using the effective interest method calculated from the difference between the initial value and the maturity value and adjusted for the allowance for losses.

Gains or losses due to fluctuations in fair value are not recognized for the financial assets at amortized cost.

Interest income is calculated using the effective interest method by applying an effective interest rate to the gross carrying amount of financial assets, except for:

- Financial assets purchased or originating from financial assets deteriorate. For these financial assets, the Bank applies an effective interest rate adjusted by credit for the amortized cost of the financial assets from initial recognition.*
- Financial assets that are not purchased or that originate from financial assets deteriorate but subsequently become financial assets deteriorate. For these financial assets, the Bank applies an effective interest rate on the amortized cost of the financial assets in the next reporting period.*

The Bank in a reporting period calculates interest income by applying the effective interest method on the acquisition cost of amortized financial assets, in the next reporting period, calculating interest income by applying an effective interest rate on the gross

bunga efektif atas jumlah tercatat bruto jika risiko kredit instrumen keuangan tersebut membaik sehingga aset keuangan tidak lagi mengalami penurunan nilai kredit dan perbaikan tersebut secara objektif dapat dikaitkan dengan suatu peristiwa yang terjadi setelah persyaratan yang tercantum dalam poin kedua pada paragraf di atas diterapkan (misalnya, perbaikan peringkat kredit peminjam).

b. Aset keuangan pada nilai wajar melalui penghasilan komprehensif lain

Keuntungan atau kerugian aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain diakui dalam penghasilan komprehensif lain sampai aset keuangan dihentikan pengakuannya atau direklasifikasi, kecuali:

- Bunga yang dihitung menggunakan metode bunga efektif diakui dalam laba rugi, jumlah yang diakui dalam laba rugi sama dengan jumlah yang akan diakui dalam laba rugi jika aset keuangan diukur pada biaya perolehan diamortisasi;
- Keuntungan atau kerugian penurunan nilai; atau
- Keuntungan atau kerugian selisih kurs.

Ketika aset keuangan dihentikan pengakuannya, keuntungan atau kerugian kumulatif yang telah diakui sebelumnya dalam penghasilan komprehensif lain direklasifikasi dari ekuitas ke laba rugi sebagai penyesuaian reklasifikasi.

Khusus untuk aset keuangan berbentuk instrumen ekuitas, jumlah yang disajikan pada penghasilan komprehensif lainnya tidak selanjutnya dialihkan ke laba rugi. Akan tetapi, Bank dapat mengalihkan keuntungan atau kerugian kumulatif pada ekuitas.

Sesuai dengan paragraf sebelumnya, jika aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain, jumlah yang diakui dalam laba rugi sama dengan jumlah yang akan diakui dalam laba rugi jika aset keuangan diukur pada biaya perolehan diamortisasi.

carrying amount if the credit risk of the financial instrument improves so that the financial assets no longer experience Impairment of credit value and improvement can be objectively related to an event that occurs after the requirements listed in the second point of the above paragraph are applied (for example, an improvement in the borrower's credit rating).

b. Financial assets at fair value through other comprehensive income

Gains or losses of financial assets measured at fair value through other comprehensive income are recognized in other comprehensive income until the financial assets are derecognized or reclassified, except:

- Interest calculated using the effective interest method is recognized in profit or loss, the amount recognized in profit or loss is equal to the amount to be recognized in profit or loss if the financial asset is measured at amortized cost;
- Impairment gains or losses; or
- Foreign Exchange gains or losses.

When a financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

Specifically for financial assets in the form of equity instruments, the amounts presented in other comprehensive income are not subsequently transferred to profit or loss. However, the Bank can transfer cumulative gains or losses on equity.

In accordance with the previous paragraph, if a financial asset is measured at fair value through other comprehensive income, the amount recognized in profit or loss is the same as the amount to be recognized in profit or loss if the financial asset is measured at amortized cost.

c. Aset keuangan pada nilai wajar melalui laba rugi

Aset dinilai pada nilai wajar. Seluruh keuntungan dan kerugian yang timbul akibat perubahan nilai wajar diakui pada laporan laba rugi, kecuali instrumen lindung nilai yang ditetapkan ke dalam hubungan lindung nilai tertentu.

Bank menerapkan persyaratan penurunan nilai untuk aset keuangan yang diukur pada biaya perolehan diamortisasi dan aset keuangan dalam bentuk instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain.

Investasi dalam instrumen ekuitas yang tidak memiliki harga kuotasi di pasar aktif dan nilai wajarnya tidak dapat diukur secara andal diukur pada biaya perolehan.

Setelah pengakuan awal, Bank mengukur liabilitas keuangan, sesuai dengan klasifikasi aset keuangan pada:

- a. Biaya perolehan diamortisasi; atau
- b. Nilai wajar melalui laba rugi.

Untuk liabilitas keuangan yang diukur pada laba rugi, keuntungan dan kerugian diakui pada laba rugi. Terdapat pengecualian pada kasus liabilitas keuangan ditetapkan sebagai FVTPL dimana perubahan risiko kredit liabilitas diakui pada penghasilan komprehensif lain dengan keuntungan dan kerugian lainnya diakui pada laba rugi.

Setelah pengakuan awal, liabilitas keuangan yang diukur pada FVTPL diukur pada nilai wajarnya. Keuntungan atau kerugian yang timbul dari perubahan nilai wajar diakui dalam laba rugi.

(iv) Penghentian pengakuan

Bank menghentikan pengakuan aset keuangan pada saat hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut kedaluwarsa, atau pada saat Bank mentransfer seluruh hak untuk menerima arus kas kontraktual dari aset keuangan dalam transaksi dimana Bank secara substansial telah mentransfer seluruh risiko dan manfaat atas kepemilikan aset keuangan yang ditransfer. Setiap hak atau liabilitas atas aset keuangan yang ditransfer yang timbul atau yang masih dimiliki oleh Bank diakui sebagai aset atau liabilitas secara terpisah.

c. Financial assets at fair value through profit or loss

Assets are valued at fair value. All gains and losses arising from changes in fair value are recognized in profit or loss, except for hedging instruments that are designated in certain hedging relationships.

The Bank applies an impairment requirement for financial assets measured at amortized cost and financial assets in the form of debt instruments that are measured at fair value through other comprehensive income.

Investment in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at cost.

After initial recognition, the Bank measures financial liabilities, according to the classification of financial assets at:

- a. Amortized cost; or
- b. Fair value through profit or loss.

For financial liabilities measured at profit or loss, gains and losses are recognized in profit or loss. There are exceptions in the case of financial liabilities designated as FVTPL where changes in credit liability risks are recognized in other comprehensive income with other gains and losses recognized in profit or loss.

After initial recognition, financial liabilities at FVTPL are measured at its fair value. Gains or losses arising from a change in the fair value are recognized in profit or loss.

(iv) Derecognition

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when the Bank transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Bank is recognized as a separate asset or liability.

Bank menghentikan pengakuan liabilitas keuangan pada saat liabilitas yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kedaluwarsa.

Dalam transaksi dimana Bank secara substansial tidak memiliki atau tidak mentransfer seluruh risiko dan manfaat atas kepemilikan aset keuangan, Bank menghentikan pengakuan aset tersebut jika Bank tidak lagi memiliki pengendalian atas aset tersebut. Hak dan kewajiban yang timbul atau yang masih dimiliki dalam transfer tersebut diakui secara terpisah sebagai aset atau liabilitas. Dalam transfer dimana pengendalian atas aset masih dimiliki, Bank tetap mengakui aset yang ditransfer tersebut sebesar keterlibatan berkelanjutan, dimana tingkat keberlanjutan Bank dalam aset yang ditransfer adalah sebesar perubahan nilai aset yang ditransfer.

Bank menghapusbukukan saldo kredit dan efek utang untuk tujuan investasi, dan cadangan kerugian penurunan nilai terkait, pada saat Bank menentukan bahwa kredit atau efek-efek tersebut tidak dapat ditagih. Keputusan ini diambil setelah mempertimbangkan informasi seperti telah terjadinya perubahan signifikan pada posisi keuangan debitur/penerbit sehingga debitur/penerbit tidak lagi dapat melunasi liabilitasnya, atau hasil penjualan agunan tidak akan cukup untuk melunasi seluruh eksposur kredit yang diberikan.

The Bank derecognizes a financial liability when its contractual obligations are discharged or cancelled or expired.

In transactions in which the Bank neither retains nor transfers substantially all the risks and rewards of ownership of a financial asset, the Bank derecognizes the asset if it does not retain control over the asset. The rights and obligations retained in the transfer are recognized separately as assets and liabilities as appropriate. In transfers in which control over the asset is retained, the Bank continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Bank writes off credit balances and debt securities for investment purposes, and any related allowance for impairment losses, when the Bank determines that the loan or security is uncollectible. This determination is reached after considering information such as the occurrence of significant changes in the borrowers/issuers financial position such that the borrower/issuer can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure.

(v) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is currently an enforceable legal rights to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Enforceable right means:

- a. *there are no contingencies in the future, and*
- b. *enforceable right to the following conditions;*
 - i. *deploying normal activities;*
 - ii. *conditions of business failures; and*
 - iii. *conditions of default or bankruptcy.*

- (vi) Pengukuran biaya diamortisasi
Biaya perolehan diamortisasi dari aset atau liabilitas keuangan adalah jumlah aset atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok, ditambah atau dikurangi dengan amortisasi kumulatif dengan menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai awal dan nilai jatuh temponya, dan dikurangi cadangan kerugian penurunan nilai.

- (vii) Pengukuran nilai wajar
Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut; atau
- Jika tidak terdapat pasar utama, dipasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomik terbaiknya.

Pengukuran nilai wajar aset non-keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomik dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Bank menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, memaksimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

- (vi) Amortized cost measurement
The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, less allowance for impairment losses.

- (vii) Fair value measurement
Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the primary market for the asset and liability; or
- In the absence of a primary market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Bank uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan dapat dikategorikan pada level hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Level 1 :
harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik;
- Level 2 :
input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset dan liabilitas baik secara langsung (misalnya, harga) atau secara tidak langsung;
- Level 3 :
input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (input yang tidak dapat diobservasi).

Untuk aset dan liabilitas yang diakui pada laporan keuangan secara berulang, Bank menentukan apakah terjadi transfer antara level di dalam hierarki dengan cara mengevaluasi kategori (berdasarkan input level terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

(viii) Reklasifikasi Instrumen Keuangan

Bank mereklasifikasi aset keuangan jika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui laba rugi dicatat sebesar nilai wajarnya. Selisih antara nilai tercatat dengan nilai wajar diakui sebagai keuntungan atau kerugian pada laba rugi.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 :
quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 :
inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (example, price) or indirectly;
- Level 3 :
inputs for the asset and liability that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Bank determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(viii) Reclassification of Financial Instruments

The Bank reclassifies financial assets if and only if, the business model for managing financial assets changes.

Reclassifications of financial assets from amortized cost classifications to fair value through profit or loss are recorded at fair value. The difference between the recorded value and fair value is recognized in profit or loss on the statement of profit or loss and other comprehensive income.

Reclassifications of financial assets from amortized cost classifications to fair value classifications through other comprehensive are recorded at their fair values.

diperlakukan sebagai beban bunga dibayar di muka dan diakui sebagai beban bunga selama jangka waktu sejak efek-efek tersebut dijual hingga dibeli kembali dengan menggunakan metode suku bunga efektif.

Efek-efek yang dijual dengan janji untuk dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

2.i. Provisi dan kontinjensi

Provisi diakui jika Bank memiliki kewajiban kini (baik bersifat hukum maupun bersifat konstruktif) yang akibat peristiwa masa lalu besar kemungkinannya penyelesaian kewajiban tersebut mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap tanggal pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika kemungkinan besar tidak terjadi arus keluar sumber daya yang mengandung manfaat ekonomi untuk menyelesaikan liabilitas tersebut, maka provisi dibatalkan.

Aset dan kewajiban kontinjensi tidak diakui dalam laporan keuangan. Liabilitas kontinjensi diungkapkan dalam laporan keuangan, kecuali kemungkinan arus keluar sumber daya yang mewujudkan manfaat ekonomi bersifat kecil. Aset kontinjensi diungkapkan dalam laporan keuangan di mana kemungkinan besar terjadi arus masuk manfaat ekonomi.

2.j. Kredit yang diberikan

Kredit yang diberikan pada awalnya diukur pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan merupakan biaya tambahan untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Cadangan kerugian atas penurunan nilai dilakukan bila terdapat bukti objektif penurunan nilai dengan menggunakan metodologi penurunan nilai sebagaimana diungkapkan dalam Catatan 2k.

Kredit yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian pinjaman atau hubungan normal antara Bank dan debitur dengan jaminan telah berakhir. Pinjaman yang tidak dapat dilunasi dihapusbukukan dengan mendebit cadangan

over the period from the time the securities are sold until they are repurchased using the effective interest rate method.

Securities sold under repurchased agreements are classified as financial liabilities at amortized cost.

2.i. Provisions and contingencies

Provisions are recognized when the Bank has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

Contingent assets and liabilities are not recognized in the financial statements. Contingent liabilities are disclosed in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are disclosed in the financial statements where inflow of economic benefits is probable.

2.j. Loans

Loans are initially measured at fair value plus incremental transaction costs which can be directly attributable and are additional costs to obtain those financial assets, and subsequently measured at their amortized cost using the effective interest method. Allowance for impairment losses is assessed if there is an indication of impairment using the impairment methodology as disclosed in Note 2k.

Loans are written-off when there are no realistic prospects of collection or when the Banks normal relationship with the collateralized borrowers has ceased to exist. When loans are deemed uncollectible, they are written-off against the related allowance for impairment

kerugian penurunan nilai. Pelunasan kemudian atas pinjaman yang telah dihapusbukukan sebelumnya, dikreditkan ke cadangan kerugian penurunan nilai pinjaman di laporan posisi keuangan.

Restrukturisasi kredit

Restrukturisasi kredit meliputi modifikasi persyaratan kredit, konversi kredit menjadi saham atau instrumen keuangan lainnya dan/atau kombinasi dari keduanya.

Kerugian yang timbul dari restrukturisasi kredit yang berkaitan dengan modifikasi persyaratan kredit diakui bila nilai tunai penerimaan kas masa depan yang telah ditentukan dalam persyaratan kredit yang baru, termasuk penerimaan yang diperuntukan sebagai bunga maupun pokok, adalah lebih kecil dari nilai kredit yang diberikan yang tercatat sebelum restrukturisasi.

Untuk restrukturisasi kredit bermasalah dengan cara konversi kredit yang diberikan menjadi saham atau instrumen keuangan lainnya, kerugian dari restrukturisasi kredit diakui hanya apabila nilai wajar penyertaan saham atau instrumen keuangan yang diterima dikurangi estimasi biaya untuk menjualnya, adalah kurang dari nilai tercatat kredit yang diberikan.

2.k. Penurunan nilai aset keuangan dan non-keuangan

i. Penurunan nilai aset keuangan

Bank mengakui penyisihan kerugian kredit ekspektasian pada instrumen keuangan yang tidak diukur pada nilai wajar melalui laba rugi.

Tidak ada penyisihan kerugian kredit ekspektasian pada investasi instrumen ekuitas.

Bank mengukur cadangan kerugian sejumlah kerugian ekspektasian sepanjang umurnya, kecuali untuk hal berikut, diukur sejumlah kerugian kredit ekspektasian 12 bulan:

- instrumen utang yang memiliki risiko kredit rendah pada tanggal pelaporan; dan
- instrumen keuangan lainnya yang risiko kreditnya tidak meningkat secara signifikan sejak pengakuan awal.

losses. Subsequent recoveries of loans written-off are credited to the allowance for impairment losses from loans in the statement of financial position.

Loan restructuring

Loan restructuring may involve a modification of the terms of the loans, conversion of loans into equity or other financial instruments and/or a combination of both.

Losses on loan restructuring in respect of modification of the terms of the loans are recognized only if the cash value of total future cash receipt specified in the new terms of the loan, including both receipt designated as interest and those designated as loan principal, are less than the recorded amounts of loans before restructuring.

For non-performing restructured loan which involves a conversion of loan into equity or other financial instrument, a loss on loan restructuring is recognized only if the fair value of the equity investment or other financial instrument received, reduced by estimated costs to sell the equity or other financial instrument, is less than the carrying value of the loan.

2.k. Impairment of financial and non-financial assets

i. Impairment of financial assets

The Bank recognizes the allowance for expected credit losses on the financial instrument that are not measured at fair value through profit or loss.

There is no allowance for expected credit losses on investment in equity instruments.

The Bank measure the allowance for losses for the lifetime of an expected credit losses, expected credit losses, except for the following, which are measured according to 12 months expected credit losses:

- debt instruments that have low credit risk at the reporting date; and
- other financial instruments for which credit risk has not increased significantly since initial recognition.

Bank menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi *investment grade* yang dipahami secara global.

Pengukuran Kerugian Kredit Ekspektasian

Kerugian Kredit Ekspektasian (KKE) adalah estimasi *probabilitas* tertimbang dari kerugian kredit yang diukur sebagai berikut:

- Aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini dari seluruh kekurangan kas (yaitu selisih antara arus kas yang terutang kepada Bank sesuai dengan kontrak dan arus kas yang diperkirakan akan diterima oleh Bank);
- Aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
- Komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh Bank;
- Kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

Bank mengklasifikasikan kredit yang diberikan menjadi 3 tahap/*stage* sesuai dengan peningkatan risiko kredit secara signifikan sejak pengakuan awalnya.

Kerugian Kredit Ekspektasian 12 Bulan (Stage 1)

KKE diakui pada saat pengakuan awal instrumen keuangan dan merepresentasikan kekurangan kas sepanjang umur aset yang timbul dari kemungkinan gagal bayar di masa yang akan datang dalam kurun waktu 12 bulan sejak tanggal pelaporan. KKE terus ditentukan oleh dasar ini sampai timbul peningkatan risiko kredit yang signifikan pada instrumen tersebut atau instrumen tersebut telah mengalami penurunan nilai kredit. Jika suatu instrumen tidak lagi dianggap menunjukkan peningkatan risiko kredit yang signifikan, maka KKE dihitung kembali berdasarkan basis 12 bulan.

The Bank considers debt instruments to have low credit risk when the credit risk rating is at par with the globally understood definition of investment grade.

Measurement of Expected Credit Losses

Expected Credit Loss (ECL) is an estimate of the weighted probability of a credit loss measured as follows:

- Financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the difference between the present value of all cash shortages (i.e. the difference between the cash flows owed to the Bank in accordance with the contract and the cash flows expected to be received by the Bank);
- Financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;
- For undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Bank;
- For financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.

The Bank classified the loans into 3 stages in accordance with its significant increase in credit risk since their initial recognition.

12 Months Expected Credit Losses (Stage 1)

ECL are recognized at the time of initial recognition of a financial instrument and represent the lifetime cash shortfalls arising from possible default events up to 12 months into the future from the reporting date. ECL continues to be determined on this basis until there is either a significant increase in the credit risk of an instrument or the instrument becomes credit-impaired. If an instrument is no longer considered to exhibit a significant increase in credit risk, ECL will revert to being determined on a 12 months basis.

Peningkatan Risiko Kredit yang Signifikan (Stage 2)

Jika aset keuangan mengalami peningkatan risiko kredit yang signifikan ("SICR") sejak pengakuan awal, kerugian kredit ekspektasian diakui atas kejadian gagal bayar yang mungkin terjadi sepanjang umur aset. Peningkatan signifikan dalam risiko kredit dinilai dengan membandingkan risiko gagal bayar atas eksposur pada tanggal pelaporan dengan risiko gagal bayar saat pengakuan awal (setelah memperhitungkan perjalanan waktu dari akun tersebut). Signifikan tidak berarti signifikan secara statistik, juga tidak dinilai dalam konteks perubahan dalam KKE. Perubahan atas risiko gagal bayar dinilai signifikan atau tidak, dinilai menggunakan sejumlah faktor kuantitatif dan kualitatif, yang bobotnya bergantung pada tipe produk dan pihak lawan. Aset keuangan dengan tunggakan 30 hari atau lebih dan tidak mengalami penurunan nilai akan selalu dianggap telah mengalami peningkatan risiko kredit yang signifikan.

Eksposur yang Mengalami Penurunan Nilai Kredit atau Gagal Bayar (Stage 3)

Aset hanya akan dianggap mengalami penurunan nilai dan kerugian kredit ekspektasian sepanjang umurnya diakui, jika terdapat bukti objektif penurunan nilai yang dapat diobservasi. Faktor-faktor yang diobservasi ini serupa dengan indikator bukti objektif penurunan nilai pada PSAK 409, termasuk antara lain aset gagal bayar atau mengalami kesulitan keuangan yang signifikan atau mengalami *forbearance* atas kredit yang mengalami penurunan nilai.

Aset keuangan yang mengalami penurunan nilai kredit atau gagal bayar merupakan aset yang setidaknya telah memiliki tunggakan lebih dari 90 hari atas pokok dan/atau bunga. Aset keuangan juga dianggap mengalami penurunan nilai kredit dimana debitur kemungkinan besar tidak akan membayar dengan terjadinya satu atau lebih kejadian yang teramati yang memiliki dampak menurunkan jumlah estimasi arus kas masa depan dari aset keuangan tersebut. Cadangan kerugian penurunan nilai terhadap aset keuangan yang mengalami penurunan nilai ditentukan berdasarkan penilaian terhadap arus kas yang dapat dipulihkan berdasarkan sejumlah skenario, termasuk realisasi jaminan yang dimiliki jika memungkinkan.

Significant Increase in Credit Risk (Stage 2)

If a financial asset experiences a significant increase in credit risk ("SICR") since initial recognition, an expected credit loss provision is recognized for default events that may occur over the lifetime of the asset. Significant increase in credit risk is assessed by comparing the risk of default of an exposure at the reporting date to the risk of default at origination (after taking into account the passage of time). Significant does not mean statistically significant nor is it assessed in the context of changes in ECL. Whether a change in the risk of default is significant or not is assessed using a number of quantitative and qualitative factors, the weight of which depends on the type of product and counterparty. Financial assets that are 30 days or more past due and not credit-impaired will always be considered to have experienced a significant increase in credit risk.

Credit Impaired or Defaulted Exposures (Stage 3)

An asset is only considered credit impaired and lifetime expected credit losses recognized, if there is observed objective evidence of impairment. These factors are similar to the indicators of objective evidence of impairment under PSAK 409, which includes, amongst other factors, assets in default or experiencing significant financial difficulty, or experiencing forbearance on impaired credit.

Financial assets that are credit impaired or in default represent those that are at least 90 days past due in respect of principal and/or interest. Financial assets are also considered to be credit impaired where the debtors are unlikely to pay on the occurrence of one or more observable events that have a detrimental impact on the estimated future cash flows of the financial asset. Loss provisions against credit impaired financial assets are determined based on an assessment of the recoverable cash flows under a range of scenarios, including the realization of any collateral held where appropriate.

Aset Keuangan yang Direstrukturisasi

Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

- Jika restrukturisasi tidak mengakibatkan penghentian pengakuan aset yang ada, maka arus kas yang diperkirakan yang timbul dari aset keuangan yang dimodifikasi dimasukkan dalam perhitungan kekurangan kas dari aset yang ada;
- Jika restrukturisasi akan menghasilkan penghentian pengakuan aset yang ada, maka nilai wajar aset baru diperlakukan sebagai arus kas akhir dari aset keuangan yang ada pada saat penghentian pengakuannya. Jumlah ini dimasukkan dalam perhitungan kekurangan kas dari aset keuangan yang ada yang didiskontokan dari tanggal penghentian pengakuan ke tanggal pelaporan menggunakan suku bunga efektif awal dari aset keuangan yang ada.

Bukti bahwa aset keuangan mengalami penurunan nilai kredit (memburuk) termasuk data yang dapat diobservasi mengenai peristiwa berikut ini:

- Kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- Pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan;
- Pihak pemberi pinjaman, untuk alasan ekonomik atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- Terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya; atau
- Hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan;
- Pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

Restructured Financial Assets

If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

- If the restructuring does not result in the termination of recognition of existing assets, then the estimated cash flows arising from the modified financial assets are included in the calculation of cash shortages of existing assets;*
- If the restructuring will result in a derecognition of the existing assets, the fair value of the new asset is treated as the final cash flow of the existing financial assets at the time of derecognition. This amount is included in the calculation of cash shortages from existing financial assets which are discounted from the date of derecognition to the reporting date using the initial effective interest rate of the existing financial assets.*

Evidence that financial assets become credit impaired (deteriorated) including observable data regarding the following events:

- Significant financial difficulties experienced by the issuer or the borrower;*
- Breach of contract, such as a default or arrears;*
- The lender, for economic or contractual reasons in relation to the financial difficulties experienced by the borrower, has given concessions to the borrower which is not possible if the borrower does not experience such difficulties;*
- It is probable that the borrower will enter bankruptcy or the other financial reorganization; or*
- Loss of an active market for financial assets due to financial difficulties;*
- Purchase or issuance of financial asset at significant discount which reflect the credit loss that occurs.*

Selanjutnya, perubahan kerugian kredit sepanjang umurnya, apakah positif atau negatif, diakui dalam laporan laba rugi sebagai bagian dari cadangan kerugian penurunan nilai.

Penyajian Penyisihan Kerugian Kredit Ekspektasian Dalam Laporan Posisi Keuangan

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan sebagai berikut:

- Aset keuangan yang diukur pada biaya perolehan diamortisasi, penyisihan kerugian kredit ekspektasian disajikan sebagai pengurang dari jumlah tercatat bruto aset;
- Komitmen pinjaman dan kontrak jaminan keuangan, penyisihan kerugian kredit ekspektasian disajikan sebagai provisi;
- Instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, penyisihan kerugian kredit ekspektasian tidak diakui dalam laporan posisi keuangan karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun demikian penyisihan kerugian kredit ekspektasian diungkapkan dan diakui dalam penghasilan komprehensif lain.

Perhitungan penurunan nilai secara individual

Bank menetapkan pinjaman yang diberikan yang harus dievaluasi penurunan nilainya secara individual, jika memenuhi salah satu kriteria di bawah:

- Kredit yang diberikan yang secara individual memiliki nilai signifikan; atau
- Kredit yang diberikan yang direstrukturisasi yang secara individual memiliki nilai signifikan.

Bank menetapkan kredit yang diberikan yang harus dievaluasi penurunan nilainya secara individual jika kredit yang diberikan diklasifikasikan sebagai *Stage 3* dan dianggap signifikan secara individual. Bank menghitung KKE dengan mengestimasi arus kas ekspektasian dari kredit yang diberikan.

allowance for credit losses is recognized because the purchase price or value has included lifetime estimated credit losses. Furthermore, changes in lifetime credit losses, whether positive or negative, are recognized in the statement of profit or loss as part of the allowance for impairment losses.

Presentation of Allowance for Expected Credit Losses in Statements of Financial Position

Allowance for expected credit losses is presented in the statement of financial positions as follows:

- *Financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;*
- *Loan commitments and financial guarantee contracts, allowance for expected credit losses is presented as a provision;*
- *Debt instruments measured at fair value through other comprehensive income, allowance for expected credit losses are not recognized in the statement of financial position because the carrying amounts of these assets are at their fair values. However, allowance for expected credit losses is disclosed and recognized in other comprehensive income.*

Individual impairment calculation

The Bank determines that loans should be evaluated for impairment through individual evaluation, if one of the following criterias are met:

- *Loans which individually have significant value; or*
- *Restructured loans which individually have significant value.*

The Bank determines that loans should be evaluated for impairment through individual evaluation if loans are classified as Stage 3 and considered individually significant. The Bank assesses ECL by estimating the expected future cash flow from the loans.

Perhitungan penurunan nilai secara kolektif

Bank menetapkan kredit yang diberikan yang harus dievaluasi penurunan nilainya secara individual jika pinjaman yang diberikan diklasifikasikan sebagai *Stage 1*, *Stage 2* dan *Stage 3* yang tidak dianggap signifikan secara kolektif. Bank menghitung KKE menggunakan pendekatan kolektif dengan model parameter risiko yang menggunakan beberapa parameter utama, antara lain *Probability of Default* ("PD"), *Loss Given Default* ("LGD"), *Exposure at Default* ("EAD"), dan tingkat diskonto setelah memperhitungkan informasi perkiraan masa depan, termasuk faktor makroekonomi.

Bank menggunakan model yang kompleks yang menggunakan matriks PD, LGD dan EAD.

a. *Probability of Default* ("PD")

Probabilitas yang timbul di suatu waktu dimana debitur mengalami gagal bayar, dikalibrasikan sampai dengan periode 12 bulan dari tanggal laporan (*Stage 1*) atau sepanjang umur (*Stage 2* dan *3*) dan digabungkan pada dampak asumsi ekonomi masa depan yang memiliki risiko kredit. PD diestimasi pada *point in time* di mana hal ini berfluktuasi sejalan dengan siklus ekonomi.

b. *Loss Given Default* ("LGD")

Kerugian yang diperkirakan akan timbul dari debitur yang mengalami gagal bayar dengan menggabungkan dampak dari asumsi ekonomi masa depan yang relevan (jika ada) di mana hal ini mewakili perbedaan antara arus kas kontraktual yang akan jatuh tempo dengan arus kas yang diharapkan untuk diterima. Bank mengestimasi LGD berdasarkan data historis dari tingkat pemulihan dan memperhitungkan pemulihan yang berasal dari jaminan terhadap aset keuangan dengan mempertimbangkan asumsi ekonomi di masa depan jika relevan.

c. *Exposure at Default* ("EAD")

Perkiraan nilai eksposur neraca pada saat gagal bayar dengan mempertimbangkan bahwa perubahan ekspektasi yang diharapkan selama masa eksposur. Hal ini menggabungkan dampak penarikan fasilitas yang *committed*, pembayaran pokok dan

Collective impairment calculation

The Bank determines that loans should be evaluated for impairment through individual evaluation if loans are classified as *Stage 1*, *Stage 2* and *Stage 3* which are not considered collectively significant. The Bank assesses ECL using collective approach with the risk parameter modelling that incorporates a number of key parameters, including the *Probability of Default* ("PD"), *Loss Given Default* ("LGD"), *Exposure at Default* ("EAD"), and discount rate after taking into consideration forward-looking information, including macroeconomic factors.

The Bank primarily uses sophisticated models that utilise the PD, LGD and EAD metrics.

a. *Probability of Default* ("PD")

The probability at a point in time that a counterparty will default, calibrated over up to 12 months from the reporting date (*Stage 1*) or over the lifetime of the product (*Stage 2* and *3*) and incorporated to the impact of forward-looking economic assumptions that have an effect on credit risk. PD is estimated at a point in time that means it will fluctuate in line with the economic cycle.

b. *Loss Given Default* ("LGD")

The loss that is expected to arise on default, incorporating the impact of relevant forward looking economic assumptions (if any), which represents the difference between the contractual cash flows due and those that the Bank expects to receive. The Bank estimates LGD based on the historical recovery rates and considers the recovery of any collateral that is integral to the financial assets, taking into account forward looking economic assumptions if relevant.

c. *Exposure at Default* ("EAD")

The expected balance sheet exposure at the time of default, taking into account that expected change in exposure over the lifetime of the exposure. This incorporates the impact of drawdowns of committed facilities, repayments of principal and interest, amortization and

bunga, amortisasi dan pembayaran dipercepat, bersama dengan dampak asumsi ekonomi masa depan jika relevan.

Dalam menentukan kerugian kredit ekspektasian komponen-komponen ini akan diperhitungkan secara bersama-sama dan didiskontokan ke tanggal laporan keuangan menggunakan diskonto berdasarkan suku bunga efektif.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan

Ketika kredit yang diberikan tidak tertagih, kredit yang diberikan tersebut dihapusbuku dengan menjurnal balik cadangan kerugian penurunan nilai. Kredit yang diberikan tersebut dihapusbuku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

ii. Penurunan nilai aset non-keuangan

Nilai tercatat dari aset yang bukan aset keuangan Bank, kecuali aset pajak tangguhan, ditelaah setiap tanggal pelaporan untuk menentukan apakah terdapat indikasi penurunan nilai. Jika indikasi tersebut ada, maka nilai yang dapat dipulihkan dari aset tersebut akan diestimasi.

Nilai yang dapat diperoleh kembali dari suatu aset atau unit penghasil kas adalah sebesar jumlah yang lebih tinggi antara nilai pakainya dan nilai wajar aset atau unit penghasil kas dikurangi biaya untuk menjual. Dalam menilai nilai pakai, estimasi arus kas masa depan didiskontokan ke nilai sekarang dengan menggunakan tingkat diskonto sebelum pajak yang mencerminkan penilaian pasar saat ini terhadap nilai kas kini dan risiko spesifik terhadap aset tersebut.

early payments, together with the impact of forward-looking economic assumptions if relevant.

To determine the expected credit loss, these components are multiplied together and discounted to the balance sheet date using the effective interest rate as the discount rate.

Recoveries of written-off financial assets

When a loan is uncollectible, it is written-off against the related allowance for impairment loss. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off financial assets from previous years are recorded as operational income other than interest income.

ii. Impairment of non-financial assets

The carrying amounts of the Bank's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount will be estimated.

The recoverable amount of an asset or cash generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Cadangan penurunan nilai diakui pada tahun sebelumnya dinilai pada setiap tanggal pelaporan untuk melihat adanya indikasi bahwa kerugian telah menurun atau tidak ada lagi. Kerugian penurunan nilai di jurnal balik jika terdapat perubahan estimasi yang digunakan dalam menentukan nilai yang dapat dipulihkan.

Cadangan kerugian penurunan nilai di jurnal balik hanya hingga nilai tercatat aset tidak melebihi nilai tercatat yang telah ditentukan, dikurangi dengan depresiasi atau amortisasi, jika cadangan penurunan nilai tidak pernah diakui.

Bank tidak diwajibkan lagi untuk membentuk cadangan kerugian penurunan nilai untuk aset non produktif, namun Bank tetap harus menghitung cadangan kerugian penurunan nilai mengacu pada standar akuntansi yang berlaku.

Allowance for impairment loss recognized in prior year is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount.

Allowance for impairment losses is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

The Bank is not required to provide an allowance for impairment losses for non-productive assets, but the Bank should still calculate the impairment losses in accordance with the applicable accounting standards.

2.I. Aset tetap, aset hak-guna dan liabilitas sewa

Aset Tetap

Bank menerapkan kebijakan akuntansi model revaluasi untuk aset tetap berupa tanah dan bangunan. Untuk aset tetap selain tanah dan bangunan menggunakan model biaya.

Tanah dan bangunan disajikan sebesar nilai wajar, dikurangi akumulasi penyusutan untuk bangunan. Akumulasi penyusutan pada tanggal revaluasi dieliminasi terhadap nilai tercatat bruto aset dan nilai netonya disajikan kembali sebesar nilai revaluasian.

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi setiap 3 tahun sekali, dengan mempertimbangkan kondisi pada tahun tersebut.

Kenaikan yang berasal dari revaluasi tanah dan bangunan diakui pada penghasilan komprehensif lain dan terakumulasi dalam ekuitas pada bagian surplus revaluasian, kecuali sebelumnya penurunan revaluasi atas aset yang sama pernah diakui dalam laba rugi, dalam hal ini kenaikan revaluasi hingga sebesar penurunan nilai aset akibat revaluasi tersebut, dikreditkan dalam laba rugi.

2.I. Fixed assets, right-of-use assets and lease liabilities

Fixed assets

Bank applies revaluation model as accounting policy for land and buildings. For fixed assets other than land and buildings, it applies cost model.

Land and buildings are stated at fair value, less subsequent depreciation for buildings. Accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount.

If the fair value of the revalued asset change significantly, it is necessary to revalue on an annual basis, whereas if the fair value of the revalued asset does not change significantly, it is necessary to revalue every 3 years, taking the conditions of the related year into considerations.

Any revaluation increase arising on the revaluation of land and buildings are recognized in other comprehensive income and accumulated in equity under the heading of revaluation surplus, except to the extent that it reverses a revaluation decrease, for the same assets which was previously recognized in the profit or loss, in which case the increase is credited to the profit or loss to the extent of the

The revaluation surplus of land and buildings are directly transferred to retained earnings when the asset is derecognized.

Aset tetap, kecuali tanah dan bangunan, dinyatakan sebesar biaya perolehan dikurangi akumulasi penyusutan dan rugi penurunan nilai. Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan. Biaya perolehan aset tetap diakui sebagai aset jika dan hanya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut mengalir ke entitas dan biaya perolehan aset dapat diukur secara andal.

Fixed assets, except land and buildings, are stated at cost less accumulated depreciation and impairment losses. If the recognition criteria are met, the acquisition cost will include the cost of replacing part of the fixed assets when that cost is incurred. Acquisition costs of fixed assets is recognized as asset if, and only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

Beban pemeliharaan dan perbaikan dibebankan pada laba rugi pada saat terjadinya. Biaya-biaya lain yang terjadi selanjutnya yang timbul untuk menambah, mengganti atau memperbaiki aset dicatat sebagai biaya perolehan aset jika dan hanya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut mengalir ke entitas dan biaya perolehan aset dapat diukur secara andal.

The cost of maintenance and repairs are charged to profit or loss as incurred. Other costs incurred subsequently to add to, replace part of or service an item of asset is recorded as acquisition of asset if, and only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

Aset tetap, kecuali tanah, disusutkan dengan menggunakan metode garis lurus (*straight-line method*) untuk seluruh aset tetap selama umur manfaat aset tetap yang diestimasi sebagai berikut:

Depreciation of fixed assets, except for land, is computed using the straight-line method for fixed assets over the estimated useful life of the assets, as follows:

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Bangunan (HGB) yang dikeluarkan ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap" dan tidak diamortisasi.

Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah diakui sebagai aset takberwujud dan diamortisasi sepanjang umur hukum hak atau umur ekonomis tanah, mana yang lebih pendek.

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset (dihitung sebagai perbedaan antara jumlah neto hasil pelepasan dan nilai tercatat dari aset) dimasukkan dalam laba rugi pada tahun aset tersebut dihentikan pengakuannya.

Aset hak-guna dan liabilitas sewa

Pada tanggal permulaan kontrak, Bank menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan. Bank dapat memilih untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk:

- sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli;
- sewa atas aset dengan nilai rendah.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Bank harus menilai apakah:

- Bank memiliki hak untuk mengoperasikan aset; dan
- Bank telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Bank mengakui liabilitas sewa sebesar jumlah pembayaran sewa yang masih harus dibayar hingga akhir masa sewa yang didiskontokan dengan menggunakan suku bunga pinjaman inkremental. Sedangkan aset-hak guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang

The legal cost of land rights in the form of Building Usage Rights (HGB) incurred when the land was acquired initially are recognized as part of the cost of the land under "Fixed Assets" account and not amortized.

The legal cost incurred to extend or renew the land rights are recorded as intangible assets and amortized over the shorter of the rights' legal life or land's economic life.

An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the year the asset is derecognized.

Right-of-use assets and lease liabilities

At the inception of a contract, the Bank assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract carries the right to control the use of an identified assets for a period of time in exchange for consideration. The Bank can choose not to recognise the right-of-use asset and lease liabilities for:

- *leases with a term of less or equal to 12 months and there is no call option;*
- *leases of low value assets.*

To assess whether a contract carries the right to control the use of an identified asset, the Bank shall assess whether:

- *The Bank has the right to operate the assets; and*
- *The Bank has designed the assets in a way that predetermine how and for what purpose it will be used.*

The Bank recognized lease liabilities at the amount of lease payments accrued to the end of the lease term which discounted using the incremental borrowing rate. While, the right-of-use assets includes the amount of lease liabilities recognized, initial direct costs paid, restoration costs and lease payments on or before the start date of the lease, less lease

dilakukan pada atau sebelum tanggal mulai sewa, dikurangi insentif sewa yang diterima. Aset hak-guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset.

Jika kepemilikan aset sewa dialihkan ke Bank pada akhir masa sewa atau pembayaran sewa mencerminkan pelaksanaan opsi pembelian, penyusutan dihitung menggunakan estimasi masa manfaat ekonomis aset. Aset hak-guna diuji penurunan nilainya sesuai dengan PSAK 236 tentang "Penurunan Nilai Aset".

Pada tanggal dimulainya sewa, Bank mengakui liabilitas sewa yang diukur pada nilai kini dari pembayaran sewa masa depan yang akan dibayarkan selama masa sewa. Pembayaran sewa termasuk pembayaran tetap (termasuk pembayaran tetap secara substansi) dikurangi piutang insentif sewa, pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar dalam jaminan nilai residu. Pembayaran sewa juga termasuk harga eksekusi opsi pembelian yang wajar jika dipastikan akan dilakukan oleh Bank dan pembayaran penalti untuk mengakhiri sewa, jika jangka waktu sewa mencerminkan Bank mengeksekusi opsi penghentian sewa. Pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga diakui sebagai beban pada periode di mana peristiwa atau kondisi yang memicu pembayaran terjadi.

Dalam menghitung nilai kini dari pembayaran sewa, Bank menggunakan suku bunga pinjaman inkremental penyewa pada tanggal dimulainya sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan. Setelah tanggal dimulainya sewa, jumlah liabilitas sewa ditingkatkan untuk mencerminkan pertambahan bunga dan dikurangi pembayaran sewa yang dilakukan. Selain itu, jumlah tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan jangka waktu sewa, perubahan pembayaran sewa, atau perubahan dalam penilaian opsi untuk membeli aset pendasar.

Sewa jangka pendek (dengan jangka waktu kurang atau sama dengan 12 bulan) dan sewa aset bernilai rendah, serta elemen-elemen sewa tersebut, sebagian atau seluruhnya tidak menerapkan prinsip-prinsip pengakuan yang ditentukan oleh PSAK 116 akan diperlakukan

incentives received. Right-of-use are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset.

If the ownership of lease asset is transferred to the Bank at the end of the lease term or the lease payments reflect the exercise of the purchase option, depreciation is calculated using the estimated useful life of the assets. Right-of-use assets are tested for impairment in accordance with PSAK 236 regarding "Impairment of Assets".

On the initial lease date, the Bank recognized lease liabilities which measured at the present value of future lease payments that will be paid over the lease term. Lease payments include fixed payments (including substantially fixed payments), less lease incentive receivables, variable lease payments that depends on index or interest rate, and the expected amount to be paid in a residual value guarantee. Lease payments also include the reasonable exercise price for the purchase option if it is determined to be made by the Bank and the payment of a penalty to terminate the lease, if the lease term reflects the Bank exercising the lease termination option. Variable lease payments that are not depends on an index or interest rate are recognized as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Bank uses the lessee incremental borrowing rate at the inception date of the lease since the interest rate implicit in the lease cannot be determined. After the inception date of the lease, the amount of the lease liability is increased to reflect the interest increase and less lease payments made. Furthermore, the lease liabilities carrying amount is remeasured if there are modifications, changes in term of the lease, lease payments, or the valuation of the option to purchase the underlying asset.

Short-term leases (with term of less or equal to 12 months) and leases of low-value assets, and elements of those leases, partially or entirely not applying the recognition principles stipulated by PSAK 116 will be treated the same as operating leases in PSAK 30. The

Penerapan pencatatan PSAK 116 berlaku untuk seluruh sewa (kecuali sebagaimana yang disebutkan sebelumnya), yaitu sebagai berikut:

- a. Menyajikan aset hak-guna sebagai bagian dari aset tetap dan liabilitas sewa disajikan sebagai bagian dari liabilitas lain-lain dalam laporan posisi keuangan, yang diukur pada nilai kini dari pembayaran sewa masa depan;
- b. Mencatat penyusutan aset hak-guna dan bunga atas liabilitas sewa dalam laba rugi; dan
- c. Memisahkan jumlah total pembayaran ke bagian pokok (disajikan dalam kegiatan pendanaan) dan bunga (disajikan dalam kegiatan operasional) dalam laporan arus kas.

2.m. Aset takberwujud

Aset takberwujud terdiri dari perangkat lunak yang dibeli Bank.

Perangkat lunak yang dibeli oleh Bank dicatat sebesar biaya perolehan dikurangi akumulasi amortisasi dan akumulasi kerugian penurunan nilai.

Pengeluaran selanjutnya untuk perangkat lunak akan dikapitalisasi hanya jika pengeluaran tersebut menambah manfaat ekonomis aset yang bersangkutan di masa mendatang. Semua pengeluaran lainnya dibebankan pada saat terjadinya.

Aset takberwujud dihentikan pengakuannya jika dilepas atau ketika tidak terdapat lagi manfaat ekonomi masa depan yang diperkirakan dari penggunaan atau pelepasannya.

Amortisasi diakui dalam laba rugi dengan menggunakan metode garis lurus sepanjang masa manfaat dari perangkat lunak tersebut, dari tanggal perangkat lunak tersebut tersedia untuk dipakai. Estimasi masa manfaat dari perangkat lunak adalah lima hingga sepuluh tahun.

Metode amortisasi, estimasi masa manfaat dan nilai residual ditelaah pada setiap akhir tahun pelaporan dan disesuaikan jika dianggap tepat.

Bank will recognize these lease payments on a straight-line basis during the lease period on the statement of the profit or loss and other comprehensive income. This expense is recorded under general and administrative expenses in profit or loss.

The recording implementation of PSAK 116 is applied for all leases (except as stated earlier), as follows:

- a. Presents right-of-use assets as part of fixed assets and lease liabilities presented as part of other liabilities in the statement of financial position which measured at the present value of the future lease payments;
- b. Records depreciation of right-of-use assets and interest on lease liabilities in the profit or loss; and
- c. Separates the total amount of cash paid within operating activities) in the statement of cash flows.

2.m. Intangible assets

Intangible assets consist of software acquired by the Bank.

Software acquired by the Bank is stated at cost less accumulated amortization and accumulated impairment losses.

Subsequent expenditure on software is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are expensed as incurred.

An intangible asset is derecognized on disposal or when there is no future economic benefits are expected from its use or disposal.

Amortization is recognized in profit or loss on a straight-line method over the estimated useful life of the software, from the date it is available for use. The estimated useful life of software is five until ten years.

Amortization method, the estimate of useful life and residual values are reviewed at each financial year-end and adjusted if appropriate.

2.n. Biaya dibayar di muka

Biaya dibayar di muka diamortisasi selama masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

2.o. Aset lain-lain

Terdiri dari aset yang tidak material yang tidak dapat digolongkan dalam pos-pos sebelumnya. Aset lain-lain dinyatakan sebesar nilai tercatat, yaitu harga perolehan setelah dikurangi dengan akumulasi amortisasi, penurunan nilai atau cadangan kerugian.

2.p. Liabilitas segera

Liabilitas segera merupakan liabilitas Bank kepada pihak lain yang sifatnya wajib segera dibayarkan sesuai dengan perintah pemberi amanat atau perjanjian yang ditetapkan sebelumnya. Liabilitas segera dinyatakan sebesar nilai liabilitas Bank kepada pemberi amanat.

2.q. Simpanan dari nasabah dan simpanan dari Bank

Simpanan dari nasabah dan simpanan dari bank lain pada awalnya diukur pada nilai wajar ditambah biaya transaksi yang dapat diatribusikan secara langsung dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

2.r. Pendapatan dan beban bunga

Pendapatan dan beban bunga diakui dalam laba rugi dengan menggunakan metode suku bunga efektif. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran dan penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat dari aset keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Bank mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang.

Perhitungan suku bunga efektif mencakup biaya transaksi (Catatan 2c) dan seluruh imbalan/provisi dan bentuk lain yang dibayarkan atau diterima yang merupakan bagian tak terpisahkan dari suku bunga efektif.

2.n. Prepaid expenses

Prepaid expenses are amortized over their beneficial periods using the straight-line method.

2.o. Other assets

Represent immaterial assets that cannot be classified under the above accounts. Other assets are stated at carrying amount, which is cost less accumulated amortization, allowance for impairment losses or possible losses.

2.p. Obligations due immediately

Obligations due immediately represent the Bank's liabilities to beneficiaries that are payable immediately in accordance with the demand from the beneficiaries or as agreed upon by the Bank's and the beneficiaries. Obligations due immediately are stated at outstanding payables to the beneficiaries.

2.q. Deposits from customer and deposits from other banks

Deposits from customers and deposits from other banks are initially measured at fair value plus directly attributable transaction costs and subsequently measured at their amortized cost using the effective interest method.

2.r. Interest income and expense

Interest income and expenses are recognized in the profit or loss using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses.

The calculation of the effective interest rate includes transaction costs (Note 2c) and all fees and points paid or received that are an integral part of the effective interest rate.

Pendapatan dan beban bunga yang disajikan di dalam laba rugi meliputi:

- a. Pendapatan dan beban bunga atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi, diakui pada laba rugi dengan menggunakan metode suku bunga efektif.

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

Untuk aset keuangan yang memburuk setelah pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan dihitung dengan menerapkan tingkat bunga efektif terhadap nilai tercatat bruto dari aset keuangan tersebut.

Untuk aset keuangan yang telah memburuk pada saat pengakuan awal, pendapatan bunga dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut. Jika aset tersebut tidak lagi memburuk, maka perhitungan pendapatan bunga akan tetap dihitung dengan menerapkan tingkat bunga efektif terhadap biaya perolehan diamortisasi dari aset keuangan tersebut.

Interest income and expenses presented in the profit or loss include:

- a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the profit or loss using the effective interest method.*

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not a deteriorated financial asset) or to the amortized cost of a liability.

For financial assets that deteriorated after initial recognition, interest income is calculated by applying an effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will be calculated by applying an effective interest rate to the gross carrying amount of the financial asset.

For financial assets that have deteriorated at initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial assets. If the asset no longer deteriorates, the calculation of interest income will still be calculated by applying the effective interest rate to the amortized cost of the financial asset.

- b. Gains and losses arising from changes in the fair value of fair value through other comprehensive income financial assets other than foreign exchange gains or losses on debt instrument are recognized directly in other comprehensive income (as part of equity), until the financial asset is derecognized or impaired, except gain or loss arising from changes in exchanges rate for debt instrument.*

2.s. Provisi dan komisi

Pendapatan dan beban provisi dan komisi yang signifikan dan merupakan bagian tak terpisahkan dari suku bunga efektif atas aset keuangan atau liabilitas keuangan dimasukkan ke dalam perhitungan suku bunga efektif.

Pendapatan provisi dan komisi lainnya termasuk provisi yang terkait dengan kegiatan perkreditan, kegiatan ekspor-impor, provisi sebagai pengatur sindikasi dan provisi atas jasa diakui pada saat jasa tersebut dilakukan.

Beban provisi dan komisi lainnya sehubungan dengan transaksi antar bank diakui sebagai beban pada saat jasa tersebut diterima.

Apabila pinjaman diselesaikan sebelum jatuh tempo, maka saldo pendapatan provisi dan komisi yang belum diamortisasi diakui pada saat pinjaman diselesaikan.

2.t. Liabilitas imbalan pasca-kerja

Imbalan pasca-kerja dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pegawai yang menjadi peserta program pensiun Bank. Imbalan kerja ditentukan berdasarkan peraturan Bank dan persyaratan minimum Undang-undang No. 11/2020 tentang Cipta Kerja ("Undang-Undang Cipta Kerja") sebagaimana telah diamendemen dengan Perpu No.2/2022 dan UU No.6/2023 atau Perjanjian Kerja Bersama ("PKB") atau Peraturan Perusahaan ("PP"), mana yang lebih tinggi. Karena UU Cipta Kerja atau UU Ketenagakerjaan atau PKB atau PP menentukan rumus tertentu untuk menghitung jumlah minimal imbalan pensiun, pada dasarnya, program pensiun berdasarkan UU Cipta Kerja atau UU Ketenagakerjaan atau PKB atau PP adalah program imbalan pasti.

Liabilitas imbalan pasca-kerja dihitung sebesar nilai kini dari estimasi jumlah liabilitas imbalan pasca-kerja di masa depan yang timbul dari jasa yang telah diberikan oleh karyawan pada masa kini dan masa lalu, dikurangi dengan nilai wajar aset program, jika ada. Perhitungan dilakukan oleh aktuaris independen dengan metode *projected-unit credit*.

Nilai kini liabilitas imbalan pasti ditentukan dengan mendiskontokan estimasi arus kas keluar masa depan dengan menggunakan tingkat bunga obligasi pemerintah berkualitas tinggi dalam mata uang yang sama dengan mata uang imbalan yang akan dibayarkan dan waktu jatuh tempo yang kurang lebih sama dengan waktu jatuh tempo imbalan yang bersangkutan.

2.s. Fees and commissions

Fees and commission income and expenses that are significant and integral to the effective interest rate on financial assets or financial liabilities are included in the measurement of the effective interest rate.

Other fees and commission income, including credit related fees, export-import related fees, syndication lead arranger fees, and provision for services are recognized when the related services are performed.

Other fees and commission expense related mainly to inter-bank transaction fees which are expensed as the service are received.

The outstanding balances of unamortized fees and commissions on loans terminated or settled prior to maturity are recognized as income upon settlement.

2.t. Post-employment benefits liability

The post-employment benefits are accrued and recognized as expenses when services have been rendered by qualified employees. The benefits are determined based on the Bank's regulations and the minimum requirements of Law No.11/2020 on Job Creation (the "Job Creation Law") as amended by Perpu No.2/2022 and Law No.6/2023 or the Bank's Collective Labour Agreement (the "CLA") or Company Regulation ("CR"), whichever is higher. Since the Job Creation Law or Labour Law or the CLA or the CR sets the formula for determining the minimum amount of benefits, in substance pension plans under the Job Creation Law or Labour Law or the CLA or the CR represent defined benefit plans.

Post-employment benefits liability is calculated at present value of estimated future benefits that the employees have earned in return for their services in the current and past periods, deducted by plan assets, if any. Calculation is performed by an independent actuary using the projected-unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high quality government bonds that are denominated in the currency in which the benefits will be paid and have terms to maturity approximately the same as the terms of the related pension liability.

- a. Bukan kombinasi bisnis;
- b. Pada saat transaksi tidak memengaruhi laba akuntansi atau laba kena pajak (rugi pajak); dan
- c. Pada saat transaksi, tidak menimbulkan perbedaan temporer kena pajak dan perbedaan temporer dapat dikurangkan dalam jumlah yang sama.

Aset pajak tangguhan diakui untuk seluruh perbedaan temporer dapat dikurangkan sepanjang kemungkinan besar laba kena pajak akan tersedia sehingga perbedaan temporer dapat dimanfaatkan untuk mengurangi laba dimaksud, kecuali jika aset pajak tangguhan timbul dari pengakuan awal aset atau pengakuan awal liabilitas dalam transaksi yang bukan kombinasi bisnis dan pada saat transaksi tidak memengaruhi laba akuntansi atau laba kena pajak (rugi pajak).

Aset dan liabilitas pajak tangguhan diukur dengan menggunakan tarif pajak yang diharapkan berlaku ketika aset dipulihkan atau liabilitas diselesaikan, berdasarkan tarif pajak (dan peraturan pajak) yang telah berlaku atau secara substantif telah berlaku pada akhir periode pelaporan.

Pengukuran aset dan liabilitas pajak tangguhan mencerminkan konsekuensi pajak yang sesuai dengan cara Bank memperkirakan, pada akhir periode pelaporan, untuk memulihkan atau menyelesaikan jumlah tercatat aset dan liabilitasnya.

Jumlah tercatat aset pajak tangguhan ditelaah ulang pada akhir periode pelaporan. Bank mengurangi jumlah tercatat aset pajak tangguhan jika kemungkinan besar laba kena pajak tidak lagi tersedia dalam jumlah yang memadai untuk mengompensasikan sebagian atau seluruh aset pajak tangguhan tersebut. Setiap pengurangan tersebut dilakukan pembalikan atas aset pajak tangguhan hingga kemungkinan besar laba kena pajak yang tersedia jumlahnya memadai.

Bank melakukan saling hapus aset pajak tangguhan dan liabilitas pajak tangguhan jika dan hanya jika:

- a. Bank memiliki hak yang dapat dipaksakan secara hukum untuk melakukan saling hapus aset pajak kini terhadap liabilitas pajak kini; dan
- b. Aset pajak tangguhan dan liabilitas pajak tangguhan terkait dengan pajak penghasilan yang dikenakan oleh otoritas perpajakan yang sama atas:

A deferred tax asset shall be recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilized, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and deferred tax assets shall reflect the tax consequences that would follow from the manner in which the Bank expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Bank shall reduce the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilized. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

The Bank offsets deferred tax assets and deferred tax liabilities if, and only if:

2.v. Laba per saham dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan dengan rata-rata tertimbang jumlah saham biasa yang ditempatkan dan disetor penuh selama tahun yang bersangkutan, setelah memperhitungkan pembagian dividen saham dan saham bonus yang diterapkan secara retrospektif.

Bank tidak memiliki efek berpotensi saham biasa yang bersifat dilutif pada tanggal 31 Desember 2024 dan 2023, dan oleh karenanya, laba per saham dilusian tidak dihitung dan disajikan pada laporan laba rugi dan penghasilan komprehensif lain.

The Bank offsets current tax assets and current tax liabilities if, and only if, the Bank:

- a. Has legally enforceable right to set off the recognized amounts; and
- b. Intends either to settle on a net basis, or to realize the assets and settle liabilities simultaneously.

2.v. Basic earnings per share

Basic earnings per share is computed by dividing income for the year with the weighted average number of outstanding common shares issued and are fully paid-up during the year, after considering the effect of stock dividends and bonus shares distribution that applied retrospectively.

The Bank has no outstanding dilutive potential ordinary shares as at December 31, 2024 and 2023 and accordingly, no diluted earnings per share is calculated and presented in the statements of profit or loss and other comprehensive income.

Bank as lessor

Under an operating lease, the Bank as a lessor presents assets subject to operating leases in its statements of financial position according to the nature of the asset. The Bank recorded those assets as assets under operating leases which is depreciated using straight-line method over the estimated useful lives of the assets. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents, if any, are recognized as revenue in the years in which they are earned.

Bank as lessee

The accounting policy related to the adoption of PSAK 116 where Bank is the lessee has been disclosed in Note 21 to the financial statements.

2.y. Shares issuance costs

Based on the regulation No. VIII.G.7, appendix of Bapepam Decision Letter No. Kep-06/PM/2000 dated March 13, 2000 regarding "Guidance for Financial Statements Presentation", costs related to the public offering of shares (including pre-emptive rights issue) are deducted from the proceeds and presented as a deduction from the "Additional Paid-in-Capital-Net account, under Equity section in the statements of financial position.

3. Pertimbangan Akuntansi Yang Penting Dan Sumber Utama Ketidakpastian Estimasi

Dalam proses penerapan kebijakan akuntansi Bank, manajemen telah melakukan pertimbangan profesional dan estimasi dalam menentukan jumlah yang diakui dalam laporan keuangan. Beberapa pertimbangan profesional dan estimasi yang signifikan adalah sebagai berikut:

a. Sumber utama atas ketidakpastian estimasi
Cadangan kerugian penurunan nilai atas aset keuangan

Saat mengukur ECL, Bank menggunakan informasi masa depan yang wajar dan dapat didukung, yang didasarkan pada asumsi untuk pergerakan masa depan dari berbagai pendorong ekonomi dan bagaimana penggerak ini akan saling memengaruhi.

Loss given default adalah estimasi kerugian yang timbul karena gagal bayar. Perhitungan didasarkan pada perbedaan antara arus kas kontraktual terutang dan yang diharapkan akan diterima, dengan mempertimbangkan arus kas dari agunan dan peningkatan kredit integral.

Probability of default merupakan input utama dalam mengukur ECL. *Probability of default* adalah perkiraan kemungkinan gagal bayar selama jangka waktu tertentu, yang penghitungannya mencakup data historis, asumsi, dan ekspektasi kondisi masa depan.

Evaluasi atas kerugian penurunan nilai aset keuangan yang dicatat pada biaya perolehan diamortisasi dijelaskan di Catatan 2k.

Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset

3. Critical Accounting Judgments And Key Sources Of Estimation Uncertainty

In the process of applying the Bank's accounting policies, management has exercised professional judgments and estimates in determining the amounts recognized in the financial statements. The several significant uses of the professional judgments and estimates are as follows:

a. *Key sources of estimation uncertainty*
Allowances for impairment losses on financial assets

When measuring ECL the Bank uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Financial assets accounted for at amortized cost are evaluated for impairment on the basis described in Note 2k.

In the calculation of allowance for impairment losses of financial assets, the specific condition of impaired counterparty

keuangan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima, baik dari waktu dan jumlah. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan, serta probabilitas rata-rata tertimbang kerugian kredit. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

Evaluasi cadangan kerugian penurunan nilai secara kolektif meliputi kerugian kredit yang melekat pada portofolio aset keuangan dengan karakteristik ekonomi yang sama, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menentukan perlunya membentuk cadangan kerugian penurunan nilai kredit secara kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas kredit, besarnya portofolio, konsentrasi kredit, dan faktor-faktor ekonomi. Dalam mengestimasi cadangan yang diperlukan, asumsi-asumsi dibuat untuk menentukan model kerugian bawaan dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman historis, kondisi ekonomi saat ini, dan perkiraan kondisi ekonomi di masa depan.

Ketepatan dari cadangan ini bergantung pada seberapa tepat estimasi arus kas masa depan untuk menentukan cadangan individual serta asumsi model dan parameter yang digunakan dalam menentukan cadangan kolektif.

Estimasi Masa Sewa

Dalam mengestimasi masa sewa dari masing-masing perjanjian sewa, manajemen mempertimbangkan seluruh fakta dan keadaan yang memberikan insentif ekonomik untuk mengeksekusi opsi perpanjangan, atau untuk tidak mengeksekusi opsi penghentian, termasuk perubahan fakta atau keadaan yang diekspektasi dari tanggal permulaan hingga tanggal eksekusi opsi. Opsi perpanjangan (atau periode setelah opsi penghentian) hanya diperhitungkan dalam masa sewa jika sewa cukup pasti akan diperpanjang (atau tidak dihentikan).

is individually evaluated based on management's best estimate of the present value of the expected cash flows to be received, including both timing and amount. In estimating these cash flows, management makes judgements about the counterparty's financial situation and the net realizable value of any underlying collateral, including weighted average probability of credit losses. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows considered recoverable.

Collectively-assessed allowance for impairment losses cover credit losses inherent in portfolios of financial assets with similar economic characteristics but the individual impaired items cannot yet be identified. In assessing the need for collectively assessed allowance for impairment losses, management considers factors such as credit quality, portfolio size, credit concentrations, and economic factors. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modeled and to determine the required input parameters, based on historical experience, current economic conditions, and forecast on future economic conditions.

The accuracy of the allowances depends on how well these estimates of future cash flows for specific counterparty allowances and the model assumptions and parameters used in determining collective allowances.

Estimation of Lease Term

When estimating the lease term of the respective lease arrangement, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option, including any expected changes in facts and circumstances from the commencement date until the exercise date of the option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

Penentuan nilai wajar

Dalam menentukan nilai wajar atas aset keuangan dan liabilitas keuangan dimana tidak terdapat harga pasar yang dapat diobservasi, Bank harus menggunakan teknik penilaian seperti dijelaskan pada Catatan 2c. Untuk instrumen keuangan yang jarang diperdagangkan dan tidak memiliki harga yang transparan, nilai wajarnya menjadi kurang objektif dan karenanya, membutuhkan tingkat pertimbangan yang beragam, tergantung pada likuiditas, konsentrasi, ketidakpastian faktor pasar, asumsi penentuan harga, dan risiko lainnya yang memengaruhi instrumen tertentu.

Aset pajak tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan.

Pertimbangan manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan (Catatan 2u).

Penyusutan Aset Tetap

Manajemen mengestimasi masa manfaat ekonomis aset tetap Bank antara 1 sampai dengan 20 tahun. Ini merupakan masa manfaat ekonomis yang secara umum diharapkan dalam industri perbankan. Perubahan tingkat pemakaian dan perkembangan teknologi dapat mempengaruhi masa manfaat ekonomis dan nilai sisa aset, dan karenanya beban penyusutan masa depan mungkin direvisi. Penjelasan lebih rinci diungkapkan dalam Catatan 2l dan 13.

Revaluasi Aset Tetap

Revaluasi aset tetap Bank bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Bank berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Bank dapat mempengaruhi secara material nilai aset tetap yang direvaluasi. Penjelasan lebih rinci diungkapkan dalam Catatan 13.

Determining fair values

In determining the fair value for financial assets and liabilities for which there is no observable market price, Bank should use the valuation techniques as described in Note 2c. For financial instruments that are infrequently traded and have little price transparency, fair value is less objective, and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Deferred tax assets

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference.

Management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future strategic planning (Note 2u).

Depreciation of Fixed Assets

Management properly estimates the useful lives of the Bank's fixed assets to be within 1 to 20 years. These are common life expectancies applied in the banking industries. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, and therefore future depreciation charges could be revised. Further details are disclosed in Notes 2l and 13.

The Revaluation of Fixed assets

The Bank's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions include discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Bank believes that its assumptions are reasonable and appropriate and significant differences in the Bank's assumptions may materially affect the valuation of its revalued fixed assets. Further details are disclosed in Note 13.

Imbalan kerja

Penentuan liabilitas imbalan kerja Bank bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dan manajemen Bank dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri karyawan tahunan, tingkat kecacatan, umur pensiun, dan tingkat kematian (Catatan 22).

Pajak penghasilan

Bank mengakui liabilitas atas pajak penghasilan badan berdasarkan estimasi apakah akan terdapat tambahan pajak penghasilan badan.

- b. Pertimbangan akuntansi yang penting dalam menerapkan kebijakan akuntansi Bank

Pertimbangan akuntansi yang penting dalam menerapkan kebijakan akuntansi Bank meliputi:

Penilaian instrumen keuangan

Bank menggunakan hierarki berikut untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan (Catatan 41) :

- *Level 1* :
harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik;
- *Level 2* :
input selain harga kuotasian yang termasuk dalam Level 1 yang dapat diobservasi untuk aset dan liabilitas baik secara langsung (misalnya harga) atau secara tidak langsung;
- *Level 3* :
input untuk aset dan liabilitas yang bukan berdasarkan data pasar yang dapat diobservasi (*input* yang tidak dapat diobservasi).

Kebijakan akuntansi Bank untuk pengukuran nilai wajar dibahas di Catatan 2.

Nilai wajar dari aset keuangan dan liabilitas keuangan yang diperdagangkan di pasar aktif didasarkan pada kuotasi harga pasar atau kuotasi dari harga *dealer*. Untuk seluruh instrumen keuangan lainnya, Bank menentukan nilai wajar dengan menggunakan teknik penilaian.

Employee benefits

The determination of the Bank's employee benefits liability is dependent on its selection of certain assumptions used by the independent actuaries and the Bank's management in calculating such amounts. Those assumptions include among others, discount rates, future annual salary increase, annual employee turn-over rate, disability rate, retirement age, and mortality rate (Note 22).

Income tax

The Bank recognizes liabilities for corporate income tax based on estimation of whether additional corporate income tax will be due.

- b. Critical accounting judgments in applying the Bank's accounting policies

Critical accounting judgments made in applying the Bank's accounting policies include:

Valuation of financial instruments

The Bank adopts the following hierarchy for determining and disclosing the fair value of financial instruments (Note 41) :

- *Level 1* :
quoted (unadjusted) market prices in active market for identical assets or liabilities;
- *Level 2* :
inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (for example, price) or indirectly;
- *Level 3* :
inputs for the asset and liability that are not based on observable market data (unobservable inputs).

The Bank's accounting policy on fair value measurements is discussed in Note 2.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, the Bank determines fair values using valuation techniques.

Teknik penilaian termasuk model nilai sekarang dan arus kas yang didiskontokan, dan perbandingan dengan instrumen yang sejenis dimana terdapat harga pasar yang dapat diobservasi. Asumsi dan input yang digunakan dalam teknik penilaian termasuk suku bunga bebas risiko (*risk-free*) dan suku bunga acuan, *credit spread*, dan variabel lainnya yang digunakan dalam mengestimasi tingkat diskonto, harga obligasi, kurs mata uang asing, serta tingkat kerentanan dan korelasi harga yang diharapkan.

Tujuan dari teknik penilaian adalah penentuan nilai wajar yang mencerminkan harga dari instrumen keuangan pada tanggal pelaporan yang akan ditentukan oleh para partisipan di pasar dalam suatu transaksi yang wajar.

Penilaian model bisnis

Klasifikasi dan pengukuran aset keuangan bergantung pada hasil 'semata dari pembayaran pokok dan bunga' ("SPPI") (lihat bagian aset keuangan pada Catatan 3) dan uji model bisnis. Bank menentukan model bisnis pada tingkat yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama untuk mencapai tujuan bisnis tertentu. Penilaian ini mencakup penilaian yang mencerminkan semua bukti yang relevan termasuk bagaimana kinerja aset dievaluasi dan kinerjanya diukur, risiko yang memengaruhi kinerja aset dan bagaimana hal ini dikelola dan bagaimana manajer aset diberi kompensasi. Bank memantau aset keuangan yang diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain yang dihentikan pengakuannya sebelum jatuh tempo untuk memahami alasan pelepasannya dan apakah alasan tersebut konsisten dengan tujuan bisnis di mana aset tersebut dimiliki. Pemantauan adalah bagian dari penilaian berkelanjutan Bank atas apakah model bisnis di mana aset keuangan yang tersisa dimiliki tetap sesuai dan jika tidak sesuai apakah telah terjadi perubahan dalam model bisnis dan dengan demikian terdapat perubahan prospektif terhadap klasifikasi aset keuangan tersebut. Tidak ada perubahan yang diperlukan selama periode yang disajikan.

Valuation techniques include net present value and discounted cash flow models, and comparison to similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads, and other variable used in estimating discount rates, bond prices, foreign currency exchange rates, and price volatilities and correlations.

The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI (please see financial assets sections of Note 3) and the business model test. The Bank determines the business model at a level that reflects how group of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Bank monitors financial assets measured at amortized cost or fair value through other comprehensive income that are derecognized prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Bank's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets. No such changes were required during the periods presented.

Peningkatan risiko kredit yang signifikan
Sebagaimana dijelaskan dalam Catatan 3, kerugian kredit ekspektasian diukur sebagai cadangan yang setara dengan ECL 12 bulan untuk aset *stage* 1, atau ECL sepanjang umur untuk aset *stage* 2 atau *stage* 3. Suatu aset bergerak ke *stage* 2 ketika risiko kreditnya telah meningkat secara signifikan sejak pengakuan awal. PSAK 409 tidak menjelaskan apa yang merupakan peningkatan risiko kredit yang signifikan. Dalam menilai apakah risiko kredit suatu aset telah meningkat secara signifikan, Bank mempertimbangkan informasi masa depan yang wajar dan dapat didukung secara kualitatif dan kuantitatif.

Klasifikasi aset dan liabilitas keuangan
Kebijakan akuntansi Bank menetapkan klasifikasi atas aset dan liabilitas tertentu sebagai aset dan liabilitas keuangan dengan mempertimbangkan definisi yang ditetapkan PSAK 409.

Penurunan nilai aset non-keuangan
Bank mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- a) performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b) perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c) industri atau tren ekonomi yang secara signifikan bernilai negatif.

Bank mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Significant increase in credit risk
As explained in Note 3, expected credit losses are measured as an allowance equal to 12 months ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. PSAK 409 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased, the Bank takes into account qualitative and quantitative reasonable and supportable forward-looking information.

Financial asset and liability classification
The Bank's accounting policies determine the classifications of certain assets and liabilities as financial assets and liabilities by considering the definition set forth in PSAK 409.

Impairment of non-financial assets
The Bank assesses impairment of assets whenever events or changes in circumstances that would indicate that the carrying amount of an asset may not be recoverable. The factors that the Bank considers important which could trigger an impairment review include the following:

- a) significant underperformance relative to expected historical or projected future operating results;
- b) significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- c) significant negative industry or economic trends.

The Bank recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

Risiko Suku Bunga

Nilai kini liabilitas imbalan pasti dihitung dengan menggunakan tingkat diskonto ditentukan dengan mengacu pada tingkat pengembalian pasar atas obligasi pemerintah. Umumnya, penurunan suku bunga dari obligasi pemerintah akan meningkatkan liabilitas program.

Interest Rate Risk

The present value of the defined benefits obligation is calculated using a discount rate determined by reference to market yields of government bonds. Generally, a decrease in the interest rate of a government bonds will increase the program obligation.

Risiko Tingkat Kenaikan Gaji

Nilai kini liabilitas imbalan pasti dihitung dengan estimasi tingkat kenaikan gaji, semakin tinggi tingkat kenaikan gaji akan menyebabkan semakin besarnya liabilitas.

Salary Rate Risk

The present value of the defined benefits are calculated using the estimated of salary growth rate, higher salary growth rate will lead to higher obligation.

Asumsi aktuarial yang signifikan untuk penentuan liabilitas imbalan pasti adalah tingkat diskonto dan kenaikan gaji yang diharapkan. Sensitivitas analisis diatas ini ditentukan berdasarkan masing-masing perubahan asumsi yang mungkin terjadi pada akhir periode pelaporan, dengan semua asumsi variabel lain konstan.

Analisis sensitivitas yang disajikan di atas mungkin tidak mewakili perubahan yang sebenarnya dalam liabilitas imbalan pasti mengingat bahwa perubahan asumsi terjadinya tidak terisolasi satu sama lain karena beberapa asumsi tersebut mungkin berkorelasi.

Selanjutnya, dalam menyajikan analisis sensitivitas diatas, nilai kini liabilitas imbalan pasti dihitung dengan menggunakan metode projected unit credit pada akhir periode pelaporan, yang sama dengan yang diterapkan dalam menghitung liabilitas manfaat pasti yang diakui dalam laporan posisi keuangan.

Rata-rata durasi liabilitas imbalan pasti adalah masing-masing 10,02 dan 10,76 tahun pada tanggal 31 Desember 2024 dan 2023.

Perkiraan analisis jatuh tempo atas imbalan pensiun tidak terdiskonto per 31 Desember 2024 dan 2023 adalah sebagai berikut:

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected salary increase. The sensitivity analysis below has been determined based on reasonably possible changes of the respective assumptions occurring at the end, and other variable assumption are constant.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefits obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in liability recognized in the statements of financial position.

The weighted average duration of the defined benefit obligation are 10.02 and 10.76 year as at December 31, 2024 and 2023, each.

Expected maturity analysis of undiscounted pension benefits as at December 31, 2024 and 2023 is presented below:

perbaikan dan evaluasi pada empat kategori risiko utama yang dihadapi Bank, disamping risiko lainnya. Keempat risiko utama yang dihadapi Bank adalah risiko kredit, risiko pasar, risiko likuiditas, dan risiko operasional. Dengan melibatkan semua unsur dalam Bank dimana Dewan Komisaris dan Direksi mempunyai tugas memastikan penerapan manajemen risiko telah memadai sesuai kompleksitas dan profil risiko Bank serta memahami dengan baik jenis dan tingkat risiko yang melekat pada kegiatan bisnis Bank.

Mekanisme pengelolaan risiko secara *day to day* dengan berdasarkan prinsip kehati-hatian telah dituangkan dalam beberapa kebijakan dan prosedur, yang merupakan aturan acuan dalam implementasi manajemen risiko pada seluruh kegiatan bisnis Bank yang meliputi kebijakan, strategi, organisasi, sistem informasi manajemen risiko, pengawasan risiko, pengelolaan produk, aktivitas baru, dan *Business Continuity Plan* (BCP).

Untuk menjamin tercapainya praktik manajemen risiko terbaik pada Bank, kontribusi dari Komite Pemantau Risiko dan Komite Audit dinilai memadai dalam mendukung pelaksanaan tugas Dewan Komisaris. Komite Pemantau Risiko memiliki tanggung jawab dalam pemantauan dan evaluasi pelaksanaan manajemen risiko di Bank, sedangkan Komite Audit bertanggung jawab dalam pemantauan dan evaluasi pelaksanaan audit, pengendalian proses internal dan pelaporan keuangan.

Kedua komite pendukung Dewan Komisaris tersebut berperan sebagai organ komplementer bagi satu sama lain dalam hal melakukan pengawasan pada Bank, tetapi keduanya memiliki tanggung jawab di ranah yang berbeda.

Manajemen Risiko Aset dan Liabilitas

Manajemen Aset/Liabilitas adalah serangkaian tindakan dan prosedur yang dirancang untuk mengontrol posisi keuangan, dalam mendukung dan membantu pelaksanaan tugas direksi dalam memelihara struktur neraca yang kuat, Bank telah membentuk *Asset and Liability Committee* (ALCO) yang diketuai oleh Direktur Utama dan wakil ketua Direktur Bisnis dengan anggota lainnya terdiri dari Direktur Keuangan dan Operasi, Direktur Risiko, Kepatuhan, Human Capital dan Hukum, Kepala Keuangan dan Akunting, Kepala Pendanaan, Kepala Kredit, Kepala Risiko Kredit dan Kepala Divisi Treasury sebagai sekretaris.

ALCO bertanggung jawab untuk mengevaluasi, mengusulkan, dan menetapkan strategi pendanaan dan investasi Bank. Ruang lingkup ALCO adalah mengelola risiko likuiditas, risiko tingkat suku bunga, dan risiko nilai tukar valuta asing; meminimalkan biaya pendanaan serta mempertahankan likuiditas pada saat yang bersamaan; dan mengoptimalkan perolehan pendapatan bunga Bank dengan mengalokasikan dana pada aset produktif secara hati-hati.

Proses pengelolaan aset dan liabilitas Bank dimulai dengan pengkajian parameter ekonomi yang mempengaruhi Bank, yang umumnya terdiri dari tingkat inflasi, likuiditas pasar, *yield curve*, nilai tukar valuta asing terhadap rupiah, dan faktor makro ekonomi lainnya. Kajian tersebut oleh Satuan Kerja Manajemen Risiko dilaporkan kepada *Asset and Liability Committee* (ALCO). ALCO kemudian akan menentukan strategi bisnis dalam penetapan tingkat bunga simpanan dan kredit berdasarkan kondisi, kebijakan dan pengalokasian dana, evaluasi kewajiban-kewajiban Bank, dan pemantauan laba Bank yang telah dicapai serta memonitor posisi likuiditas.

Risiko Kredit

Risiko Kredit adalah risiko yang timbul sebagai akibat kegagalan *counterparty* memenuhi liabilitasnya. Bank melakukan pengelolaan risiko kredit dengan menyusun strategi dan kerangka kerja serta menjalankan upaya mitigasi risiko atas aspek bisnis perkreditan mikro, retail, komersial, maupun konsumsi, penempatan antar-bank, serta pembelian surat berharga.

Untuk menjaga agar kualitas kredit Bank tetap terjaga dengan baik, maka pemantauan terhadap kualitas kredit terus dilakukan secara rutin, baik per kategori kredit (Retail, Komersial, dan Konsumsi) maupun portofolio kredit secara keseluruhan. Sistem pengukuran profil risiko debitur, prosedur, sistem manajemen risiko, sistem *database*, dan organisasi perkreditan terus disempurnakan dengan penekanan kepada penerapan prinsip “empat mata” (*four eyes principle*) dimana keputusan kredit diambil berdasarkan pertimbangan dari dua sisi, yaitu sisi pengembangan bisnis dan sisi analisis risiko kredit.

Bank juga membentuk Komite Kredit untuk membantu Direksi mengevaluasi dan/atau memberikan keputusan kredit sesuai batas wewenangnya melalui Rapat Komite Kredit atau Surat Edaran Direksi. Fungsi pokok Komite Kredit adalah:

ALCO is responsible for evaluating, proposing, and establishing the strategy of the Bank's funding and investment. The scope of ALCO is to manage liquidity risk, interest rate risk and foreign exchange risk; minimize funding costs and maintain liquidity at the same time; and optimize the acquisition of the Bank's interest income by allocating funds in productive assets carefully.

The process of managing the Bank's assets and liabilities starts with an assessment of economic parameters affecting the Bank, which generally consist of inflation rate, market liquidity, yield curve, the exchange rate of foreign currency, and other macro economic factors. The review by the Risk Management Unit reported to the Asset and Liability Committee (ALCO). Then ALCO will define the business strategy in the setting of interest rates on deposits and loans based on the conditions, policies and funding allocation, evaluation of the Bank obligations, and monitoring of the Bank's earnings that have been achieved as well as monitoring its liquidity position.

Credit Risk

Credit Risk is risk which arises as a result of counterparty failure fulfilling the obligation. The Bank manages credit risk by developing strategies and frameworks as well as running the risk mitigation efforts on the business aspects of micro lending, retail, commercial, or consumption, inter-bank placements, and purchases of securities.

In order to keep the credit quality of the Bank maintained properly, then the monitoring of the credit quality continues to be done on a regular basis, either by loan category (Retail, Commercial, and Consumption) as well as overall loan portfolio. Debtor risk profile measurement system, procedures, risk management systems, database systems, and credit organizations continue to be refined with an emphasis on the application of the “four eyes” principle (*four eyes principle*) where credit decisions are taken based on the consideration of the two sides, namely the development of the business side and the credit risk analysis side.

The Bank also forms a Credit Committee to help the Board of Director evaluate and/or provide credit Decisions in accordance with the limits of its authority through the Credit Committee Meeting or Directors Circular Letter. The major functions of Credit Committee are:

1. Memastikan bahwa seluruh aspek telah memenuhi prinsip pemberian kredit yang sehat sesuai dengan Pedoman Kebijakan Perkreditan Bank;
2. Memastikan bahwa kredit yang diberikan tidak melanggar prinsip kehati-hatian;
3. Meyakini bahwa kredit yang akan diberikan dapat dilunasi pada saat jatuh tempo berdasarkan analisis terhadap permohonan yang diajukan oleh calon debitur;
4. Memberikan persetujuan atau penolakan atas permohonan kredit setelah memperoleh informasi yang cukup dari pengusul; dan
5. Memberikan persyaratan tertentu (jika dipandang perlu) sebagai salah satu bentuk mitigasi risiko kredit yang mungkin akan timbul.

Bank telah mengembangkan pengelolaan risiko kredit dengan melakukan analisis *stress testing* secara berkala terhadap portofolio kredit serta melakukan *monitoring* terhadap hasil *stress testing* tersebut. *Stress testing* bermanfaat bagi Bank sebagai alat untuk memperkirakan besarnya dampak risiko pada “*stressful condition*” sehingga Bank dapat membuat strategi yang sesuai untuk memitigasi risiko tersebut sebagai bagian dari pelaksanaan “*contingency plan*”.

Dalam melakukan pengelolaan risiko kredit Bank sangat memperhatikan hal-hal yang meliputi sumber daya manusia yang sadar risiko, proses persetujuan kredit yang transparan dan berjenjang oleh Komite Kredit, tata cara, kriteria dan alat ukur risiko yang jelas, administrasi dan dokumentasi yang lengkap serta pengawasan kredit secara berkesinambungan terhadap kualitas kredit yang diberikan, pengawasan atas debitur dan mengambil tindakan yang diperlukan agar kualitas kreditnya tidak menjadi *non-performing loans* (NPL), melakukan penagihan secara intensif terhadap debitur bermasalah, melakukan kaji ulang dan mengevaluasi indikator aspek risiko dan kepatuhan untuk mengevaluasi penerapan *four eyes principles*, mengintensifkan rapat komite pemutus kredit untuk pemberian kredit dengan plafon besar, dan secara konsisten memantau kredit dalam rangka ekspansi kredit yang sehat dan berkualitas.

Selama tahun 2024 dan 2023, tidak terdapat pemberian kredit pihak ketiga tidak terkait yang melampaui Batas Maksimum Pemberian Kredit (BMPK) yang ditetapkan oleh Otoritas Jasa Keuangan.

a. Risiko tingkat suku bunga

Komponen utama kewajiban Bank yang sensitif terhadap pergerakan tingkat suku bunga adalah simpanan nasabah, sedangkan aset Bank yang sensitif adalah obligasi pemerintah, efek-efek untuk tujuan investasi, dan kredit yang diberikan.

ALCO secara berkala memantau perkembangan pasar dan menyesuaikan tingkat suku bunga simpanan dan kredit yang diberikan.

Bank melakukan pengukuran IRRBB (*Interest Rate Risk in the Banking Book*) untuk mengetahui dampak perubahan suku bunga terhadap EVE (*Economic Value of Equity*) dan NII (*Net Interest Income*) dengan menghitung gap antara RSA (*Rate Sensitive Assets*) dan RSL (*Rate Sensitive Liabilities*).

Banking book adalah semua aset keuangan/posisi lainnya yang tidak termasuk dalam *trading book*. Untuk pengukuran risiko suku bunga pada *trading book*, Bank menggunakan metode standar Bank Indonesia untuk perhitungan pelaporan KPMM Bank.

Bank menentukan tingkat suku bunga simpanan nasabah berdasarkan kondisi pasar dan persaingan dengan memantau pergerakan tingkat suku bunga acuan dan suku bunga yang ditawarkan oleh bank pesaing. Tingkat suku bunga simpanan pada umumnya bervariasi tergantung pada jangka waktu dan besarnya simpanan. Tingkat suku bunga giro dan tabungan bersifat mengambang dan ditinjau secara berkala sesuai dengan kondisi pasar, sedangkan tingkat suku bunga deposito berjangka bersifat tetap, sesuai dengan jangka waktunya. Tingkat suku bunga kredit ditetapkan dengan menambahkan margin tertentu atas biaya pendanaan Bank (termasuk biaya pendanaan GWM).

Risiko tingkat suku bunga arus kas adalah risiko dimana arus kas masa depan dari suatu instrumen keuangan berfluktuasi karena perubahan suku bunga pasar. Risiko nilai wajar suku bunga adalah risiko dimana nilai wajar dari suatu instrumen keuangan berfluktuasi karena perubahan suku

a. Interest rate risk

The main components of the Bank's liabilities which are sensitive to movements in interest rates are deposit from customers, while the Bank's sensitive assets are government bonds, securities for investment purposes, and loans.

ALCO regularly monitors the market developments and adjusts the interest rates on provided deposits and loans.

The Bank performs IRRBB (*Interest Rate Risk in the Banking Book*) measurements to determine the impact of changes in interest rate on EVE (*Economic Value of Equity*) and NII (*Net Interest Income*) by calculating the gap between RSA (*Rate Sensitive Assets*) and RSL (*Rate Sensitive Liabilities*).

Banking book is that all financial assets/other positions that are not included in *trading book*. For the measurement of interest rate risk in the *trading book*, the Bank uses the standard method for the calculation of Bank Indonesia reporting CAR of the Bank.

The Bank determines interest rates on deposits from customers based on market conditions and competition by monitoring the movement of the reference rate and interest rates offered by competing banks. Interest rates on deposits generally vary depending on the duration and amount of savings. The interest rates on current and savings accounts are floating and reviewed periodically in accordance with market conditions, while the time deposit interest rate is fixed, according to the time period. Credit interest rate is determined by adding a certain margin above the Bank's funding costs (including the financing costs GWM).

Interest rate risk of cash flow is the risk that the future cash flows of a financial instrument fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the fair value of a financial instrument fluctuates because of changes in market interest rates. The Bank has exposure to

b. Analisis sensitivitas

Berdasarkan laporan repricing gap, Bank melakukan analisis sensitivitas terhadap setiap perubahan (naik atau turun) suku bunga secara paralel sebesar 1% (satu persen), dengan asumsi:

- Perubahan suku bunga komponen aset sama besar dengan perubahan suku bunga komponen liabilitas; dan
- Perubahan yang sama besar untuk setiap jangka waktu pada yield curve (parallel yield curve movement).

b. Sensitivity analysis

Based on repricing gap report, the Bank conducts a sensitivity analysis to each interest rate change (increase or decrease) in parallel of 1% (one percent), with the following assumptions:

- The changes in interest rates on asset components equal to the liability component changes in interest rates; and
- The similar changes for each length of time on the yield curve (parallel yield curve movement).

Analisis sensitivitas ini dilakukan secara berkala setiap bulan untuk kepentingan ALCO. Tabel berikut menunjukkan sensitivitas atas kemungkinan perubahan tingkat suku bunga pasar, dengan variabel lain dianggap tetap, terhadap pendapatan bunga neto:

This sensitivity analysis was carried out on a regular basis every month for the benefit of ALCO. The following table shows the sensitivity to the possibility of changes in market interest rates, with other variables held constant, to the net interest income:

	2024	2023	
Penurunan pendapatan bunga neto karena kenaikan suku bunga 1% secara paralel	(11,311,000,000)	(30,788,000,000)	Decrease on net interest income due to parallel increase 1% of interest rate
Kenaikan pendapatan bunga neto karena penurunan suku bunga 1% secara paralel	11,311,000,000	30,788,000,000	Increase on net interest income due to parallel decrease 1% of interest rate

Bank melakukan pengukuran risiko suku bunga dengan menggunakan metodologi yang dapat mengidentifikasi risiko suku bunga dari portofolio aset dan liabilitas yang sensitif terhadap perubahan suku bunga.

The Bank measures interest rate risk by using method that can identify interest rate risk from portfolio of asset and liabilities that sensitive to the change of interest rate.

Pemantauan atas eksposur Bank terhadap risiko pasar dilakukan oleh *Asset and Liability Committee* (ALCO) dengan melakukan pengendalian (*Asset and Liability Management* (ALMA) atas eksposur risiko pasar dalam parameter yang dapat diterima serta memaksimalkan tingkat pengembalian atas risiko.

Monitoring of the Bank's exposure to market risk is performed by Asset and Liability Committee (ALCO) by controlling (Asset and Liability Management (ALMA) the market risk exposure in a parameter that can be accepted as well as maximizing rate of return of the risk.

Untuk tahun yang berakhir 31 Desember 2024 dan 2023 profil risiko pasar Bank berada pada peringkat 2 (dua).

For the year ended December 31, 2024 and 2023 rating of the Bank's market risk profile is 2 (two).

c. Excess modal Bank

Perhitungan excess modal Bank dilakukan dengan menghitung modal bank secara total dan mengurangnya dengan 10,00% dari total ATMR (Kredit + Pasar + Operasional). Excess modal ini yang kemudian dibagi terhadap masing-masing risiko pasar nilai tukar dan suku bunga untuk melihat berapa besar kemampuan coverage modal Bank (diluar regulatory requirement) apabila terjadi kerugian sebesar risiko yang telah dihitung.

c. The Bank's excess capital

The calculation of the Bank's excess capital is conducted by calculating the Bank's total capital and reduce with 10,00% of the total risk weighted assets (RWA) (Credit + Market + Operational). This excess capital is then divided by the respective market exchange risk and interest rate risk to measure the Bank's capital-coverage-ability (exclude regulatory requirement) in the event of loss of the amount to the risk that has been calculated

Tabel dibawah ini menunjukkan excess modal Bank (tidak diaudit)

Risiko Likuiditas

Risiko likuiditas muncul sebagai akibat dari *mismatch* struktur aset dan liabilitas Bank. Bank mengelola risiko likuiditas untuk memastikan kemampuan dalam memenuhi liabilitas kepada nasabah atau pihak lawan yang jatuh tempo dengan menjaga dan mempertahankan jumlah aset likuid yang cukup untuk membayar simpanan para nasabah, penyediaan dana dalam rangka pemberian kredit, pemenuhan kebutuhan likuiditas operasional, dan menjaga agar jumlah aset yang jatuh tempo pada setiap periode dapat menutupi jumlah liabilitas yang jatuh tempo.

Pengelolaan likuiditas Bank dilakukan dengan mengalokasikan penempatan dana pada Cadangan Utama (*Primary Reserve*), Cadangan Sekunder (*Secondary Reserve*), dan Cadangan Tertier (*Tertiary Reserve*) sesuai dengan kriteria dan limit yang ditetapkan. Fungsi pengelolaan kebutuhan likuiditas secara keseluruhan dilakukan oleh ALCO dan secara operasional oleh Divisi Treasuri.

Bank melakukan pengukuran risiko likuiditas dengan menggunakan perkiraan arus kas, *maturity profile*, dan rasio likuiditas.

Dalam pengukuran tersebut juga dilakukan *stress testing* untuk rangka mengetahui tingkat kemampuan Bank dalam menghadapi tekanan likuiditas pada kondisi pasar yang tidak normal.

Untuk mengantisipasi meningkatnya risiko likuiditas, upaya pengelolaan *secondary reserve* Bank dilaksanakan dengan lebih hati-hati sejalan dengan kondisi *Loan to Funding Ratio* (LFR) sehingga kondisi likuiditas secara keseluruhan dapat tetap terjaga dan terkendali.

Untuk tahun yang berakhir 31 Desember 2024 dan 2023, profil risiko likuiditas Bank berada pada peringkat 2 (dua).

Liquidity Risk

Liquidity risk arises as a result of the structural mismatch of assets and liabilities of the Bank. The Bank manages liquidity risk to ensure the ability to meet obligations to customers or counterparty when due by keeping and maintaining the amount of liquid assets sufficient to pay the deposits from customers, to provide funds for lending, to supply of liquidity for operations, and to keep the amount of assets that matured in each period can cover the amount of matured liabilities.

The Bank's liquidity management is conducted by allocating the placement of funds in the Primary Reserve, Secondary Reserve, and Tertiary Reserve in accordance with the specified criteria and limits. The function of the overall management of liquidity is conducted by ALCO and operationally by the Treasury Division.

The Bank measures liquidity risk using estimated cash flows, maturity profile, and liquidity risk.

The measurements also perform stress testing in order to determine the level of Bank's ability in facing liquidity pressures in unusual market conditions.

To anticipate the increasing liquidity risk, the Bank's secondary reserve management is undertaken more carefully in line with the Loan to Funding Ratio (LFR) so that the overall liquidity conditions can be maintained and controlled.

For the year ended December 31, 2024 and 2023, rating of the Bank's liquidity risk profile 2 (two).

Untuk Tahun-Tahun yang Berakhir
Pada Tanggal 31 Desember 2024 dan 2023
(Disajikan dalam Rupiah penuh, kecuali dinyatakan lain)

Nilai wajar aset keuangan dan liabilitas keuangan di atas diukur dengan dasar sebagai berikut:

Aset keuangan

Nilai wajar aset keuangan lancar (umumnya kurang dari satu tahun) seperti giro pada Bank Indonesia dan bank lain, penempatan pada Bank Indonesia dan bank lain, pendapatan bunga yang masih akan diterima dan aset lain-lain adalah sebesar nilai tercatat karena nilai tercatat tersebut telah mendekati estimasi nilai wajarnya.

Estimasi nilai wajar kredit yang diberikan (umumnya kredit dengan bunga mengambang) merupakan nilai kini dari estimasi arus kas masa depan yang diharapkan akan diterima yang didiskontokan pada suku bunga pasar.

Nilai wajar untuk surat berharga hingga jatuh tempo ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik kredit, jatuh tempo dan *yield* yang serupa.

Liabilitas keuangan

Nilai wajar liabilitas keuangan lancar (biasanya kurang dari satu tahun) seperti efek-efek yang dijual dengan janji dibeli kembali, simpanan nasabah dan bank lain, bunga yang masih harus dibayar dan liabilitas lain-lain adalah sebesar nilai tercatat karena nilai tercatat tersebut telah mendekati estimasi nilai wajarnya.

Estimasi nilai wajar simpanan tanpa jatuh tempo adalah sebesar jumlah terutang ketika utang tersebut harus segera dibayar pada saat ditagih.

Hierarki nilai wajar

PSAK 113, Pengukuran nilai wajar mensyaratkan pengungkapan atas pengukuran nilai wajar dengan tingkat hierarki nilai wajar sebagai berikut:

- harga kuotasi (tidak disesuaikan) dalam pasar aktif untuk aset atau liabilitas yang identik (tingkat 1);

The fair values of the above financial assets and liabilities are determined based on the following:

Financial assets

The fair values of financial assets that are short-term in nature (generally less than one year) such as current accounts with Bank Indonesia and other banks, placements with Bank Indonesia and other banks, interest receivables and other assets represent their carrying amounts as these approximates their estimated fair values.

The estimated fair value of loans (normally floating interest bearing loans) represents the present value amount of estimated future cash flows expected to be received discounted at current market rates.

The fair values of marketable securities are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar credit, maturity and yield characteristics.

Financial liabilities

The fair values of financial liabilities that are short-term in nature (generally less than one year) such as securities sold under repurchased agreement, deposits from customers and other banks, accrued interests and other liabilities represent their carrying amounts as these approximates their estimated fair values.

The estimated fair value of deposits with no stated maturity is equal to the amount owed when the debt must be paid at the time billed.

Fair value hierarchy

PSAK 113, Fair Value Measurements requires disclosure of fair value measurements by level with the following fair value measurement hierarchy:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);

Nilai wajar untuk instrumen keuangan yang diperdagangkan di pasar aktif ditentukan berdasarkan kuotasi nilai pasar pada tanggal pelaporan.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date.

Nilai wajar instrumen keuangan yang tidak diperdagangkan di pasar aktif ditentukan dengan menggunakan teknik penilaian tertentu. Teknik tersebut menggunakan data pasar yang dapat diobservasi sepanjang tersedia dan seminimal mungkin mengacu pada estimasi. Apabila seluruh input signifikan atas nilai wajar dapat diobservasi, instrumen keuangan ini termasuk dalam tingkat 2.

The fair value of financial instruments that are not traded in an active market is determined using specific valuation techniques. These valuation techniques use the observable market data where it is available and rely as little as possible on estimates. If all significant inputs of fair value are observable, these financial instruments are included in level 2.

Teknik penilaian tertentu digunakan untuk menentukan nilai instrumen keuangan mencakup:

- penggunaan kuotasi harga pasar atau diler untuk instrumen sejenis; dan
- teknik lain, seperti analisis arus kas diskonto, digunakan untuk menentukan nilai wajar instrumen keuangan lainnya.

Specific valuation techniques used to determine the financial instruments value include of:

- *the use of quoted market prices or dealer quotes for similar instruments; and*
- *other techniques, such as discounted cash flows analysis, are used to determine fair value for the remaining financial instruments.*

43. Analisis Kualitas Kredit

Pengukuran Kerugian Kredit Ekspektasian

Peningkatan Risiko Kredit secara Signifikan

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan didukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisa kuantitatif dan kualitatif, berdasarkan pada pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan *forward-looking*.

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

- *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
- *Probability of default* (PD) atas umur tersisa yang di estimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran di muka).

Bank menggunakan kriteria berikut dalam menentukan apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi:

- pengujian kuantitatif berdasarkan perubahan *probability of default* (PD);
- indikator kualitatif;
- tertunggak lebih dari 30 hari.

Credit Risk Grades

Bank mengalokasikan setiap eksposur ke *credit risk grades* berdasarkan variasi data yang ditentukan untuk memprediksi risiko gagal bayar dan menerapkan pengalaman atas kredit. *Credit risk grades* ditetapkan menggunakan

43. Credit Quality Analysis

Measurement of Expected Credit Losses

Significant Increase in Credit Risk

When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supported relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert assessments and including forward-looking estimates.

The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:

- *Probability of default* (PD) for the remaining age at the reporting date; with
- *Probability of default* (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for change in expectations of prepayment).

Bank use these criteria for determining whether there has been a significant increase in credit:

- *quantitative test based on movement in probability of default* (PD);
- *qualitative indicators;*
- *a backstop of 30 days past due.*

Credit Risk Grades

The bank allocated each exposure to credit risk grades based on a variety of data that is determined to predict the risk of default and apply credit experience judgement. Credit risk grades are determined using qualitative and

faktor kualitatif dan kuantitatif yang dapat mengindikasikan risiko gagal bayar. Faktor-faktor ini bervariasi tergantung pada sifat eksposur dan jenis peminjam.

Credit risk grades ditetapkan dan dikalibrasi sedemikian rupa sehingga risiko terjadinya gagal bayar meningkat secara eksponensial seiring dengan penurunan rating risiko kredit, sebagai contoh, selisih antara *credit risk rating grades* 1 dan 2 lebih kecil dari pada selisih antara *credit risk rating grades* 2 dan 3.

Setiap eksposur dialokasikan ke *credit risk grades* pada pengakuan awal berdasarkan informasi yang tersedia tentang peminjam. Eksposur ini dipantau secara berkelanjutan, dan dapat mengakibatkan eksposur dipindahkan ke *credit risk grades* yang berbeda. Pemantauan biasanya menggunakan data berikut: laporan keuangan, penggunaan fasilitas kredit, estimasi kondisi ekonomi.

Penentuan Struktur *Probability of Default*

Credit risk grades adalah input utama dalam penentuan struktur *PD term structure* atas eksposur. Bank mengumpulkan informasi kinerja dan gagal bayar tentang eksposur risiko kredit yang dianalisa berdasarkan jenis produk dan peminjam serta penilaian risiko kredit. Untuk beberapa portofolio terutama produk *treasury*, informasi yang dibeli dari penilai kredit eksternal juga digunakan.

Bank menggunakan model statistik untuk menganalisa data yang dikumpulkan dan menghasilkan perkiraan *probability of default* (PD) atas umur tersisa dan bagaimana hal ini diperkirakan akan berubah sebagai akibat dari berlalunya waktu.

Analisa ini mencakup identifikasi dan kalibrasi hubungan antara perubahan tingkat gagal bayar dan perubahan dalam faktor-faktor makro ekonomi utama pada risiko gagal bayar. Untuk sebagian besar eksposur, indikator makro ekonomi utama meliputi: pertumbuhan PDB, suku bunga acuan, dan tingkat pengangguran.

Penentuan Terjadinya Peningkatan Risiko Kredit secara Signifikan

Bank mempergunakan sejumlah kriteria untuk menentukan telah terjadi peningkatan risiko kredit secara signifikan.

quantitative factors that can indicate the risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

Credit risk grades are determined and calibrated in such a way that the risk of default is increasing exponentially as credit risk rating decreases, for example, the difference between credit risk rating grades 1 and 2 is smaller than the difference between credit risk rating grades 2 and 3.

Each exposure is allocated to credit risk grades at initial recognition based on available information about the borrower. This exposure is monitored on an ongoing basis, and can result in the exposure being transferred to different credit risk grades. Monitoring usually uses the following data: financial statements, use of credit facilities, estimates of economic conditions.

Determination of the *Probability of Default Structure*

Credit risk grades are the main input in determining the PD term structure of the exposure. The Bank collects performance and default information about credit risk exposures, which are analyzed by product and borrower type as well as credit risk assessment. For some portfolios especially treasury products, information purchased from external credit assessors is also used.

The Bank uses a statistical model to analyze the collected data and produce an estimate of the probability of default (PD) for the remaining life and how this is expected to change as a result of the passage of time.

This analysis includes the identification and calibration of the relationship between changes in default rates and changes in key macroeconomic factors on the risk of default. For most exposures, the main macroeconomic indicators include: GDP growth, benchmark interest rates, and the unemployment rate.

Determination of Significant Increase in Credit Risk

Bank uses several criteria for determining that credit risk has increased significantly.

Kriteria tersebut ditetapkan menggunakan faktor kuantitatif dan kualitatif termasuk penentuan berdasarkan status hari tunggakan yang dapat mengindikasikan telah terjadi peningkatan risiko kredit yang signifikan terhadap saat awal diberikan.

Bank dimungkinkan menggunakan penilaian dari analisis kredit dan pengalaman historis yang relevan, dalam menentukan bahwa eksposur mungkin saja telah mengalami peningkatan risiko kredit yang signifikan berdasarkan indikator kualitatif tertentu yang dianggap dapat mengindikasikan hal tersebut dimana pengaruhnya mungkin belum sepenuhnya tercermin pada saat dilakukan analisis kuantitatif.

Bank menentukan bahwa peningkatan risiko kredit secara signifikan belum terjadi apabila masih kurang dari 30 hari tunggakan. Hari tunggakan ditentukan dengan menghitung jumlah hari sejak tanggal jatuh tempo awal dimana pembayaran penuh belum diterima.

Bank memantau efektivitas kriteria yang digunakan dalam mengidentifikasi peningkatan risiko kredit yang signifikan dengan cara review berkala.

Modifikasi Aset Keuangan

Ketentuan kontraktual pinjaman dapat dimodifikasi untuk beberapa alasan, termasuk perubahan kondisi pasar, retensi pelanggan dan faktor-faktor lain yang tidak terkait dengan penurunan kredit saat ini. Pinjaman yang ketentuan kontraktualnya dimodifikasi dapat menyebabkan pinjaman awal dihentikan pengakuannya dan pinjaman hasil modifikasi diakui sebagai pinjaman baru pada nilai wajar.

Ketika ketentuan kontraktual pinjaman dimodifikasi dan tidak mengakibatkan penghentian pengakuan, penentuan terjadinya peningkatan risiko kredit secara signifikan dilakukan dengan cara membandingkan:

- Sisa PD sepanjang umur pada tanggal pelaporan berdasarkan ketentuan yang dimodifikasi; dengan
- Sisa PD sepanjang umur yang diestimasi berdasarkan data pada saat pengakuan awal dan ketentuan kontraktual awal.

Definisi Gagal Bayar (Default)

Bank menganggap aset keuangan dalam keadaan *default*/gagal bayar ketika:

- Debitur telah melewati jatuh tempo lebih dari 90 hari atas kewajiban kredit material apapun kepada Bank.

The criteria are determined using qualitative and quantitative factors including determination based on arrear day status that can indicate significant increase in credit risk since initial recognition.

The Bank can also use the judgment of credit analysts and, if possible, relevant historical experience, in determining that the exposure may have experienced a significant increase in credit risk based on certain qualitative indicators that are considered to indicate this and their effects may not be fully reflected in quantitative analysis in a comprehensive manner on a timely manner.

The Bank determines that a significant increase in credit risk has not occurred if it is still less than 30 days in arrears. Arrear days are determined by counting the number of days from the initial due date where full payment has not been received.

The Bank monitors the effectiveness of the criteria used in identifying significant increases in credit risk by periodic review.

Modification of Financial Assets

Loan contractual terms can be modified for a number of reasons, including changes in market conditions, customer retention and other factors not related to the current credit decline. Loans with modified contractual terms can cause the initial loan to be derecognized and recognized the modified loan as a new loan at fair value.

When the contractual terms of the loan are modified and do not result in termination of recognition, determining the occurrence of a significant increase in credit risk is done by comparing:

- *PD remainder life at reporting date based on modified provision; with*
- *Residual PD throughout the estimated age based on data at initial recognition and initial contractual provisions.*

Definition of Failed Payment (Default)

The Bank considers financial assets as default when:

- *The debtors have past due more than 90 days for any material credit obligations to the Bank.*

Dalam menilai apakah debitur dalam keadaan *default*/gagal bayar, Bank mempertimbangkan indikator berikut

- Kualitatif seperti pelanggaran persyaratan penjanjian (*covenants*);
- Kuantitatif seperti status tunggakan; dan
- Berdasarkan data yang dikembangkan secara internal dan diperoleh dari sumber eksternal.

Input, Asumsi, dan Teknik yang digunakan dalam mengestimasi penurunan nilai

Penggunaan informasi perkiraan masa depan (*forward-looking*)

Bank menggunakan informasi *forward-looking* dalam menilai apakah telah terjadinya peningkatan risiko kredit secara signifikan dan pengukuran kerugian kredit ekspektasian. Berdasarkan saran dari Komite Manajemen Risiko dan pertimbangan berbagai informasi aktual dan perkiraan eksternal, Bank merumuskan pandangan dasar (*base case*) tentang pergerakan variabel ekonomi yang relevan dimasa depan serta perkiraan skenario lain yang mungkin terjadi. Proses ini meliputi pengembangan dua atau lebih skenario ekonomi tambahan dan mempertimbangkan probabilitas relatif dari keluaran (*output*) yang mungkin. Informasi eksternal mencakup data ekonomi dan perkiraan yang diterbitkan oleh, seperti badan pemerintah dan analis sektor swasta.

Pandangan dasar (*base case*) mencerminkan keluaran dengan probabilitas yang paling tinggi. Skenario yang lain, mencerminkan keluaran yang lebih optimis dan keluaran yang lebih pesimis.

Skenario ekonomi yang dirumuskan menggunakan kisaran indikator utama berikut:

In assessing whether a debtor is in default, the Bank considers the following indicators

- *Qualitative such as violations of the terms of the agreement (covenants);*
- *Quantitative such as arrears status; and*
- *Based on data developed internally and obtained from external sources.*

Inputs, Assumptions, and Techniques used in estimating impairment

Use of forward-looking information

The Bank uses forward-looking information in assessing whether there has been a significant increase in credit risk and measurement of expected credit losses. Based on advice from the Risk Management Committee and consideration of various actual information and external forecast, the Bank formulated a base case for the movement of relevant economic variables in future as well as forecasts of other possible scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of the possible outputs. External information includes economic data and estimates published by, such as government agencies and selected private sector analysts.

The base case reflects the output with the highest probability. Another scenario, reflects more optimistic outputs and more pessimistic outputs.

The economic scenario is formulated using the following range of key indicators:

	2024	2025
Tingkat pengangguran/ <i>Unemployment</i>	Kisaran antara 4.50% hingga 5.50%/Range between 4.50% and 5.50%	Kisaran antara 4.50% hingga 5.50%/Range between 4.50% and 5.50%

<i>Brent Oil Price</i>	Kisaran antara USD70 hingga USD95/Range between USD70 and USD95	Kisaran antara USD70 hingga USD95/Range between USD70 and USD95

Input utama dalam pengukuran kerugian kredit ekspektasian adalah variabel berikut

- *Probability of default (PD);*
- *Loss of given default (LGD);*
- *Exposure at default (EAD).*

The main inputs in measuring expected credit loss are the following variables

- *Probability of default (PD);*

Parameter ini umumnya berasal dari model statistik yang dikembangkan secara internal dan data historis lainnya. Parameter ini disesuaikan untuk mencerminkan informasi *forward-looking*.

Estimasi PD adalah estimasi pada tanggal tertentu, yang dihitung berdasarkan model peringkat statistik, dan dinilai menggunakan rating yang disesuaikan dengan berbagai kategori dari debitur dan eksposur. Model statistik ini didasarkan pada data yang disusun secara internal yang terdiri dari faktor kuantitatif dan kualitatif.

LGD adalah besarnya kerugian jika terjadi gagal bayar. Parameter LGD diestimasi secara historis berdasarkan tingkat pemulihan atas klaim terhadap debitur yang gagal bayar. Model LGD mempertimbangkan jaminan dan biaya pemulihan setiap jaminan yang merupakan bagian integral dari aset keuangan.

EAD merepresentasikan estimasi eksposur jika terjadi gagal bayar. EAD suatu aset keuangan adalah jumlah tercatat bruto. Untuk komitmen pinjaman dan jaminan keuangan, EAD mencakup jumlah yang telah ditarik, serta jumlah potensial di masa depan yang akan ditarik, yang diestimasi berdasarkan pengamatan historis dan perkiraan berwawasan ke depan (*forward-looking*).

Ketika pemodelan parameter dilakukan secara kolektif, instrumen keuangan dikelompokkan berdasarkan kesamaan karakteristik risiko yang meliputi:

- jenis instrumen;
- peringkat risiko kredit;
- jenis agunan;
- tanggal pengakuan awal;
- sisa waktu jatuh tempo.

- a. Analisis risiko kredit berdasarkan internal rating grades diungkapkan pada Catatan 45h.

Cadangan kerugian kredit untuk aset keuangan yang diklasifikasikan pada nilai wajar melalui penghasilan komprehensif lain tidak diakui pada laporan posisi keuangan karena nilai tercatat aset keuangan tersebut adalah nilai wajar.

These parameters generally come from statistical models that are developed internally and other historical data. This parameter is adjusted to reflect forward-looking information.

PD estimation is an estimate on a certain date, which is calculated based on a statistical ranking model, and is assessed using a rating that is adjusted to various categories of debtors and exposures. This statistical model is based on data compiled internally consisting of quantitative and qualitative factors.

LGD is the amount of loss if there is a default. LGD parameters are historically estimated based on the level of recovery of claims against debtors who default. The LGD model considers collateral and the cost of recovering any collateral that is an integral part of a financial asset.

EAD represents the estimated exposure in case of default. EAD of a financial asset is the gross carrying amount. For loan commitments and financial guarantees, EAD includes the amount that has been withdrawn, as well as potential future amounts to be withdrawn, which are estimated based on historical observations and forward-looking estimates.

When parameter modeling is done collectively, financial instruments are Banked according to the similarity of risk characteristics which include

- *type of instrument;*
- *credit risk rating;*
- *type of collateral;*
- *date of initial recognition;*
- *remaining due date.*

- a. *Credit risk analysis based on internal rating grades is disclosed in Note 45h.*

Allowance for credit losses for financial assets classified as fair value through other comprehensive income is not recognized in the statement of financial position because the carrying value of the financial assets is fair value.

Pengungkapan lebih lanjut terkait manajemen modal diungkapkan pada Catatan 42.

Sejak tanggal 2 Februari 2016, Bank menghitung kebutuhan modal berdasarkan Peraturan Otoritas Jasa Keuangan (POJK) No. 11/POJK.03/2016 dan No. 34/POJK.03/2016 dimana modal yang diwajibkan regulator dianalisis dalam dua tier sebagai berikut:

- Modal inti (*tier 1*), yang terdiri dari modal inti utama dan modal inti tambahan (AT-1). Modal inti utama terdiri dari modal diterbitkan dan disetor penuh dan cadangan tambahan modal. Cadangan tambahan modal terdiri dari faktor penambah yang terdiri dari agio saham biasa, cadangan umum, dana setoran modal, laba tahun-tahun lalu, laba tahun berjalan, serta penghasilan komprehensif lainnya berupa selisih lebih penjabaran laporan keuangan, potensi keuntungan yang berasal dari peningkatan nilai wajar aset keuangan dalam kelompok tersedia untuk dijual dan saldo surplus revaluasi aset tetap. Cadangan tambahan modal juga terdiri dari faktor pengurang yang terdiri dari selisih kurang penjabaran laporan keuangan, potensi kerugian yang berasal dari penurunan nilai wajar aset keuangan dalam kelompok tersedia untuk dijual, selisih kurang antara Penyisihan Penghapusan Aset (PPA) atas aset produktif dan Cadangan Kerugian Penurunan Nilai (CKPN) atas aset produktif, serta selisih kurang antara jumlah penyesuaian terhadap valuasi dari instrumen keuangan dalam *Trading Book* dan jumlah penyesuaian berdasarkan standar akuntansi keuangan.

Modal inti utama harus diperhitungkan dengan faktor pengurang berupa: aset pajak tangguhan, goodwill, aset takberwujud lainnya, kerugian atas pengukuran kembali program pensiun manfaat pasti, eksposur sekuritisasi aset dan penyertaan modal.

Since February 2, 2016, the Bank calculates its capital requirements in accordance with Financial Services Authority Regulation (POJK) No. 11/POJK.03/2016 and No. 34/POJK.03/2016 where the regulatory capital is analyzed into two tiers as follows:

- Core capital (*tier 1*), which consists of core and additional core capital (AT-1). Core capital includes issued and fully paid-up capital and disclosed reserves. Disclosed reserves consist of the addition factors such as additional paid-in capital, general reserve, capital advance, prior year profits, profit for the year and other comprehensive income deriving from gain from financial statement translation, potential gain from the changes in fair value of financial assets classified as available-for-sale and surplus from revaluation of premises and equipment. Disclosed reserves also consist of deduction factors such as losses from financial statement translation, potential losses from the changes in fair value of financial assets classified as available-for-sale, shortfall between allowance for losses on productive assets (PPA) and allowance for impairment losses on productive assets (CKPN), and shortfall between amount adjusted to the valuation result of financial instruments in *Trading Book* and amount adjusted based on the financial accounting standards.

Core capital must be calculated with deduction factors: deferred tax assets, goodwill, other intangible assets, losses from remeasurement of defined benefit pension program, asset securitization exposures and investment in shares.
